

MINI MOTORING ACCESSORIES 2004 **YOU-IFICATION WORKBOOK**

LET'S BUILD A MINI WOJZEKOWSKI*

Thousands of people have worked countless hours to ensure that your MINI is one of the finest vehicles on the planet. Despite their dedication, your MINI is not quite finished. It requires you to put your name on it and this Workbook is provided to help you do that. Start with MINI Motoring Accessories and then add your own personal touches. There's a bunch of MINIs out there, but there's only one MINI "whatever-your-name-is."

There is no such thing as a MINI Wojzekowski. Do not go to your local MINI dealer, flash a month's salary as down payment and ask for one. It is a name we conjured up to make the point that a MINI isn't complete until you put your name on it with MINI Motoring Accessories. Just like our fictitious Mr. Wojzekowski did.

PLACE PHOTO OF YOUR MINI HERE*

NAME OF MOTORER:

VEHICLE NAME:

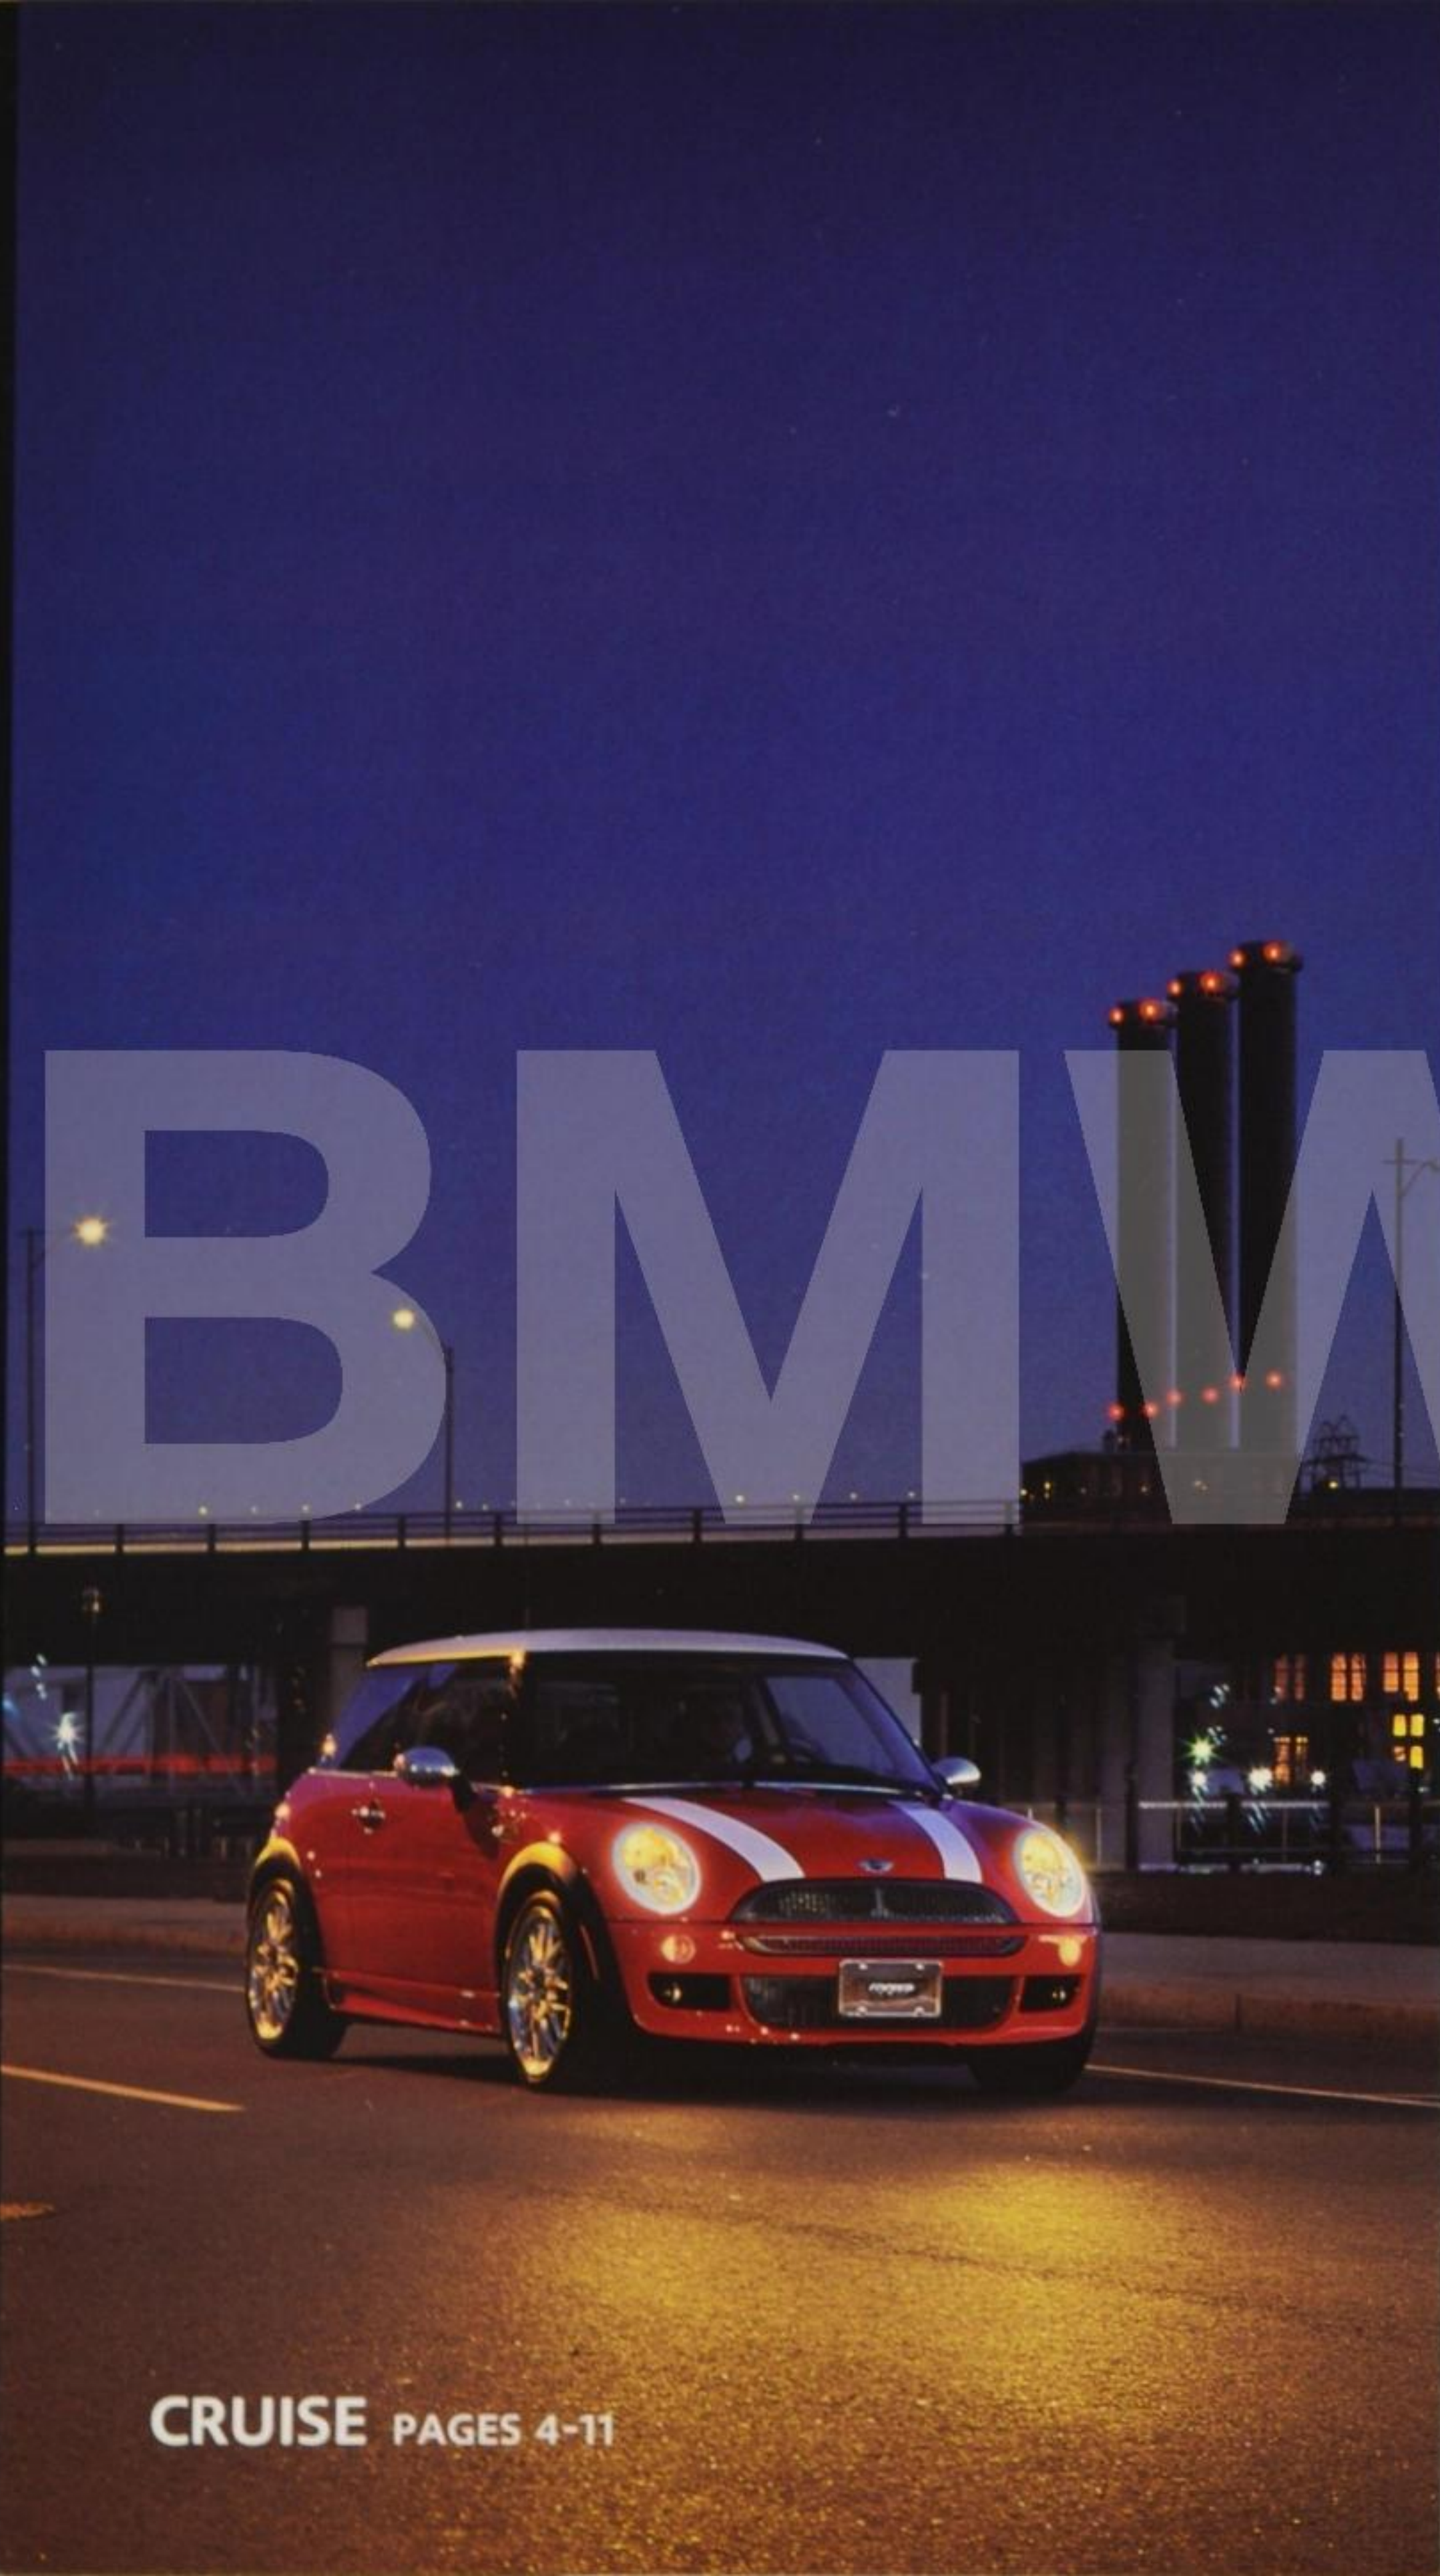

YEAR/MODEL:

