

MINI CONVERTIBLE.

OPEN UP.

MINI CONVERTIBLE – GRAND OPENING.

We could write pages about how great the MINI Convertible is. In fact, we have.

To find out more, just follow these simple instructions:

1. Push out the MINI Convertible below.
2. Use it to open the perforated pages of this brochure.
3. Read all about the MINI Convertible.

GET YOUR TOP OFF.

Above you, the open sky.
Below you, the open road.
You get the best of both in
the new MINI Convertible –
MINI's unique point and squirt
driving experience, with
panoramic views thrown in.

OPENS IN 15 SECONDS FLAT.

SOFT TOP WITH Z-SHAPED FOLDING MECHANISM: Neat eh? The convertible soft top is cunningly designed so that it also functions as a sunroof. It even works when the car is moving at up to 70 mph, with a maximum opening of 40 cm. Plus, the space-saving Z-shaped folding mechanism means the roof is exceptionally compact when stowed, so it doesn't take up any boot space.

LOADS OF ROOM: Whether you're taking a few friends out for a spin, or there are two of you and a whole load of luggage, the MINI Convertible has got it covered. There's plenty of space in the back and headroom galore.

00"

15"

« **HANDY:** We call it the Easy Load function – when the soft top is up, the tailgate folds down and the back of the roof swings up, taking the hassle out of loading and unloading. Very useful, what with the 605 litres of luggage space.

SLEEK: Elliptical exterior door mirrors – in body colour on the MINI Cooper Convertible and MINI Cooper S Convertible. »

« **FULLY AUTOMATIC:** Full soft top and sunroof action at the touch of a button.

BRIGHT: Chrome-ringed headlights combine classic design with the latest lighting technology. Ultra-powerful Xenon lights (optional) reveal every detail of the road. »

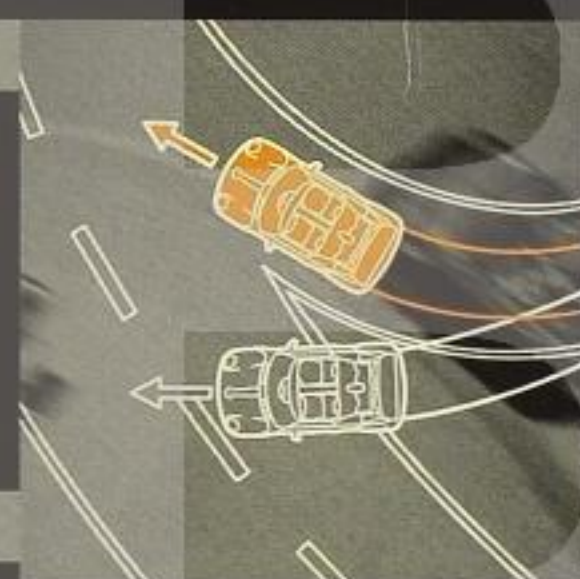

With four airbags as standard, a reinforced body
and a rigid roll-over bar, you're in safe hands.
Or rather, in safe wheels.

MAXIMUM PROTECTION.

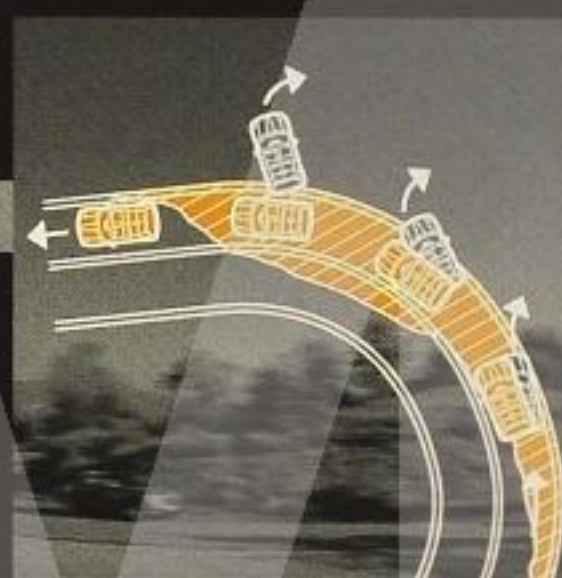

PLAY SAFELY.

