

**MINI JOHN COOPER WORKS.  
VEHICLES, ACCESSORIES AND MOTORINGGEAR.**

# RACING IS IN OUR BLOOD

An incredible history that includes two Formula One world championships and three victories in the Monte Carlo rally is continued today by the MINI John Cooper Works. Experience a legend reborn.

John Cooper: a driver of legendary skill, a builder of legendary cars. The creation of the classic Mini Cooper in the 1960s ushered in a new era in racecar construction. And today's MINI John Cooper Works has lost none of its predecessors' magic. It proves once again that engineering genius and racing spirit make an unbeatable combination. Perfectly assured through corners, and with breathtaking acceleration on the straights, today's MINI John Cooper Works vehicles and accessories bring rare-bred performance and technology to your driveway. Rev it up and take home the checkered flag.

# HERITAGE

**FOR MOST PEOPLE, THE '60S WERE A BLUR.  
JOHN COOPER WAS NO EXCEPTION.**

While most people were frolicking to British Guitar Pop and psychedelic riffs, John Cooper was busy forever redefining motorsport. In less than a decade, he had taken the checkered flag in almost every one of racing's benchmark contests including 16 Grand Prix races and 3 Monte Carlo rallies. Odd and full of spunk, the classic Mini Cooper was a perfect match for Cooper the man.

The Cooper legend lives on in the MINI John Cooper Works. Three generations of indomitable racing spirit bring you an asphalt-eating performance machine that's all guts. Every piece is perfectly balanced to achieve mechanical harmony. Incredibly, it's still street legal. Authentic touches like Brembo® brakes complement a race-ready, turbocharged engine. From the reinforced clutch built to catapult you into high gears, to the sophisticated Electronic Differential Lock Control that helps maintain blistering speeds through the corners, this car is bred for the track.

# POWER

» THREE VEHICLES.  
ONE FAST FAMILY.

Choose between three heart-racing models: MINI John Cooper Works Hardtop,  
MINI John Cooper Works Convertible or MINI John Cooper Works Clubman.

The 17-inch Cross Spoke CHALLENGE light-alloy rim in black or silver is a statement of real intent. The sport brakes, featuring Brembo® four-piston calipers in the front, deliver maximum control in any situation, and stopping power every bit as uncompromising as the acceleration.

# CONFIDENCE

IF YOU TEACH A CAR TO GO FASTER,  
YOU MUST ALSO TEACH IT TO STOP FASTER.

The MINI John Cooper Works Convertible combines high performance with go-kart handling that's always open to the road ahead.

OPEN IT UP

EXPERIENCE PERFORMANCE  
THAT'S ALWAYS OPEN.

