

MINI JOHN COOPER WORKS.
MINI JOHN COOPER WORKS CLUBMAN.
MINI JOHN COOPER WORKS CABRIO.

RACING IS IN OUR BLOOD

Climb in. Take a deep breath. Test the throttle. And experience a legend reborn.

A few yards are all it takes to feel at one with the car. Because this is the MINI John Cooper Works.

John Cooper: a driver of legendary skill, a builder of legendary cars. In the 1950s and 60s, he ushered in a new era in racing car construction – and laid the foundations for John Cooper Works. Today's third-generation MINI John Cooper Works, MINI John Cooper Works Clubman and MINI John Cooper Works Cabrio have lost none of their predecessors' magic. Perfectly assured through corners, and with breathtaking acceleration on the straights, they prove once again that engineering genius and racing spirit make an unbeatable combination. And in the MINI John Cooper Works Cabrio, there is also the added bonus of a completely pure open-top driving experience. Only one thing can taint the pleasure of being in these cars – the knowledge that eventually you'll have to get out.

POWER

BMW

DESIGNED TO PERFORM –
BUILT TO BE ENJOYED.

Start the ignition – and already the engine is straining at the leash.
Touch the accelerator, and feel it go.
Every yard you drive is like a shot of adrenalin.

SHAPE

BMW

» ADMIRER BY EVERYONE –
ENVIED EVERYWHERE.

Other road users will have to get used to being overtaken by the MINI John Cooper Works. So it's lucky its sporty rear end makes such a pretty view. And a shame they'll only have a few seconds to admire it.

Vehicle illustrated features John Cooper Works accessories.

Resistance is futile: the 17-inch Cross Spoke CHALLENGE alloy wheels are for drivers who know exactly what they want. The sport brakes deliver awesome stopping power. Because you can push harder when you know you can stop.

CONFIDENCE

**SOMETIMES YOU NEED TO LOSE SPEED –
BUT YOU’LL NEVER LOSE THE PASSION.**

CONCEPT | MINI JOHN COOPER WORKS

CHARISMA

**MAKES PULSES RACE –
EVEN WHEN IT'S STANDING STILL.**

A striking radiator grille. An irresistible appeal.
Let your excitement get the better of you – and embark on a new adventure.

CHARACTER

B M W

**RULES THE ROAD –
BLOWS THE MIND.**

You'll have to decide between three distinctive models, the MINI John Cooper Works, the MINI John Cooper Works Clubman and the MINI John Cooper Works Cabrio. Although you've already made the most important decision – that enjoyment is not just part of driving, it is driving.

Think you know your limits? Then you haven't experienced the new MINI John Cooper Works Cabrio. Its combination of high performance and pure go-kart feeling challenges you to really open up and fully express yourself.

MINI
LIBERTY

**NO ROOF –
NO LIMITS.**

HERITAGE

A glorious history that includes two Formula One world championships and three victories in the Monte Carlo rally is continued today by the MINI John Cooper Works.

**SIX GEARS –
SIX STEPS TO MOTORING HEAVEN.**

DETAILS

LEAPS TO THE EYE –
MAKES THE HEART LEAP.

Sound as good as they look:
the sport exhaust double
tailpipes.

Sporty and stylish: the 17-inch
Cross Spoke CHALLENGE alloy
wheel.

Reassuring power: the red
brake calipers.

Built to perform: the engine.

Wearing its heritage with
pride: the John Cooper Works
badge.

The sport exhaust double tailpipes and red brake calipers catch the eye.

And the instantaneous responses of the engine will make you catch your breath –
as will the incredible traction and dynamic cornering made possible by DTC with
Electronic Differential Lock Control. This is technology that dazzles.

SPEEDOMETER

Lets you see at a glance what the John Cooper Works engine is capable of – a top speed of 235 km/h in the MINI John Cooper Works Cabrio, and 238 km/h in the MINI John Cooper Works and MINI John Cooper Works Clubman.

SILL FINISHERS

Passion and principles without compromise: step into the world of John Cooper Works.

