

**MINI COOPER CONVERTIBLE.
MINI COOPER S CONVERTIBLE.**

THE NEW MINI CONVERTIBLE: FLIP THE SCRIPT.

The new MINI Convertible lets you experience that go-kart feeling in its purest form.
The sky really is the limit.

OPEN AIR SHOW.

As soon as you drop the top of the new MINI Convertible, it feels like the whole world is within reach. Get behind the wheel and the gutsy, fuel-efficient engines open up a world of possibilities.

RENEW

THE MINI CONVERTIBLE: BECAUSE LIFE'S MORE INTERESTING WITH A FEW TWISTS AND TURNS.

A low centre of gravity and short overhangs add up to grin-inducing road handling. Making every journey in the new MINI Convertible an experience to be savoured.

Illustration shows MINI Cooper Convertible with Original MINI accessories.

THE MINI CONVERTIBLE: BLOW YOUR COVER.

Gone in 15 seconds: the soft-top folds away at the touch of a button.
Press it again and you're back undercover in no time.

SAFETY: CUTTING-EDGE TECHNOLOGIES.

AIRBAGS.

The new MINI Convertible is fitted with four airbags as standard. Driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while the head/thorax airbags in the front seats are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

ACTIVE ROLL-OVER BAR.

Made of high-strength aluminium, the active roll-over bar ensures optimum protection for all passengers. Normally it is retracted behind the rear headrests, and blends seamlessly into the lines of the car, but in an emergency it deploys upwards in a fraction of a second.

DSC.

Dynamic Stability Control (DSC) is fitted as standard and counteracts vehicle instability by intervening in the engine management and applying braking to individual wheels at the front and rear as necessary. DSC also includes Hill Assist, which helps prevent the car from rolling backwards on slopes.

STRIKING INSIDE AND OUT.

DESIGN.

Built for life, designed with style. This philosophy shapes every last detail of the new MINI Convertible, making it the perfect combination of style and substance.

Ready to roll: the soft-top of the MINI Convertible is available in a choice of three colours – Black, Denim Blue or Hot Chocolate.

17" Black-Star Bullet light alloy wheels are exclusive to the MINI Convertible.

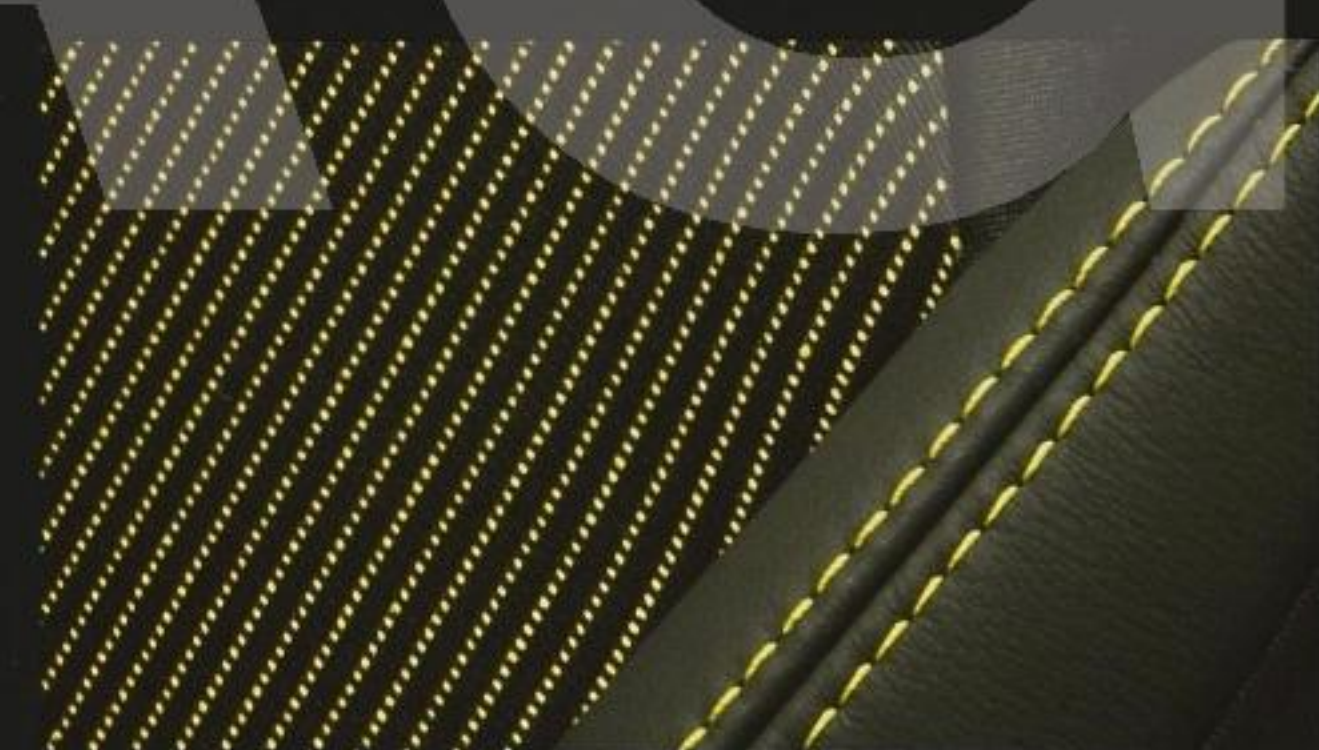

Less is more: the roll-over bar behind the headrests is fully integrated, and the soft-top folds away without the need for dedicated boot space.

