MINI INSPIRED BY GOODWOOD. 1 OF 1000.

MINI in a major way. Created by Alan Sheppard, Rolls-Royce Motor Cars' chief interior designer, at the iconic British marque's Goodwood home, and produced in a limited edition of just 1,000 models, this is a MINI that's as luxurious and elegant as any there's ever been. Making extensive use of leather, cashmere, lambswool and walnut veneer, it is assembled at the MINI factory in Oxford. It is available in a choice of two exterior colours, Rolls-Royce Diamond Black Metallic and Reef Blue Metallic. Both make a striking contrast with the lighter tones of the interior in Rolls-Royce Cornsilk Beige.

MINI INSPIRED BY GOODWOOD. A MINI Yours design model.

BMW AG

EXTERIOR DESIGN:

- Rolls-Royce Diamond Black Metallic or Reef Blue Metallic exterior colour
- Aluminium side scuttles with embossed design
- 17-inch light-alloy rims in Silver

INTERIOR DESIGN:

- Aluminium door sill finishers with embossed design
- Leather interior trim in Rolls-Royce Cornsilk Beige
- Interior surfaces in Walnut Burr Veneer
- Steering-wheel spokes and controls on centre console in Piano Black
- Cockpit instruments with Black dials and Rolls-Royce lettering
- Headliner and sun visors in Cashmere
- Lambswool floor mats
- "1 OF 1000" emblem on centre console

STANDARD EQUIPMENT (SELECTED):

- Automatic air conditioning
- Park Distance Control (PDC)
- Bi-xenon Adaptive Headlights
- Cruise control
- Radio MINI Visual Boost
- harman/kardon hi-fi loudspeaker system
- Three-spoke sports leather steering wheel with multifunction option
- Chrome Line Interior and Exterior

PERFORMANCE/FUEL CONSUMPTION:

- Max. output (kW/hp):
135/184¹
- Fuel consumption, combined cycle (l/100 km):
5.8 [6.4]²
- CO₂ emissions, combined cycle (g/km):
136 [149]²

¹ All figures relate to vehicles with the standard six-speed manual transmission. Figures in square brackets relate to vehicles with six-speed Automatic Transmission Steptronic.

² All MINI models comply with the EU5 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

BMW AG

The models, standard and optional equipment and combinability of options in this flyer relate to cars supplied by BMW AG for the German market. The availability of standard and optional equipment, and the combinability of options, may vary from country to country within the European Union for all models. For detailed information about the situation in your country, please contact your authorized MINI dealer. Subject to change in design and equipment.
