OPEN 24/7. ARE YOU?

Just in case you lose track of topless time, the Openometer lets you measure the excitement in hours and minutes.

THE MINI CONVERTIBLE. BECAUSE LIFE IS MORE INTERESTING WITH A FEW TWISTS AND TURNS.

A low centre of gravity and short overhangs add up to point and squirt road handling, making every journey in the new MINI Convertible an experience to remember.

Illustration shows MINI Cooper Convertible with Original MINI accessories.

OPEN AIR SHOW.

As soon as you drop the top of the new MINI Convertible, it feels like the whole world is within reach. Get behind the wheel and the gutsy, fuel-efficient engines open up a world of possibilities.

B

**SOMETIMES, THE SAFE
OPTION IS ALSO THE
MOST EXCITING.**

In the MINI Convertible, you can feel safe in the knowledge that you enjoy the best possible protection, thanks to features such as stiffened bodywork, Dynamic Stability Control (DSC), an active roll-over bar and four airbags as standard.

EIGHT STEPS TO YOUR VERY OWN MINI

FASTEN YOUR SEAT BELTS AND BUCKLE UP THE DOG.

Once behind the wheel, you'll never want to get out again. With its ultra-stiff chassis and near perfect front/rear weight distribution, the MINI Convertible handles like a dream on any road.

EIGHT STEPS TO YOUR VERY OWN MINI

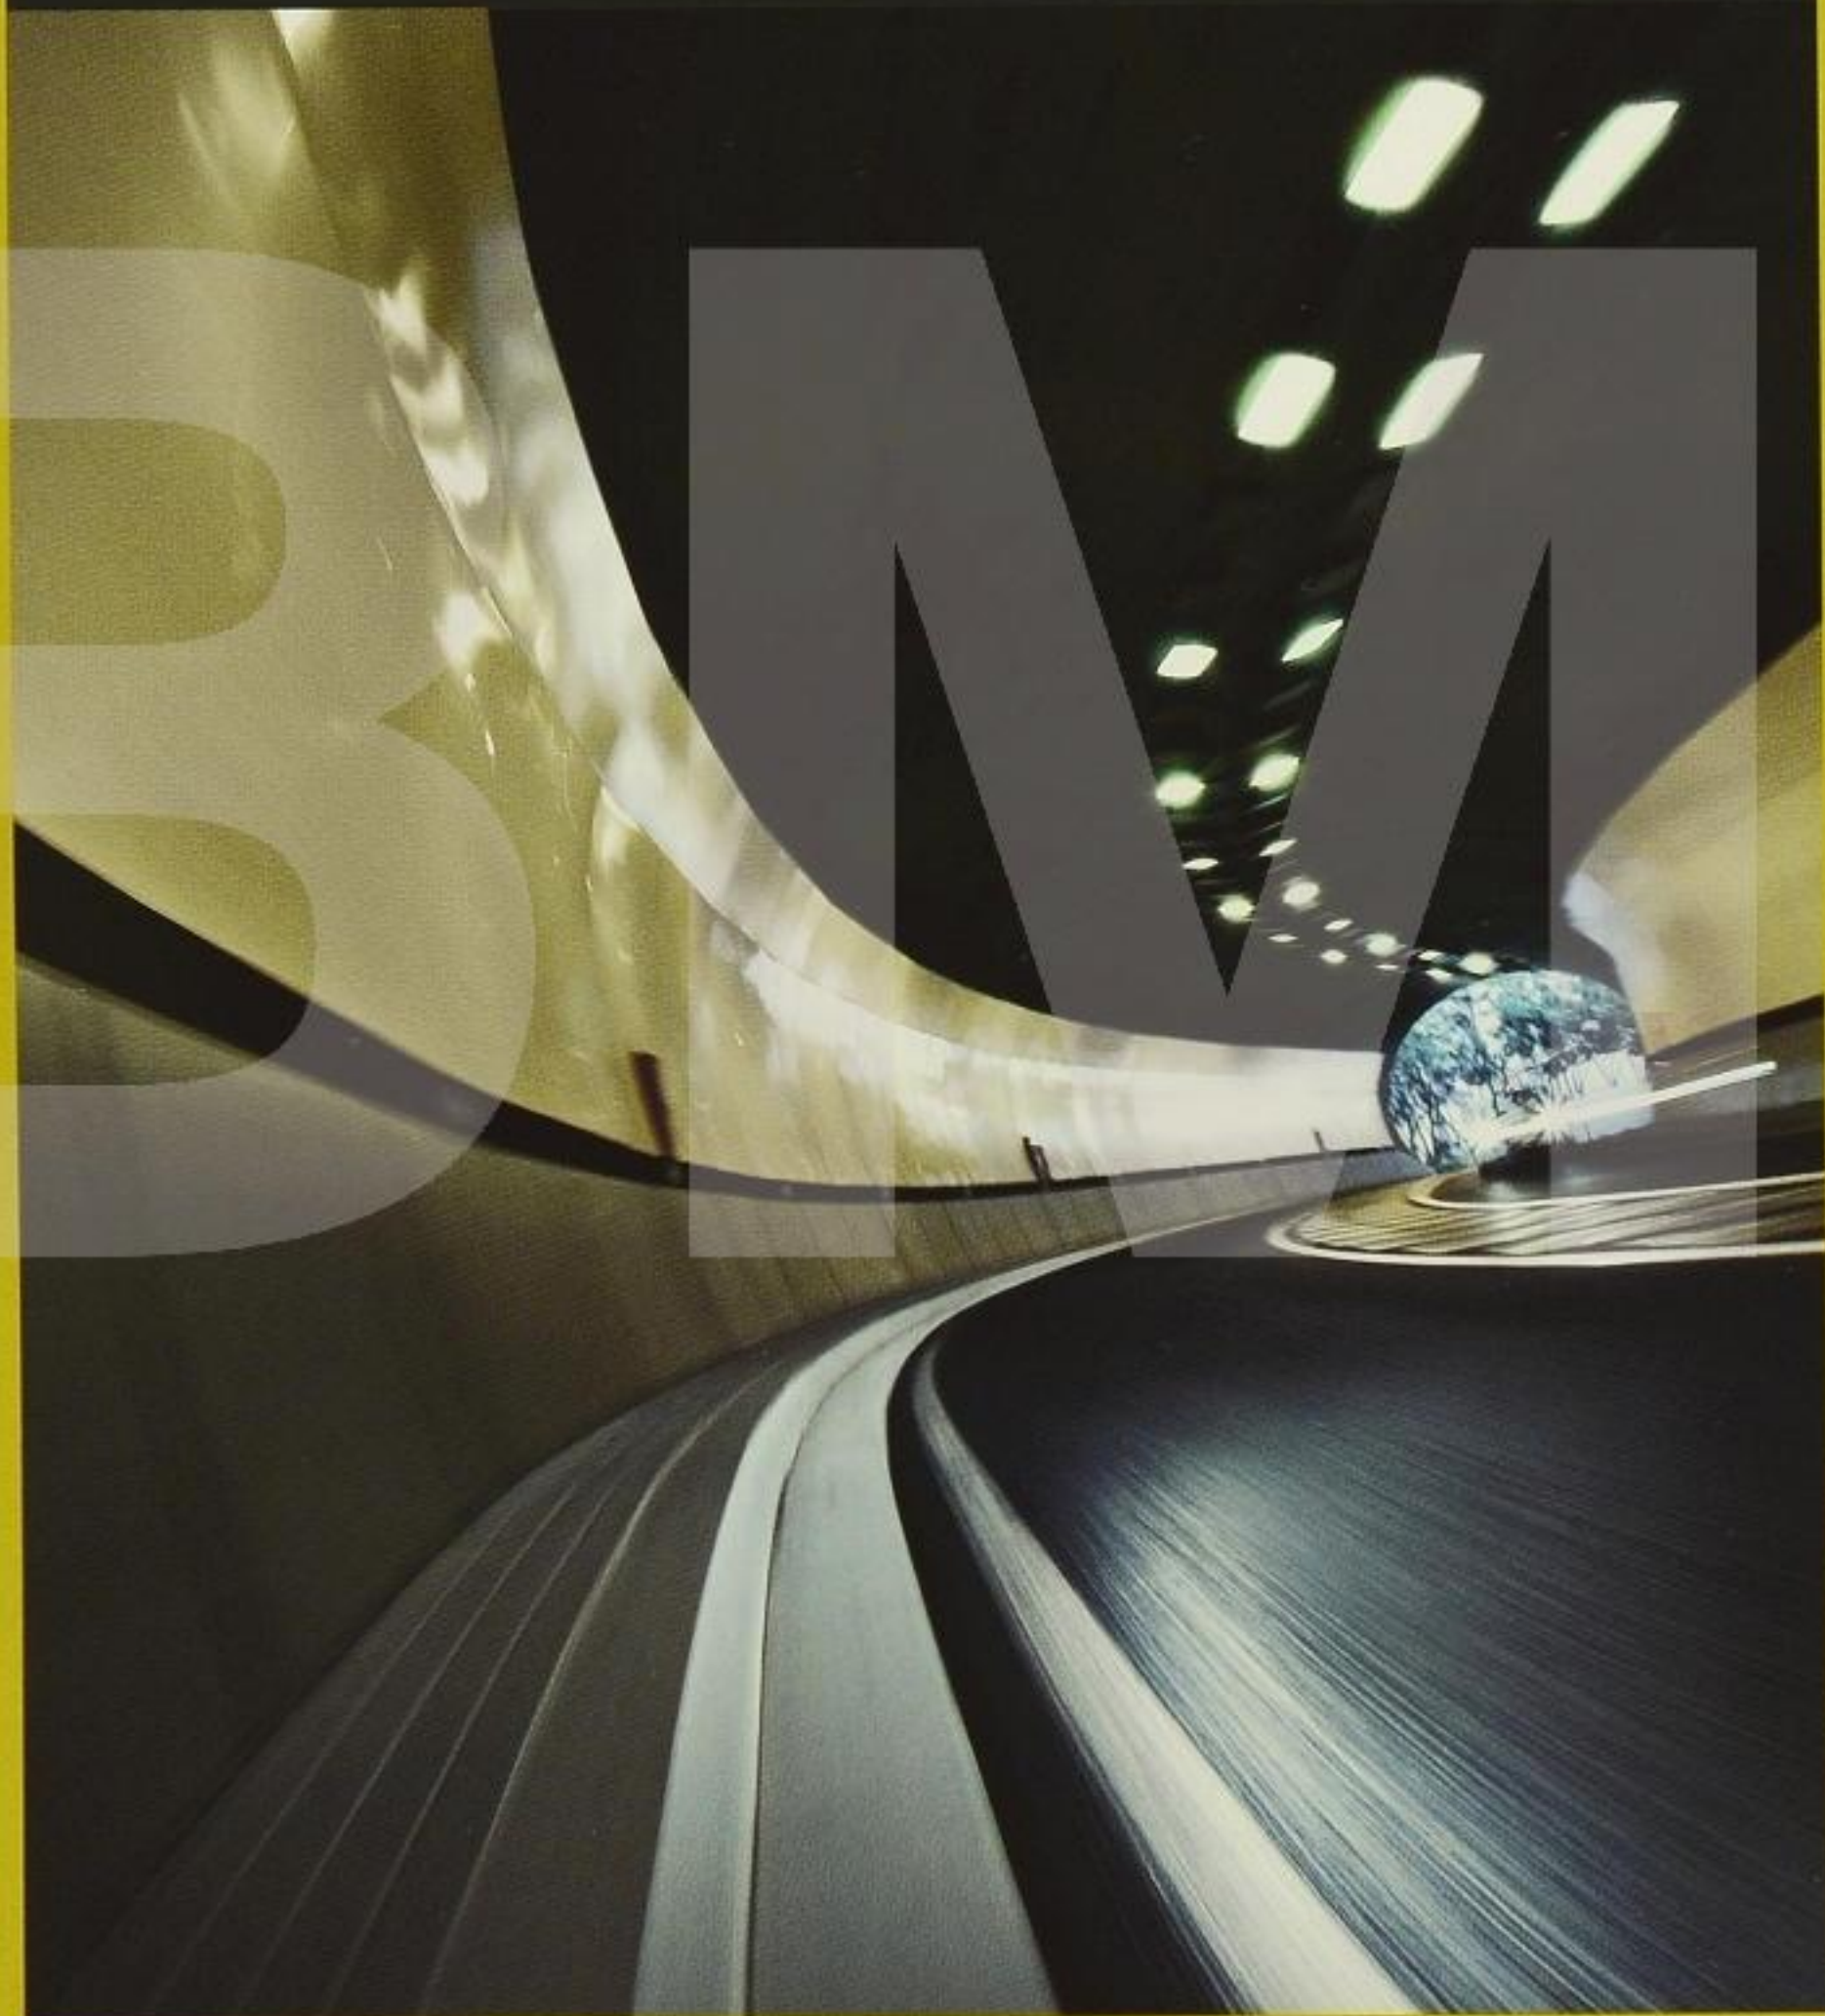

IT'S ONLY RAIN!

The weather is just about the only thing you can't specify on the new MINI Convertible. Instead choose from a huge array of colours, upholsteries and equipment options.

NICE PIPES.

The throaty roar of the MINI Cooper makes your hair stand on end. And if that's not enough, check out the sounds in stereo coming from the MINI Cooper S Convertible's chrome-plated twin exhaust system.

WHATEVER YOUR CHOICE, IT'LL BE THE RIGHT ONE.

Choose between the MINI Cooper Convertible and the MINI Cooper S Convertible.
Difficult decisions aren't supposed to be this much fun.

POWER ON TAP.

The MINI Convertible transfers as much as 175 horsepower whenever you need it.

