### MINI NEVER STANDS STILL.

MINI UK reserves the right to introduce improvements or modifications to specifications or cost. A visit to your MINI Dealer is the best way to keep up to date.

The images contained in this brochure feature both left and right hand drive vehicles and are intended for illustration purposes only.

Part number 95 38 0 001 237 03/09

Issued by MINI UK (a trading style of BMW (UK) Ltd),  
Ellesfield Avenue, Bracknell, Berkshire RG12 8TA

### MINI RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. And every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich.

Your MINI Dealer will also be pleased to advise you on the disposal of your old vehicle.

**EXTERIOR DESIGN.**

Why stop at the paint colour when expressing yourself? High-quality **alloy wheels**, unique **exterior details** and of course our famous **roof** and **side decals** let you show your true colours.

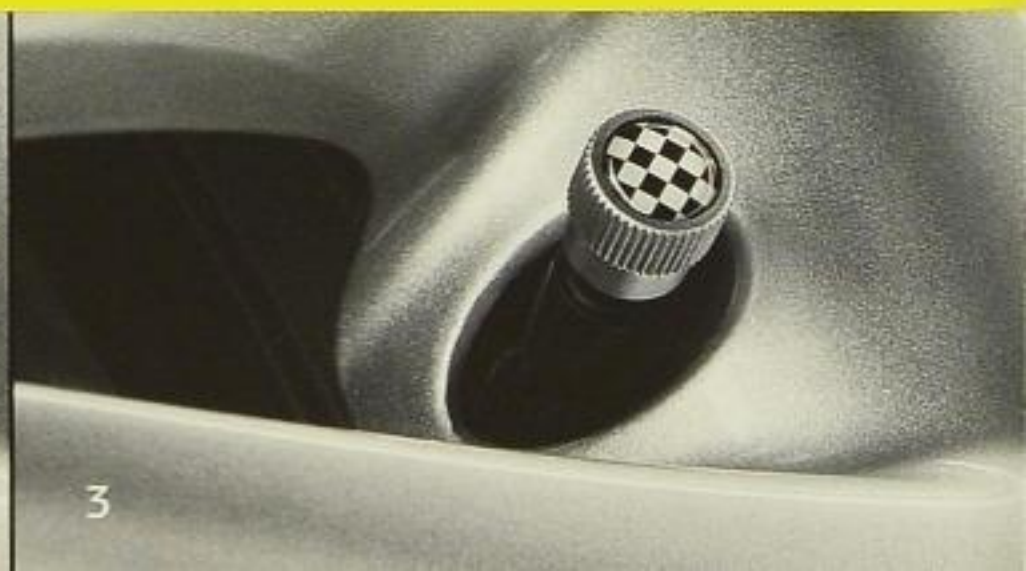

LOOKING GOOD.

1

2

3

Our alloy wheels are produced specifically for MINI models and represent the ultimate in well-rounded design. Each wheel undergoes a lengthy development phase that ensures the highest quality standards are met and once fitted by your MINI Dealer, is guaranteed to deliver driving enjoyment, comfort and safety.

**1 Left: Composite cross spoke alloy wheel R90 in black**  
Size 7Jx17-inch, 205/45 R17 V complete wheel and tyre set with Runflat tyres.

**1 Centre: S-spoke alloy wheel R85 in chrome**  
Size 7Jx17-inch, 205/45 R17 V complete wheel and tyre set with Runflat tyres.

**1 Right: Multi spoke alloy wheel R108 in matt black**  
Size 7Jx17-inch, 205/45 R17 V complete wheel and tyre set with Runflat tyres.

For a full list of all alloy wheel designs available, please see the range overview on page 42.

### 2+3 MINI valve caps

The style is in the detail. Available with either the Union Jack or Chequered flag design.

## TIP-TOP DESIGN.

The Union Jack design pays homage to MINI's proud fifty-year history – what better reason could there be to fly the flag?

Abrasion-resistant and waterproof, the adhesive film is available for the roof of both the MINI and the MINI Clubman. In the case of the MINI Clubman, the flag design extends to the side dune lines so that it is visible from all angles. A range of other details featuring the Union Jack design, such as the exterior and interior mirror covers, door handles and side scuttles, complete the look of your MINI, MINI Clubman or MINI Convertible perfectly.

- 1 Door handles with Union Jack design
- 2 Side scuttles with Union Jack design
- 3 Roof decal with Union Jack design
- 3 Exterior mirror covers with Union Jack design

For a full list of all the designs available, please see the range overview on pages 42 – 46.

,

Chequered flag design for roof

MINI lettering for roof

Black Jack design for sunroof

# RAISE THE ROOF.

The Chequered flag design symbolises MINI's long connection with the world of motorsport and lets you take first place every time.

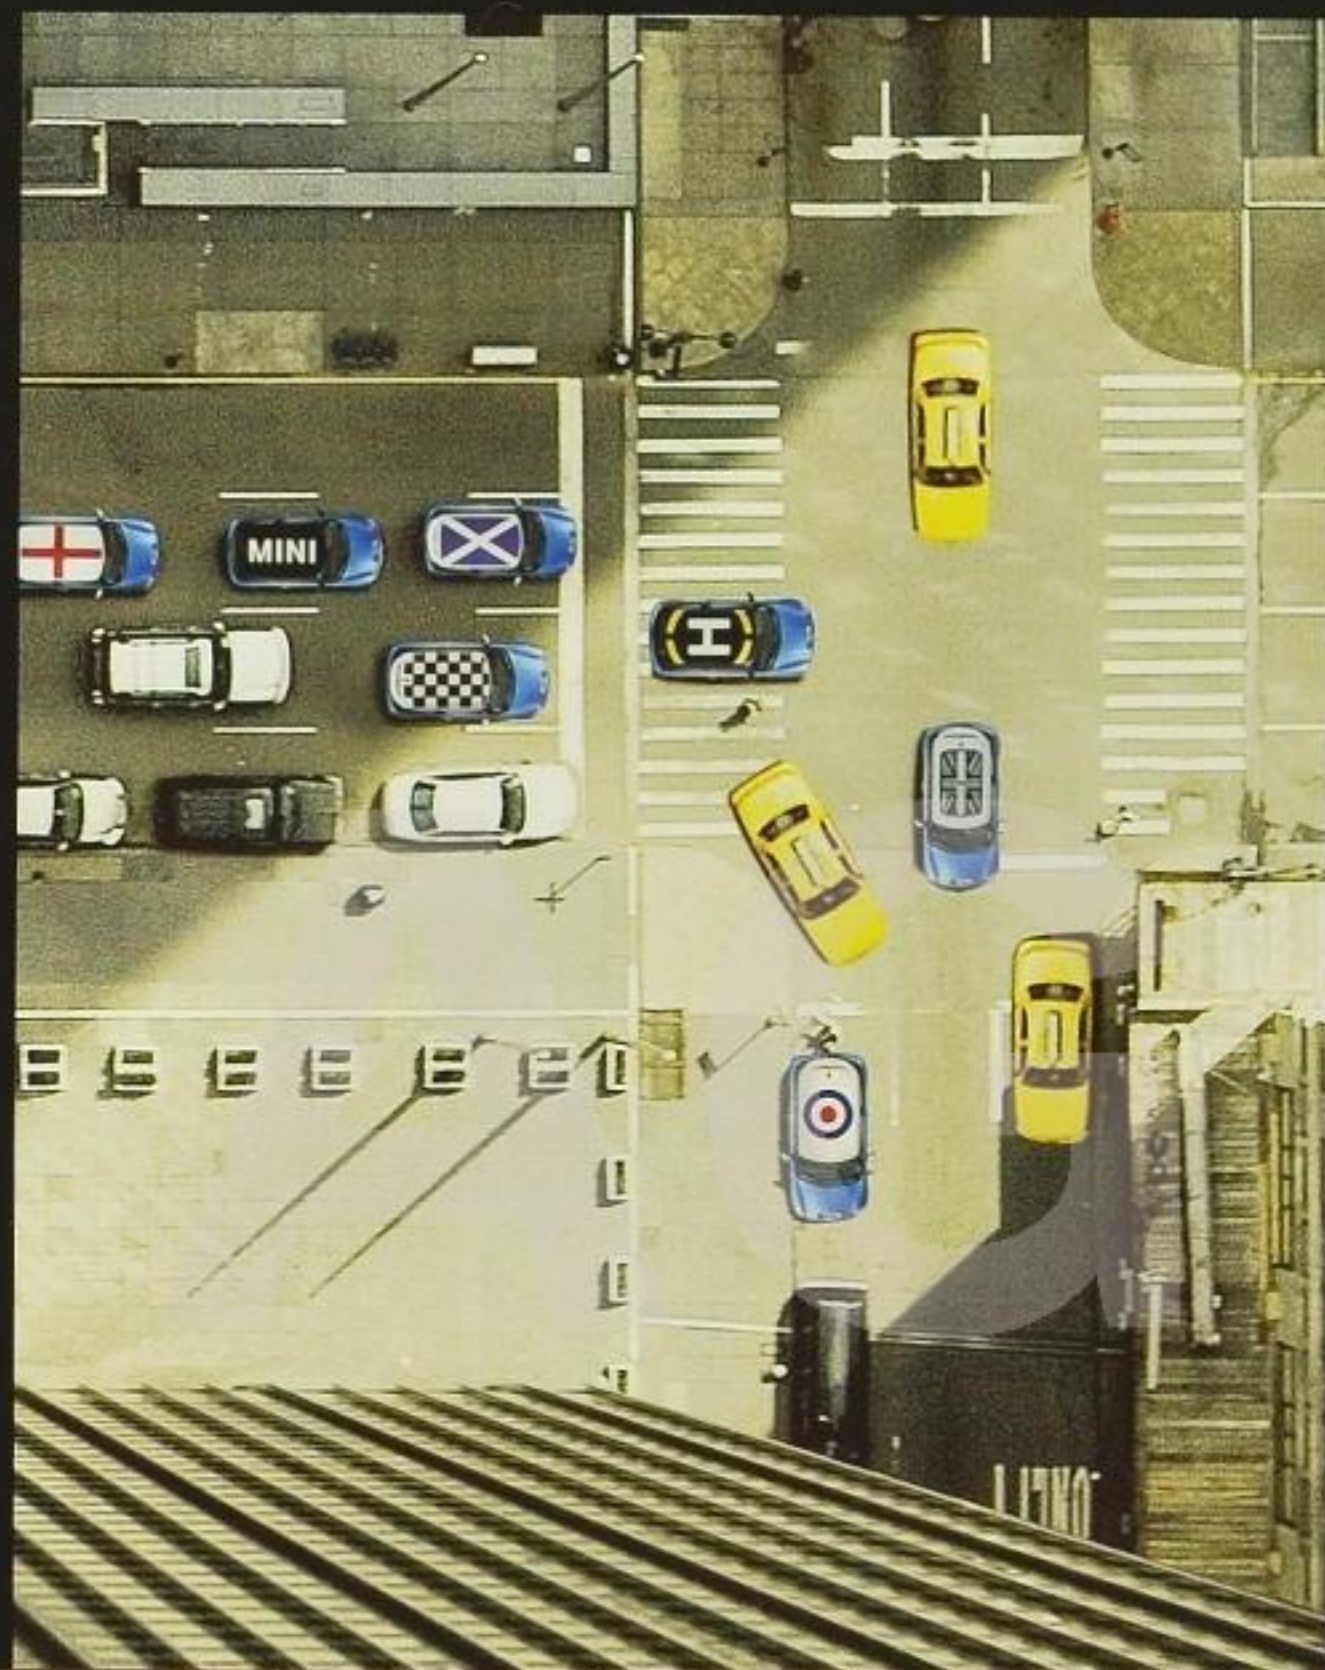

The Chequered flag roof decal is available for the MINI and the MINI Clubman with or without a sunroof, while matching exterior and interior mirror covers, door handles, bonnet stripes and side scuttles are available for the MINI, MINI Clubman and MINI Convertible.