A colourful character: interior surfaces can be specified to match the exterior colour of the car, shown here in Horizon Blue.

Fun in full measure: the Openometer keeps track of exactly how long you have spent with the top down.

Another MINI Convertible exclusive: sport seats with Ray cloth/leather upholstery with Interchange Yellow features.

EXTERIOR AND SOFT TOP COLOURS.

ANYTHING GOES – EXCEPT BLAND.

The MINI range of colours includes a wide variety of bold solid colours and dazzling metallic options, offset with striking contrast elements. The soft-top is available in Black, Denim Blue or Hot Chocolate, while the mirror caps come in Body Colour or Black (only in conjunction with soft-top in Black). Where alloy wheels are specified in White, the mirror caps are also White.

¹ All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with the 6-speed automatic transmission.

² All MINI models comply with the EU4 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle, made up of approximately one third urban and two thirds extra urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption.

³ With overboost function.

⁴ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

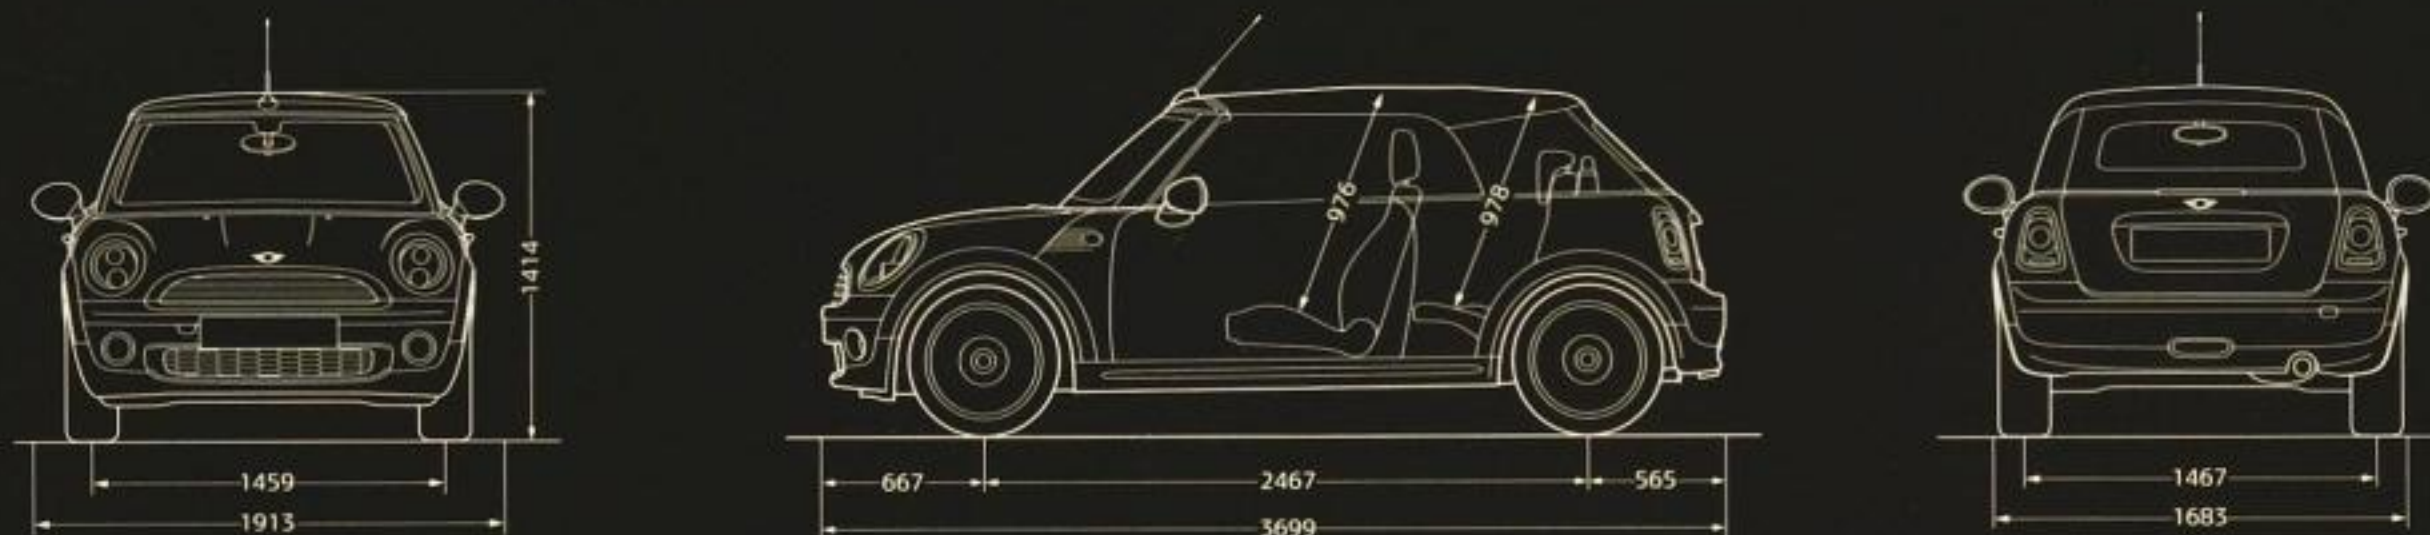

WAG

RECYCLING.