EIGHT STEPS TO YOUR VERY OWN MINI

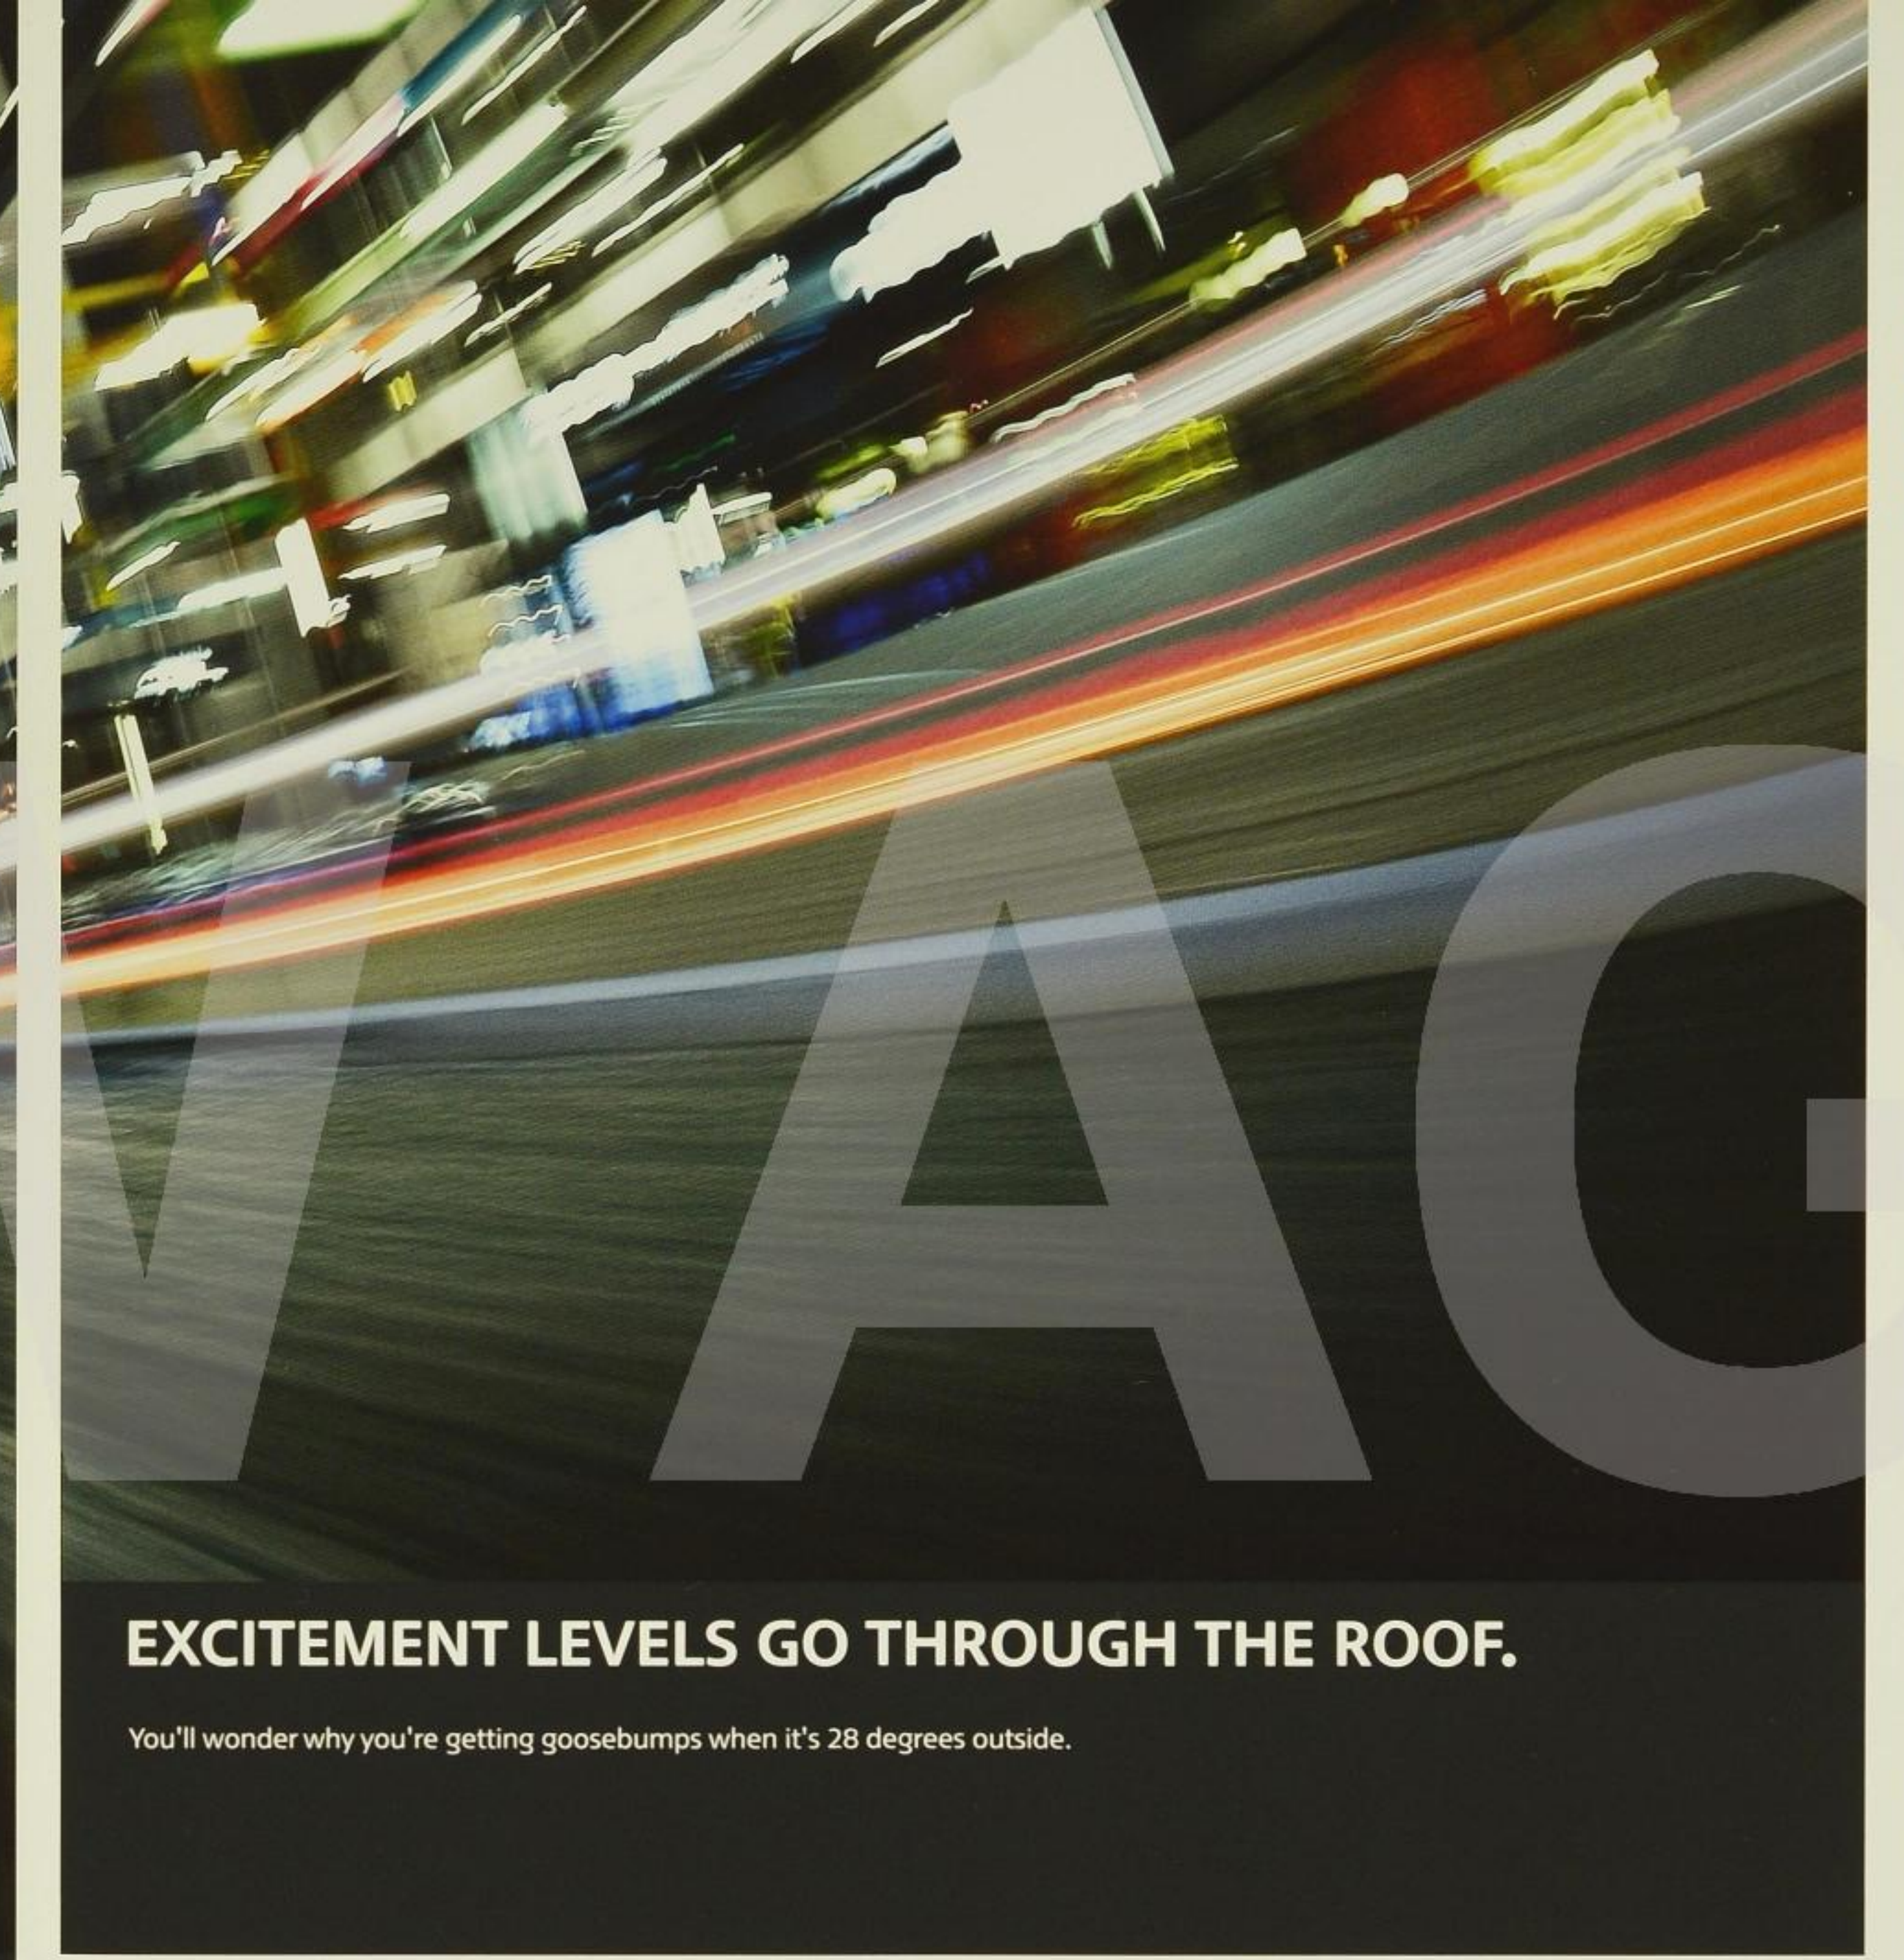

OPEN UP A WHOLE NEW WORLD.

The punchy engine, crisp transmission, go-kart handling and wind whistling through your barnet will have you grinning from ear to ear.

EIGHT STEPS TO YOUR VERY OWN MINI

EXCITEMENT LEVELS GO THROUGH THE ROOF.

You'll wonder why you're getting goosebumps when it's 28 degrees outside.

OPEN TO SUGGESTIONS.

Wherever you're going, getting there in the MINI Convertible will be an adventure.

EIGHT STEPS TO YOUR
VERY OWN MINI.

Putting together your own MINI Convertible couldn't be easier. The symbols at the top of the page will guide you through the process step by step. First choose your model – will it be 120 or 175 horsepower? Racy alloys, a sporty steering wheel – or both? A 230-watt amplifier, or a navigation system?

5. INTERIOR DESIGN

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

OPENNESS IS AN ATTITUDE.

With the soft-top down, the sky really is the limit. It can be opened and closed at speeds of up to 19 mph. When stationary, it can be also be opened by remote control using the vehicle key.

GET A NEW PERSPECTIVE ON THINGS.

The Z-shaped folding mechanism that powers the soft-top springs into action at the touch of a button. The MINI Convertible offers a clear rearward view whether the top is up or down, as the active roll-over bar is fully integrated.

A WIDESCREEEN VIEW, WHATEVER THE WEATHER.

Get your fix of fresh air: the continuously variable sunroof function leaves a gap of 40 cm when fully open. It can be operated when travelling at speeds of up to 70 mph.

AN OPEN AND SHUT CASE.

Unmistakably MINI: the MINI Convertible with the soft-top closed. The transformation takes just 15 seconds to complete. The vertical sides and upright front and rear windscreens help to maximise interior space.