- 1 Roof decal in Chequered flag design
- 1 Rear-view mirror cover with Chequered flag design
- 1 Door handles with Chequered flag design
- 1 Exterior mirror covers with Chequered flag design
- 1 Side scuttles with Chequered flag design
- 1 Additional headlights in chrome

Of course, there are many other options for tailoring what your MINI's got up top. How about the classic MINI lettering or a national flag? Or maybe something else?

For a full list of all the designs available, please see the range overview on pages 42 – 47.

MINI roof decals are not suitable for vehicles with glass sunroofs, unless otherwise stated. To ensure the decal retains its colour avoid using polish.

St George's Cross for white roofs

St Andrew's Cross for white roofs

Welsh flag for white roofs

BRIMAC

# PERSONALISATION ON A PLATE.

Liven up the rear end of your MINI or MINI Convertible with these smart and stylish number plate backing decals. High quality, long life designs add the final touch to your MINI's overall look.

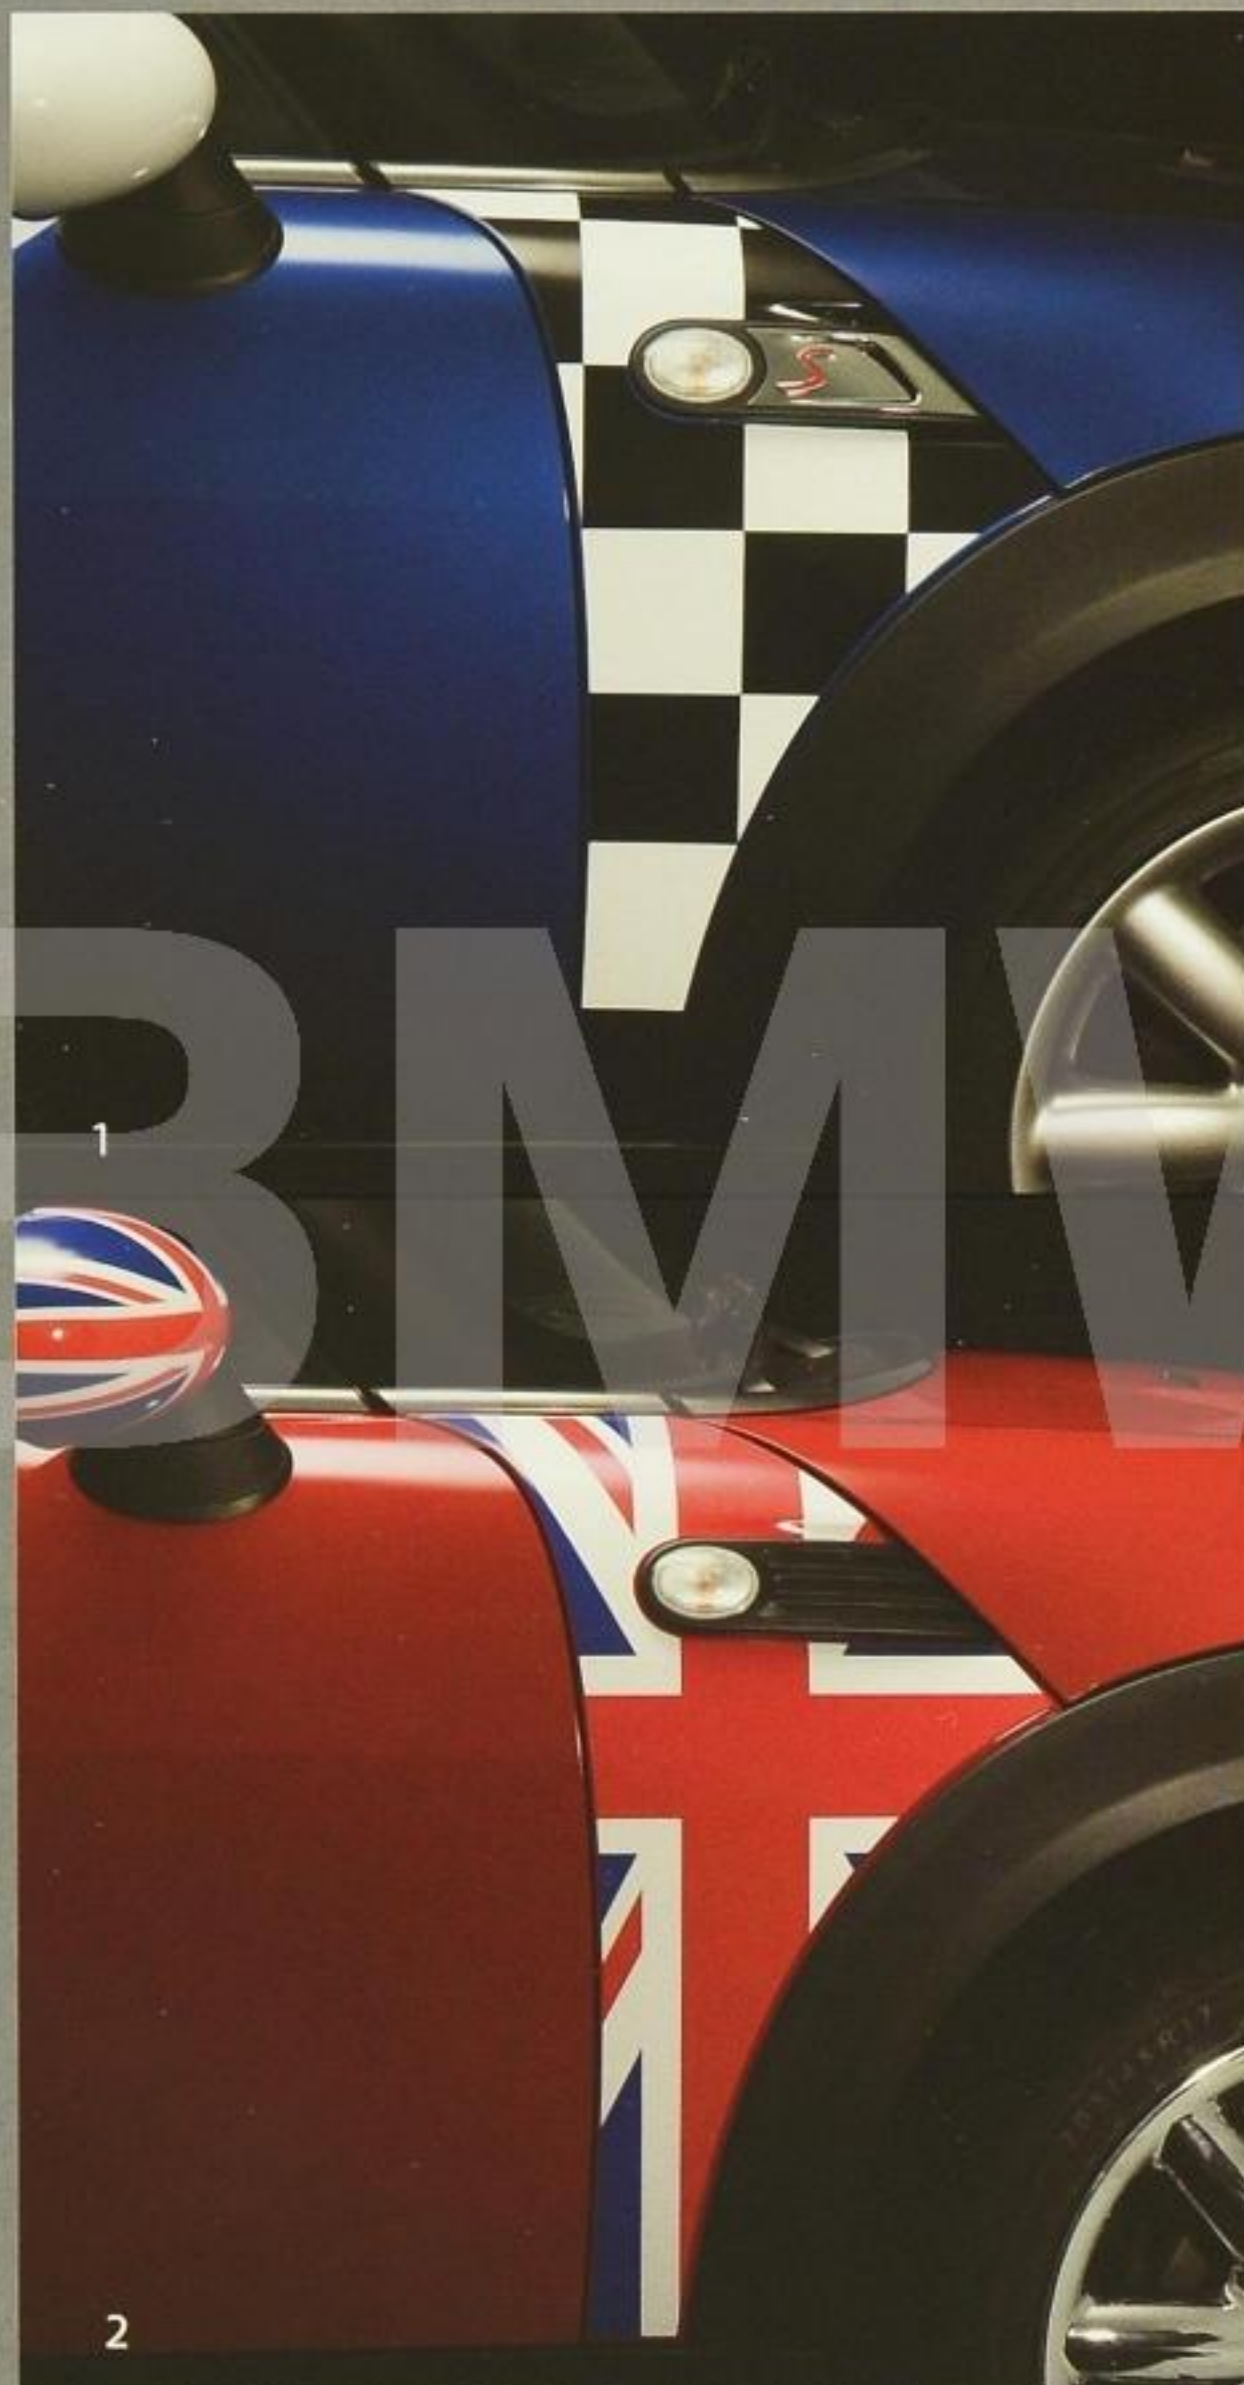

Choose from Chequered flag, solid Black, Black Jack or Union Jack designs.

