

MINI JOHN COOPER WORKS.
MINI JOHN COOPER WORKS CLUBMAN.

RACING IS IN OUR BLOOD

Climb in. Take a deep breath. Test the throttle. And experience a legend reborn. A few yards are all it takes to feel at one with the car. Because this is the MINI John Cooper Works.

John Cooper: a driver of legendary skill, a builder of legendary cars. In the 1950s and 60s, he ushered in a new era in racing car construction – and laid the foundations for John Cooper Works. Today's third-generation MINI John Cooper Works and MINI John Cooper Works Clubman have lost none of their predecessors' magic, and prove once again that engineering genius and racing spirit make an unbeatable combination. Perfectly assured through corners, and with breathtaking acceleration on the straights, only one thing can taint the pleasure of being in these cars – the knowledge that eventually you'll have to get out.

POWER

DESIGNED TO PERFORM –
BUILT TO BE ENJOYED.

Start the ignition – and already the engine is straining at the leash.
Touch the accelerator, and feel it go.
Every yard you drive is like a shot of adrenalin.

SHAPE

BMW

» ADMIRER BY EVERYONE –
ENVIED EVERYWHERE.

Other road users will have to get used to being overtaken by the MINI John Cooper Works. So it's lucky its sporty rear end makes such a pretty view. And a shame they'll only have a few seconds to admire it.

Illustration shows MINI John Cooper Works with John Cooper Works accessories.

CONCEPT | MINI JOHN COOPER WORKS

Resistance is futile: the 17-inch Cross Spoke CHALLENGE alloy wheels are for drivers who know exactly what they want. The sport brakes deliver awesome stopping power. Because you can push harder when you know you can stop.

CONFIDENCE

**SOMETIMES YOU NEED TO LOSE SPEED –
BUT YOU’LL NEVER LOSE THE PASSION.**

CONCEPT | MINI JOHN COOPER WORKS

CHARISMA

**MAKES PULSES RACE –
EVEN WHEN IT'S STANDING STILL.**

A striking radiator grille. An irresistible appeal.

Let your excitement get the better of you – and embark on a new adventure.

Illustration shows MINI John Cooper Works with John Cooper Works accessories.

CHARACTER

BMW

» RULES THE ROAD –
BLOWS THE MIND.

You'll have to decide between two distinctive models, the MINI John Cooper Works or the MINI John Cooper Works Clubman. Although you've already made the most important decision – that enjoyment is not just part of driving, it is driving.

Illustration shows MINI John Cooper Works Clubman with John Cooper Works accessories.

Streets ahead: a combination of performance and style that's a winner on any sort of road. No wonder it puts everything else in the shade.

PERSONALITY

**COMMANDS YOUR ATTENTION –
DEMANDS YOUR RESPECT.**

HERITAGE

A glorious history that includes two Formula One constructors' world championships and three victories in the Monte Carlo rally is continued today by the new MINI John Cooper Works.

» SIX GEARS –
SIX STEPS TO MOTORING HEAVEN.

DETAILS

Sound as good as they look: the sport exhaust double tailpipes.

Sporty and stylish: the 17-inch Cross Spoke CHALLENGE alloy wheel.

Reassuring power: the red brake calipers.

Built to perform: the engine.

Wearing its heritage with pride: the John Cooper Works badge.

LEAPS TO THE EYE –
MAKES THE HEART LEAP.

The sport exhaust double tailpipes and red brake calipers catch the eye. And the instantaneous responses of the engine will make you catch your breath – as will the incredible traction and dynamic cornering made possible by DTC with electronic differential lock control. This is technology that dazzles.

SPEEDOMETER

Let's see at a glance what the new engine is capable of – a top speed of 238 km/h.

SILL FINISHERS

Passion and principles without compromise: step into the world of John Cooper Works.

ENGINE

EQUIPMENT | DESIGN AND TECHNOLOGY

THE PRODUCT OF PASSION – THE PRODUCER OF 211 HORSEPOWER.