⌘ **DSC:**
Dynamic Stability Control (optional) counteracts vehicle instability by intervening with the engine management system and applying braking force to individual wheels at front and rear as necessary.

⌘ **ROLL-OVER BAR:**
Made of high-strength aluminium and integrated with the rear headrests and restraint system to provide optimum protection for back-seat passengers.

⌘ **ASC+T:**
Automatic Stability Control + Traction (as standard for the MINI Cooper S Convertible) prevents the front (drive) wheels from spinning for improved traction when accelerating or pulling away.

⌘ **AIRBAGS:**
Four of them. Driver and front-passenger airbags protect the head and upper body in the event of a head-on collision. Side airbags significantly reduce the risk of injuries to the head, chest and pelvic areas in side impacts.

Braking system with ABS, Cornering Brake Control (CBC) and Electronic Braking force Distribution (EBD) as standard: four disc brakes and an electronic Anti-lock Braking System guarantee a safer driving experience, while CBC improves the braking performance in corners and prevents understeer. EBD manages the distribution of braking force between front and rear axles electronically to ensure the shortest possible stopping distances. So thank phew for that.

ALL-ROUND PERSPECTIVE.

There's so much more to see with the roof down. Although we recommend you keep your eyes on the road while driving and pull over to enjoy the vista.