- 1 Rear number plate decal in Chequered flag design
- 2 Rear number plate decal in solid Black design
- 3 Rear number plate decal in Black Jack design
- 4 Rear number plate decal in Union Jack design

To ensure the decal retains its colour avoid using polish.

## A-PANELS TO B SEEN WITH.

These top quality A-Panel decals will give your MINI a wild side. Long life, anti-fade and brazenly sporty they are a unique way to make your MINI, MINI Clubman or MINI Convertible stand out. Choose from Chequered flag, Union Jack or Black Jack designs to tie in perfectly with your car's overall look.

- 1 A-Panel decals with Chequered flag design
- 2 A-Panel decals with Union Jack design
- 3 A-Panel decals with Black Jack design

To ensure the decal retains its colour avoid using polish.

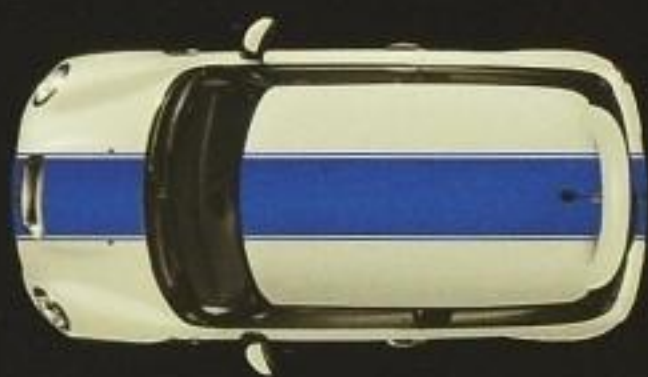

1

Full blue racing stripe

Full white racing stripe

Full silver racing stripe

# STAND OUT.

The front and rear sport stripes can be specified in one colour whilst the roof stripes can be specified in an other to really make your MINI or MINI Clubman stand out.

The side stripes, available in white, black or silver are a great addition to add an individual twist.

- 1 Side stripes pair, white
- 1 Bonnet and tailgate sport stripes, white
- 1 Roof sport stripes, red
- 2 Bonnet and rear door sport stripes, white
- 2 Roof sport stripes, black

The range of decals available extends to the Racing and Viper stripes, available for MINI, MINI Clubman and MINI Convertible models in white, black, red, silver or blue.

For a full list of all the designs available, please see the range overview on pages 44/45.

MINI roof decals are not suitable for vehicles with glass sunroofs, unless otherwise stated. To ensure the decal retains its colour avoid using polish.

**1 Side scuttles with Black Jack design**

**1 Exterior mirror covers with Black Jack design**

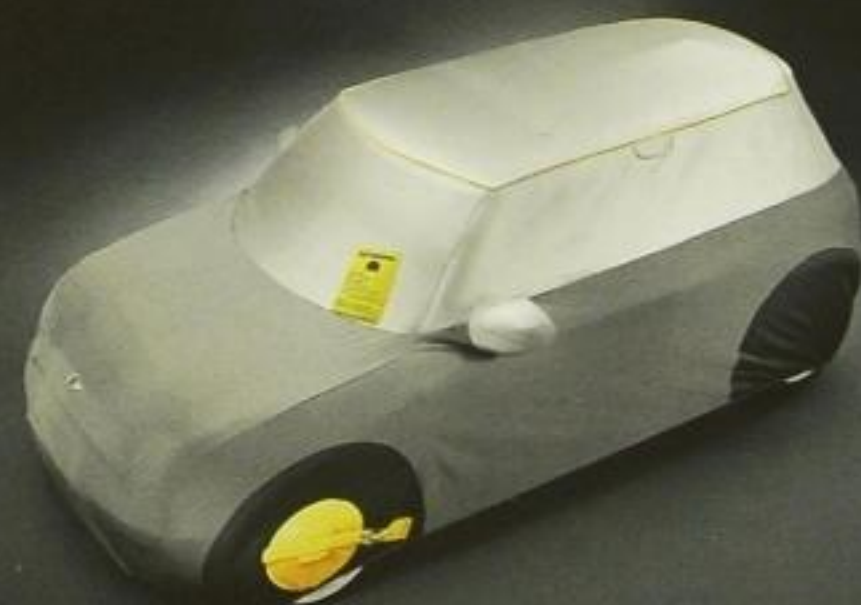

**1 Sport stripes in black**

**1 Door handles with Black Jack design**

**1 Additional headlights in black**

3

4

# GONE WITH THE WIND.

The MINI wind deflector puts an end to uncomfortable draughts and swirling wind. It features a brilliant anodised frame and is operated from the driver's seat. What's more, the integrated pockets, featuring firm bases with the Chequered flag design, offer additional storage space for small items.

2

5

## COVER UP.

The car covers for the MINI, MINI Clubman and MINI Convertible combine good looks with practicality. Choose from a wide range of designs and between the weatherproof outdoor and dustproof indoor versions.

- 3 Outdoor car cover for MINI Clubman
- 4 Outdoor car cover for MINI
- 5 Indoor car cover for MINI Convertible