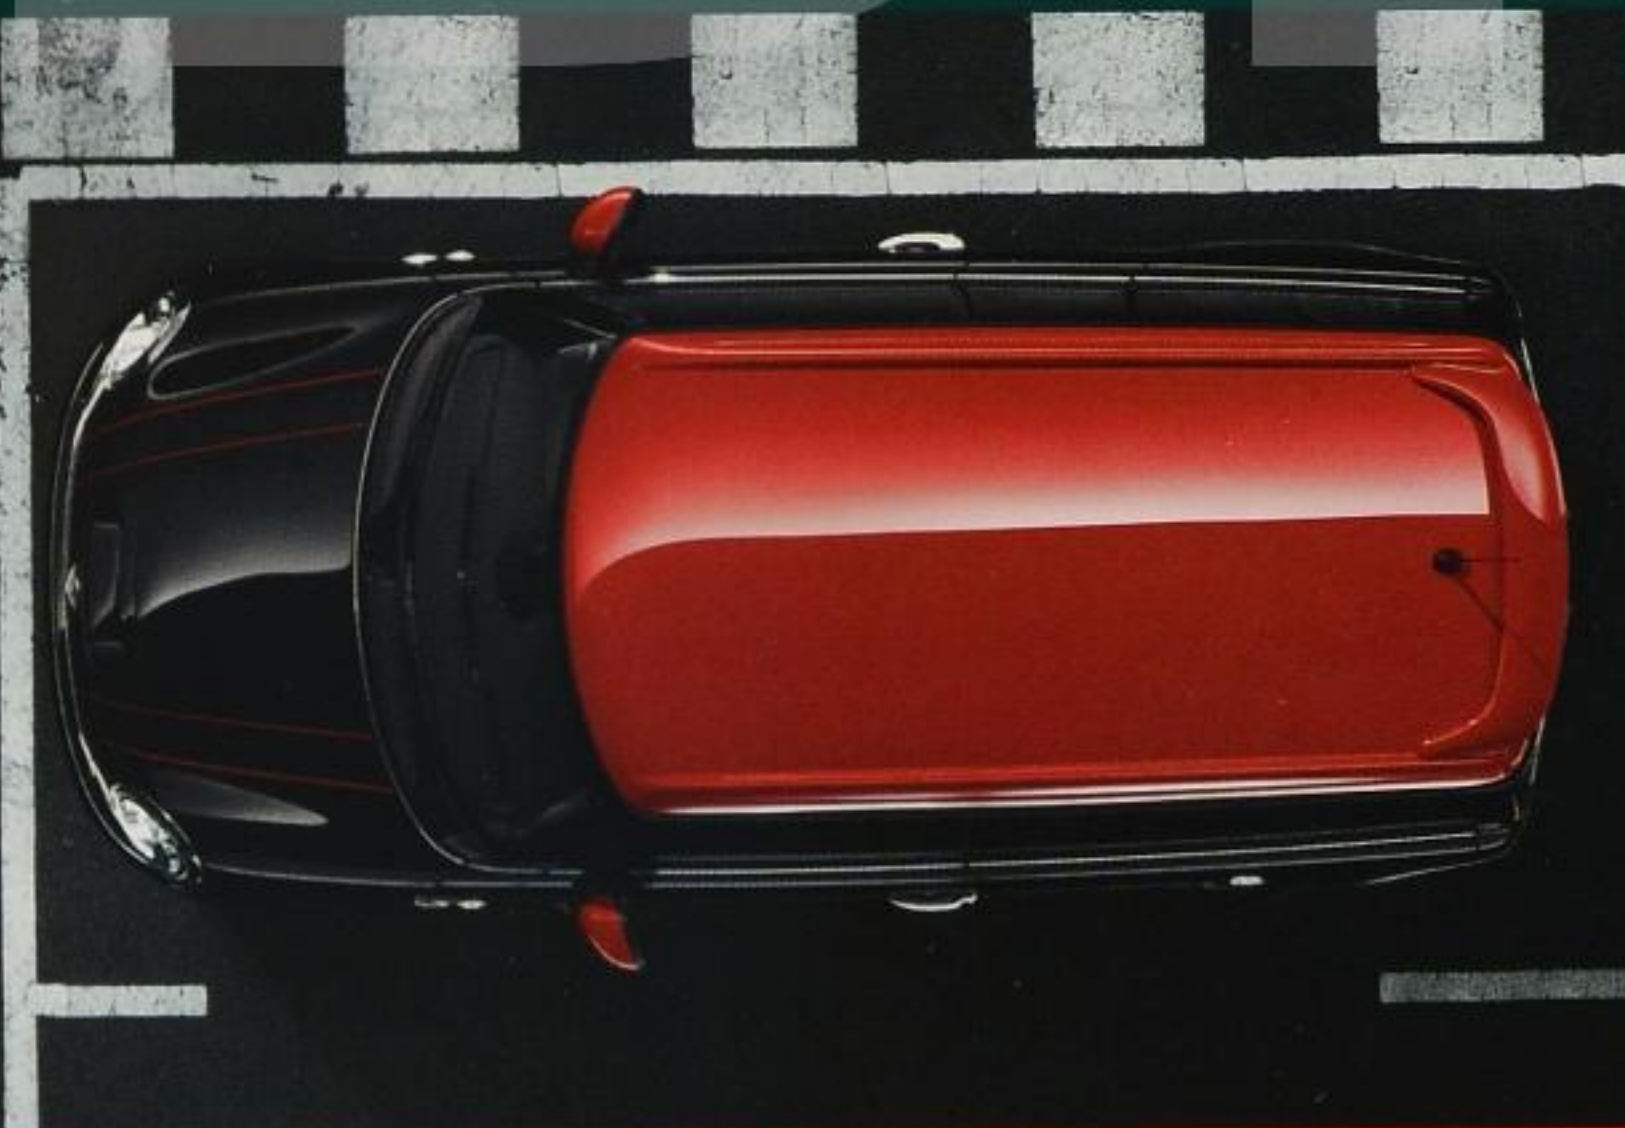

# UNIQUE

» THE OUTSIDE IS AS IMPORTANT  
AS THE INSIDE.

The contrasting Chili Red roof is exclusive to the MINI John Cooper Works Hardtop and MINI John Cooper Works Clubman. With these cars, anything is possible—except boredom.

A striking contrast: bonnet stripes in black with Chili Red edging ensure you stand out from the crowd.

# DETAILS

**INSPIRED DESIGN  
GEARED TO MOTOR.**

Large dual tailpipes and massive red Brembo® front brake calipers exude performance. Dynamic Traction Control (DTC) with Electronic Differential Lock Control (EDLC) enable enhanced cornering.

Making a strong impression: the 17-inch Cross Spoke CHALLENGE light-alloy rim in black.

With its aggressive tone and dual tailpipes, the sports exhaust pays homage to the racer in all of us.

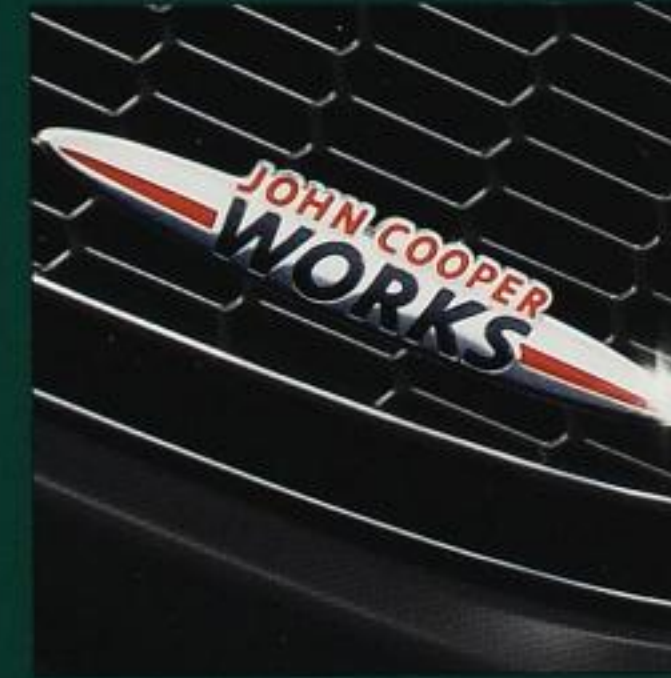

Reassuring power: the front red Brembo® brake calipers are ventilated with 12.4-inch brake discs.

Specially tuned 208-HP engine.

Wearing its heritage with pride: the John Cooper Works emblem.

# DESIRE

The interior is as unique as the exterior. Exclusive design elements like interior surfaces in Chili Red and sports seats in Carbon Black/Championship Red Lounge leather make every trip in the MINI John Cooper Works an experience to remember.

## EQUIPMENT | DESIGN AND TECHNOLOGY

### SPEEDOMETER

Putting a figure on excitement: the centrally positioned speedometer has a special Anthracite dial.

### THREE-SPOKE SPORT LEATHER STEERING WHEEL

Putting motoring fun within your grasp: the three-spoke sports leather steering wheel with multifunction option and stitching in Chili Red.

**PURE STYLE.  
PURE PASSION.**

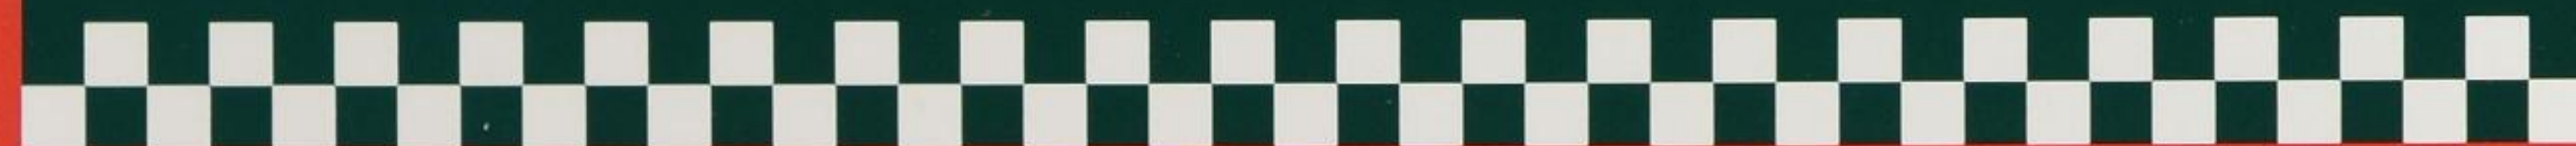

### GEARSHIFT

The 6-speed manual transmission is built for quick and precise gear changes. Exclusive to John Cooper Works models, the gearshift features Chili Red contrast stitching and red gearshift markings.