5. INTERIOR DESIGN

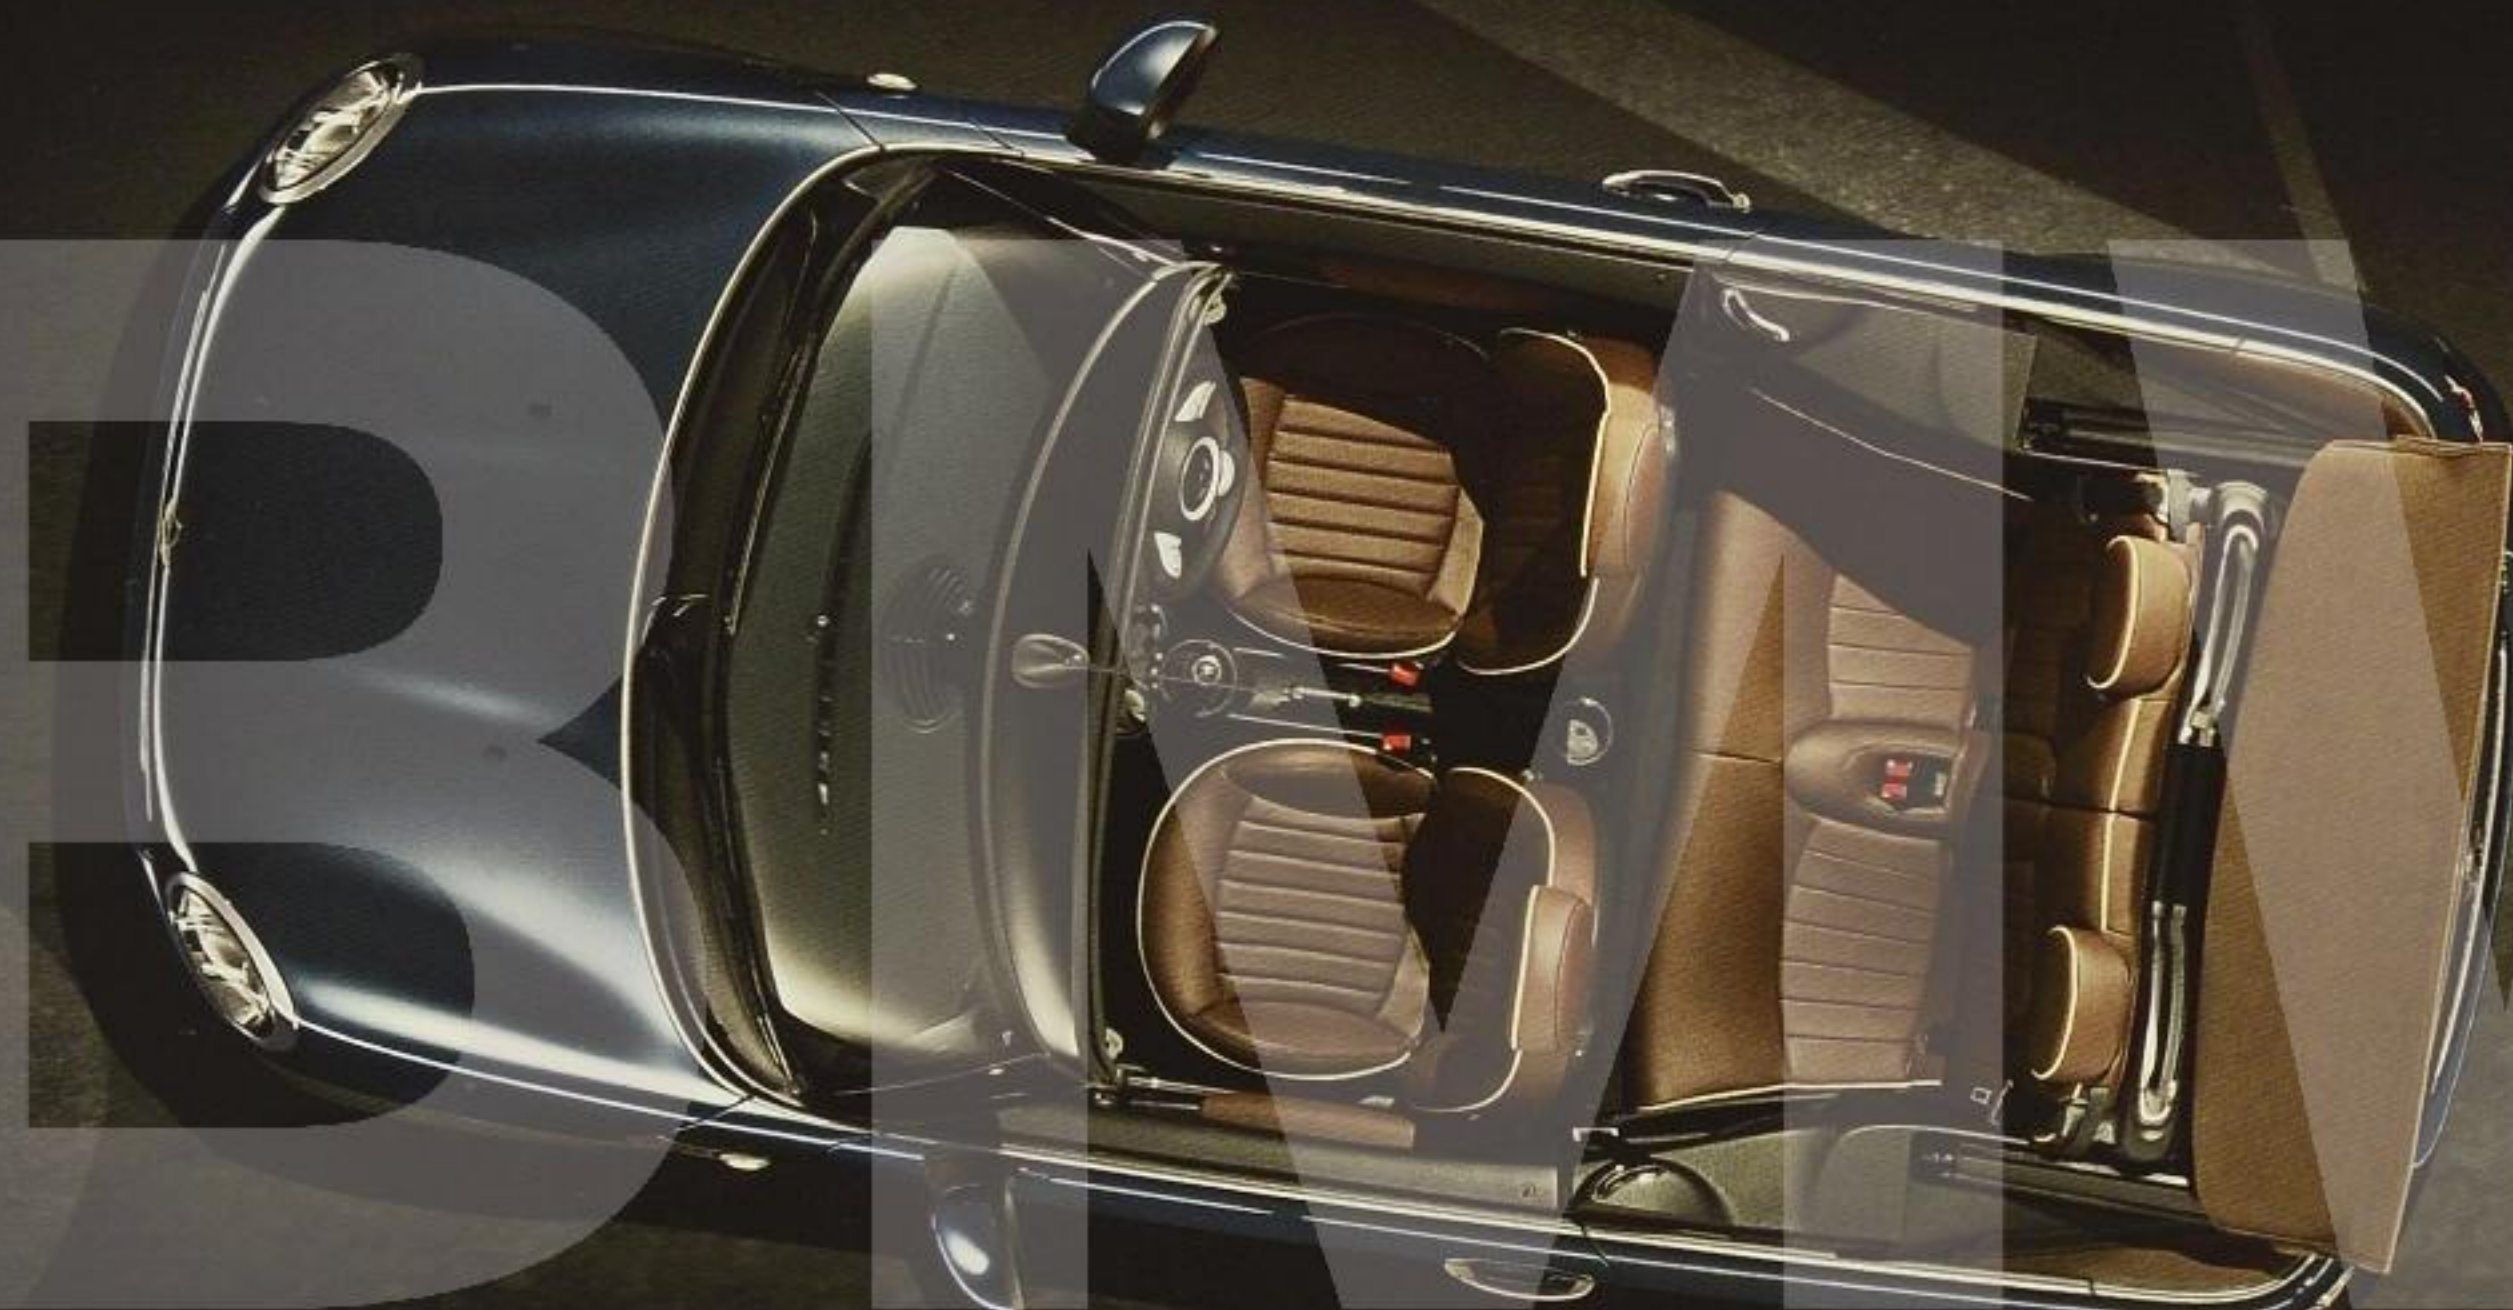

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

SPACE.

The MINI Convertible is designed for free spirits – four of them at once, in fact. It offers 125 litres of space in the boot with the soft-top down, and as much as 170 litres with the soft-top closed. The rear seat backs fold down, separately or together, expanding the luggage capacity to a maximum of 660 litres.

SEATS.

The most comfortable go-kart there's ever been. The driving seat can be adjusted to give the ideal position. All four seats offer excellent lateral support and feature height-adjustable headrests, while the steering wheel is also height and reach-adjustable.

EASY LOAD FUNCTION.

Easy does it. The boot folds down and the back section of the soft-top swings up when the roof is closed. This Easy Load Function gives a wide opening, taking the hassle out of loading and unloading. When the boot is open, it forms a flat shelf which can support loads of up to 80 kg.

7. PERFORMANCE

8. ACCESSORIES

1

SINGLE-JOINT SPRING-STRUT FRONT AXLE.

Where the fun begins. Two drive shafts of equal length in the front suspension minimise the extent to which the drivetrain interferes with the steering, and optimise the car's cornering, acceleration and braking.

2

MULTI-LINK REAR AXLE.

Unique in a car of its class, ensuring optimum contact between the wheels and the road, for the best possible traction. Aluminium construction keeps weight to a minimum and increases agility.

3

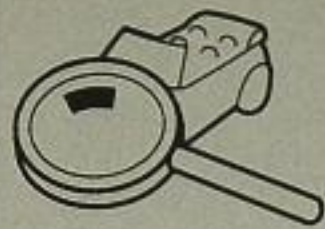

RACK-AND-PINION STEERING.

Electric power-assist ensures outstanding steering response, with the driver receiving precise and involving feedback. The weight of the steering adjusts to the speed of the car, for easier steering at low and high speeds alike. It is only 2.4 turns from full lock to full lock.

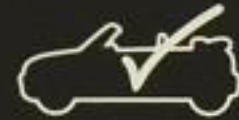

4

WEIGHT DISTRIBUTION.

To improve the traction of the drive wheels, close to two thirds of the car's weight is over the front axle, with the other third distributed to the rear wheels in order to deliver the best possible handling.

7. PERFORMANCE

8. ACCESSORIES

SHORT AND SWEET.

Accelerating the pace of change. Designed for short, positive, precise gear shifts. All MINI Convertible models come with a 6-speed manual gearbox as standard. A 6-speed automatic gearbox with Steptronic is available as an optional extra.

TWO ENGINES, ONE UNIQUE DRIVING EXPERIENCE.

MINI Cooper Convertible: the figures – 120 hp (88 kW), 160 Nm, 123 mph. The feeling – instantaneous reaction to the accelerator, but a fuel consumption of just 49.6 mpg (5.7 l/100km), thanks to fully variable valve timing.

MINI Cooper S Convertible: the twin-scroll turbocharger releases 175 hp (128 kW) of power, and the overboost function delivers 260 Nm of torque. In practical terms, that means 0 – 62 mph (0 – 100 km/h) in 7.4 seconds, a top speed of 138 mph, yet fuel consumption of just 44.1 mpg (6.4 l/100km).

5. INTERIOR DESIGN

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

MINIMALISM. LESS IS MORE.

Cutting out the fumes needn't mean cutting out the fun. This is true for both MINI Convertible models: the MINI Cooper Convertible achieves 49.6 mpg and emits only 137 g/km of CO₂, while for the MINI Cooper S Convertible, the figures are 44.1 mpg and 153 g/km.

1

AUTOMATIC START-STOP FUNCTION.

Manual gearbox only. With the car in neutral and the clutch disengaged, the engine is automatically switched off. As soon as the clutch pedal is depressed, the engine is restarted, giving you a unique fuel saving feature.

2

SHIFT POINT DISPLAY.

The Shift Point Display (manual gearbox only) informs you of the most economical gear for any given situation, helping to reduce your emissions and expenditure on fuel.

3

BRAKE ENERGY REGENERATION.

Brake Energy Regeneration uses Intelligent Alternator Control to make the most of unused energy. When coasting or braking, the battery is charged, utilising energy that would otherwise be wasted.

1. CONCEPT AND SAFETY

2. MODELL

3. COLOURS AND UPHOLSTERY

4. EXTERIOR DESIGN AND WHEELS

5. INTERIOR DESIGN

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

BRAKING SYSTEM.

Four disc brakes with Anti-lock Braking System (ABS) and Cornering Brake Control (CBC) as standard ensure optimum braking performance in any situation. Electronic Braking Distribution (EBD) manages the distribution of braking force between the front and rear axles. Brake Assist accelerates the delivery of braking force in an emergency situation to ensure the shortest possible stopping distances.

LIMITED-SLIP DIFFERENTIAL.

For improved performance on awkward surfaces. If one wheel loses traction, drive is transferred to the wheel with better grip, allowing higher cornering speeds. The limited-slip differential (optional on the MINI Cooper S Convertible) increases both driving enjoyment and safety, so you get where you're going even faster.

DSC.

Dynamic Stability Control (DSC) is fitted as standard and counteracts vehicle instability by intervening in the engine management and applying braking to individual wheels at the front and rear as necessary. DSC also includes Hill Assist, which helps prevent the car from rolling backwards on slopes.

7. PERFORMANCE

8. ACCESSORIES

BODY.

The body of the MINI Convertible has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

CHASSIS.

The combination of a single-joint spring-strut front axle and a multi-link rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with excellent cornering ability at all speeds, plus superb traction and outstanding safety.

CRASH SENSOR.

The crash sensor automatically deploys the airbags in the event of an impact and unlocks the doors, ensuring the occupants of the car can get out in a hurry. Interior and hazard lights are also automatically switched on.

ALARM SYSTEM.

A siren sounds and the hazard lights are switched on if anyone attempts to move or break into the car. It works whether the soft-top is up or down.

RUN-FLAT TYRES.

The Run-flat tyres (standard on 16-inch wheels and above) are designed in such a way that the car can be driven in the event of a sudden loss of tyre pressure. Even with a completely flat tyre, it can continue for up to 90 miles (150 km) at speeds as high as 50 mph (80 km/h).

TYRE PRESSURE WARNING SYSTEM (TPWS).

Standard on all models. A warning light in the cockpit alerts the driver in the event of any loss of tyre pressure.

2. MODELS

3. COLOURS AND UPHOLSTERY

4. EXTERIOR DESIGN AND WHEELS

5. INTERIOR DESIGN

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

RESTRAINT SYSTEM.

A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger benefit from the best possible protection in the event of a crash.