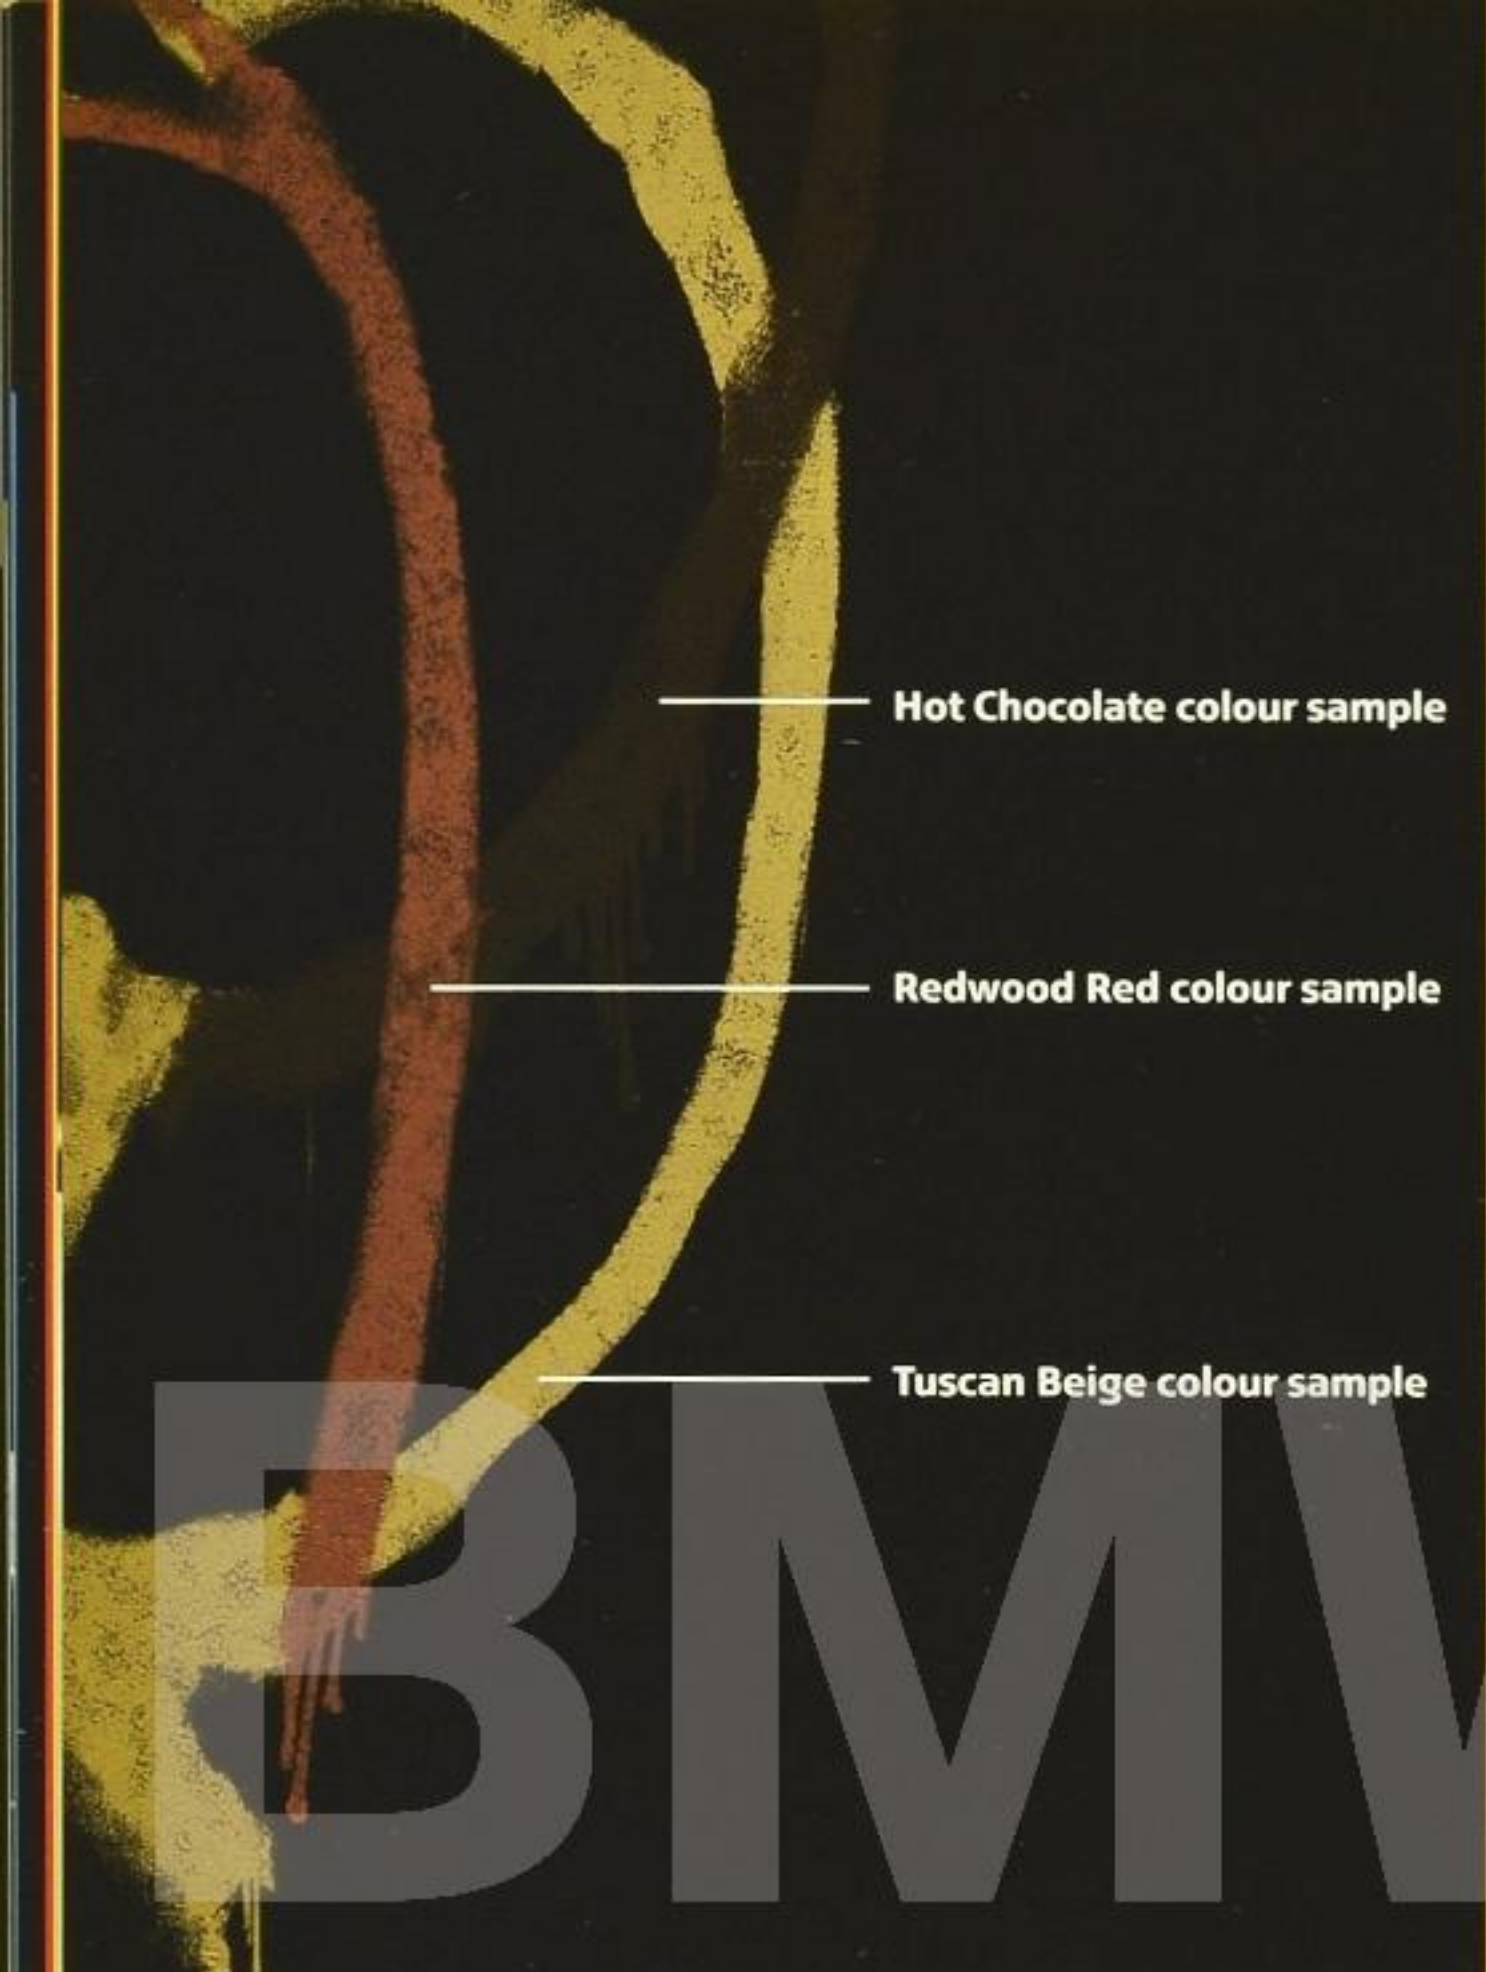

**INTERIOR DESIGN.**

With sophisticated materials and unique **designs**, special **interior trims**, the finest **leather** and creative **storage solutions**, there's no reason why the ideas inside your head can't be brought to life inside your MINI.

Hot Chocolate colour sample

Redwood Red colour sample

Tuscan Beige colour sample

#### COLOURS THAT SOUND AS GOOD AS THEY LOOK

Evocative names such as Redwood Red and Tuscan Beige prove that our colours don't just look good. Some even sound delicious – take Hot Chocolate, for example. And why not? Design is a question of taste after all.

## A TOUCH OF CLASS.

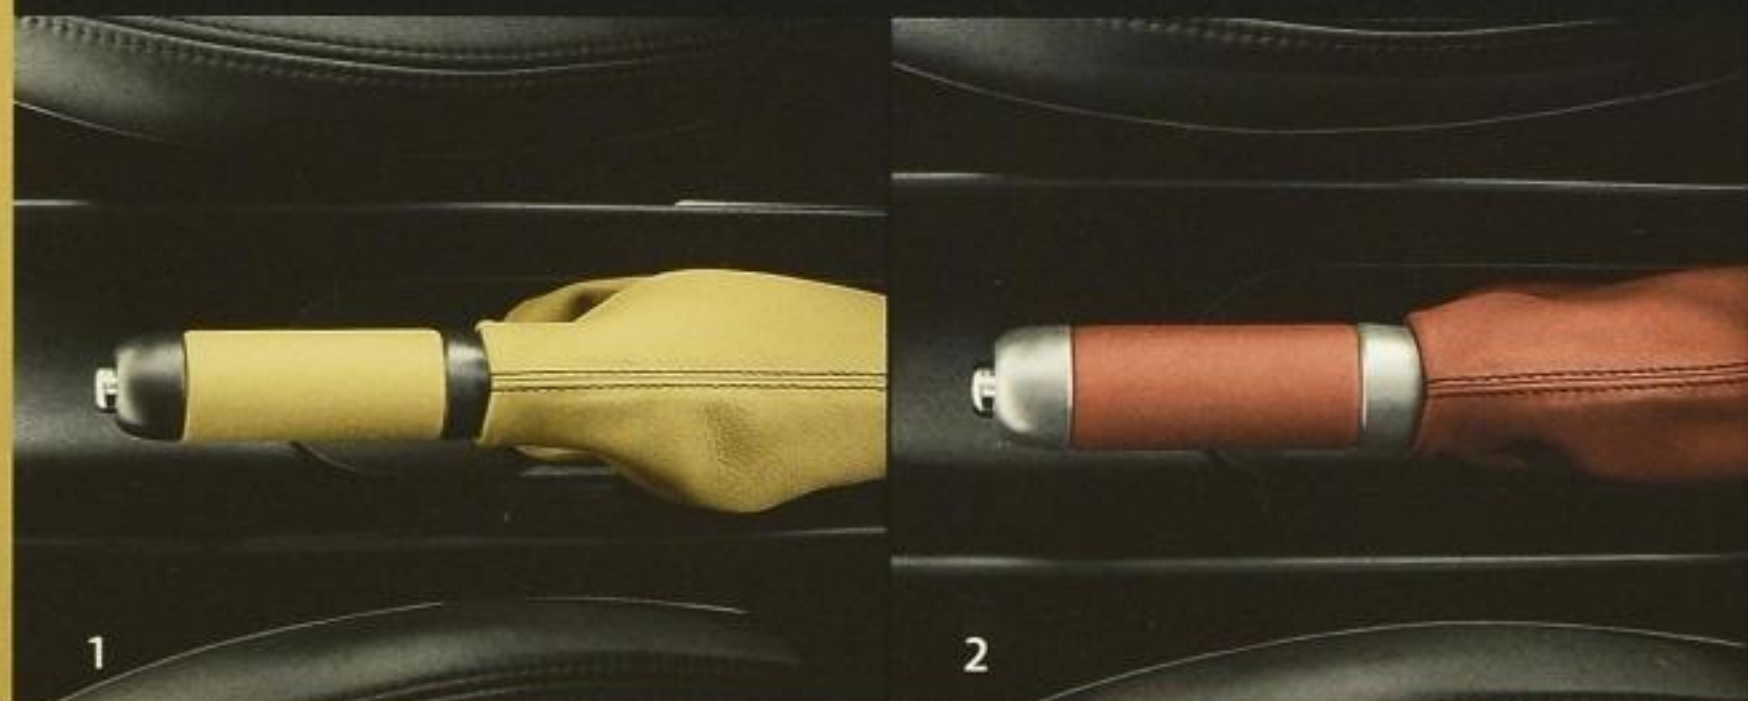

Show you've got what it takes in the style stakes by designing the interior of your MINI however you see fit.

A wide variety of high-quality materials, stylish finishes and innovative ideas are available to choose from. The leather-covered steering wheel offers incredible grip, while the optional multifunction buttons allow you to operate features including cruise control and the radio. You can further customise your interior with your choice of colour (Tuscan Beige, Redwood Red or Hot Chocolate).