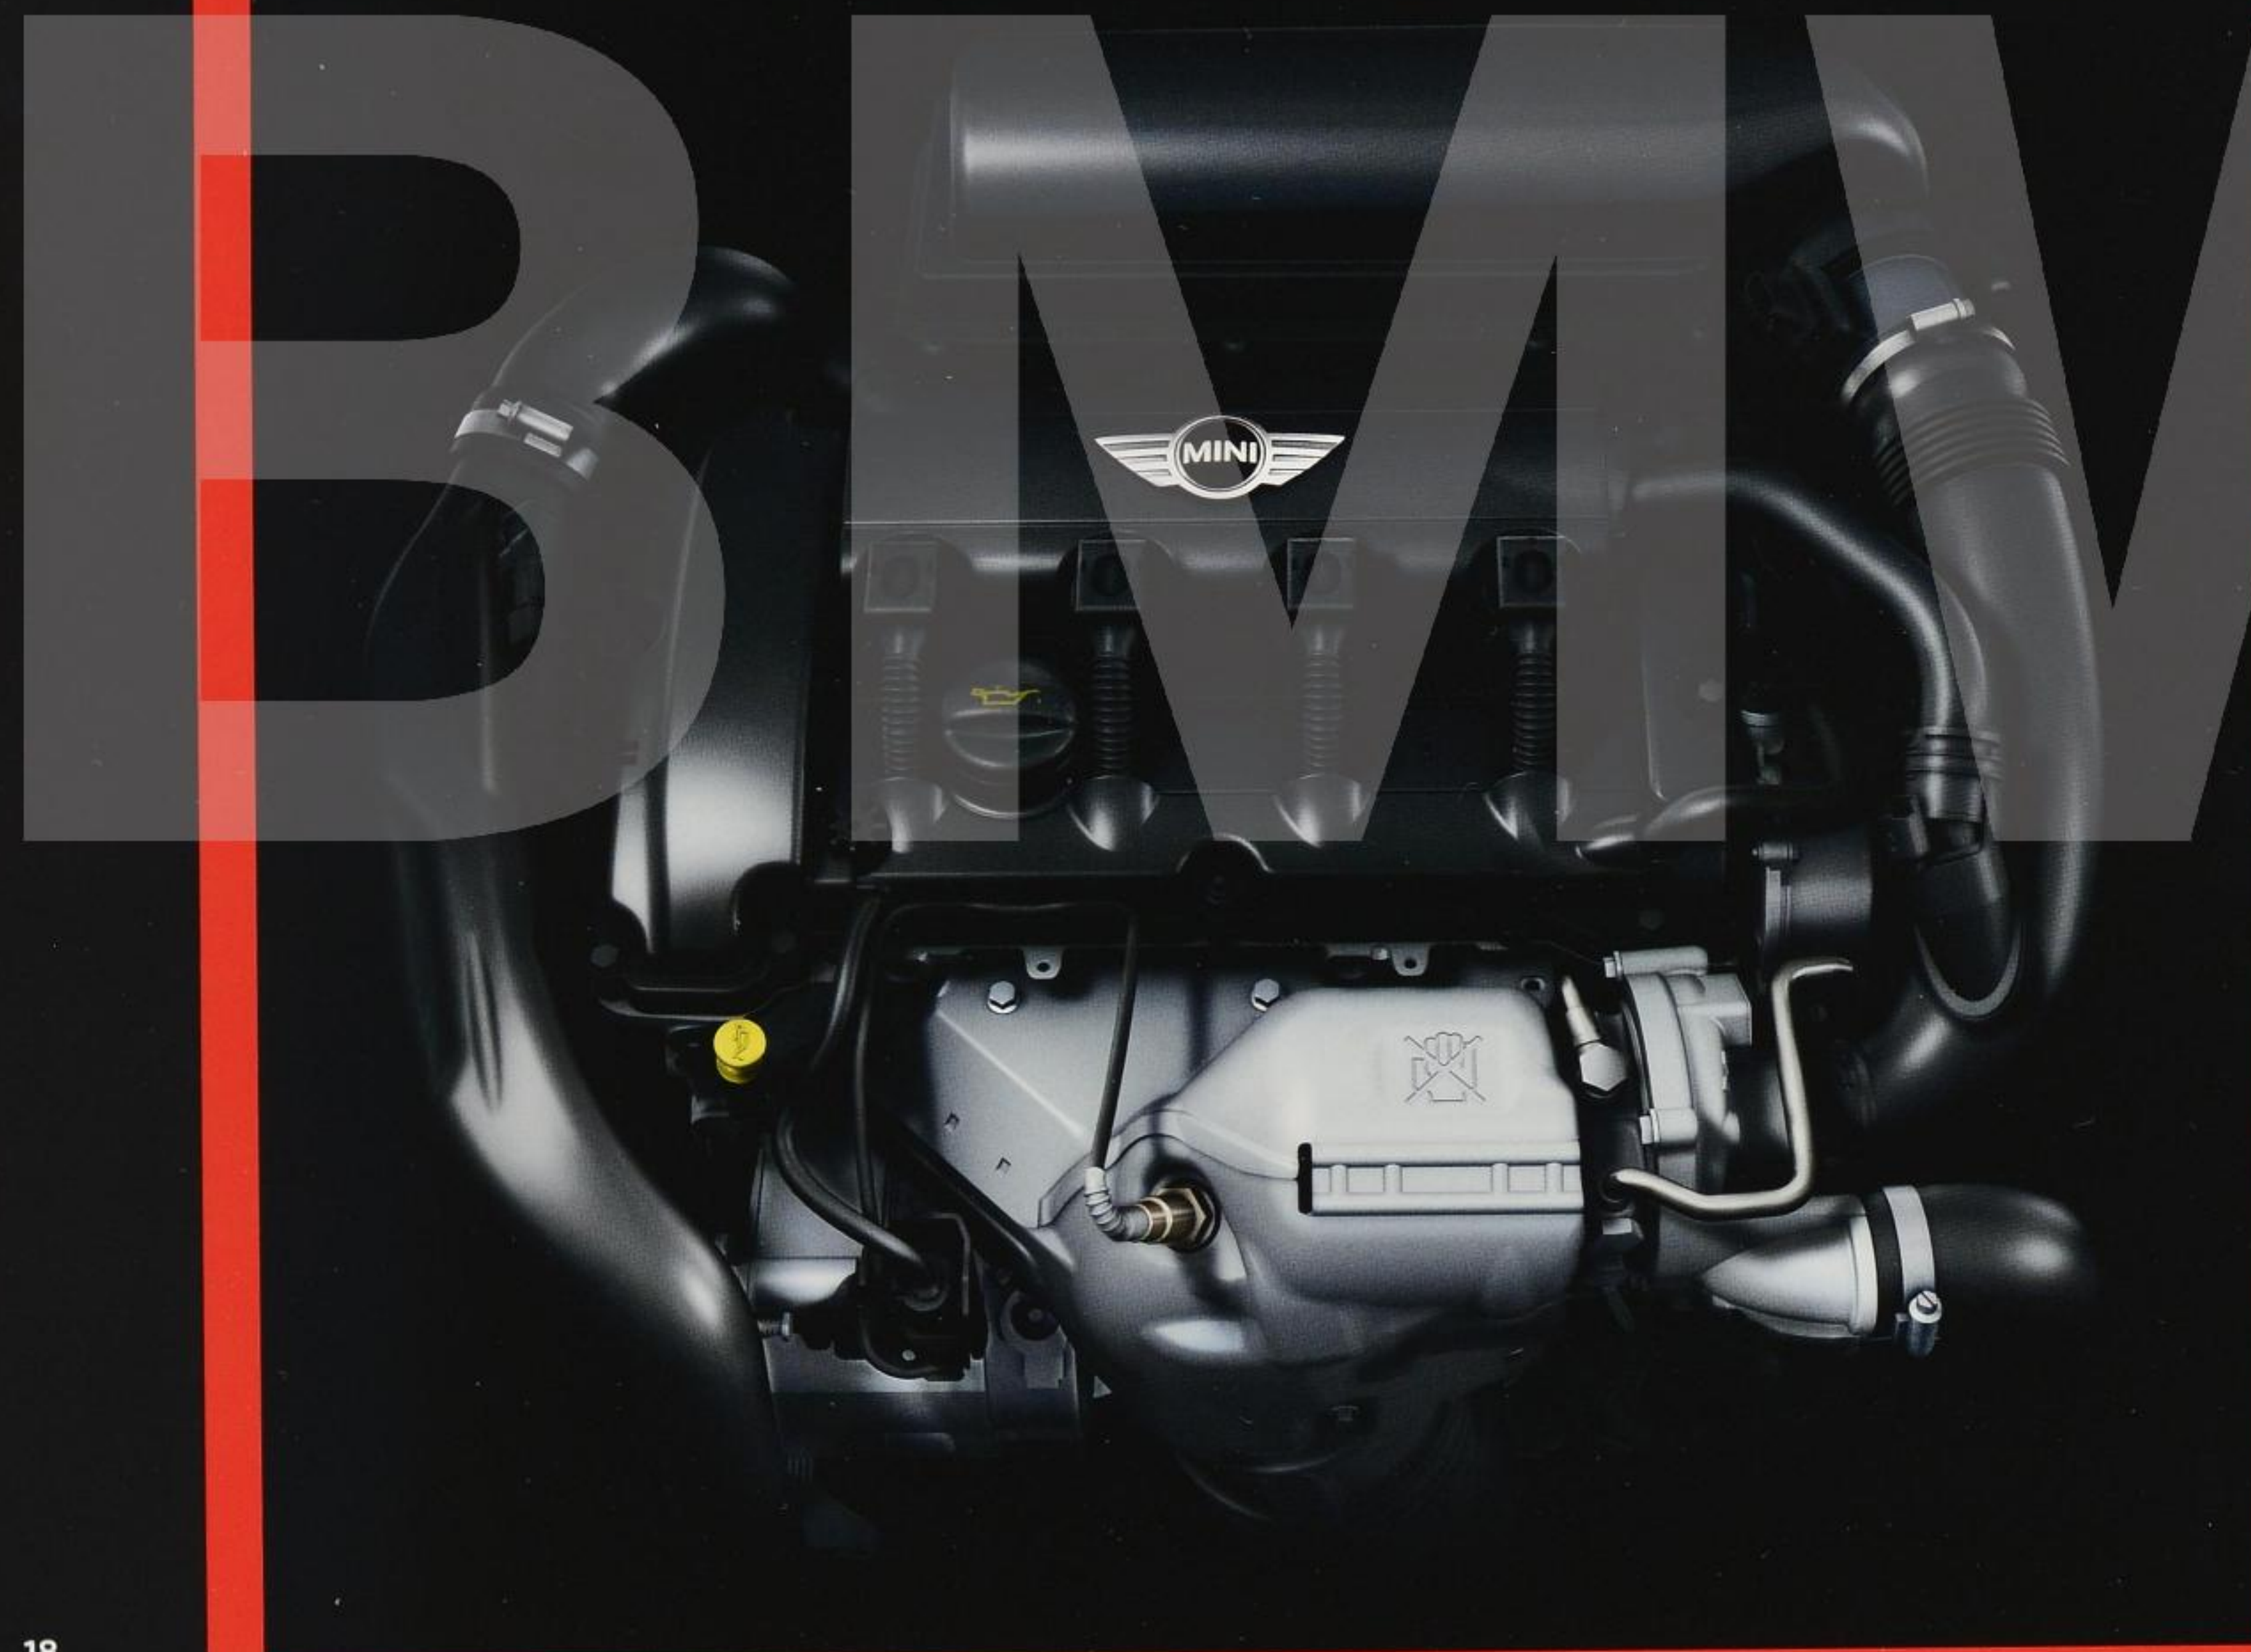

### HANDBRAKE LEVER

It's all about the details: the handbrake lever features red contrast stitching.

