All MINI Service Inclusive packages can also be purchased after you have bought your car. In general, you can also upgrade the term or scope of your MINI Service Inclusive agreement.

The following, in particular, are not covered under the scope of MINI Service Inclusive: costs for maintenance outside the agreed time/kilometre allowance; fuel or impurities in the fuel system; damage to paintwork, body, blinds, panels or glass (panes, lamps); elimination of wind, squeaking or knocking sounds; tyres; wheel damage and wheel imbalances; and damage caused by the car driver (such as engine damage resulting from insufficient oil, participation in motor sport events). All service work carried out under the MINI Service Inclusive agreement must be performed by a participating MINI dealer, a MINI subsidiary or a MINI Service-authorized workshop. Services provided by MINI Mobile Service and service claims covered under liability for material defects remain unaffected.

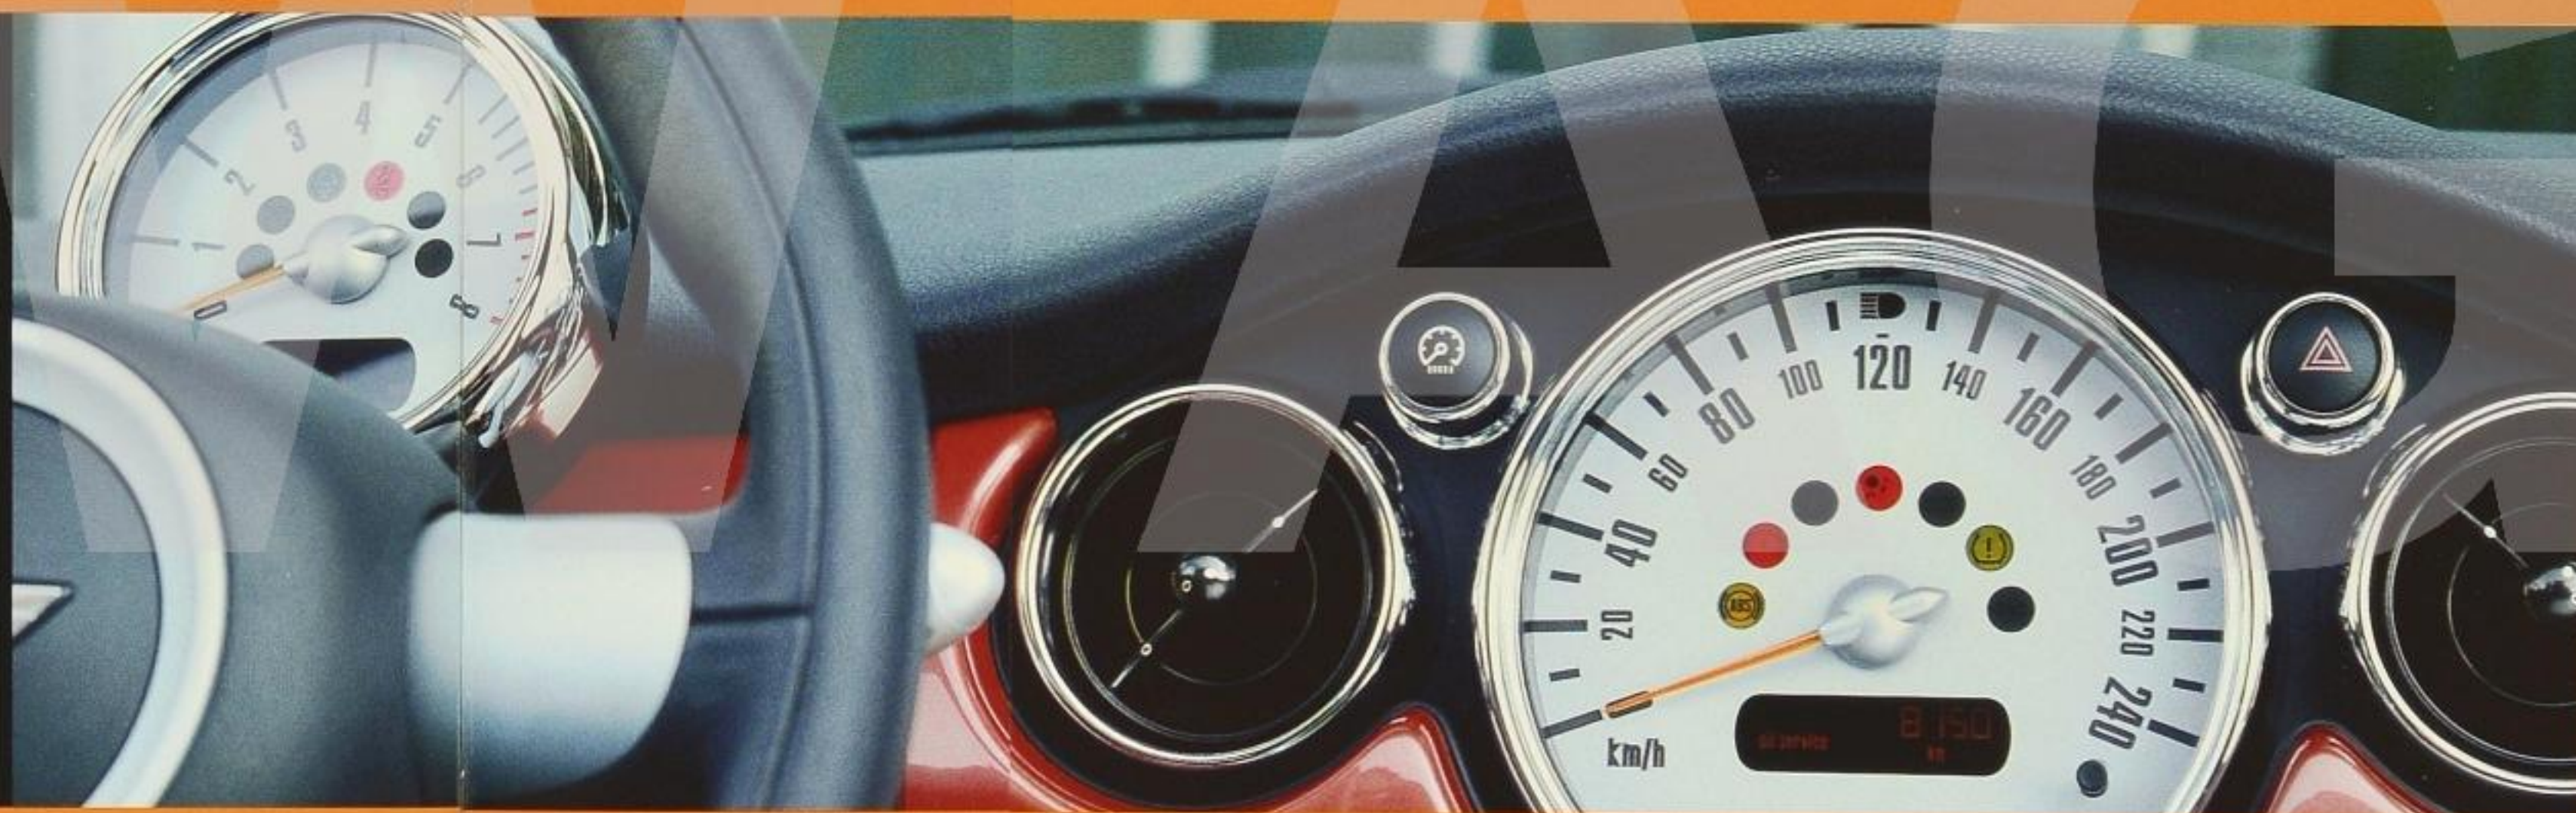

You've probably got more important things on your mind than service appointments? That's what we thought – which is exactly where our innovative Service Interval Indicator comes in. Combined with MINI Service Inclusive, your in-built Service Interval Indicator gives you a completely transparent overview of service appointments and costs. Leaving you free to focus on the things that really matter – let's face it,

some dates are more important than others. The Service Interval Indicator "observes" your personal motoring habits and adapts the service intervals accordingly. And it automatically tells you when your next service is due. Not only is it convenient, it's also a lot more cost-efficient than rigid service intervals.

And things couldn't be easier when you get to your MINI Service Partner. Your MINI Service Advisor accesses all of your service data in a flash with your car key. You'll hardly have stepped out of the car before it's ready for your next big performance. Because the show always goes on. Sounds interesting? Then head for your nearest MINI Service Partner today!

**DON'T GET SIDETRACKED –  
STAY ON COURSE WITH THE  
SERVICE INTERVAL INDICATOR.**