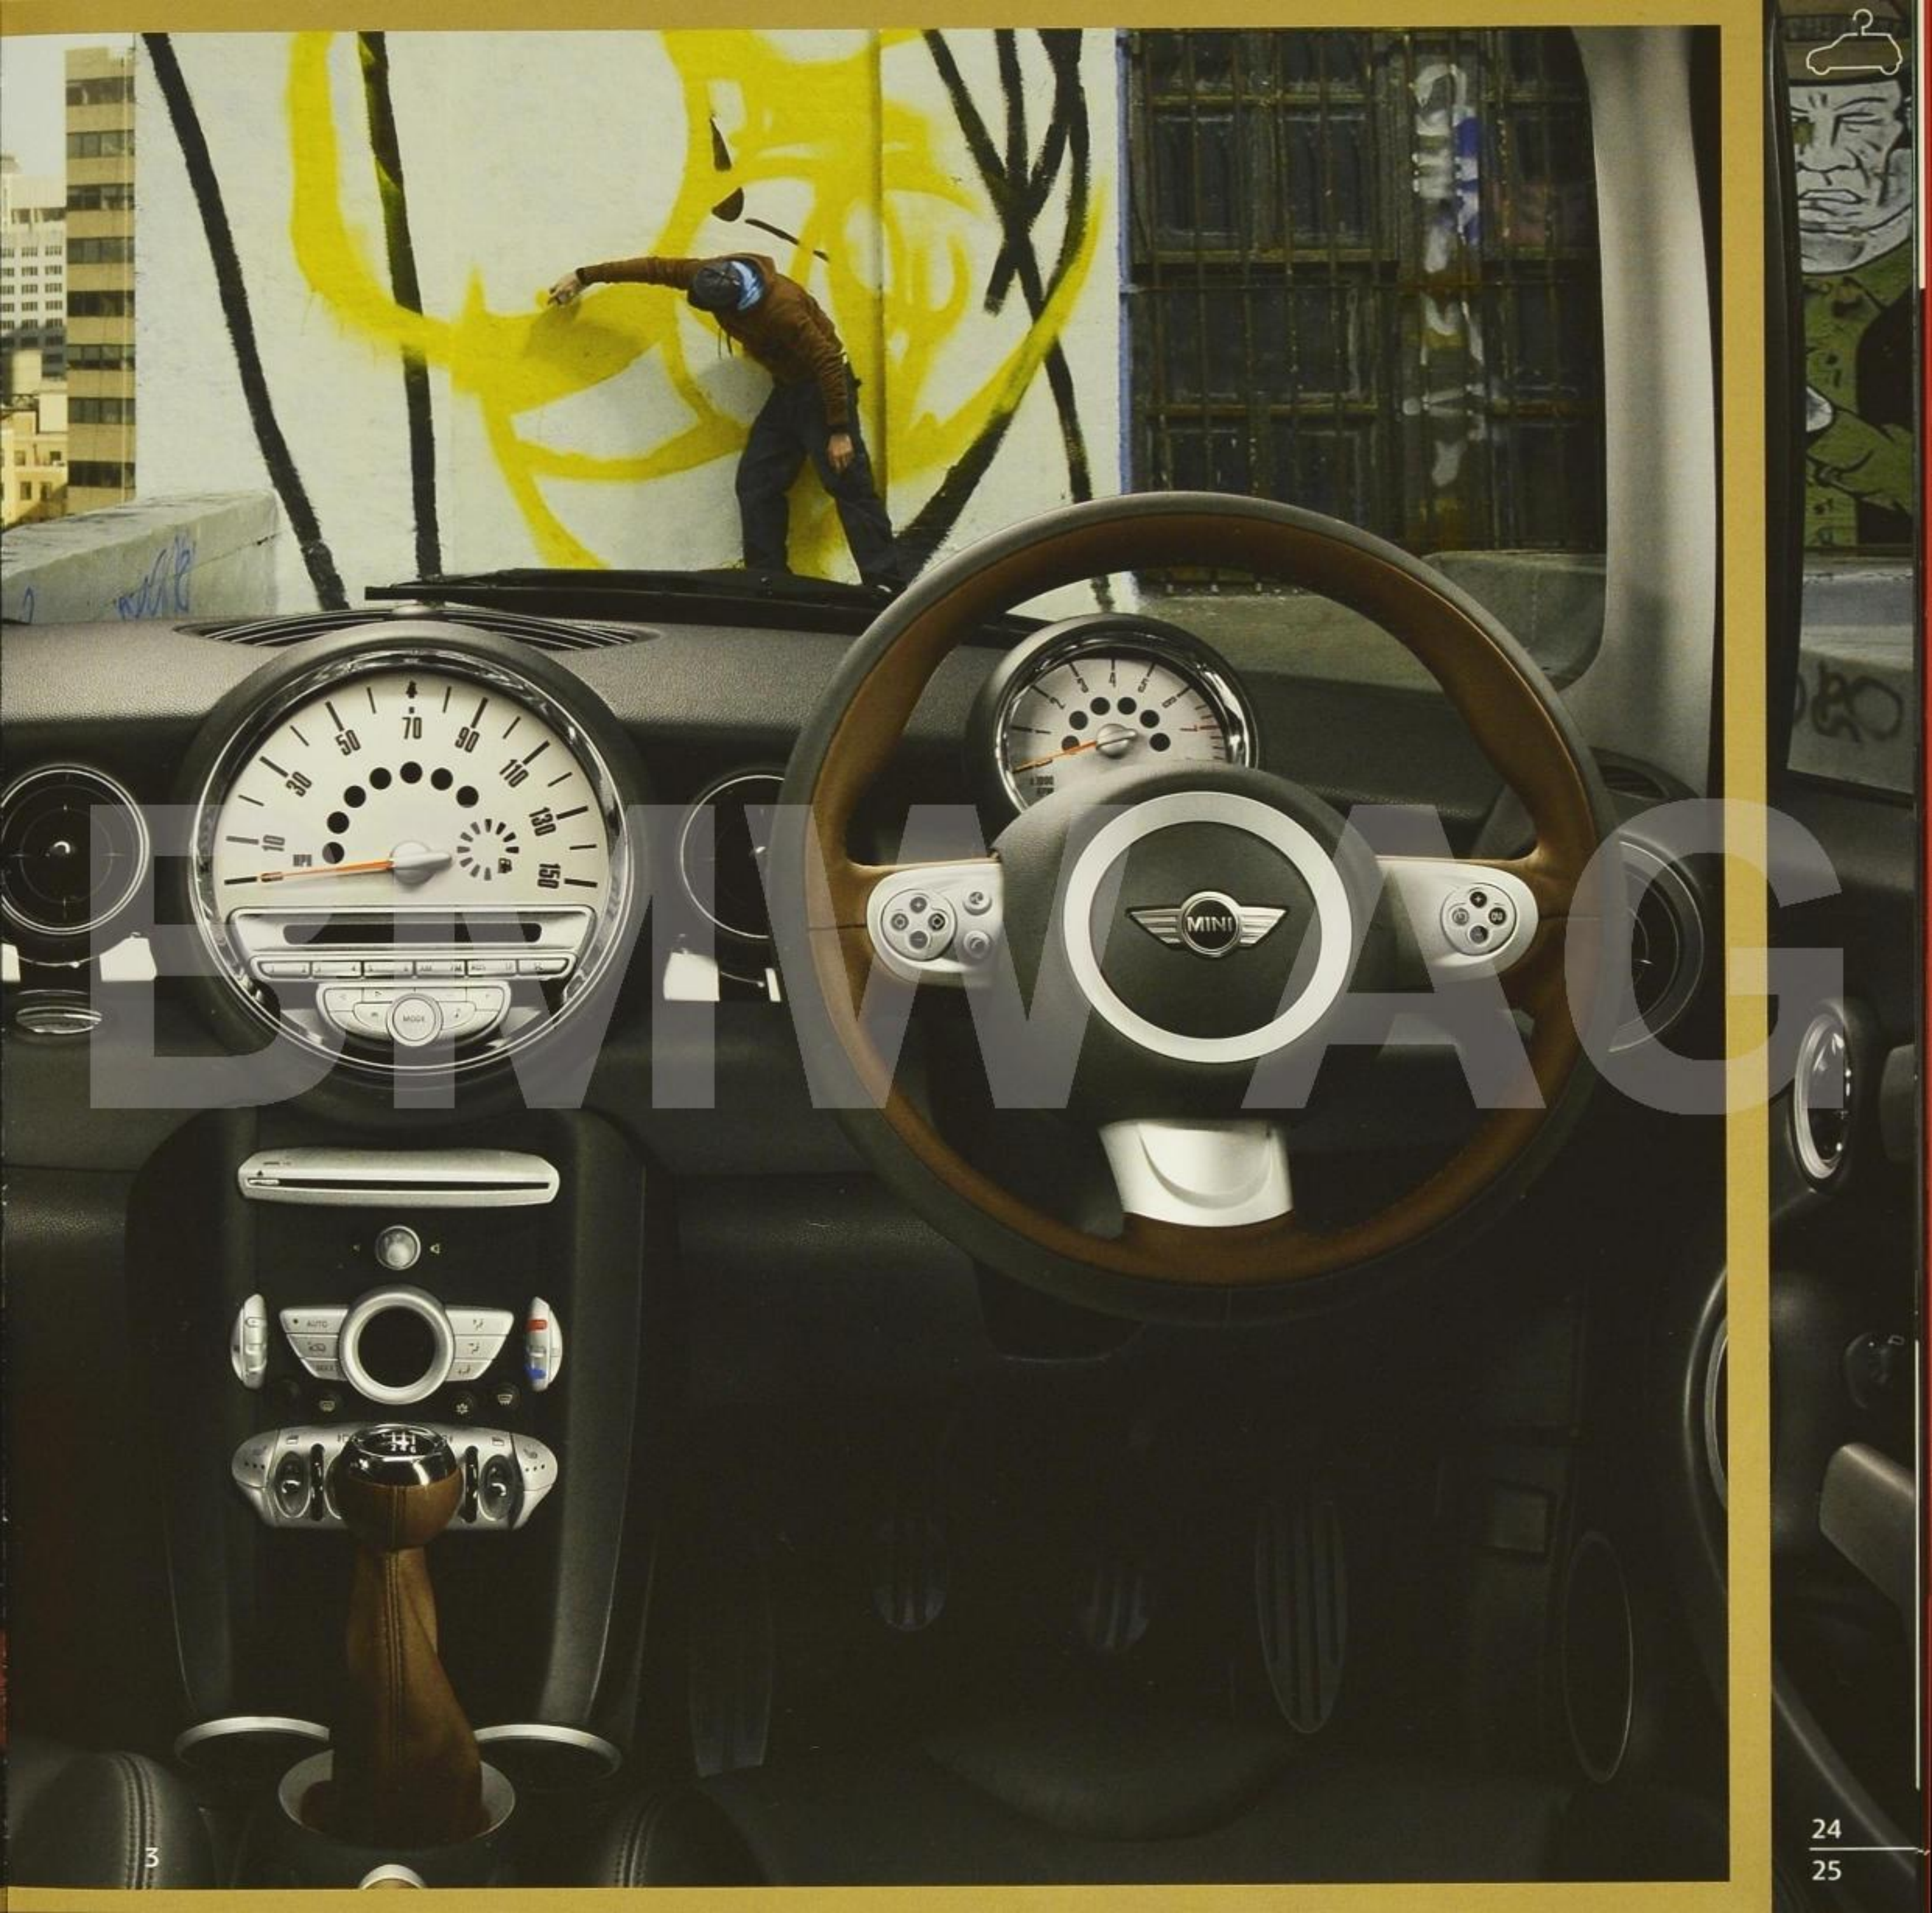

Complement the elegant styling of the steering wheel with leather trims (gear lever knob and gearshift gaiter or selector lever grip and gaiter) in the selected colour. In addition a wide range of interior trims (such as the Chequered flag design shown here) are available to ensure that whatever your tastes, MINI has got it covered.