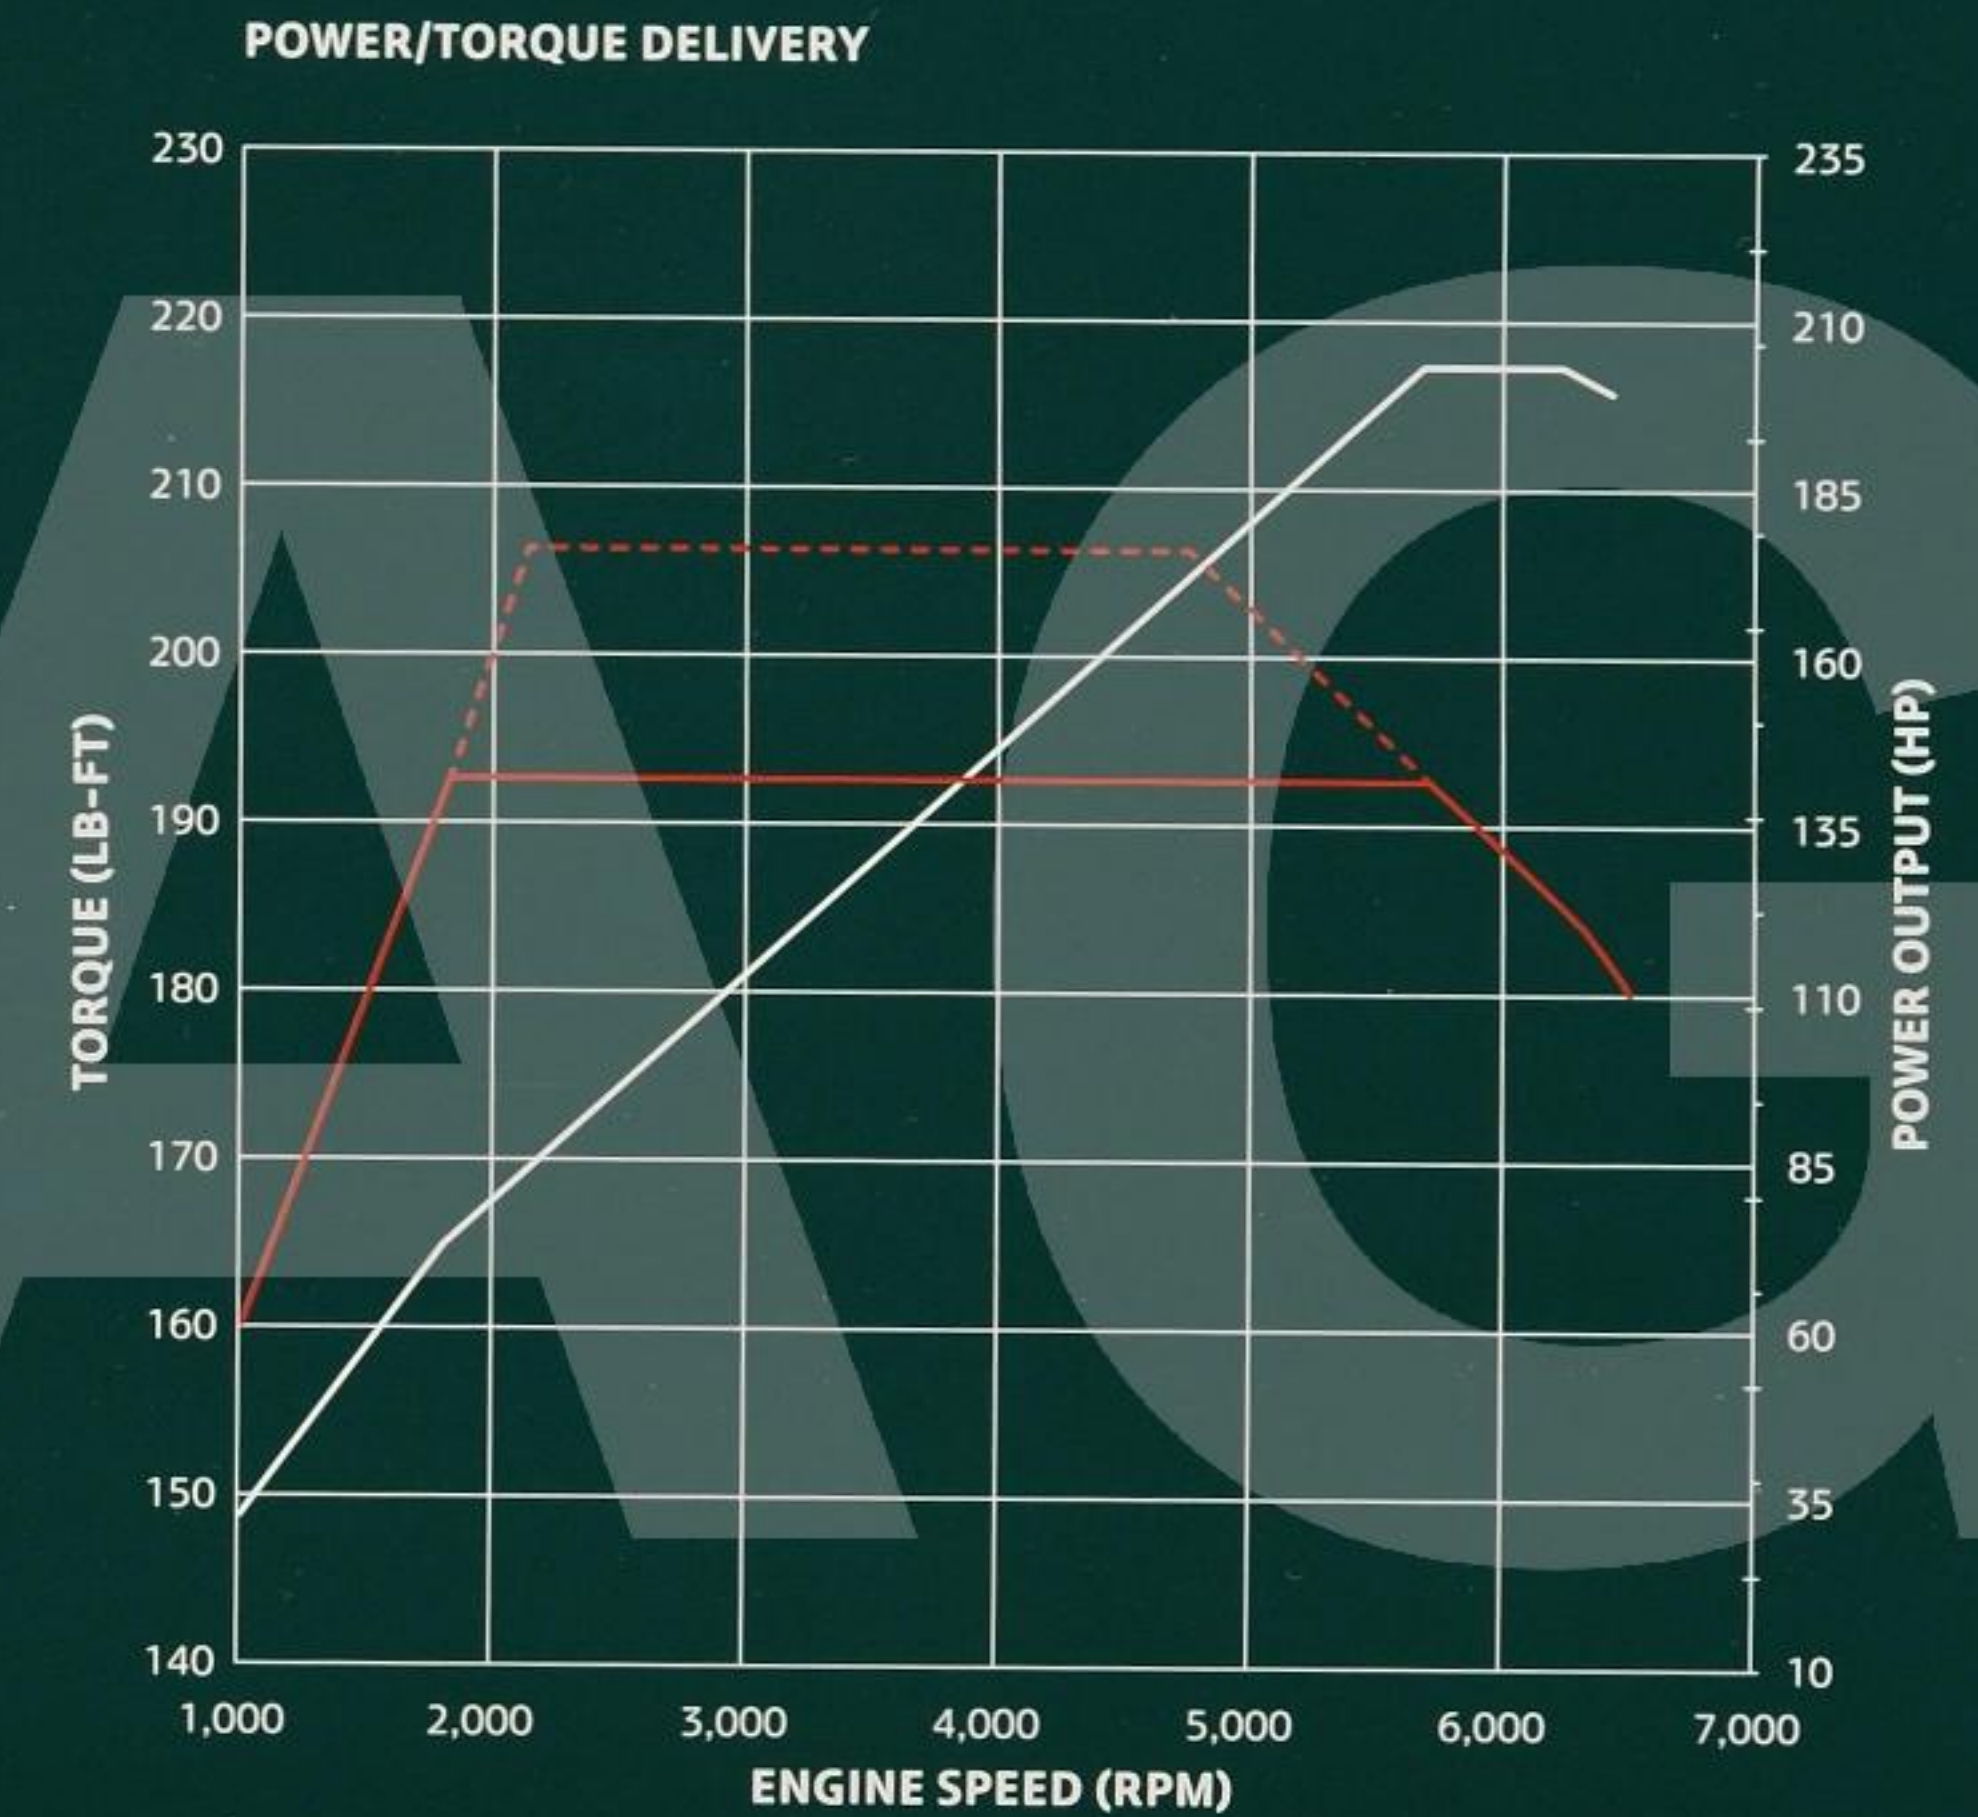

# ENGINE

## THE PRODUCT OF PASSION. THE PRODUCER OF 208 HORSEPOWER.

Built to perform: The engine delivers instant power as soon as you touch the accelerator. Every component has been proven through rigorous testing. From the strengthened pistons, to the enhanced turbocharger and performance tuning, bet you can't wait to get things started.

POWER OUTPUT —  
TORQUE —  
OVERBOOST - - -

Max. output/ max. revs	Max. torque/revs	Stroke/bore	Compression ratio	Forced induction	Specific power output
208-HP/6,000 rpm	192 lb-ft/ 1850–5600 rpm (207 lb-ft/ 2000–5100 rpm) <sup>1</sup>	3.38/3.03 inch	10.0:1	twin-scroll turbo with air-to-air intercooler	130 HP/ltr

<sup>1</sup> With overboost function.

#### DYNAMIC STABILITY CONTROL (DSC) AND DYNAMIC TRACTION CONTROL (DTC).

Standard DSC counteracts loss of grip by intervening in the engine management and applying braking force to individual wheels at front and rear as necessary. DSC also includes hill assist. The standard DTC with Electronic Differential Lock Control (EDLC) gives drivers the option to make more of the car's natural handling by delaying interventions in engine management and braking until the last possible moment. Should the inner wheel lose too much traction, EDLC will apply braking to it, ensuring the car maintains forward momentum through corners and on surfaces with variable levels of grip. At the same time, it enables more torque to be applied to the outer wheel. Braking interventions on the rear axle also help the car to hold its line when cornering.

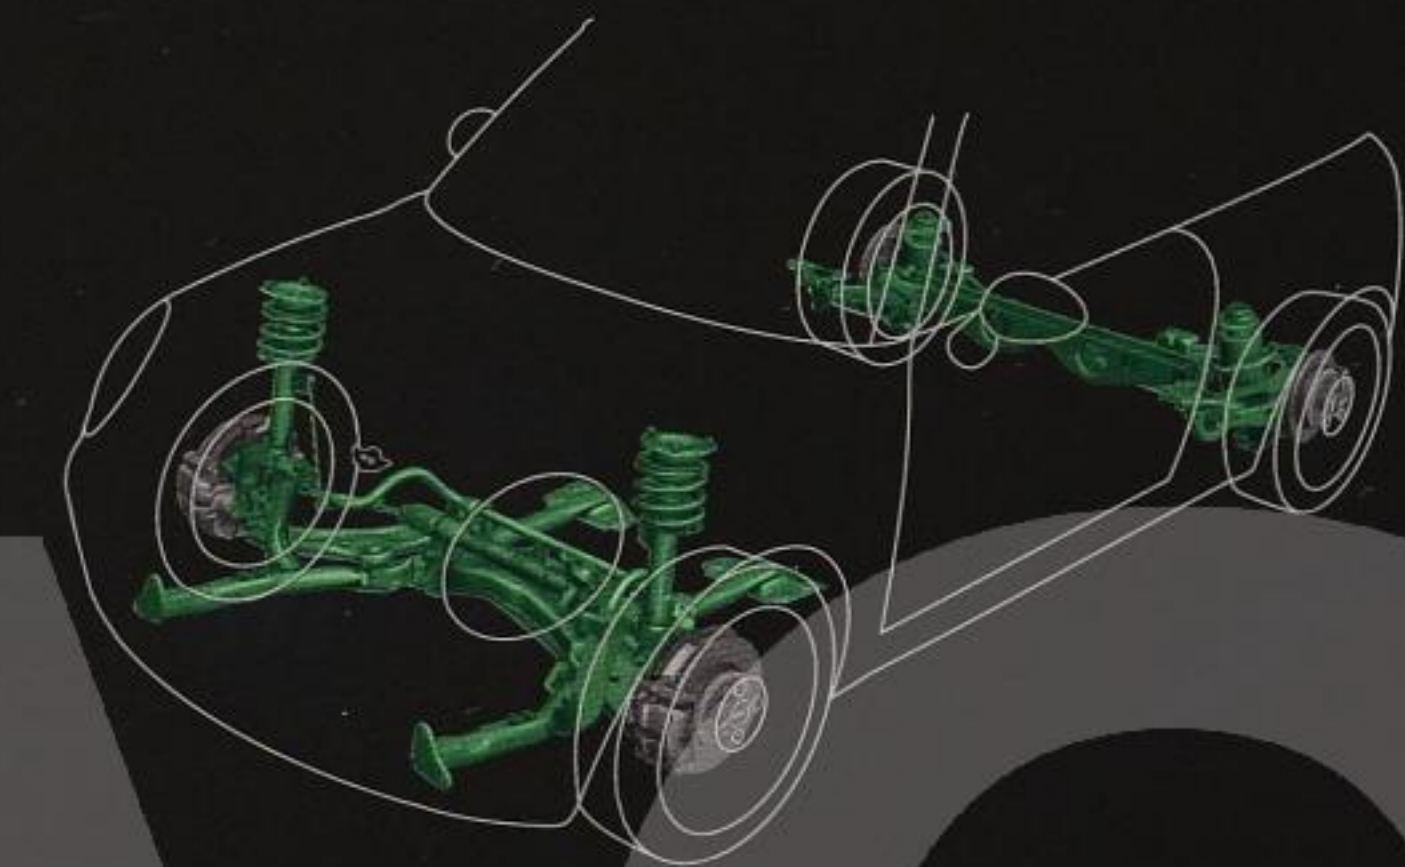

#### AIRBAGS

The MINI John Cooper Works Hardtop (shown in illustration above) and MINI John Cooper Works Clubman come standard with six airbags. Driver and front-passenger airbags help protect the head and upper body in the event of a head-on collision. Side and head airbags are primarily designed to help reduce the risk of injuries to the head, chest and abdominal areas from side impacts. The MINI John Cooper Works Convertible comes standard with four airbags. Airbags may not deploy simultaneously.