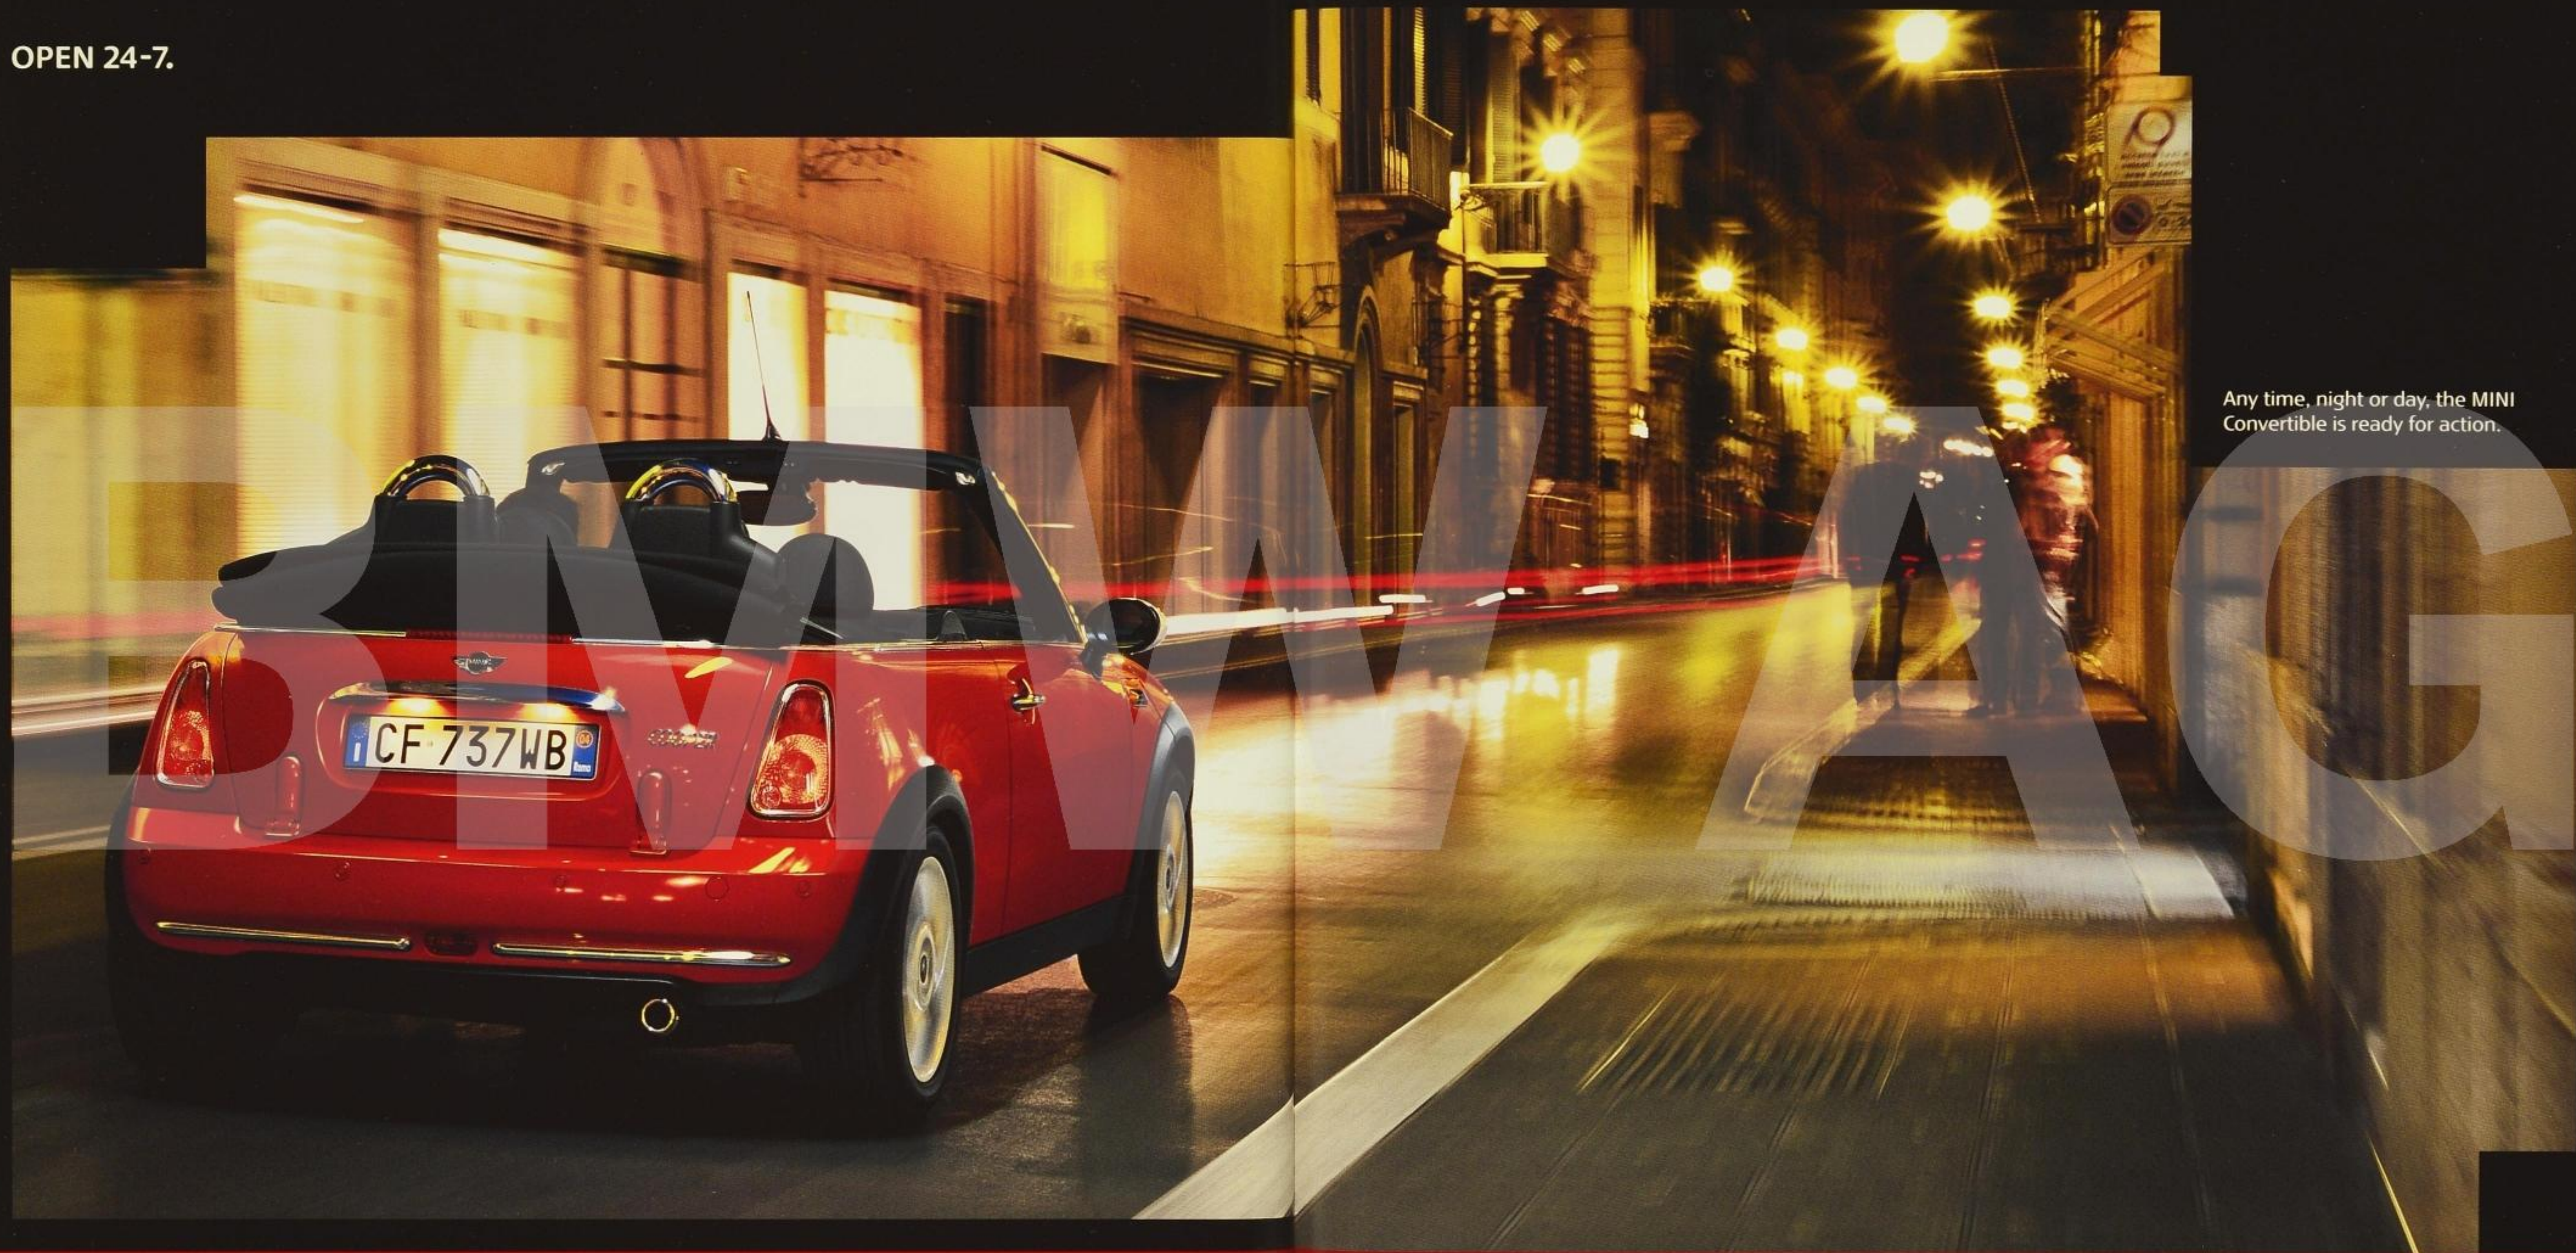

OPEN TO ADVENTURE.

Intrigued by the unknown?
Up for adventure? An individualist?
Then MINI Convertible is right up
your street. In fact, it should be
parked right outside your house.

OPEN 24-7.

Any time, night or day, the MINI
Convertible is ready for action.

ENVIRONMENTALLY-FRIENDLY MINI

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. And every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind.