- 1 Handbrake grip and gaiter in Tuscan Beige
- 2 Handbrake grip and gaiter in Redwood Red
- 3 Leather-covered sport steering wheel in Hot Chocolate
- 3 Leather-covered gear lever knob and leather gearshift gaiter in Hot Chocolate
- 3 Interior trims in Chequered flag design

For an overview of all available products and variants, see the range overview on pages 48/49.

# STEPPING OUT.

As good as any red carpet, these illuminated door entry strips put your MINI a step ahead of the rest.

We offer a host of design options for the door entry strips of your MINI, MINI Clubman or MINI Convertible (available in illuminated or non-illuminated versions).

The options continue with the floor mats, where you can choose between a variety of different materials and patterns. The mats are sold in packs of two for the front (also available separately) and the rear.

- 1 Door entry strip (illuminated or non-illuminated) with Chequered flag design for MINI and MINI Convertible
- 1 Rubber floor mat in Carbon Black with MINI logo
- 2 Door entry strip (illuminated) with "MINI Cooper S" lettering for MINI and MINI Convertible
- 3 Door entry strip (illuminated or non-illuminated) with Union Jack design for MINI and MINI Convertible
- 4 Door entry strip (illuminated or non-illuminated) for MINI Clubman

For a full list of all the designs available, please see the range overview on page 49.

**MINI baby seat 0+<sup>1</sup>**

0 – 18 months, 3 – 13 kg

**MINI junior seat I-II<sup>1,2</sup>**

Approx. 9 months – 7 years, 9 – 25 kg

## HAVE A SEAT.

However small your passengers, safety is always a big issue. MINI child seats offer all the peace of mind you could wish for, as well as exceptional levels of comfort and quality and can be fitted with a minimum of fuss.

The MINI baby seat 0+ is for children weighing between 3 and 13 kilograms (around 18 months) and features a removable sun screen. It is always fitted facing away from the direction of travel and the baby seat shell can be released from the mounting for use as a carrycot. It can also be fitted on the front seat when the passenger airbag is deactivated. Your MINI Dealer will be happy to answer any questions about airbag deactivation.

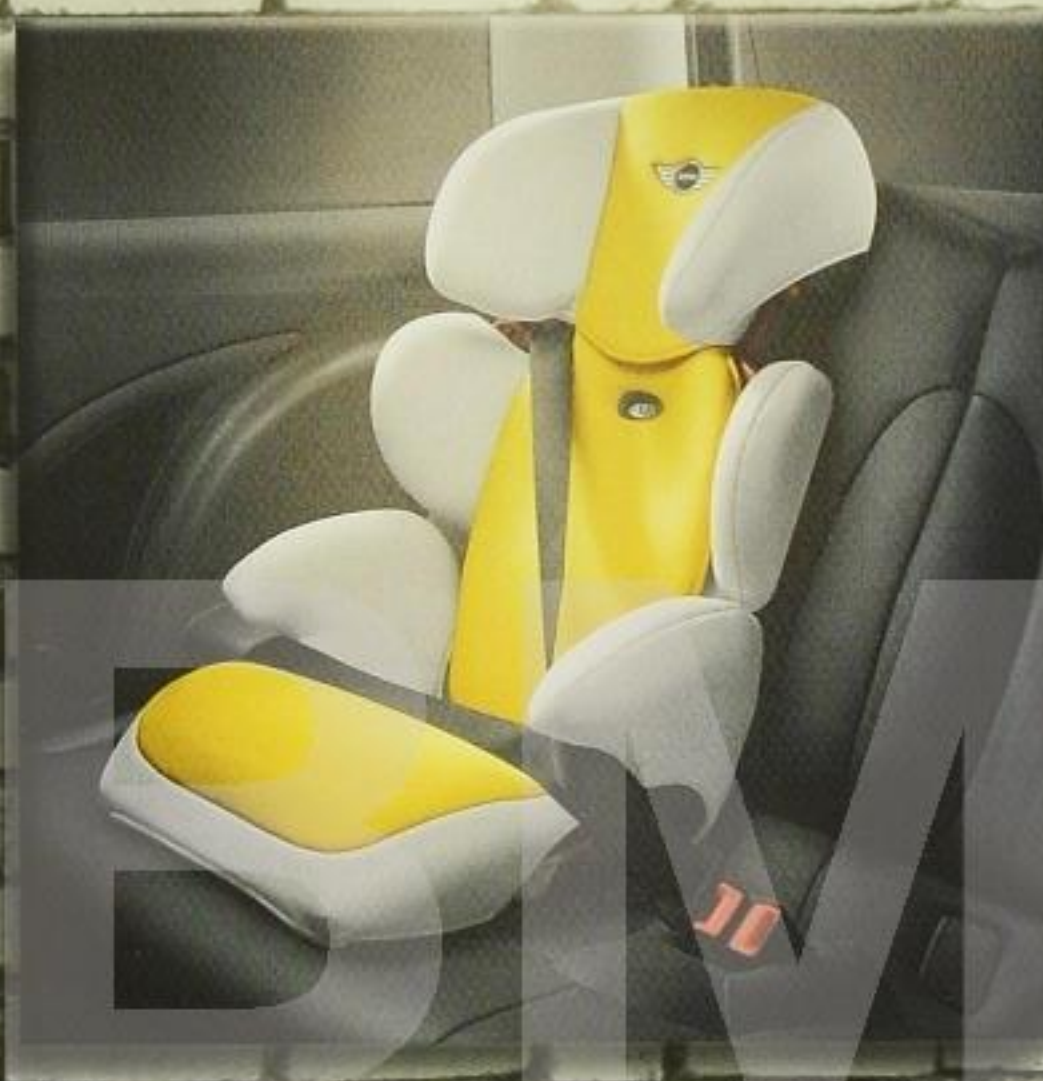

<sup>1</sup> With and without ISOFIX

<sup>2</sup> ISOFIX function can only be employed for babies up to 18 kg

### MINI junior seat II-III

Approx. 3.5 – 12 years, 15 – 36 kg

The MINI junior seat I-II has a height and tilt-adjustable seat back, and a restraint cushion. It has been designed so it can also be used in cars fitted with the ISOFIX child seat mounting system.

The MINI junior seat II-III features a height-adjustable backrest to ensure that the seat belt fits perfectly over the shoulder. The seat also folds up so it can be stored and carried in a rucksack (available separately).

1

2

**1 Glove compartment dividers**

**2 Centre armrest with storage compartment**

#### ROOM RAIDER.

Make a little extra space in your MINI.

The glove compartment dividers create additional small compartments and make it easy to keep your CDs, books and maps neat and tidy. The storage compartment in the centre armrest is perfect for keeping items, such as sunglasses or a wallet, close at hand.

**MUSIC, COMMUNICATIONS  
& TECHNOLOGY.**

With a **navigation system**, **entertainment solutions**, **iPod™ interface** and an **MP3 player** connection, your MINI knows just how to take care of you.

# A TREAT FOR ALL THE SENSES.

Connect your Apple iPod™ (excluding iPod™ shuffle) to the interface and enjoy your favourite tracks through the MINI's sound system using a small cable hidden away in the glovebox. It's easy to change tracks as you control your iPod™ using the radio, multifunction steering wheel or MINI joystick<sup>1</sup> and you don't need to worry about your iPod™ battery life, as it charges itself while you're on the move.

With a portable navigation device, you need never lose your way again, in or out of your MINI. Practical and pocket-sized, these units can be taken anywhere. Up-to-the-second information is gathered to process the best route. Easy-to-follow guidance ensures vision and safety, day and night. We also offer a practical holder to ensure there are no unsightly trailing wires.

- 1 iPod™ interface<sup>1</sup>
- 2 MINI approved portable navigation from Garmin®
- 3 Adapter cable for iPod™ 1, 2
- 4 CD changer for six CDs

<sup>1</sup> Compatibility is dependent on iPod™ and vehicle specification. Please ask your MINI Dealer for details

<sup>2</sup> Only in conjunction with USB audio interface

**LUGGAGE & LEISURE.**

Take everything with you, but leave headaches at home. From **roof racks** to **coolbags**, we're sure to have the **transportation** and **storage** solutions you need to get the most out of life – and your MINI.

# TAKE IT AWAY.

Wherever you want to go, whatever you want to do, now you can take (almost) anything you need with you.

If you're a mountain biker or road racer, simply select the right lockable bicycle holder for your needs. The bicycle lift raises your cycle to the roof rack and lowers it down again without any effort, while the lockable rear carrier holds two bikes. With the rear carrier preparation (on the MINI Convertible), it can easily be attached to the towing eyelets.

The lockable roof rack base support system and universal holder for the roof allow even bulky objects to be transported with ease. Designed for use all year round, they can be paired with a surfboard holder during the hot summer months; then when the mountains start calling, simply fit the lockable ski and snowboard set.

- 1 Aluminium rear carrier, lockable
- 2 Roof box with central locking
- 3 Ski and snowboard set, lockable
- 4 Touring cycle holder, lockable
- 5 Racing cycle holder, lockable

4

5

# SPACE.

Despite, or rather because of, the fact that the MINI is packed full of innovative ideas, it also offers a huge amount of storage space.

The practical collapsible box never fails to surprise and offers an incredible amount of space when set up. The protective bootspace cover, with its stylish Chequered flag design, is perfect when you have a four-legged passenger on board; it protects the rear of your MINI Clubman against dirt and damp and is big enough for use even with the rear seats folded down. The electric coolbag, meanwhile, is perfect for picnics or trips to the beach on hot summer days.