Built to perform: the new engine delivers instant power as soon as you touch the accelerator. Every component has been proven in a punishing testing programme. Bet you can't wait to get started.

Max. output/ max. revs	Max. torque/revs	Stroke/ bore	Compression ratio	Forced induction	Specific power output
155 kW/211 hp/ 6000 rpm	260 (280) ¹ Nm/ 1850–5700 (2000) ¹ rpm	85.5/77 mm	10:1	twin scroll turbo	131 hp/l

¹ With overboost function.

SOUND

MUSIC TO THE EARS –
STIRRING TO THE SOUL.

A rumble when you start the engine. A full-throated roar when you put your foot down. The mere sound of this engine is enough to get your blood pumping – and that's before you see what it can do through fast corners.

RESTRAINT SYSTEM

A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

AIRBAGS

The MINI John Cooper Works and MINI John Cooper Works Clubman are fitted with six airbags as standard: driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

BODY

The body has been reinforced at strategic points, guaranteeing excellent torsional rigidity for an extremely robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

CHASSIS

The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with excellent cornering ability at all speeds, plus superb traction and outstanding safety.

PROTECTION

**WHATEVER HAPPENS –
YOU'RE IN SAFE HANDS.**

IDENTITY

Eye-catching: the aerodynamic kit includes a front apron and side skirts.

EQUIPMENT | ACCESSORIES

Racing spirit: the rear apron and the diffuser in carbon.

Pure racing spirit: the aerodynamic kit in body colour for the MINI John Cooper Works. The front apron features a black ventilation grille and fog lights surrounded by fins, while the imposing side skirts incorporate sports-style air vents. At the back of the car, there is a striking rear apron with black fins above the rear fog lights, and a rear spoiler* to enhance aerodynamic performance. The kit is rounded off with various carbon elements – side scuttles, air intake trim, exterior mirror caps, diffuser and tailgate handle.

**A GRAND PASSION –
AND ONE THAT EXTENDS TO THE SMALLEST DETAILS.**

Rear spoiler*

Air intake trim

Side scuttles

Exterior mirror caps

* Not available for MINI John Cooper Works Clubman.

Powerful: the R113 Cross Spoke alloy wheel in the 7 J x 18-inch size with cross-drilled brake discs.

Making a powerful statement: the sport stripes and the R113 Cross Spoke alloy wheels in the 7 J x 18-inch size with 205/40 R 18 runflat tyres, available in either matt black or a burnished finish. Stopping power is provided by sport brakes with 17-inch cross-drilled discs. The John Cooper Works sport suspension* enables you to harness the full power of your MINI, with components specially designed to provide optimum road-holding. The short, extremely stiff coil springs are painted a striking red, and lower the suspension by 10 millimetres. The suspension cross-brace makes the car more stable at speed by reducing body vibration. And the indoor car cover* protects against dust and dirt – while showing that you can leave a racy impression even when you're not moving.

Sport suspension*

Suspension cross-brace

Indoor car cover*

* Not available for MINI John Cooper Works Clubman.

Show your racing credentials: the sport stripes for the bonnet, roof and rear.

The perfect finishing touch: interior trim strips in carbon with a steering wheel in Alcantara/carbon.

At the heart of the driving experience: upgrade the cockpit of your MINI with sport seats in Alcantara or leather. The bucket design features a lightweight plastic frame and pronounced side bolsters for excellent lateral support when cornering at speed. To complement your sport seats, the sport steering wheel, gear lever knob and handbrake grip are also available in Alcantara or leather, trimmed with carbon elements. Interior trim strips and door grips likewise in carbon complete the race-car ambience of the cockpit. And to enhance driving enjoyment still further, there is the gear shift indicator – mounted directly in the driver's line of sight, it indicates which gear to select for maximum acceleration. Floor mats with the Checkered Flag design add an extra dash of racetrack style. All that remains is for you to climb in and hit the road.

¹ All MINI models comply with the EU4 exhaust emissions standard. Fuel consumption is determined in accordance with the EU driving cycle, made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption as such.
² With overboost function.

³ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.