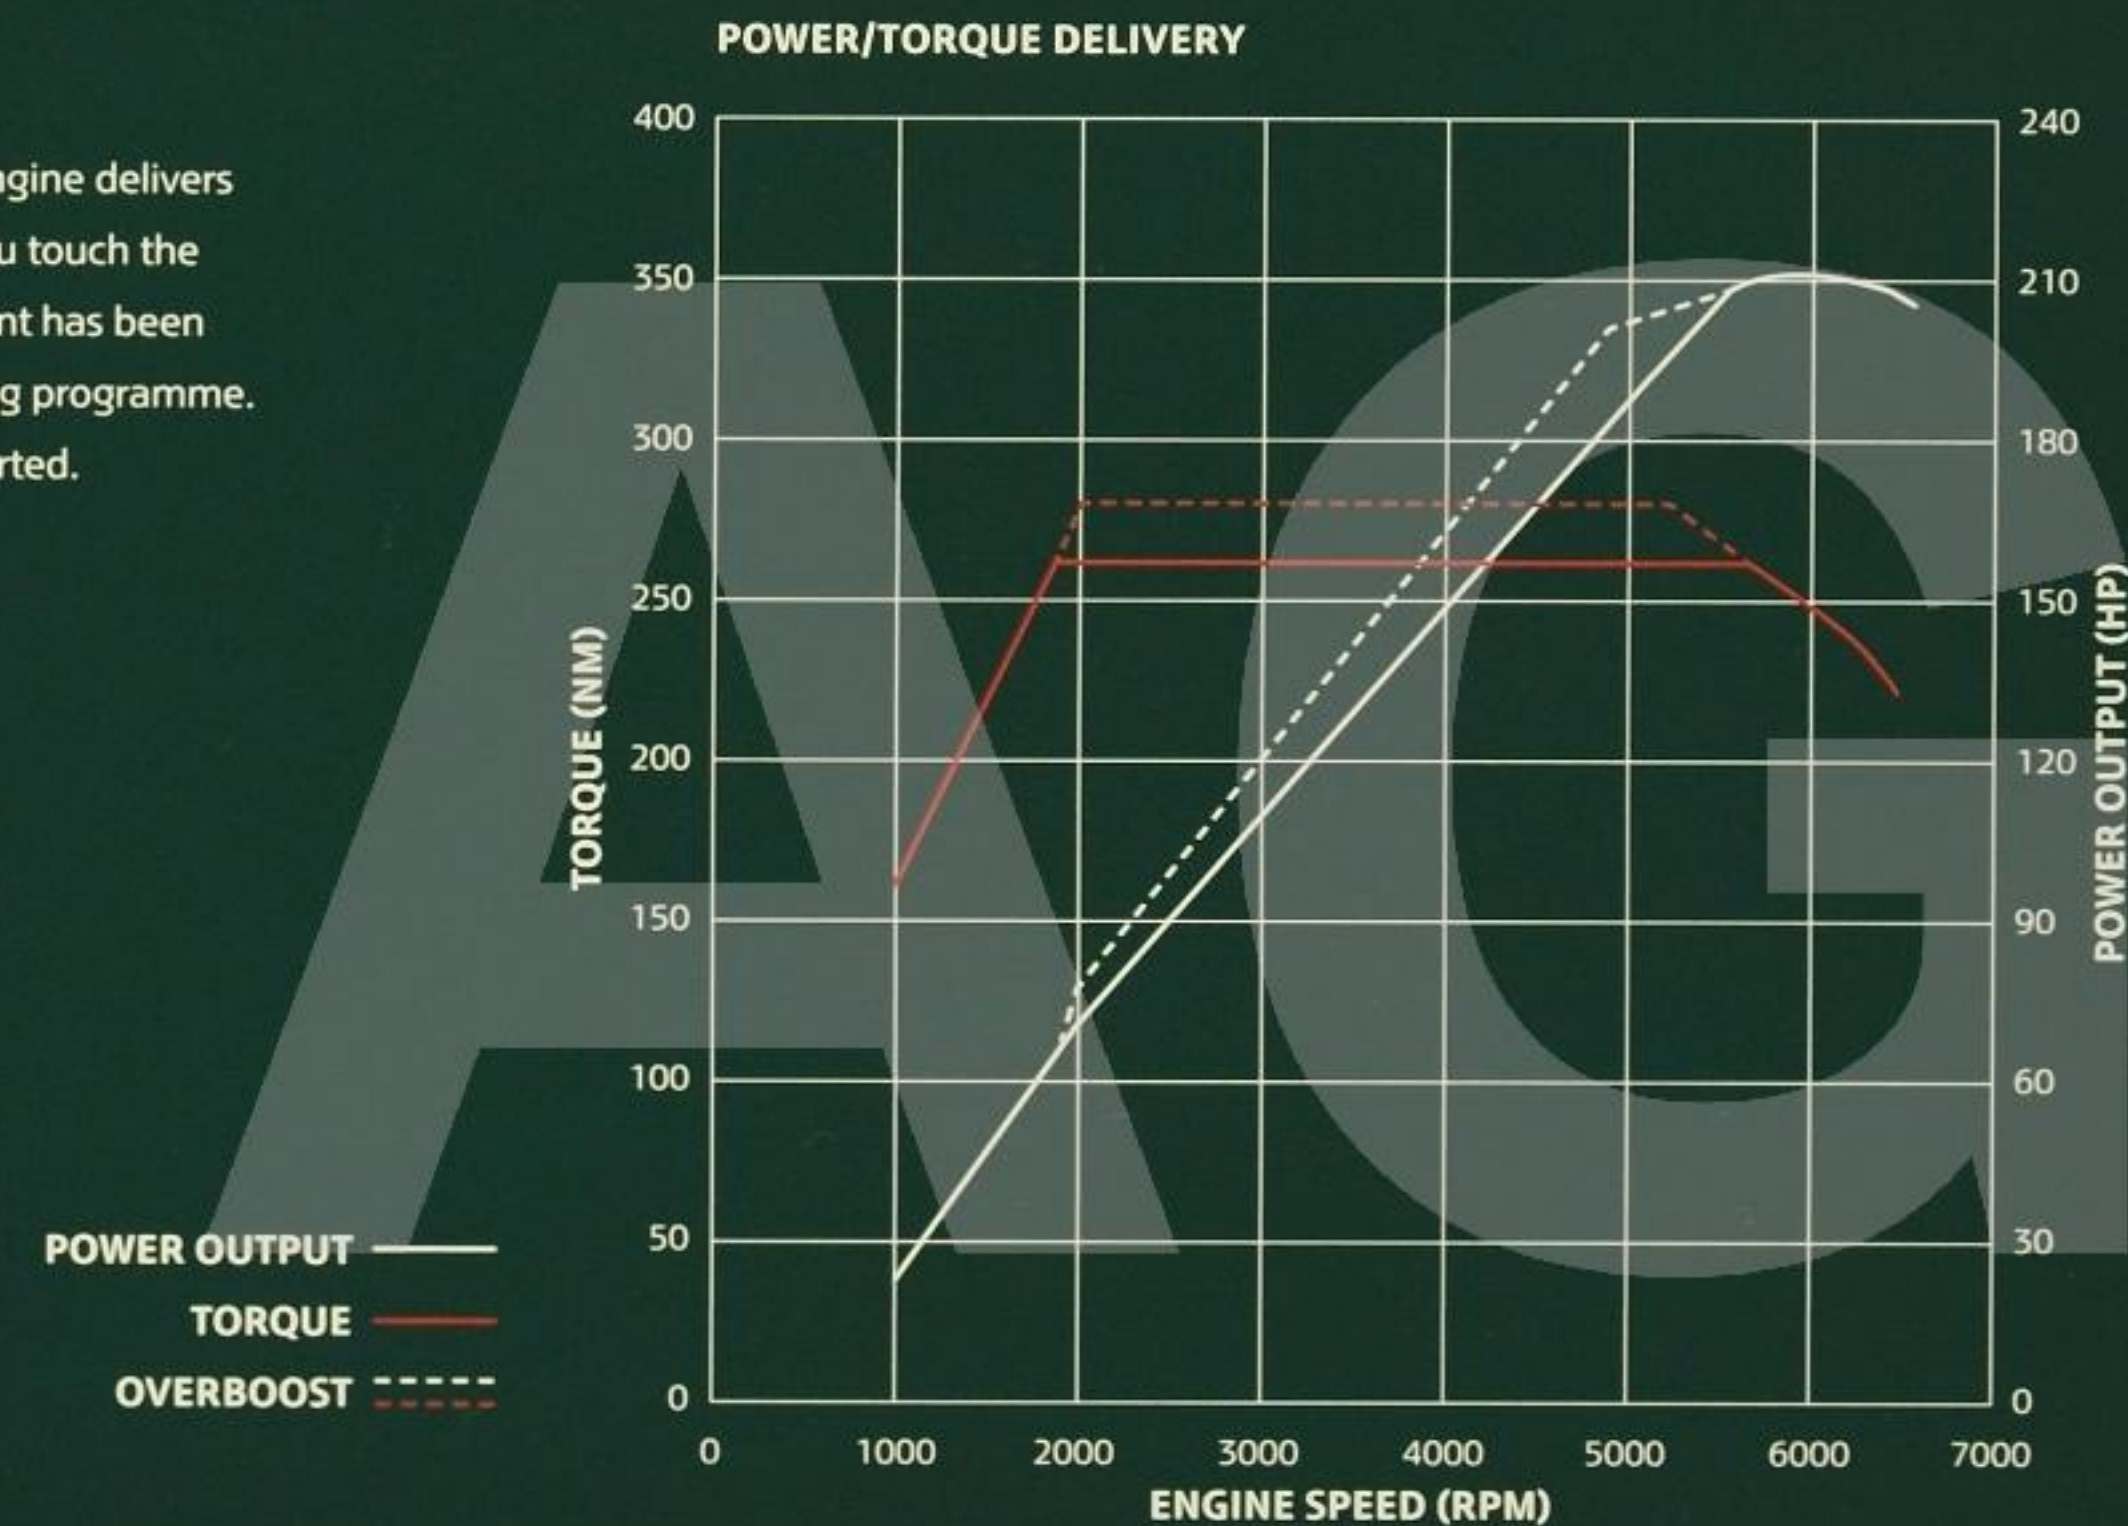

ENGINE

EQUIPMENT | DESIGN AND TECHNOLOGY

» THE PRODUCT OF PASSION – THE PRODUCER OF 211 HORSEPOWER.