The water and dirt-resistant protective rear cover fits over the rear seat bench and the side and backrest trim panels. The luggage compartment tray features a reversible cover with a Union Jack design. Not only does it fit perfectly with the look of the MINI, it effectively protects the items in it, thanks to its removable dividers. And the fitted luggage compartment mat is made of rubber to ensure that your load can't slide around.

- 1 Protective bootspace cover
- 1 MINI coolbag, electric
- 1 Collapsible boxes for luggage compartment
- 2 Protective rear cover with red edging
- 3 Luggage compartment tray
- 4 Fitted luggage compartment mat

# GRIT. DUST. MUD.

They're all out to get your MINI and dull its showroom shine. Fight back with MINI Car Care. A range of products tested and approved by the people who brought you your MINI.

From shampoos and polishes to leather cleaner and alloy wheel cleaner, there's everything you could need to keep your MINI looking its best.

- 1 Genuine MINI Car Care products
- 2 MINI Seal & Protect
- 3 MINI Car Care kit

MINI Seal & Protect is the only fully approved MINI paint, interior and cloth upholstery protection system – providing a long-lasting shield and outstanding protection of your investment.

The system includes a Dealership-applied MINI Hard Wax that improves water-repellance and surface resilience by over 300% (actively regenerating the paintwork), as well as an impregnating agent to protect interior surfaces from moisture. Consequently you get a MINI-approved three year warranty to certify the treatment and a range of easily-applied MINI Genuine Care Products (CFC-free) to further enhance your MINI. For more information, contact your MINI Dealer.

## MINI SERVICE

## YOUR MINI DESERVES THE BEST POSSIBLE SERVICE.

Your MINI couldn't be in safer hands. All MINI Service Authorised Workshops are kitted out with the most up to date technology to ensure MINI Approved Technicians can carry out all work to perfection. They only use Genuine MINI Parts, which means that your MINI remains a MINI through and through.

MINI Service Authorised Workshops also offer a comprehensive range of products and services including:

- Servicing and maintenance work
- Tyre replacement
- MOT testing
- Health-checks to keep your MINI ticking over between services
- Air conditioning servicing

MINI Service Authorised Workshops are also the only place that you can have servicing carried out under your MINI tlc & tlc XL package.

More information is available from your MINI Dealer, or on the Internet at the following address [www.MINI.co.uk/aftersales](http://www.MINI.co.uk/aftersales)

# DRIVEN BY PASSION.

## THE JOHN COOPER WORKS SUCCESS STORY.

### Unrivalled emotion.

John Newton Cooper, born in Kingston, England in 1923, is a racing legend. With his technical innovations, ideas and above all, his passion, he shaped motorsport to a unique degree. Initially, he drove the cars he built himself, but later he dedicated himself entirely to car development – bringing the attitude and insight of a racer to every aspect of his work.

By 1946, the Cooper Car Company was the world's largest specialist racing car manufacturer. It built the Cooper 500 Formula 3 racing car, which proved exceptionally successful on the racetrack and is one of the most celebrated vehicles of its era.

### Formula 1: nine years, sixteen victories, four world championships.

By the mid-1960s, John Cooper could look back on 16 Formula 1 victories in just nine years, with drivers such as Stirling Moss and Jack Brabham leading the team to two consecutive world championships (1959 and 1960).

### More revolution than evolution: the Mini Cooper.

In 1959, the British public was busy admiring the Mini, which had just appeared on the market. Two years later, John Cooper had developed the standard model into the Mini Cooper, a fast and exciting car that reflected his extensive racing experience and could be enjoyed by rally drivers and

the general public alike. Although production of the original Mini Cooper was discontinued in 1970, the public's fascination with this unique car remained alive. As a result, when the idea of a new MINI was born, John Cooper Works – under the leadership of John Cooper himself – was asked to contribute its long years of racing experience and expertise to ensure that the new MINI Cooper S had the handling, sound and feel of its illustrious predecessor.

### The ultimate road racer.

Today, the John Cooper Works name is a guarantee of tuning components that are perfectly tailored to your MINI. Specialist knowledge and 50 years of track experience, combined with the latest manufacturing and testing processes, deliver compelling results. With a John Cooper Works tuning kit, the performance, sound and handling of your MINI are the distillation of decades of motor racing excellence and dramatic proof that the John Cooper success story is one driven by pure, unbridled passion.

- 1 A legendary Formula 1 designer: John Cooper
- 2 Exiting a corner: John "Smokin" Rhodes
- 3 On the road to success: a Cooper racing car

RACEHORSEPOWER.**

# Performance figures for the MINI Cooper S with John Cooper Works tuning kit.

## Engine and vehicle performance data for MINI Cooper S tuned by John Cooper Works

	MINI Cooper S	MINI Cooper S Clubman	MINI Cooper S Convertible
Max. speed	144 mph [141 mph]	144 mph [141 mph]	143 mph [140 mph]
Acceleration 0-62mph	6.8 sec [7.0 sec]	7.2 sec [7.3 sec]	7.3 sec [7.4 sec]
Acceleration 50-74 mph (4th/5th gear)	5.3 sec/6.6 sec	5.6 sec/7.2 sec	5.9 sec/7.5 sec

All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with 6-speed automatic transmission.

## THE JOHN COOPER WORKS TUNING-KIT.

Most people associate tuning with an improvement in performance. However, John Cooper Works tuning focuses on more than just the speed of your MINI, MINI Clubman or MINI Convertible. It strikes a perfect balance between superior handling and unrivalled safety. As a result, all components for the John Cooper Works tuning kit are subjected to the most stringent testing imaginable, ensuring they meet the strict quality demands of engineering professionals.

If the engine is the heart of the MINI, John Cooper Works makes it beat just that little bit faster. For example, the tuning kit boosts the output of the twin-scroll turbocharger in a MINI Cooper S with manual transmission to an incredible 192 hp (141 kW), with maximum torque of 250 Nm between 1,750 and 5,000 rpm. With the overboost function, 270 Nm can be easily achieved between 1,750 and 4,500 rpm – this is enough to take the MINI Cooper S from 0 to 62 mph in just 6.8 seconds, and on to a maximum speed of 144 mph (where permissible).

The eye-catching exhaust pipe trims in chrome are a design highlight of the sport exhaust, which improves exhaust gas airflow while giving a throatier engine note. A specially developed air filter also helps improve the car's power delivery.

The engine management software has been reconfigured so as to squeeze out every last drop of power from your MINI Cooper S, ensuring it delivers invigorating acceleration across the rev range.

As long as they are installed by a MINI Service Authorised Workshop, fitting John Cooper Works components does not affect your original MINI warranty. Each product and part that is used has proven its reliability and worth over thousands of test miles carried out under the harshest conditions. As a result, John Cooper Works represents more than just racing excellence – it is a byword for quality and rigour. And these values are proudly displayed on your tuned MINI, with badges on the tailgate, on the radiator grille, and inside the engine compartment.

- 1 Engine with optimised engine management software
- 2 Sport exhaust pipe trims in chrome
- 3 Air filter

# HARNESS THE POWER.

## CHASSIS TUNING.

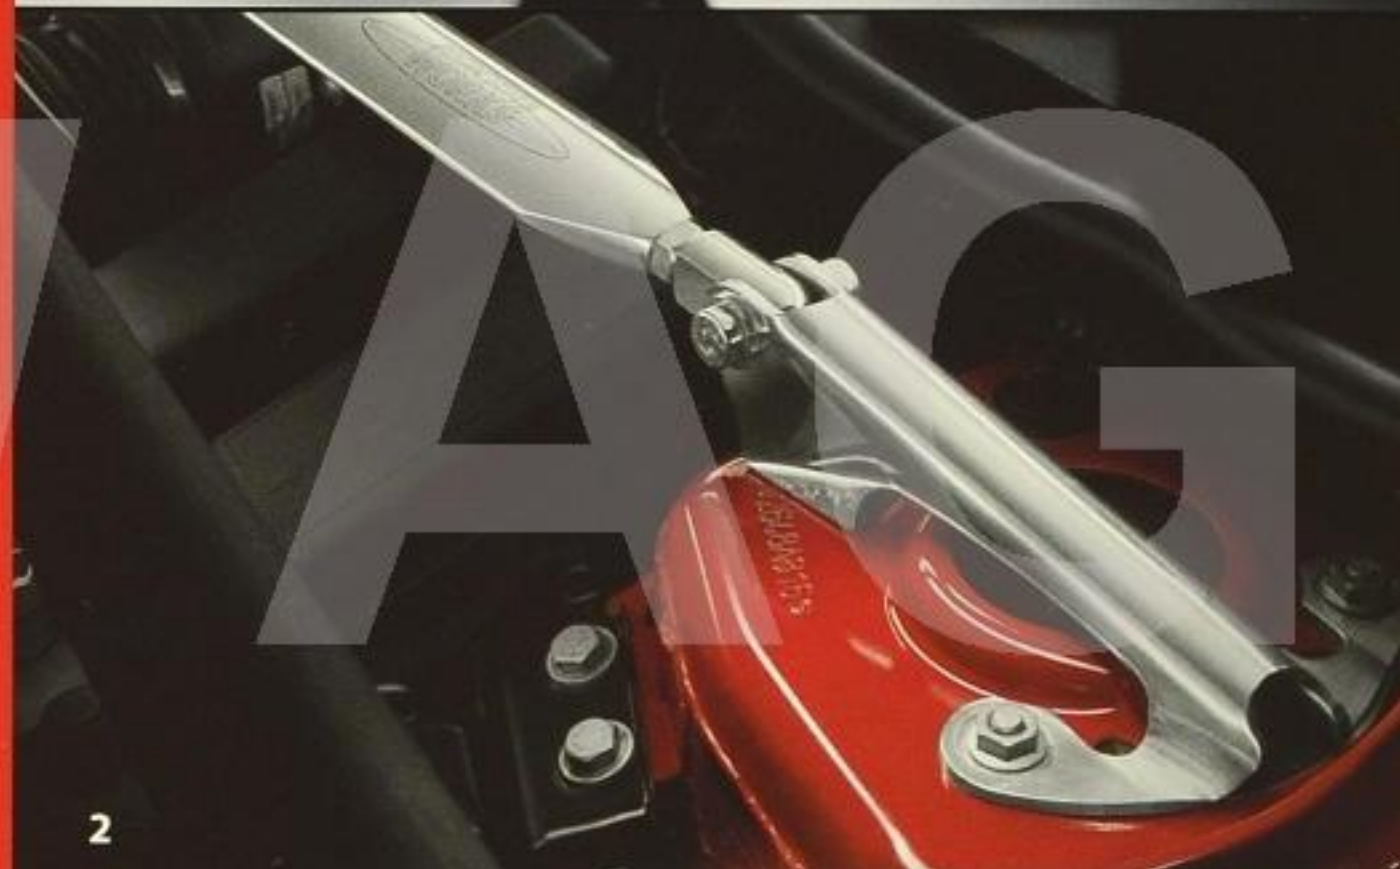

The power offered by a tuned MINI with John Cooper Works components is breathtaking – so it's essential that you can take full control of it. The specially designed sport suspension ensures that all the MINI's performance is transferred straight to the tarmac, while providing exceptional roadholding and a uniquely involving drive. Painted in eye-catching red, the system's short springs are more than just a design highlight – they provide a tauter ride and lower the car by 10 millimetres.