#### RIGID BODY STRUCTURE

The body has been reinforced at strategic points, providing excellent torsional rigidity for an extremely robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

#### SUSPENSION

The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low center of gravity results in the unmistakable MINI handling: stable, agile, with excellent cornering.

**208 HORSEPOWER ON OFFENSE.  
RIGID BODY ON DEFENSE.**

# COLOR

## EXTERIOR COLORS

A variety of metallic and non-metallic paint options are available for your MINI John Cooper Works.

There is also a range of colors for the roof. It is available in body color, or in contrast colors to complement the body color chosen. These include a contrast roof in Chili Red, an option which is exclusive to the MINI John Cooper Works Hardtop and MINI John Cooper Works Clubman.

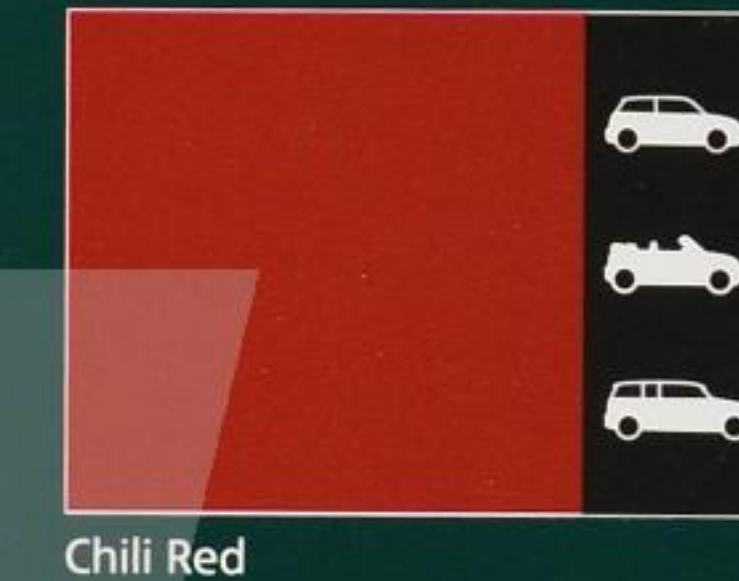

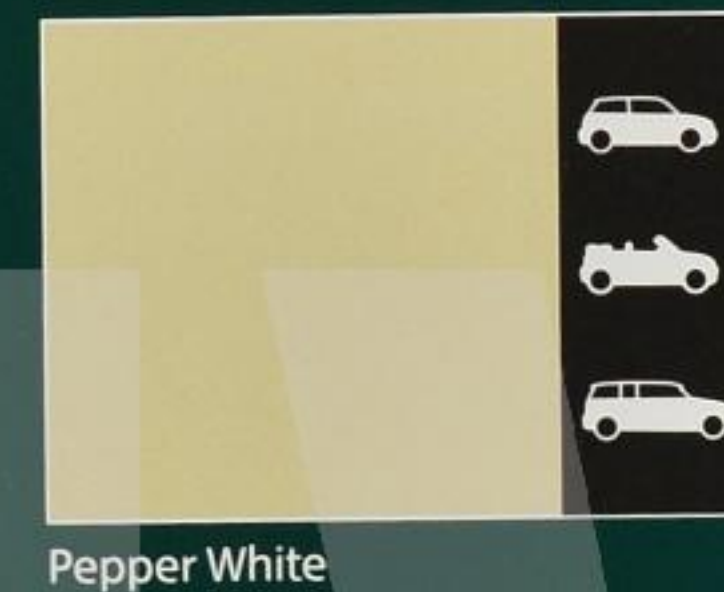

## ROOF COLORS FOR MINI HARDTOP AND MINI CLUBMAN

-  Contrast roof in white (for MINI Hardtop only)
-  Contrast roof in black
-  Contrast roof in silver (for MINI Clubman only)
-  Roof in body color (illustrated here in Spice Orange)
-  Contrast roof in Chili Red (for MINI John Cooper Works Hardtop and MINI John Cooper Works Clubman only)