ISOFIX.

To ensure the safety of younger passengers, ISOFIX child seats can be mounted in the rear.

AIRBAGS.

The MINI Convertible is fitted with four airbags as standard. Driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while the head/thorax airbags in the front seats are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

ACTIVE ROLL-OVER BAR.

Made of high-strength aluminium, the active roll-over bar ensures optimum protection for all passengers. Normally it is retracted behind the rear headrests, and blends seamlessly into the lines of the car, but in an emergency it deploys upwards in a fraction of a second.

REINFORCED PANELS.

These elements are built into the safety-critical areas of the bodywork and the upper and middle parts of the doors to increase structural rigidity and protect passengers in the event of a collision.

MINI COOPER CONVERTIBLE

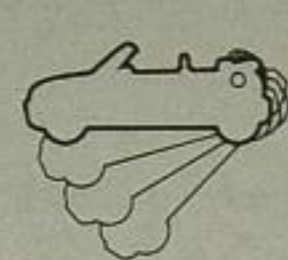

Sparkle comes as standard: the classic chrome-plated radiator grille and striking chrome exhaust emphasise the unique character of the MINI Cooper Convertible.

MINI COOPER S CONVERTIBLE

It could only be the MINI Cooper S Convertible: the powerful air inlet in the bonnet, racy radiator grille in a hexagon look, plus a chrome-plated twin exhaust system make this a car to keep your eye on – even when it's not moving.

SOFT-TOP COLOURS

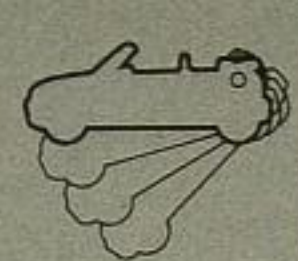

The new MINI Convertible has more than just a straight up, straight down soft-top. It has a continuously variable sunroof function and is available in three colours: Black, Denim Blue, or Hot Chocolate. Time to get your creative head on. Whichever option you go for, the inside of the soft-top is always Black.

EXTERIOR COLOURS

The MINI Convertible comes in a wide variety of bold solid colours and dazzling metallic options, offset with striking contrast elements. The soft-top is available in Black, Denim Blue or Hot Chocolate, while the mirror caps come in Body Colour or Black (only in conjunction with soft-top in Black). Where alloy wheels are specified in White, the mirror caps are also White.

INTERIOR TRIM

Unmistakably MINI – the shape and layout of the interior surfaces, door handles and decorative rings are as impressive as the variety of options. A good example is the elliptical door ring. It sweeps backward beyond the edge of the door, and is available in a choice of different colours and materials, depending on the model and equipment specified. The elegant Horizon Blue and eye-catching Interchange Yellow options are exclusive to the MINI Convertible. The entire interior colour scheme coordinates with the surface finish of the dashboard.

STANDARD SEAT

Sit back and relax: you'll feel right at home in the comfortable standard seats, with their discreetly accentuated central panels. The only thing you won't like about them is that eventually you have to get out.

SPORT SEAT

Perfect Balance: the sport seats (standard in the MINI Cooper S Convertible) feature side bolsters in a contrasting colour for extra lateral support when cornering at speed.

SPORT SEAT WITH PIPING

Take a seat: the sport seats with piping feature elegant stitching, and are as supportive as they are stylish.

Even with the **soft-top** raised, four people have room to travel in comfort. The rising line of the lateral seam gives the car a dynamic appearance.

The **soft-top** in **Hot Chocolate** gives the MINI Convertible a highly distinctive look. Available on both the MINI Cooper Convertible and MINI Cooper S Convertible, depending on exterior colour of the car.

The **soft-top** in **Denim Blue** features a stylish metallic silver effect to really set it apart from the crowd. Available on both the MINI Cooper Convertible and MINI Cooper S Convertible, depending on exterior colour of the car.

Bonnet stripes in **White** or **Black** are available as an option on both the MINI Cooper Convertible and MINI Cooper S Convertible.

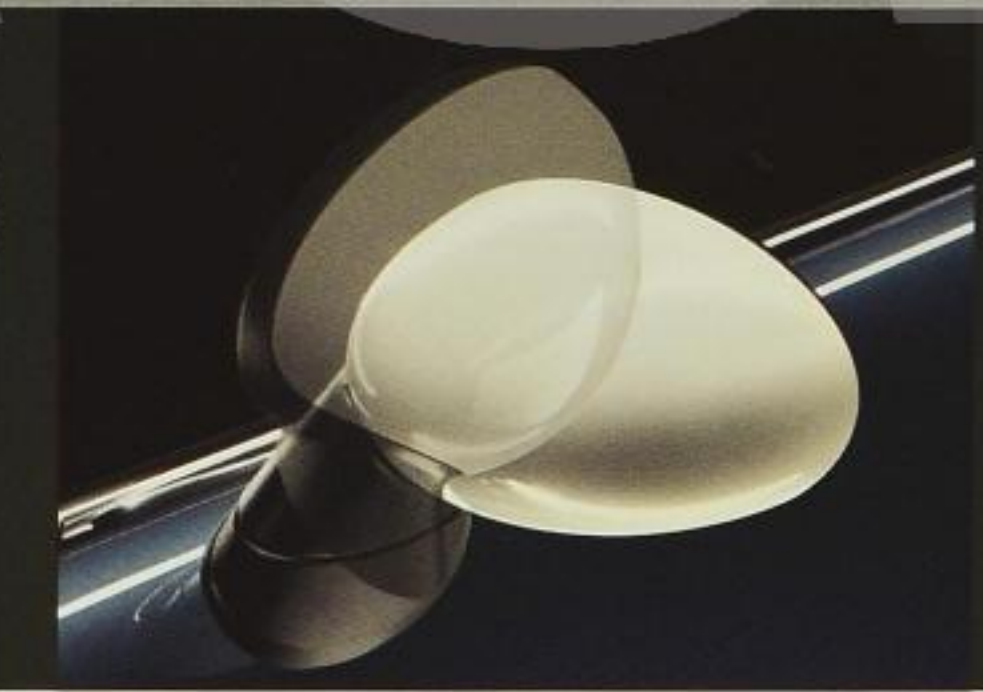

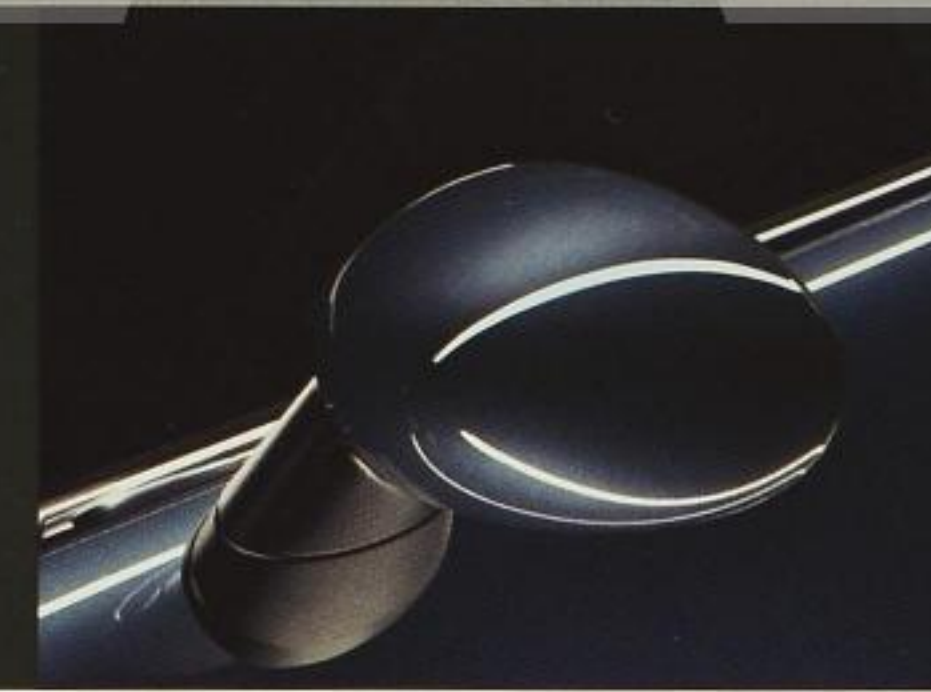

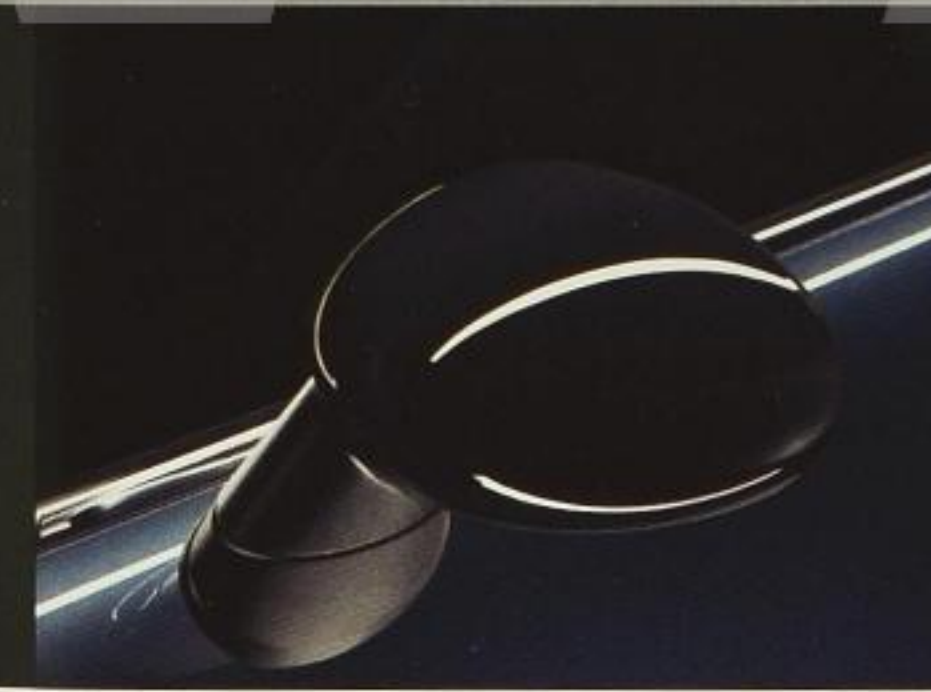

Optional **Chrome-Plated mirror caps** are available in combination with any colour of roof.

If the alloy wheels are specified in **White**, the **mirror caps** are also supplied in **White**. The mirrors are electrically adjustable, and heating is available as an option.

When a **Black** soft-top is specified, the **mirror caps** are also available in **Black**. The mirrors are electrically adjustable, and heating is available as an option.

The **mirror caps** come as standard in **body colour**.

The optional **Exterior Mirror Pack** enables both **exterior mirrors** to be **folded away electrically** and folded back out again at the touch of a button. The mirrors and windscreen washer jets are heated.

The MINI Cooper Convertible has 5.5J x 15" **5-Star Spooler** light alloy wheels as standard, with 175/65 R15 tyres.

The optional 6.5J x 16" **5-Star Blaster** light alloy wheels come with 195/55 R16 Run-flat tyres.

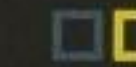

The optional 7J x 17" **Black-Star Bullet** light alloy wheels fill the wheel arches, and are the perfect complement to the dynamic styling of the MINI Convertible. They come with 205/45 R17 Run-flat tyres.

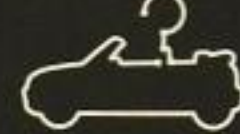

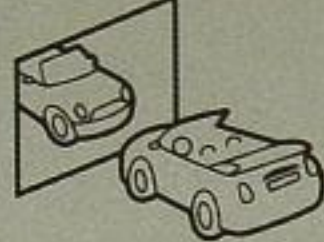

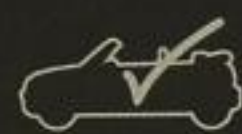

The MINI Cooper S Convertible is fitted as standard with 6.5J x 16" **S-Winder** light alloy wheels with 195/55 R16 Run-flat tyres.

The optional 6.5J x 16" **Bridge Spoke** light alloy wheels come with 195/55 R16 Run-flat tyres. Also available in white.

The optional 7J x 17" **Crown Spoke** light alloy wheels come with 205/45 R17 Run-flat tyres. Also available in white.

The optional 7J x 17" **Web Spoke** light alloy wheels feature a two-part design. They come with 205/45 R17 Run-flat tyres.

At the front of the car, the **Chrome Line Exterior** includes chrome-plated edging of the lower front grille and fog lights, and the cross-bar in the lower air inlet, depending on the model.

At the rear of the car, the **Chrome Line Exterior** for the MINI Cooper Convertible features a chrome surround for the central rear fog light, and a chrome-plated roll-over bar with Piano Black insert (standard on the MINI Cooper S Convertible). On the MINI Cooper S Convertible, this option includes a chrome-plated boot handle and a chrome strip around the grille in the rear bumper.

The **white direction indicators** (standard on the MINI Cooper S Convertible) include white indicator lenses in the front headlight units (illustration shows optional Bi-Xenon headlights), rear light units and side direction indicators.

The round **exhaust pipe finisher** on the MINI Cooper Convertible is chrome-plated and has a muscular look.

Situated in the middle of the rear bumper, the chrome-plated **twin exhaust pipes** on the MINI Cooper S Convertible look as unique as they sound.

The **Bike Rack Preparation** allows multi-functional carriers for bicycles from the Original MINI Accessories range to be fitted.

The **interior surfaces** and elliptical ring in the door can be colour-coordinated with the **Horizon Blue** or **Interchange Yellow** exterior colour. The revolution counter, speedometer, air vents, and gearshift lever are all edged in Silver (left hand illustration shows optional Chrome Line Interior).

The **interior surfaces** of the MINI Cooper Convertible are finished as standard in **Fine White Silver** (illustrated left), with the revolution counter, speedometer, air vents and gear lever all edged in Silver. In the MINI Cooper S Convertible, the interior surfaces are finished as standard in a **Chequered design** (illustrated centre), as is the elliptical door ring. The interior surfaces and elliptical door ring are also available in **Fluid Silver** (illustrated right). Where this option is specified, the revolution counter, speedometer, air vents, gearshift lever, front and rear cup holders, door handles and speakers set in the door trims are all edged in Silver.

As an option, the **interior surfaces** and door grips are available in **English Oak** (illustrated left). Where this option is specified, the elliptical door ring is Piano Black. With the interior surfaces in **Piano Black** (illustrated centre), the elliptical door ring is also Piano Black. Alternatively you can opt for a **Brushed Alloy** finish (illustrated right), with the door ring in Grey Silver Matt. Other trim elements included with this option are as for the Chequered-design interior surface finish.