By reducing body vibration, the chunky suspension cross-brace in the engine compartment further enhances the MINI's stability, while the high-performance braking system is further evidence of the importance professional tuners place on safety. Extra-large brake discs and red-painted 4-piston calipers work in combination with special brake linings to ensure highly effective braking even in extreme situations.

The sport brakes with perforated and grooved brake discs are sharp, direct and immediate – the kind of response racers' dreams are made of. They are also equipped to deal with high temperatures, guaranteeing stability and reliability at all times. In fact, the only thing you can't put the brakes on when driving a John Cooper Works MINI is the feeling of exhilaration – comparable with the experience of driving any contemporary sports car.

- 1 Sport suspension
- 2 Suspension cross-brace
- 3 Sport brakes, 17-inch

For an overview of all available products and variants, see the range overview on pages 18/19.

# IT ALL REVOLVES AROUND PASSION.

## ALLOY WHEELS.

Despite the huge selection of different wheels available, you can be sure that a bad choice is impossible. Each of our alloy wheels draws on extensive John Cooper Works racetrack experience, while being specifically designed for use on the road. All 18-inch alloy wheels are weight-optimised and fitted with Runflat tyres, offering the ultimate combination of driving enjoyment, peace of mind and every single design has been subjected to stringent testing, ensuring impeccable quality and build.

As a result, picking out the perfect wheel is simply a matter of personal taste. Each design has detailed styling and you can opt for a burnished or brilliant black finish. Every design – like every driver – has its own unique character, so you can choose the one you think best matches your own.

For an overview of all available products and variants, see the range overview on pages 18/19.

- 3 Double-spoke alloy wheel R105, burnished
- 4 Star-spoke alloy wheel R95

# IN TRUE SLIPSTREAM STYLE.

## THE AERODYNAMIC KIT.

The aerodynamic kit is a sophisticated piece of engineering that visually reflects the John Cooper Works sporting heritage.

The front apron features a black ventilation grille and fog light surrounds with black fins, underlining the car's dynamism, while the bold lines of the chunky side skirts end in racing-style air intakes. The side skirts come in body colour, while the wheel arches are available in either black or additionally body colour.

The imposing rear apron features black fins above the rear fog lights, completing the aerodynamic kit perfectly and offering further evidence that the package is the work of genuine racing professionals.

This impression is enhanced by the optional carbon diffuser and rear spoiler, which enhances aerodynamic performance by increasing downforce. The aerodynamic kit offers far more than simple cosmetic changes and delivers everything you would expect from John Cooper Works, markedly enhancing handling at high speeds. Two additional brake ducts also help improve brake ventilation (MINI Cooper S only), ensuring the improved ride is matched with a greater feeling of safety.

- 1 Rear apron
- 1 Roof spoiler
- 1 Rear spoiler in carbon
- 2 Wheel arches in body colour
- 2 Front apron
- 2 Side skirts

# SHOW YOUR RACING PEDIGREE.

## EXTERIOR DESIGN COMPONENTS.

Every time it hits the racetrack, a tuned MINI leaves no doubt as to what it is capable of. However, when driving in city traffic or at a standstill, making people aware of your racing credentials can be a little trickier – and this is where John Cooper Works exterior components come in. The parts are predominantly made of carbon, a material that is synonymous with modern racing car design. The air inlet with a trim in lacquered carbon, along with exterior mirror covers in carbon, emphasise the powerful, sporty character of your MINI, MINI Clubman or MINI Convertible extremely effectively.

The diffuser and tailgate handle are also made of the same high-tech material and combine stylishly with the John Cooper Works side scuttles to highlight the striking, distinctive design of the MINI. They also complement the aerodynamic kit particularly well.

Should you wish to shield your MINI from envious glances, John Cooper Works offers two practical, stylish solutions – the indoor and outdoor car covers. These protect your MINI against dust, dirt and damp while the Chequered flag design reflects the racing performance found underneath.

- 1 Indoor car cover, MINI
- 2 Indoor car cover, MINI Clubman
- 3 Mirror covers in carbon
- 3 Air inlet trim in carbon
- 3 Side scuttles
- 4 Tailgate handle in carbon
- 4 Rear diffuser in carbon

For an overview of all available products and variants, see the range overview on pages 19/20.

## INTERIOR DESIGN.

There's no better way to show your style than in your MINI. John Cooper Works interior accessories offer superb quality and racetrack design and allow you to tailor your cockpit to your personal tastes. The leather or Alcantara sport steering wheel with additional carbon trims looks as good as driving your MINI feels, while the gear lever knob and handbrake grip in the same combination of materials emphasise the car's sport-style design, as do the interior trim strips and interior door grips in carbon.

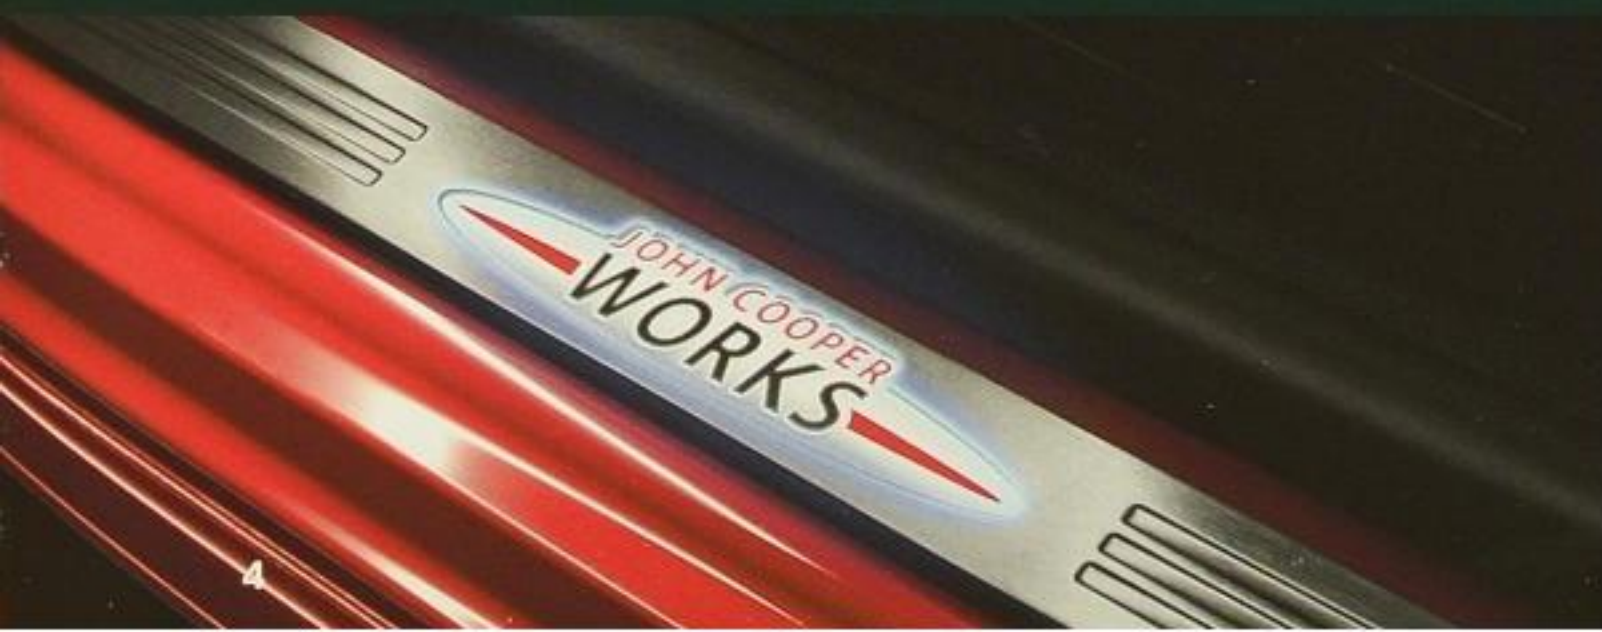

The gear shift indicator is ideally positioned within the driver's field of vision and features coloured LEDs that tell you when to change gear to get maximum acceleration out of your MINI. And with the auxiliary gauges (radiator temperature, relative torque, and lateral acceleration indicators) you'll feel just like a member of a top race team. Even the floor mats, with their woven metallic Chequered flag design, take their inspiration from the world of motorsport. Finally, the illuminated door entry strips feature the John Cooper Works logo set in ground stainless steel, proving once and for all that John Cooper Works provides the best possible start to the world of racing.

For an overview of all available products and variants, see the range overview on pages 20/21.

- 1 Gear lever knob and gaiter in Alcantara/carbon
- 1 Interior trim strips in carbon
- 1 Interior door grips in carbon
- 2 Gear shift indicator
- 3 Auxiliary gauges
- 4 Door entry strips with logo, illuminated
- 5 Floor mats with Chequered flag design

## PUTTING QUALITY MATERIALS IN POLE POSITION.

### INTERIOR DESIGN ELEMENTS IN LEATHER/CARBON.

No two drivers will take the exact same line through a corner, just as no two drivers will change gear at the exact same moment. Motor racing enthusiasts are individuals with their own personal requirements, which is why John Cooper Works offers a personal experience every time you take the wheel. The seat is an important part of this and you should choose a design that is right for you. Both high-quality leather and elegantly finished Alcantara are available (a matching handbrake grip, selector lever grip and gear lever knob in Alcantara can also be specified).

Featuring a lightweight plastic seat bucket and raised side bolsters, the sport seats offer outstanding support, compensating for the effect of centrifugal force in fast corners. They also ensure a safe and comfortable journey, incorporating side airbags, easy entry function and a choice of two different height settings. Three-setting seat heating is also available as an added luxury. However pleasant a warm seat might be though, you'll never have more fun than when burning rubber with the help of John Cooper Works.