Built to perform: the new engine delivers instant power as soon as you touch the accelerator. Every component has been proven in a punishing testing programme. Bet you can't wait to get started.

Max. output/ max. revs	Max. torque/revs	Stroke/ bore	Compression ratio	Forced induction	Specific power output
155 kW/211 hp/ 6000 rpm	260 (280) ¹ Nm/ 1850–5600 (2000) ¹ rpm	85.5/77 mm	10:1	twin scroll turbo	97 kW/l

¹ With overboost function.

SOUND

MUSIC TO THE EARS –
STIRRING TO THE SOUL.

A rumble when you start the engine. A rise in the pitch when you press the sport button. A full-throated roar when you put your foot down. The mere sound of this engine is enough to get your blood pumping – and that's before you see what it can do through fast corners.

RESTRAINT SYSTEM

A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

AIRBAGS

The MINI John Cooper Works and MINI John Cooper Works Clubman are fitted with six airbags as standard, and the MINI John Cooper Works Cabrio features four. Driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

BODY

The body has been reinforced at strategic points, guaranteeing excellent torsional rigidity for an extremely robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

CHASSIS

The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with excellent cornering ability at all speeds, plus superb traction and outstanding safety.

PROTECTION

**WHATEVER HAPPENS –
YOU'RE IN SAFE HANDS.**

IDENTITY

Eye-catching: the aerodynamic kit includes a front apron and side skirts.

EQUIPMENT | ACCESSORIES

Racing spirit: the rear apron and the diffuser in carbon.

Pure racing spirit: the aerodynamic kit in body colour for the MINI John Cooper Works models. The front apron features a black ventilation grille and fog lights surrounded by fins, while the imposing side skirts incorporate sports-style air vents. At the back of the car, there is a striking rear apron with black fins above the rear fog lights, and, as an option, a painted black band¹ in body colour. A rear spoiler² enhances aerodynamic performance. Chrome-plated side scuttles and various carbon elements – the air intake trim, exterior mirror caps, diffuser and tailgate handle – complete the effect.

**A GRAND PASSION –
AND ONE THAT EXTENDS TO THE SMALLEST DETAILS.**

Rear spoiler²

Air intake trim

Side scuttles

Exterior mirror caps

¹ Not available on MINI John Cooper Works Clubman.
² Only available on MINI John Cooper Works.

Show your racing credentials: the aerodynamic kit¹ and sport stripes.

Powerful: the R113 Cross Spoke alloy wheel in the 7 J x 18-inch size with cross-drilled brake discs.

Making a powerful statement: the sport stripes and the R113 Cross Spoke alloy wheels in the 7 J x 18-inch size with 205/40 R 18 runflat tyres, available in either brilliant black or a burnished finish. The R114 Cross Spoke winter wheel-and-tyre assembly (in the 5.5 J x 17-inch size, with 185/50 R 17 runflat tyre) is compatible with snow chains for extra grip on icy roads. Stopping power is provided by the 17-inch sport brakes with cross-drilled discs. The John Cooper Works sport suspension² enables you to harness the full power of your MINI, with components specially designed to provide optimum roadholding. The short, extremely stiff coil springs are painted a striking red, and lower the suspension by 10 millimetres. The suspension cross-brace makes the car more stable at speed by reducing body vibration. And the indoor car cover² protects against dust and dirt – while showing that you can leave a racy impression even when you're not moving.

¹ Expected to be available from June 2009.
² Only available on MINI John Cooper Works.

EQUIPMENT | ACCESSORIES

The perfect finishing touch: interior trim strips in carbon with a steering wheel in Alcantara/carbon.

At the heart of the driving experience: upgrade the cockpit of your MINI with sport seats¹ in Alcantara or leather. The bucket design features a lightweight plastic frame and pronounced side bolsters for excellent lateral support when cornering at speed. To complement your sport seats, the sport steering wheel, gear lever knob and handbrake grip are also available in Alcantara or leather, trimmed with carbon elements. Interior trim strips and door grips likewise in carbon complete the race-car ambience of the cockpit. And to enhance driving enjoyment still further, there is the Gear Shift Indicator – mounted directly in the driver's line of sight, it indicates which gear to select for maximum acceleration. Floor mats with the Checkered Flag design add an extra dash of racetrack style. All that remains is for you to climb in and hit the road.