With the **Colour Line** option, the knee roll and the armrest in the door come in a choice of five colours: Pacific Blue, Dark Grey, Hot Chocolate, **Cream White** (illustrated left) and **Rooster Red** (illustrated right). The illustrations below also show the optional Ray cloth/leather upholstery.

8. ACCESSORIES

On standard-specification cars, the **door ring** and door handle come in **Carbon Black**.

The interior surfaces are also available in a stylish Piano Black, with a matching **Piano Black door ring** and door handles in **Carbon Black**.

The standard Chequered-design interior surfaces in the MINI Cooper S Convertible are partnered with a **Chequered-design door ring** and door handles in **Carbon Black**.

If you opt for the Brushed Alloy finish for the interior surfaces, the **door ring** comes in **Grey Silver Matt**, and the door handles in **Brushed Alloy**.

Where **Fluid Silver** interior surfaces are specified, the **door ring** is in the same colour, while the door grips are in **Carbon Black**.

With the traditional **English Oak** option, the interior surfaces and door handles are finished in real wood, complemented perfectly by the use of **Piano Black** for the **door ring**.

If the optional **Chrome Line Interior** is specified, the dashboard air vents, speedo, rev counter, belt loops and rings on the gear lever and handbrake are all edged in chrome.

On the MINI Cooper S Convertible, and on the MINI Cooper when an optional interior surface finish or upholstery in leather or cloth/leather is specified, the chrome trim is also applied to the loudspeaker surrounds, door handles and the front and rear cup holders.

8. ACCESSORIES

The **2-spoke standard steering wheel** features a built-in 2-stage driver airbag. The horn is sounded by pressing the impact absorber.

The **2-spoke leather steering wheel** (standard in the MINI Cooper S Convertible) features a built-in 2-stage driver airbag. This option also includes a leather gear knob.

The **3-spoke sport leather steering wheel** is an option on both MINI Convertible models. It sits comfortably in the hand for even more agile handling.

A **3-spoke sport wooden steering wheel** (supplied with a wooden gear knob) is also available. This steering wheel is supplied as standard with the multi-function option.

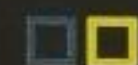

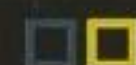

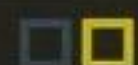

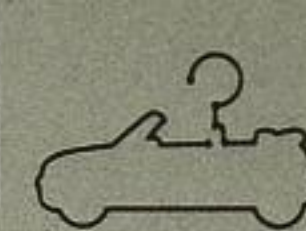

The **standard seat** for driver and front-seat passenger is manually position-adjustable, and upholstered in cloth. It features a storage pocket on the backrest, and a backrest memory function. The driver's seat is also height-adjustable.

The **sport seat** for driver and front-seat passenger includes a storage net on the backrest, and a backrest memory function. It is manually position-adjustable, and upholstered in cloth, leather or a cloth/leather combination. The driver's seat is also height-adjustable. Excellent lateral support when cornering at speed is provided by the raised side bolsters.

The **sport seat** for driver and front-seat passenger is also available in **Lounge leather**, with special **pipings** and elegant stitching.

Both front seats are equipped with an **Easy Entry Function**. Simply tip the seat and it will automatically slide forward for easier access to the rear seats; slide it back again and move the backrest upright, and the backrest memory function means it will click back into its original position.

8. ACCESSORIES

The **rear backrests can be folded down separately** (50:50 split), using a release handle in the luggage compartment. This means that three people can travel in comfort even if they have bulky luggage. Alternatively, the entire rear backrest can be folded down, making loading easier and increasing luggage space to as much as 660 litres. The seats are also lockable, to ensure the luggage compartment is safe even if you leave the car parked with the soft-top down.

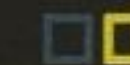

The **Interior Lights Package** includes illumination of the door handle area, door entry area and front footwell lights. Also included is colour-adjustable (orange/blue) ambient lighting for the door handles, storage compartments in the doors, rear side panels and softlight on the instrument panel.

The soft-top and the built-in sunroof function can both be opened and closed automatically **at the touch of a button**.

A **wind deflector** is available as an optional extra, for more comfortable open-top driving. When not in use, it can be folded away and kept in the space-saving storage bag in the luggage compartment.

The optional **Smoker's Package** consists of a cigarette lighter and a removable ashtray.

The optional **front centre armrest** folds away, and also incorporates a storage compartment.

The **Storage Package** includes a storage compartment in the dashboard on the passenger side, and a storage net in the front passenger footwell, plus a floor net and a 12-volt socket in the luggage compartment.

Both rear seats are supplied with **ISOFIX** child seat fixings as standard. The illustration shows a child seat from the Original MINI Accessories range.

The **glove compartment** is illuminated, lockable and easily accessible.

8. ACCESSORIES

Fun in full measure: the **Openometer** keeps track of how long you have spent with the soft-top down. It starts counting as soon as the soft-top is fully open and the engine is running. The trip counter goes up to seven hours, and the total time spent with the top down is logged by the on-board computer.

The large **speedo** is positioned in the middle of the instrument panel, and incorporates various warning lights and the fuel gauge.

The **MINI navigation system** features a 16:9 monitor and includes the on-board computer and a speedo around the outside. It directs you to your destination via voice instructions, directional arrows and/or on-screen maps. The monitor has a vertical splitscreen function.

Once the key is in the ignition, the **Start/Stop button** can be used to switch the engine on or off.

The **Visibility Package** ensures drivers can always see clearly. It includes a heated windscreen, a rain sensor, a rear-view mirror with automatic anti-dazzle function and automatic driving light control.

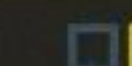

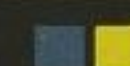

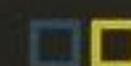

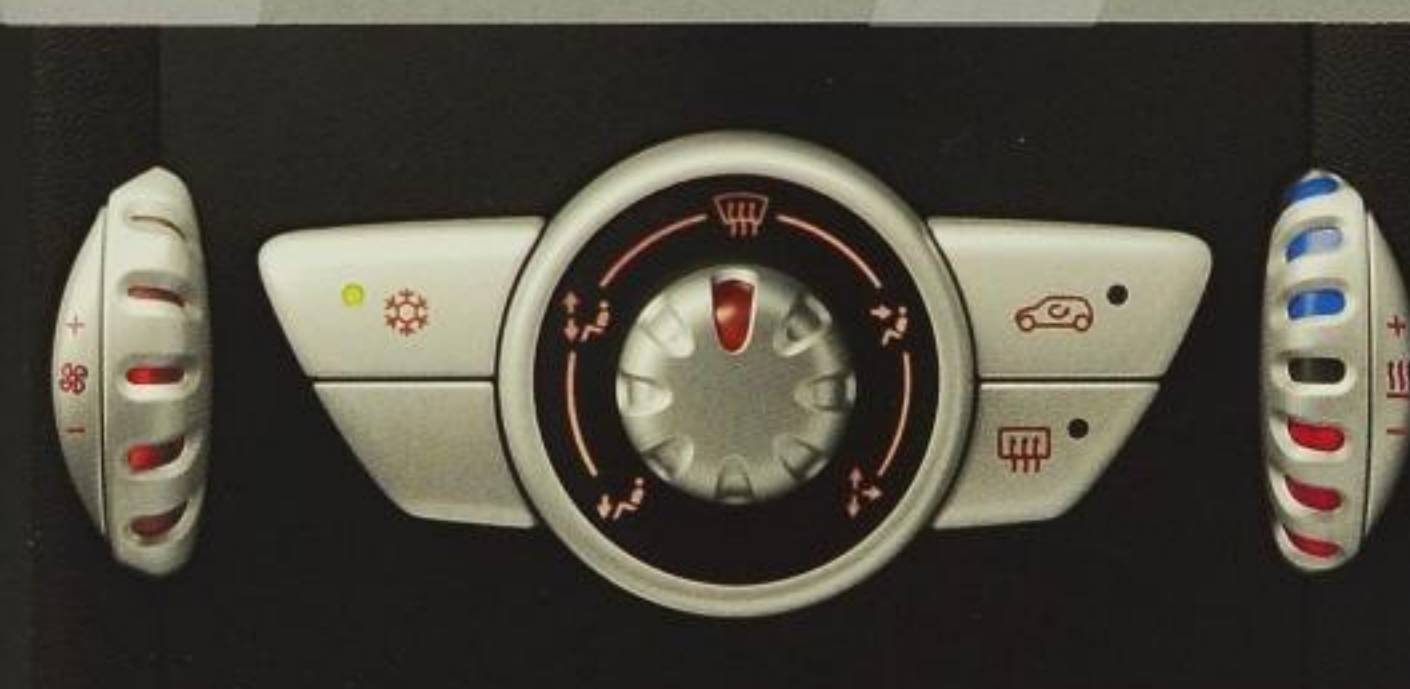

The circular **rev counter** is mounted on the middle of the steering column. The upper part of the display shows the outside temperature, current time or current speed, while the lower part shows such information as the trip distance. It also includes the Shift Point Display.

The **on-board computer** tells you your range, current and average fuel consumption, and average speed at the touch of a button. In conjunction with the Openometer, it can also show you the total amount of time you have spent with the soft-top down.

The **Condition Based Service (CBS)** system warns you when the next oil change or service is due, with a digital countdown of the distance to the next service appearing in the lower part of the display in the revolution counter.

The **manual air conditioning system** is fitted as standard, and comes with a microfilter allowing passengers to enjoy their ideal interior temperature, whatever the conditions outside. The amount and distribution of conditioned air can be individually adjusted.

Automatic air conditioning rapidly adjusts the interior temperature to the desired level, and then keeps it constant. An integrated active carbon filter protects passengers against unpleasant odours. Convertible Mode pumps hot air into the footwells when the soft-top is down on cold days, and blows cool air at the passengers on hot days.

8. ACCESSORIES

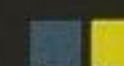

The **Radio BOOST CD** is fitted as standard and features an RDS tuner with autosearch function, permanent clock display, FM/MW and LW reception and CD player with MP3 capability. Six loudspeakers ensure good sound throughout.

An MP3-compatible **CD changer** is available as an option. This is built into the glove compartment, and can hold up to six CDs.

The **Hi-Fi loudspeaker system** uses a 230-watt 8-channel digital amplifier and ten loudspeakers to deliver an outstanding listening experience, with powerful bass and brilliant treble.

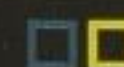

The **Aux-In connection** allows an external audio source such as an MP3 player to be connected.

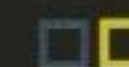

The optional **Basic Bluetooth function with USB audio** connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface supports the connection of mobile audio devices such as iPods*, USB sticks and MP3 players. The **Full Bluetooth telephone preparation with USB audio** also includes a front centre armrest, which accommodates the phone handset (snap-in adapter required, available separately), and a 3-spoke multi-function sport leather steering wheel, featuring cruise control. The **Bluetooth telephone audio connection** offers the ability to play music stored on a compatible mobile telephone, via the snap-in adapter (available separately).

A **multi-function** option is available for the 3-spoke sport leather steering wheel, and allows drivers to operate the cruise control, radio and phone without taking their hands off the wheel.

8. ACCESSORIES

The **seat heating** for driver and front-seat passenger offers a choice of three temperature settings for chilly days.

The **rear-view mirror with automatic anti-dazzle function** dims the light from the headlights of a following vehicle if it reaches a certain level of intensity.

The **universal remote control** makes life that little bit easier. The programmable remote control can be used to open and close your gates or garage door without getting out of the car.

The optional **Bi-Xenon headlights** for dipped and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

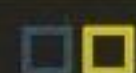

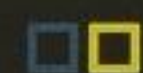

The optional **fog lights** are built into the side light housing in the front bumper, and offer improved safety when visibility is poor.

When the **rain sensor** is activated, it automatically switches on the windscreen wipers when necessary, and adjusts their speed to how hard it is raining. The built-in light sensor automatically switches on the driving lights when needed in dark or twilight conditions.

Comfort Access allows you to lock and unlock the car without even having to touch the key. Simply having it in your pocket or handbag is enough. You can also switch the ignition on and off keylessly, simply by pressing the start/stop button.

The MINI Cooper Convertible has one **rear fog light** in the centre of the bumper (illustrated left), while the MINI Cooper S Convertible features two, positioned at the sides (illustrated centre).

Park Distance Control (PDC) at the rear is fitted as standard and makes it easier to park and manoeuvre in tight spaces. An acoustic signal (and a visual display, if the navigation system is fitted) tells you the distance between your MINI Convertible and any obstacle.

8. ACCESSORIES

The **Aerodynamic Package** features modified front and rear bumpers which are aerodynamically optimised and finished in body colour. For the MINI Cooper, the radiator grille slats and boot handle are also supplied in body colour.

From the side, the Aerodynamic Package helps the MINI Convertible cut a sporty figure, with specially designed side skirts and wheels arches painted in body colour.

The optional **6-speed automatic gearbox** makes gear changes easier, and is decidedly sporty when used in Steptronic mode.

The **6-speed manual gearbox** has a pleasingly light feel, and allows quick, precise changes, making for a sporty driving style.

As well as a selector lever, there is also the option of two **shift paddles on the steering wheel** (mandatory for the MINI Cooper S). These can be operated with both hands on the wheel, for faster, safer gear changes.

Pressing the **sport button** further increases the responsiveness of the steering and accelerator pedal, for a genuine track-style driving experience. On vehicles with an automatic gearbox, it also reduces the time taken for gear changes.

The **Black Jack** design gives the MINI Convertible a unique look. It is available for the **exterior mirrors**, the **rear-view mirror housing**, the **door handles** and the **side scuttles**. **Sport stripes** and **additional headlights** complete the sporty effect.

You can't get enough of it: the **Union Jack** design for the **exterior mirrors**, **rear-view mirror housing** (not illustrated), **side scuttles** and **door handles**.

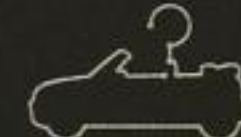

Show the racing heritage of your MINI Convertible, with the **Chequered flag** design for the **exterior mirrors**, **rear-view mirror housing** (not illustrated), **side scuttles** and **door handles**.

The **chrome-plated air intake trim** gives the front of the MINI Cooper S Convertible an even more imposing appearance.

The muscular stainless steel **exhaust tailpipe finishers** on the MINI Cooper S Convertible feature a polished, chrome-plated finish, contributing to the car's sporty looks. Available on all MINI models.

The **R108 Multispoke** light alloy wheel, 7J x 17-inch with 205/45 R17 Run-flat tyres. Also available in Black (not illustrated).