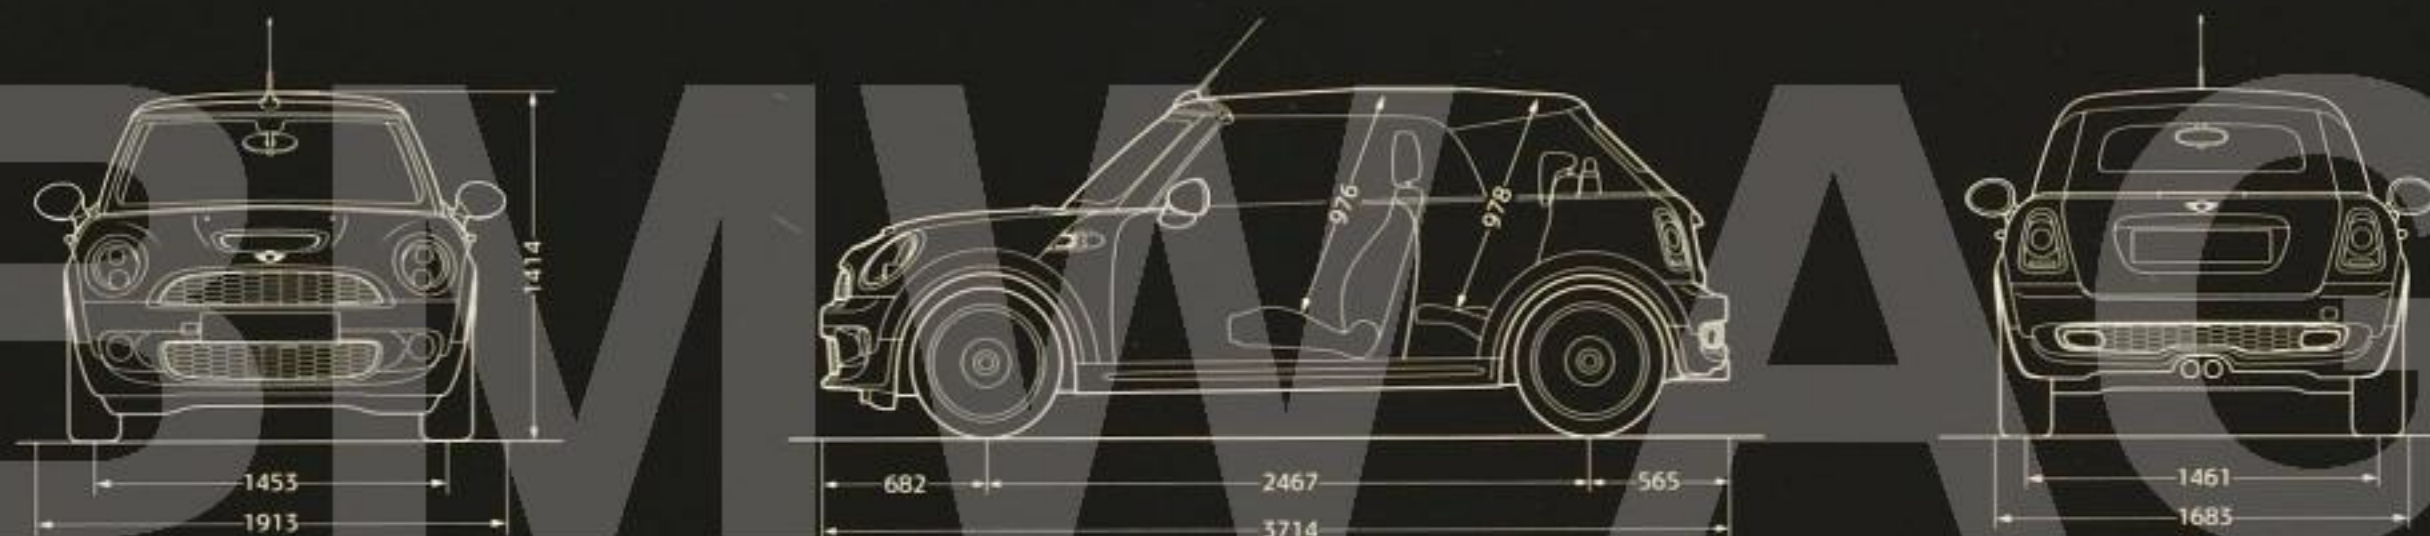

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. Every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your authorised MINI Dealer will also be pleased to advise you on the disposal of your old vehicle.