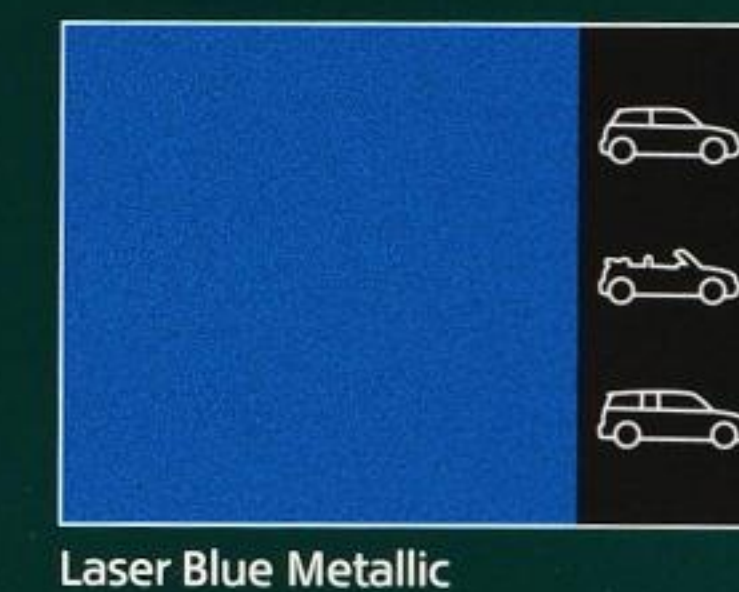

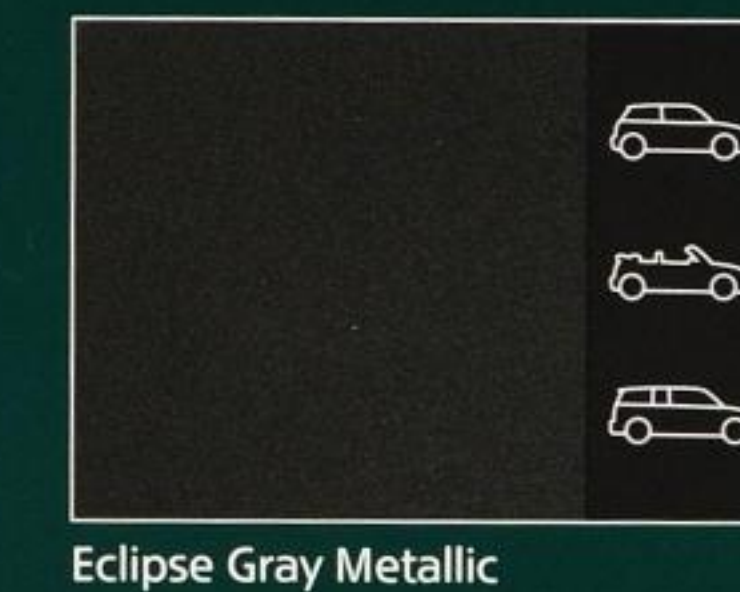

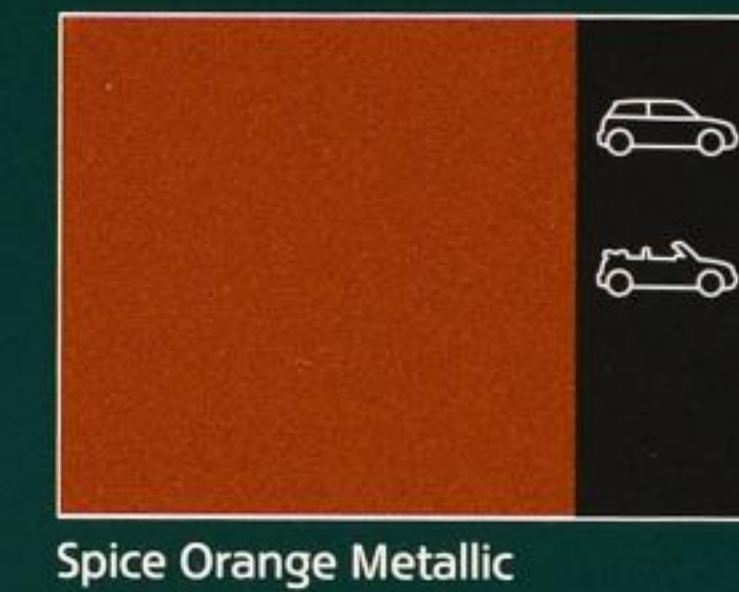

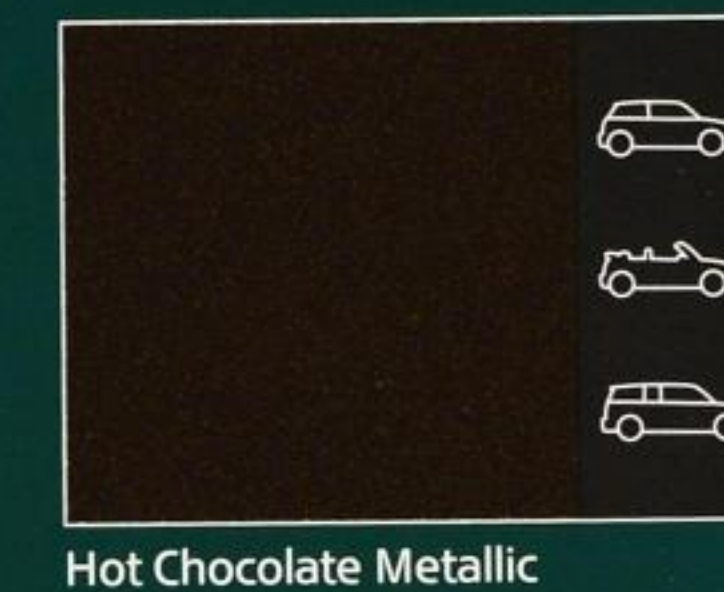

## SOFT TOP COLORS FOR MINI CONVERTIBLE

-  Soft top in Black
-  Soft top in Hot Chocolate
-  Soft top in Denim Blue

## NON-METALLIC EXTERIOR COLORS.

## METALLIC EXTERIOR COLORS.

IT'S NO ACCIDENT THEY ALL  
MATCH THE CHECKERED FLAG.

## EQUIPMENT | ACCESSORIES

Pure racing spirit: The accessory Aero kit in body color for the MINI John Cooper Works models. The front apron features a black ventilation grille and fog lights surrounded by fins, while the side skirts incorporate sports-style air vents. At the back of the car, there is a striking rear apron with black fins and optional painted black band<sup>1</sup> in body color. A rear spoiler<sup>1</sup> enhances aerodynamic performance by increasing downforce. Chrome-plated side scuttles and various Carbon Fiber elements—air intake trim, exterior mirror caps, diffuser and tailgate handle<sup>2</sup>—complete the effect. And light-alloy wheels with cross-drilled brake discs enhance it.

Cross Spoke R113 light-alloy wheel in Brilliant Black

Rear spoiler<sup>1</sup>

Carbon Fiber air intake trim

Side scuttles

Carbon Fiber mirror caps

<sup>1</sup> Only available on MINI John Cooper Works Hardtop.  
<sup>2</sup> Not available on MINI John Cooper Works Clubman.

The perfect finishing touch: interior surfaces in Carbon Fiber with a sports steering wheel in Alcantara/Carbon.

Additional instruments<sup>2</sup>

Harness the full power of your MINI with the John Cooper Works sports suspension<sup>1</sup>. Its components are specially designed to provide optimum handling and extremely stiff coil springs are painted a striking Red, and lower the suspension by 0.4 inches. The rugged suspension cross-brace makes the car more stable at speed by reducing body vibration. The Cross Spoke R113 Red Stripe light-alloy wheel complements the sporty look of John Cooper Works by matching the red brake color. For a consistent interior feel, the sports steering wheel, gearshift and handbrake are also available in Alcantara or leather, trimmed with Carbon Fiber elements. Interior surfaces and door grips also in Carbon Fiber complete the racecar ambience of the cockpit. The indoor car cover<sup>1</sup> protects against dust and dirt—while showing that you can still leave a racy impression even when you're not moving. And to enhance motoring excitement there are the motorsport-inspired additional instruments<sup>2</sup> (radiator temperature, relative torque and lateral acceleration indicators).

Cross Spoke R113 Red Stripe light-alloy wheel

Sports suspension<sup>1</sup>

Suspension cross-brace

Indoor car cover<sup>1</sup>

<sup>1</sup> Only available on MINI John Cooper Works Hardtop.

<sup>2</sup> A maximum of two additional instruments can be fitted on one vehicle.

Where the Openometer is specified on the MINI John Cooper Works Convertible, only one additional instrument can be fitted.

## RECYCLING.

Recycling is central to the MINI philosophy. Many of the materials used are selected because they can be used in a sustainable and environmentally friendly way. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Center in Munich.

## WARRANTY.

At MINI, our commitment to quality and customer satisfaction is clearly demonstrated by a 4-year/50,000-mile New Passenger Car Limited Warranty, and a 12-year/unlimited-mileage warranty against rust and corrosion perforation.

## MINI ROADSIDE ASSISTANCE PROGRAM.

The MINI Owner experience continues out on the road. You are only a toll-free call away. The MINI Roadside Assistance Program is available 24 hours a day anywhere in the United States, Canada and Puerto Rico. The program offers Emergency Service Calls (battery boost, fitting of the spare tire, free fuel delivery to a vehicle out of gas, lock-out service, towing), Trip Interruption Benefits, Traffic Accident Services & Benefits and Travel Planning Services.

## BOOT TO BONNET NO COST MAINTENANCE.

Boot to Bonnet No Cost Maintenance comes standard with your vehicle. This service is included for 3 years/36,000 miles and is determined by the service interval indicator.

For more information visit [MINIUSA.COM](http://MINIUSA.COM)