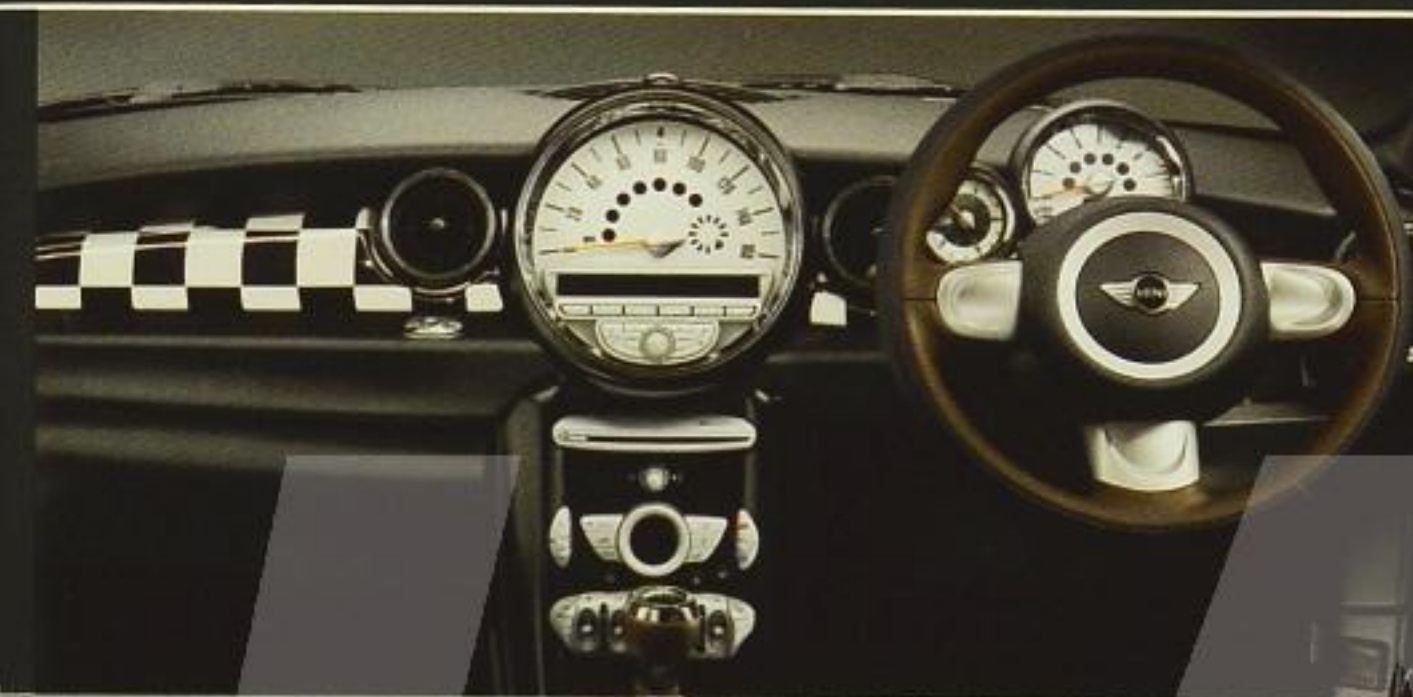

Three times the style: the **R99 Double Spoke** light alloy wheels are available in Silver, Anthracite, and a polished finish (not illustrated). Available in 7J x 17-inch size, with 205/45 R17 Run-flat tyres.

The **R90 Cross Spoke Composite** light alloy wheel features a two-part construction with titanium bolts, 7J x 17-inch with 205/45 R17 Run-flat tyres. Available in Black, Anthracite (not illustrated) and Silver (not illustrated).

Wind deflector. With a handy tool for quick and easy fitting, plus built-in pockets that can be used to store small items. The upper frame has an anodised finish.

The practical rubber **storage tray** makes optimum use of the space in the centre console, so small items can be kept safely and yet within easy reach. Includes special slots for credit cards and coins.

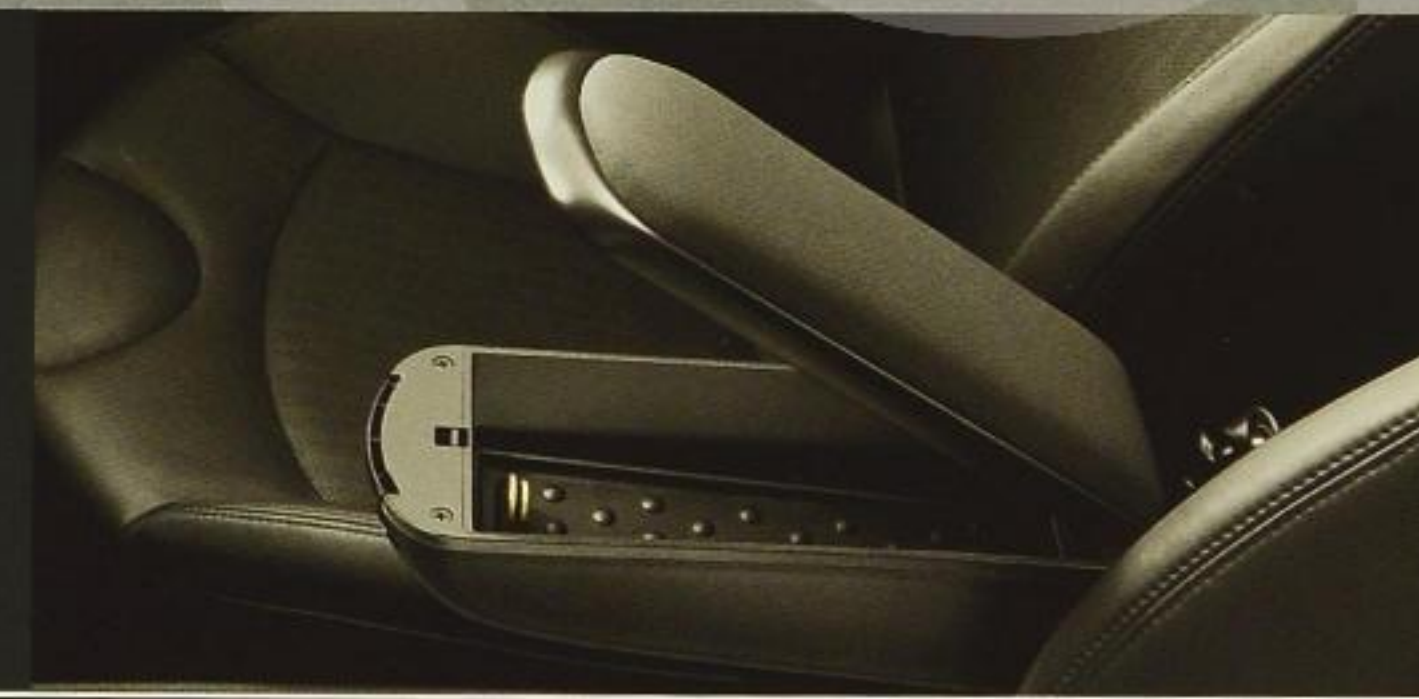

Leather trims in Hot Chocolate make a striking contrast to the **Chequered flag** interior trim. They are available for the **leather steering wheel**, the **gear lever knob** and **gaiter**, and the **handbrake grip** and **gaiter**. All trims are also available in Tuscan Beige or Redwood Red.

The **glovebox divider** includes an elastic strap, making it easier to organize the contents of your glove compartment, so you can keep items such as CDs, iPods, vehicle manuals and keys separate.

Enjoy a MINI adventure in sound: the **iPod* interface** allows an iPod (excluding shuffle) or iPhone to be connected to the MINI Radio. The device is controlled via the MINI joystick, MINI Radio or multi-function steering wheel (depending on the equipment in your car). Artist, album, genre and song title information is displayed on the radio display or the on-board monitor. The iPod or iPhone remains safely out of sight in a storage compartment in the dashboard or in the glovebox.

The comfortable **armrest** for the driver and front-seat passenger features a spacious storage compartment.

An eye-catching touch, particularly after dark: the **illuminated door entry strips**. Available in stainless steel or blackened stainless steel, a Union Jack design or a Chequered flag design, and in stainless steel with MINI, MINI Cooper or MINI Cooper S lettering.

It means business: the high-quality woven **Urban floor mat**. With a pinstripe design in Cream White or Dark Grey.

The **Cosmopolitan floor mat** is made of high-quality soft velour. It features a MINI logo and a reflective Nubuck border.

The **rubber floor mat** features raised edges to protect the footwell from dirt and moisture. Available in Carbon Black with the MINI logo or MINI Cooper S lettering.

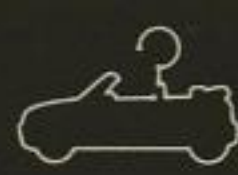

The lockable **aluminium rear carrier** allows you to transport two bicycles or two snowboards/pairs of skis on the back of the car. With anti-theft mounting.

The electric **MINI coolbag** is CFC-free and can chill its contents to approximately 20°C below the ambient temperature. It has a capacity of 12 litres. The design is as cool as you would expect, and features MINI lettering on the front.

The **collapsible boxes for the luggage compartment** can be quickly unfolded and fixed in shape, thanks to their Velcro-type fasteners. Two large collapsible boxes can be stowed side by side in the boot of the car. Both sizes come in Black and carry the MINI logo.

JOHN COOPER WORKS TUNING.

Racing expertise on the road: the John Cooper Works tuning kit is specially designed to maximise the performance of the MINI Convertible, boosting the output of the MINI Cooper S Convertible to a massive 192 hp (141 kW). It comprises a special air filter, engine management software and a sports exhaust that gives an unmistakable engine note. The aerodynamic kit and sport brakes give an even more authentic track-car experience, while the exterior mirrors, air intake and tailgate handle in Carbon provide a stylish finishing touch. And the fun of driving is enhanced even further by the Gear Shift Indicator, with its coloured LEDs telling you at a glance when to change up a gear for maximum acceleration.

The perfect finishing touch: interior trim finishers in Carbon. The sport steering wheel, gear lever knob and handbrake grip (not shown) are also available in either leather or Alcantara with Carbon trims.

The rigid suspension cross-brace in the engine compartment enhances the stability of the MINI Convertible by reducing body vibration.

Striking styling: the R113 Cross Spoke light alloy wheels with 205/40 R18 Run-flat tyres come in either Black (left) or a burnished finish (below). Sport brakes are also available, featuring red brake calipers and perforated discs.

A real eyeful: the R109 Double Spoke composite light alloy wheel. 18-inch with 205/40 R18 Run-flat tyres.

Burnished or Matt Black: the 18-inch R105 Double Spoke light alloy wheels (left) with 205/40 R18 Run-flat tyres come in a choice of two finishes.

¹ All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with the 6-speed automatic transmission.

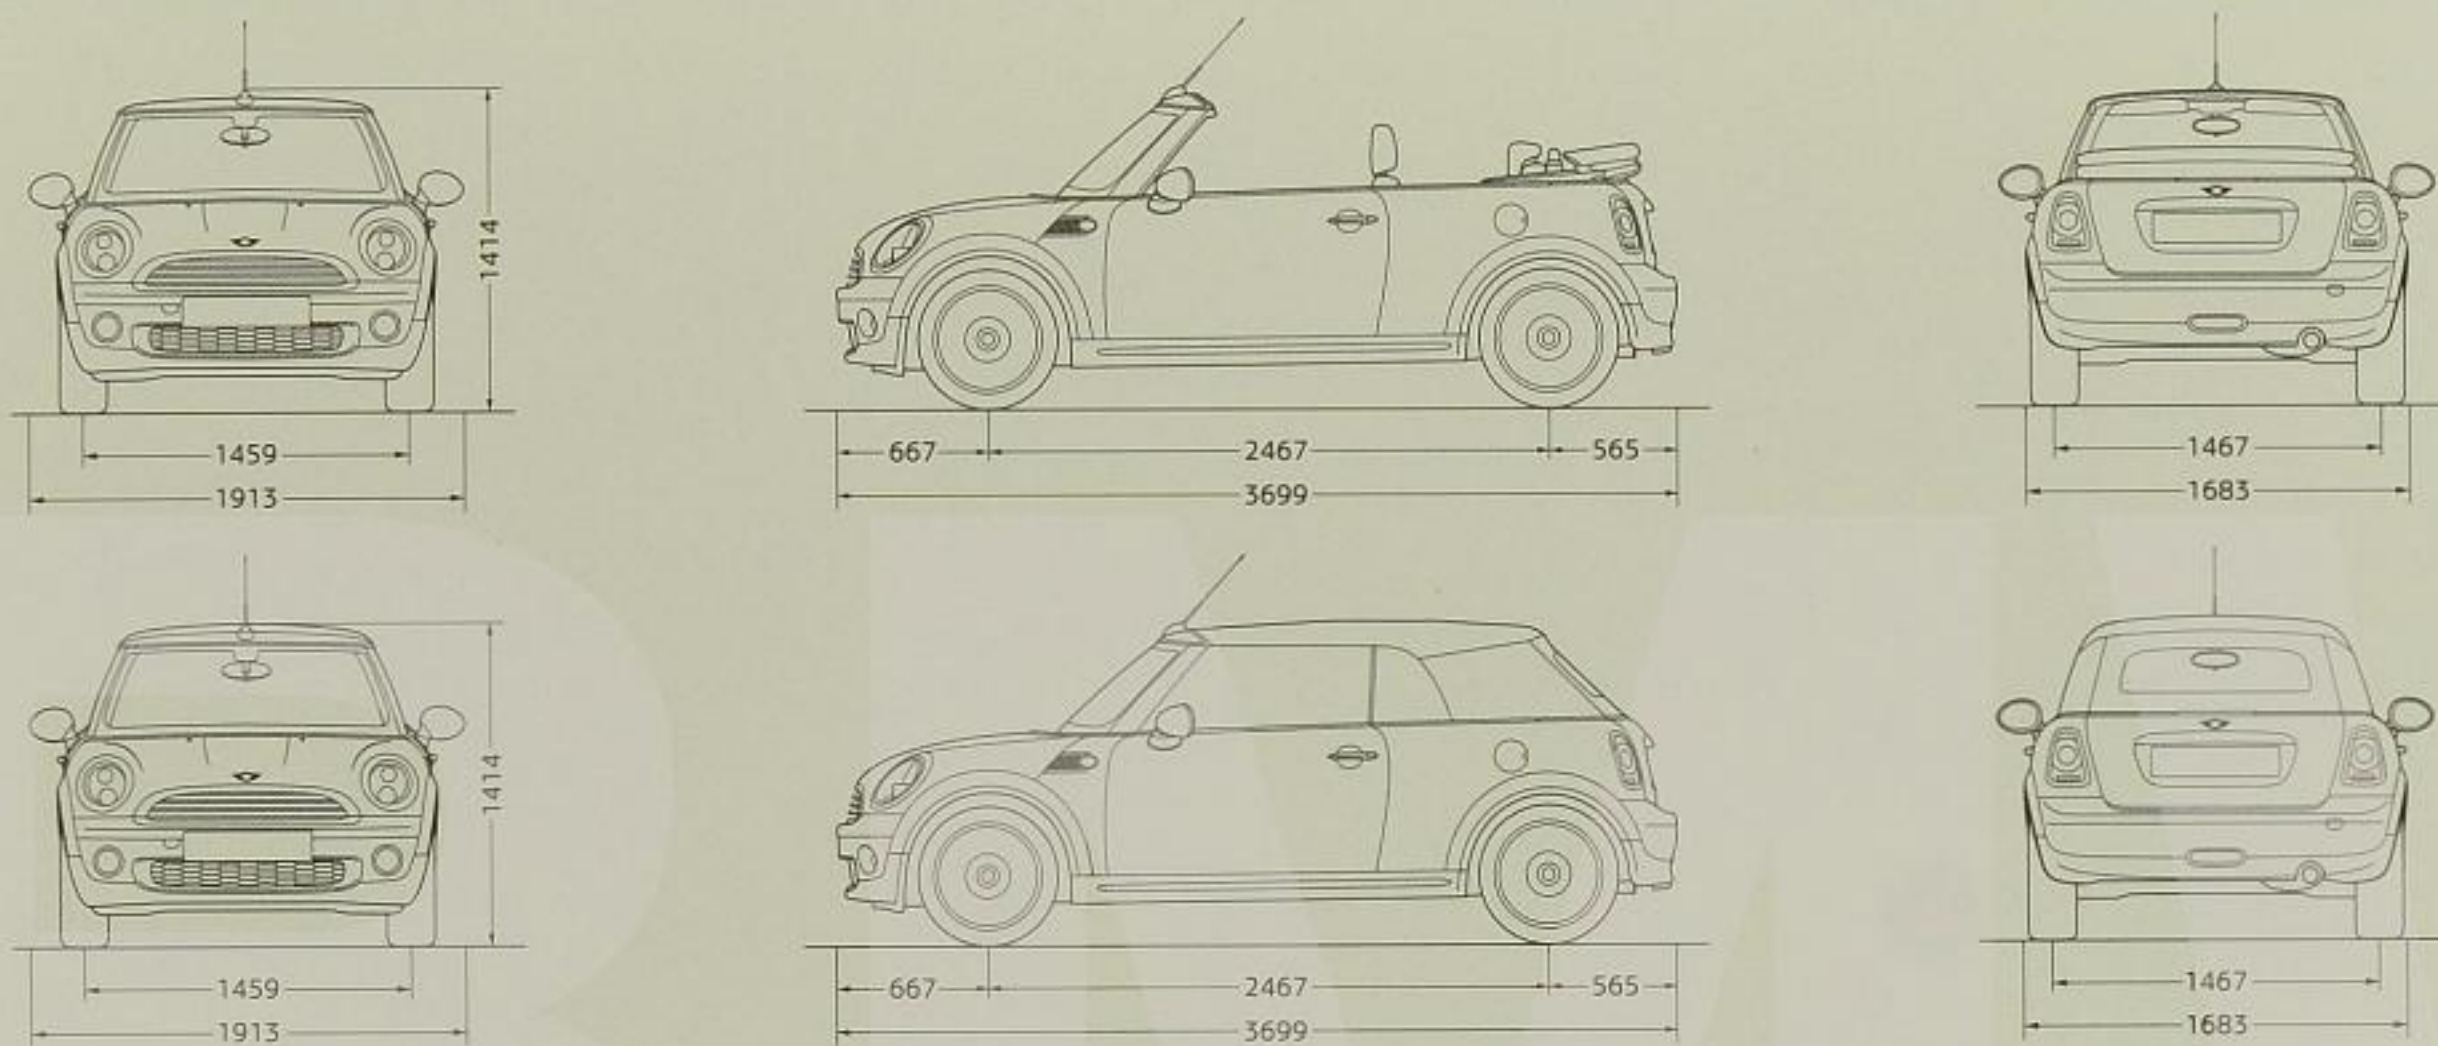

² All MINI models comply with the EU4 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle, made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption.

³ With overboost function.

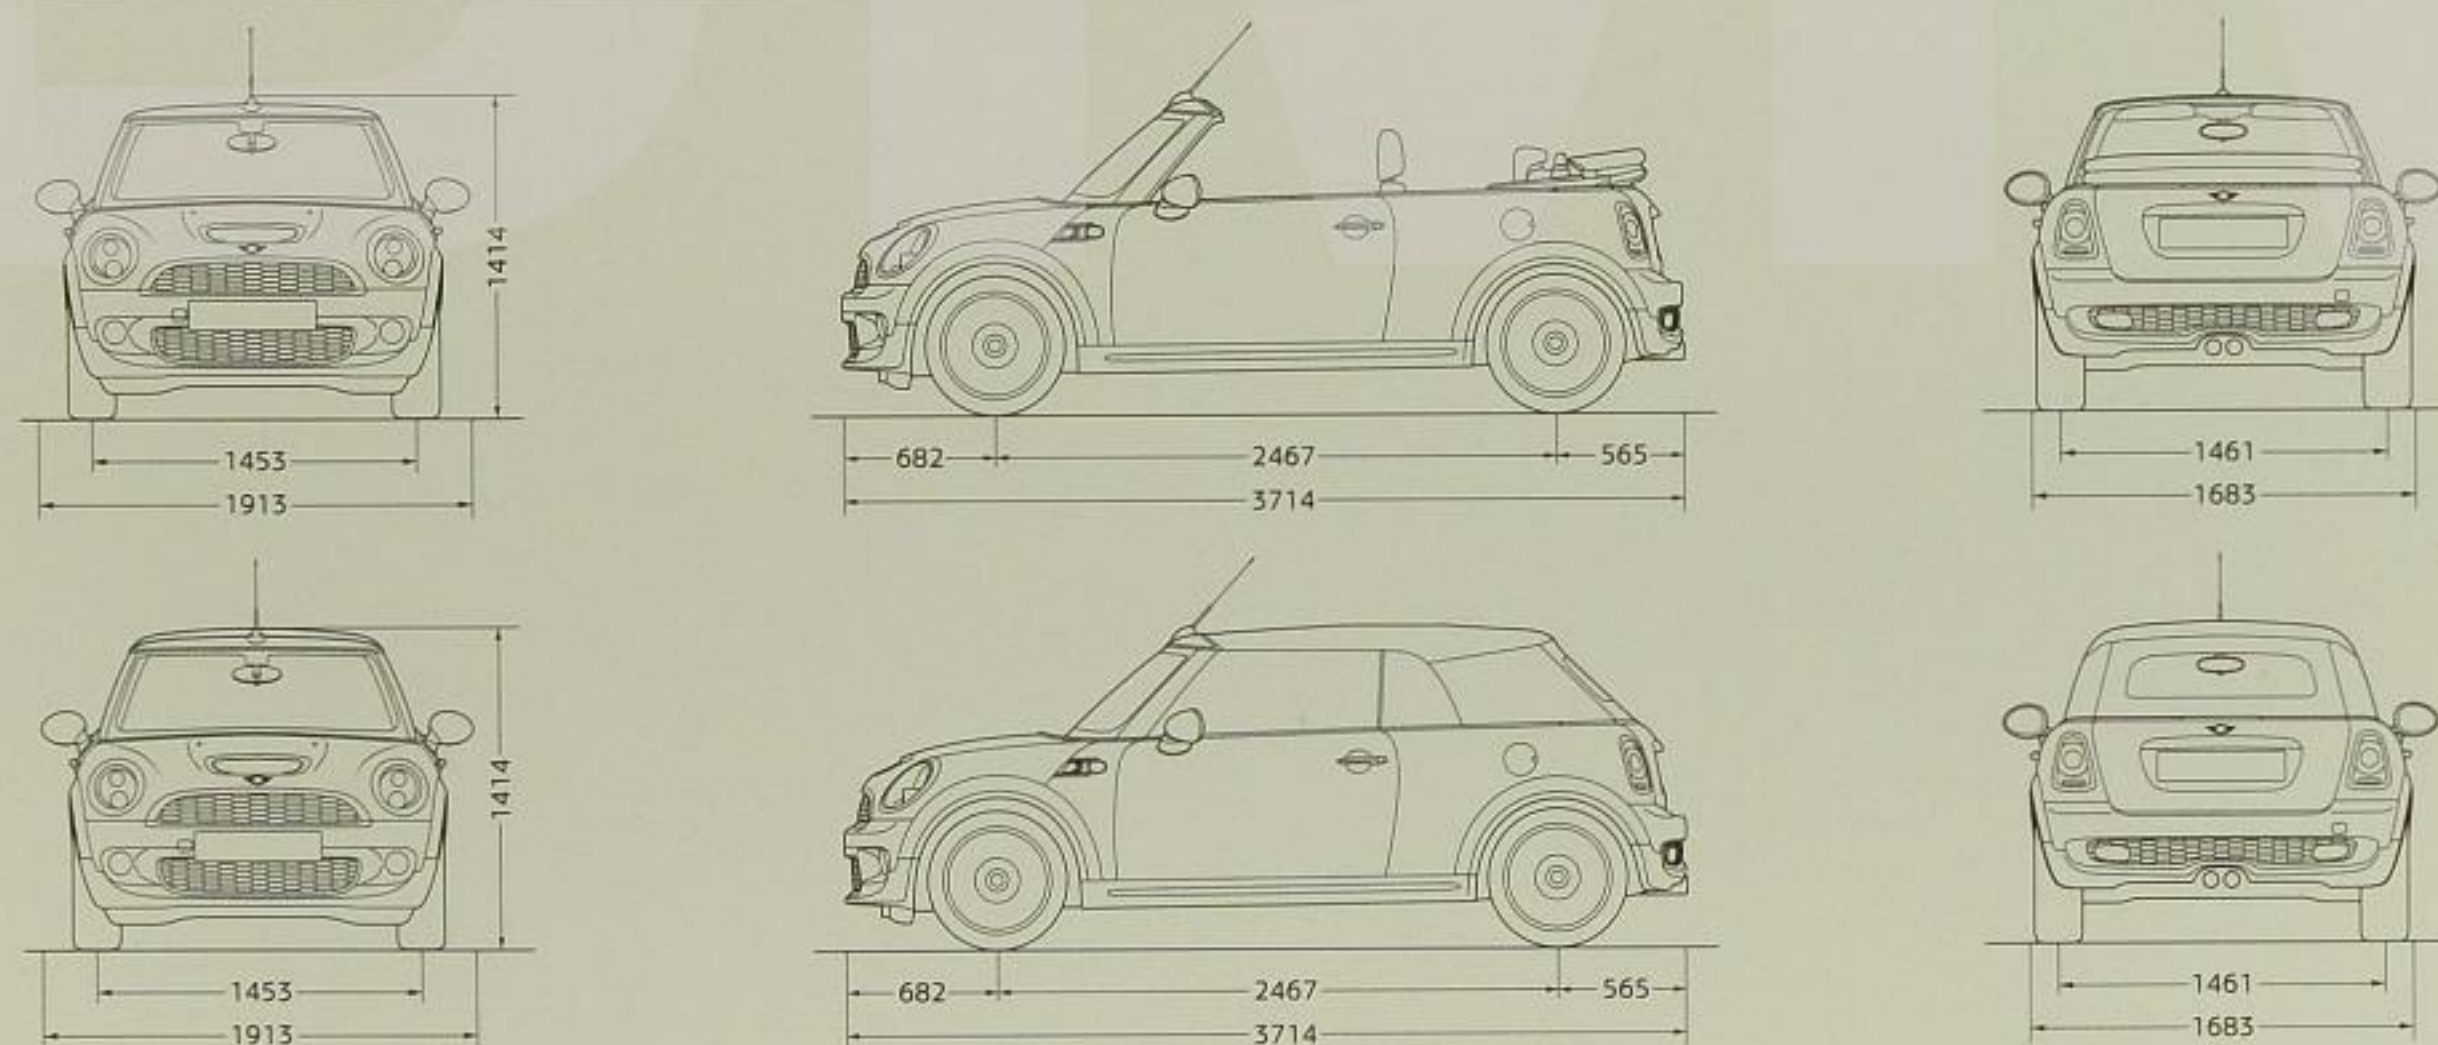

⁴ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

DIMENSIONAL DRAWINGS.

MINI COOPER CONVERTIBLE

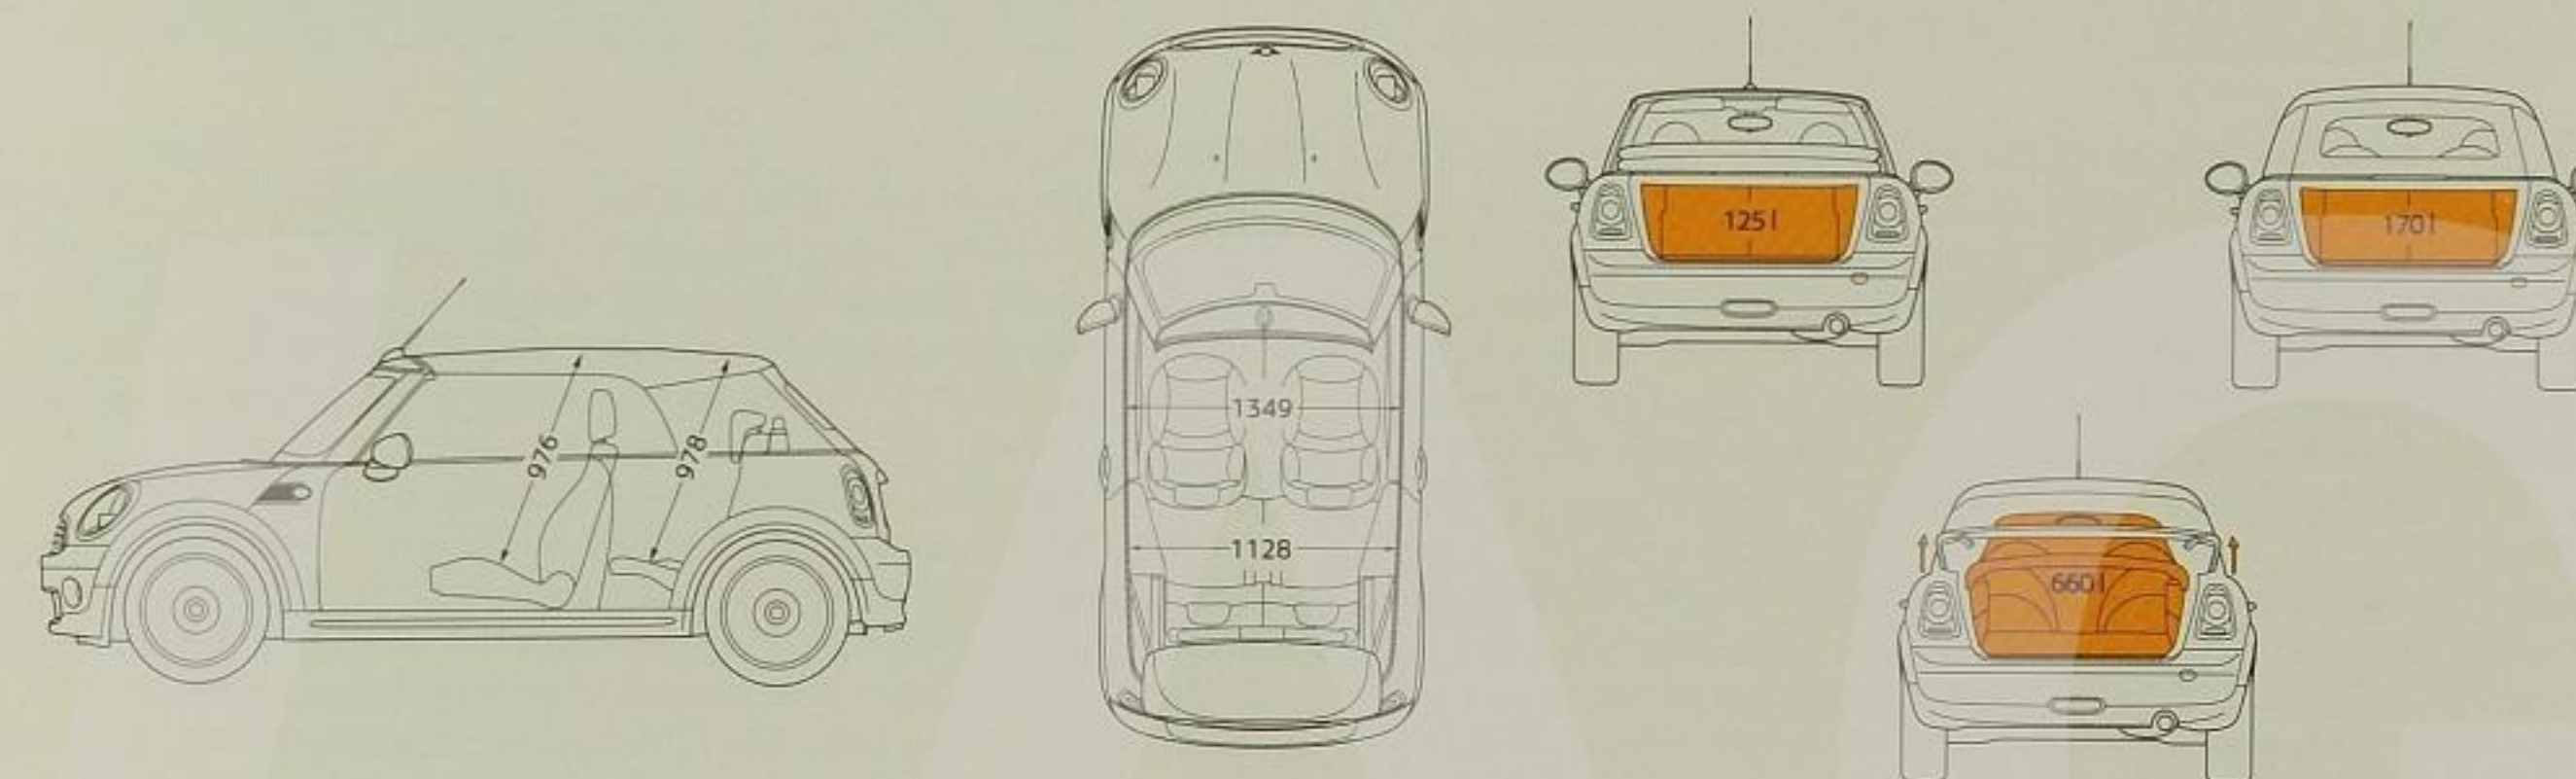

MINI COOPER S CONVERTIBLE

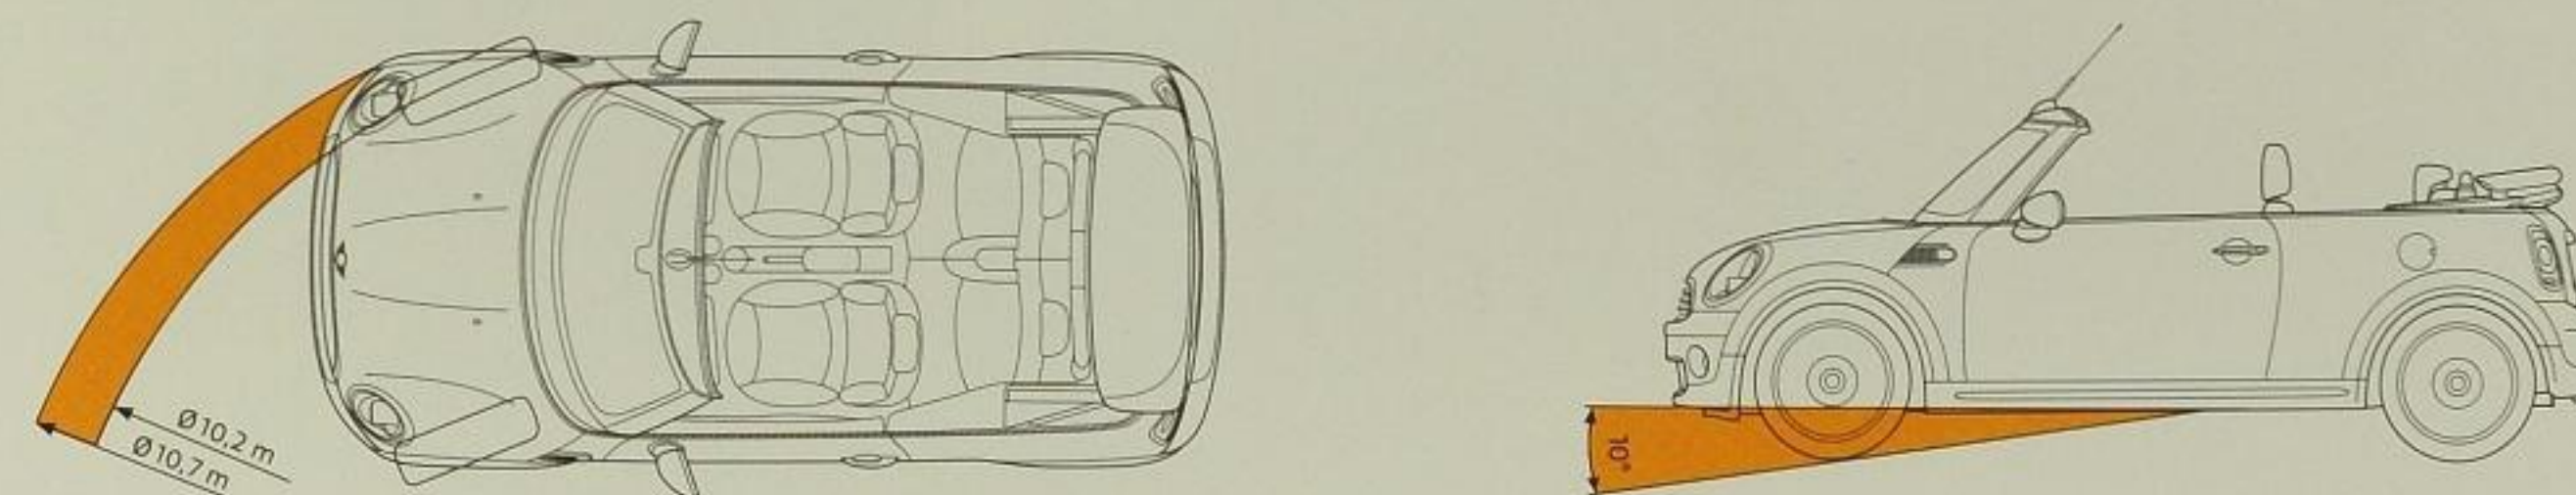

Even with the top up, the MINI Convertible offers plenty of headroom, with 976 millimetres between seat and roof in the front, and 978 millimetres in the rear. And with 1,349 millimetres of elbow room in the front and 1,128 millimetres in the back, passengers will have plenty of personal space even when there are four people in the car.

The luggage capacity varies from 125 litres to 660 litres with the rear backrest folded down.

As well as being a sporty performer on the open road, the MINI Convertible is also highly agile in a tight spot, with a turning circle of just 10.7 metres.

A ramp brakeover angle of 10 degrees prevents the car from grounding and makes underground car parks a much less stressful experience.

SENSIBLE REASONS TO CHOOSE A MINI.

MINI TLC¹ – 5 YEAR SERVICE PACKAGE FOR A SINGLE PAYMENT OF £185.

Using a simple voucher system, MINI tlc ensures your MINI will be kept in tiptop shape by your chosen local MINI Service Authorised Workshop for up to 5 years/50,000 miles – whichever comes first, all for £185 (incl. VAT). Ask your dealer for more details. (MINI tlc must be purchased within 30 days of delivery to enjoy this special introductory price).

MINI TLC XL².

You don't even have to give up the peace of mind that MINI tlc gives you after 5 years. Once your 5 years service package has run out you can purchase MINI tlc XL, an additional 3 years/30,000 miles (whichever comes sooner), for £370. Alternatively, if you know you'll be keeping your MINI for longer than 5 years, you can purchase MINI tlc and MINI tlc XL together when you first order your car to give yourself fixed cost servicing for up to 8 years/80,000 miles for £555. Ask your MINI Service Authorised Workshop for full details, terms and conditions.

DEPRECIATION.

MINI's are famous for holding their value well. In fact the MINI Hatch was officially the slowest depreciating car in 2007, awarded by Parkers, the industry experts. It's one of the factors that the car magazines take into account when looking at the 'real' ownership costs of any car, so a handy thing to check while you're researching your next car purchase.

LOWER EMISSIONS AND LOWER FUEL CONSUMPTION

MINIMALISM is our name for a range of engineering advances that have resulted in a reduction of between 19 and 28% in emissions and a substantial increase in fuel efficiency across the MINI range. For example the MINI Cooper Convertible achieves 49.6 mpg on the combined cycle and emits only 137 g/km of CO₂. This has a positive impact at your annual car tax. Compare your favourite MINI model against other cars at www.mini.co.uk/comparemini to see just how well we perform.

OUR DEALERS.

Since you're holding this brochure, you may have already been into one of them. Our dealers take a lot of pride in making their showrooms nice places to visit and staffing them with friendly, knowledgeable staff. Our service areas are filled with MINI specialists who know them inside out and are ready to lavish them with care.

MINI PIT STOP

MINI has been designed to make servicing a breeze when carried out by the experts. It's done quickly and efficiently by our MINI technicians, who have all the right equipment. In most cases they can do the work while you wait, and there's even a valet service, MINI Spa, to make sure your MINI looks stunning – inside and out. While it's being looked at, you can go for a wander or have a cuppa. Some dealers have special arrangements with a local gym or pool, so you could even relax there. Ask your local MINI Service Authorised Workshop for details.

MINI EMERGENCY SERVICE.

MINI Emergency Service cover comes for three years as standard with every new MINI. It's been designed to help you out in motoring emergencies and includes a comprehensive range of benefits, including replacement car and MINI re-delivery.

¹ MINI tlc covers the cost of the parts, lubricants and labour involved in all MINI servicing up to 5 years/50,000 miles (whichever comes first). It does not cover repair and maintenance items (i.e. brake pads, second brake fluid change). Ask your dealer for full details.

² MINI tlc XL offers the same level of cover as MINI tlc for up to a further 3 years/30,000 miles, whichever comes first. Ask your MINI Dealer for further details.

MINI FINANCIAL SERVICES.

Our finance and insurance solutions have a lot in common with MINI itself. Why? Well, they're extremely well designed and you can tailor them to suit your own individual needs.

At MINI Financial Services, we aim to ensure the process of financing your MINI runs as smoothly as the car itself. Every MINI Dealer has a Financial Services Specialist with expertise in motor finance and insurance. Whichever MINI you're interested in, they'll talk through your finance options, explain the solutions we offer and give you all the information you need to make the decision that's right for you. Whether you're looking to finance a MINI for yourself or your company, MINI Financial Services have a variety of ways to help you get your hands on your chosen MINI and make sure you're both protected.

Our comprehensive range of finance and insurance products include:

MINI SELECT.

Keep your options wide open with MINI Select (Personal Contract Purchase). Not only could you get more MINI for your money, you could change your MINI for another one every two to four years*. At the end of your agreement you choose one of three options – part-exchange your MINI for a new one*, pay the necessary payments under the agreement and keep your MINI or hand the car back to us**.

MINI PURCHASE.

The simple, straightforward way to pay for your MINI. Simply agree a monthly payment and deposit to suit your budget and at the end of the agreement, provided you've paid all the necessary payments, your MINI is yours to keep.

MINI DRIVE.

MINI Drive (Contract Hire) is a cost effective way of motoring without the hassle of ownership. It's the ideal solution for businesses looking to run their MINI in a way that cuts down on expense, time and paperwork.**

MINI COVER.

Make sure you have the right cover in place for your MINI. MINI Cover is motor insurance designed to protect your MINI against any unfortunate bumps and scrapes.

MINI TRAVEL.

Insurance to cover you when you're on your travels.

MINI HOME.

You can also protect your home and all the things that matter most to you with MINI Home Insurance.

MINI PROTECT.

Optional cover designed to help protect your MINI finance payments in the event of accident, sickness, critical illness, unemployment or loss of life.

MINI SHORTFALL INSURANCE.

Optional insurance to help cover the difference between your motor insurance payout and the invoice value of your MINI in the event of it being written off.

Please ask your MINI Dealer for more information on the above and to see full policy details and exclusions.

* A new agreement will be subject to status.

** Excess mileage charges and charges in respect of your vehicle may be payable.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. Every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your authorised MINI dealer will also be pleased to advise you on the disposal of your old vehicle.

BMW AG

The models, standard and optional equipment and combinability of options in this brochure relate to cars supplied by BMW AG for the German market. The availability of standard and optional equipment, and the combinability of options, may vary from country to country within the European Union for all models. For detailed information about the situation in your country, please contact your MINI Dealer. Subject to change in design and equipment.