BODY COLOR:

ROOF COLOR:

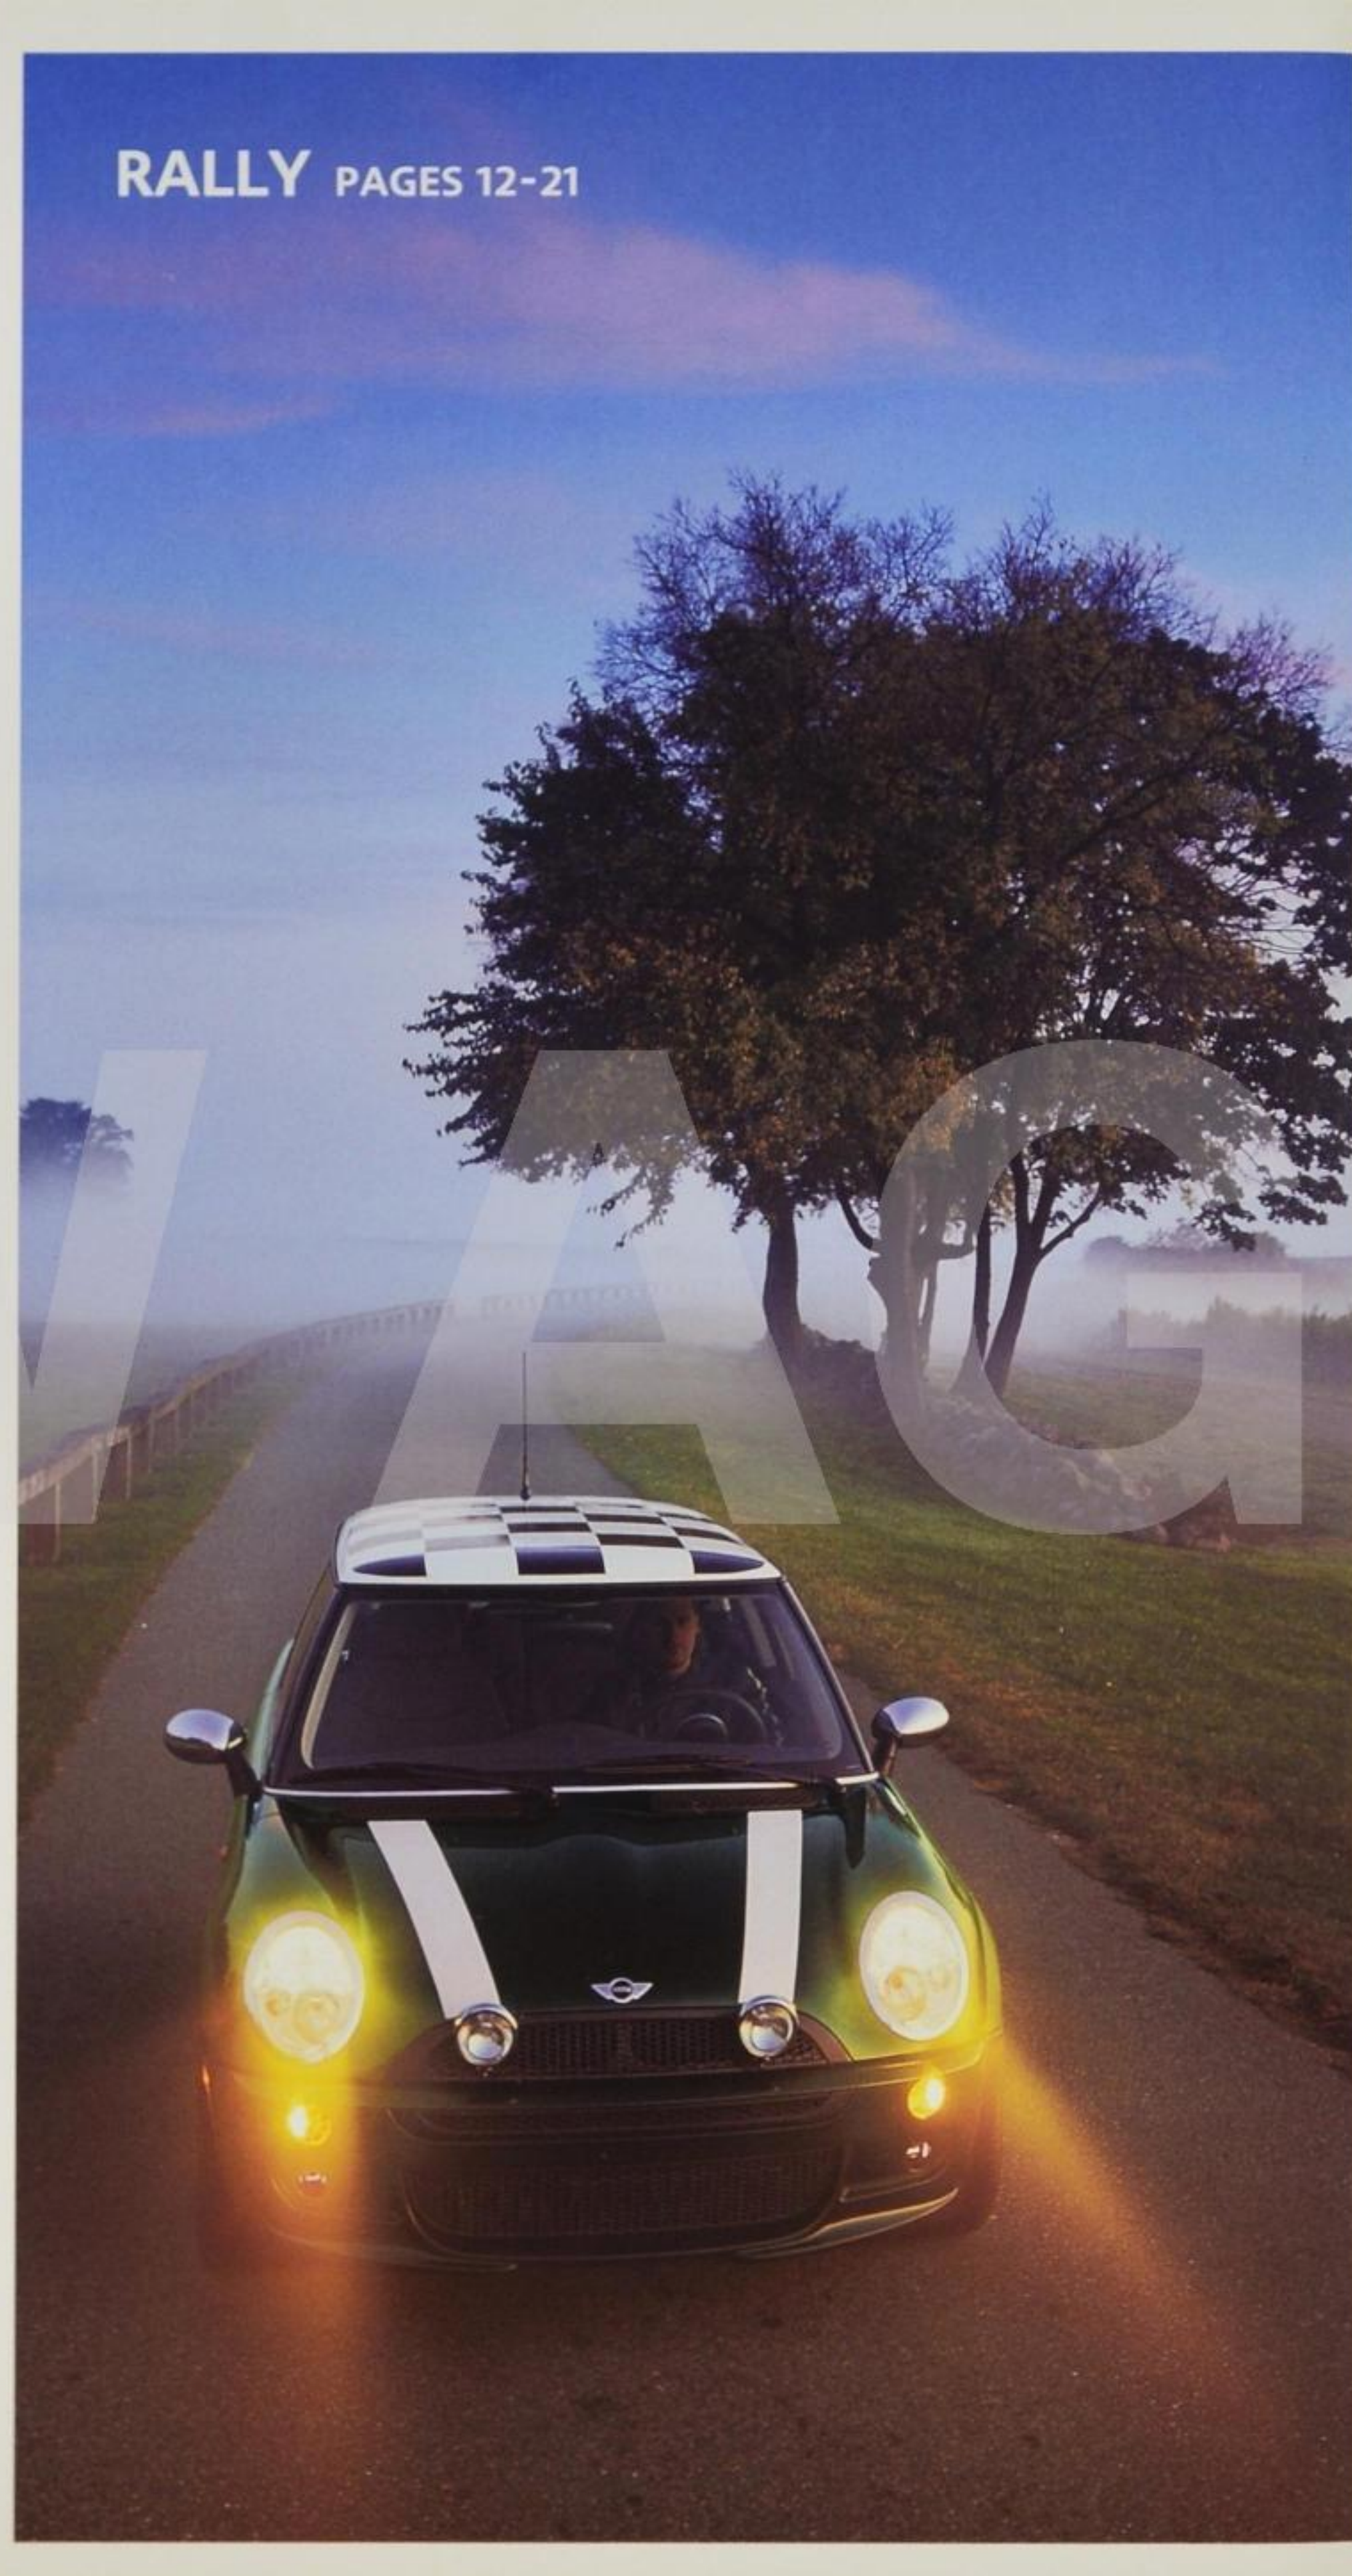

*For tips on shooting your MINI with style see page 7. While you're making the effort, share your masterpiece with your fellow motorers. Just upload a digital photo of your MINI on the Owner Network in the Owners' Lounge at www.miniusa.com.

GET READY TO ADD “DESIGNER” TO YOUR RESUME.

Our designers and engineers spent years of their lives in institutions of higher learning so they could create accessories that you can simply select and install on your MINI, creating a one-of-a-kind custom vehicle. It may sound simple enough, but the wide selection of MINI Motoring Accessories offers countless directions you can take your MINI. In the pages that follow, we've highlighted just three of those directions. Where you end up is only limited by your own imagination.

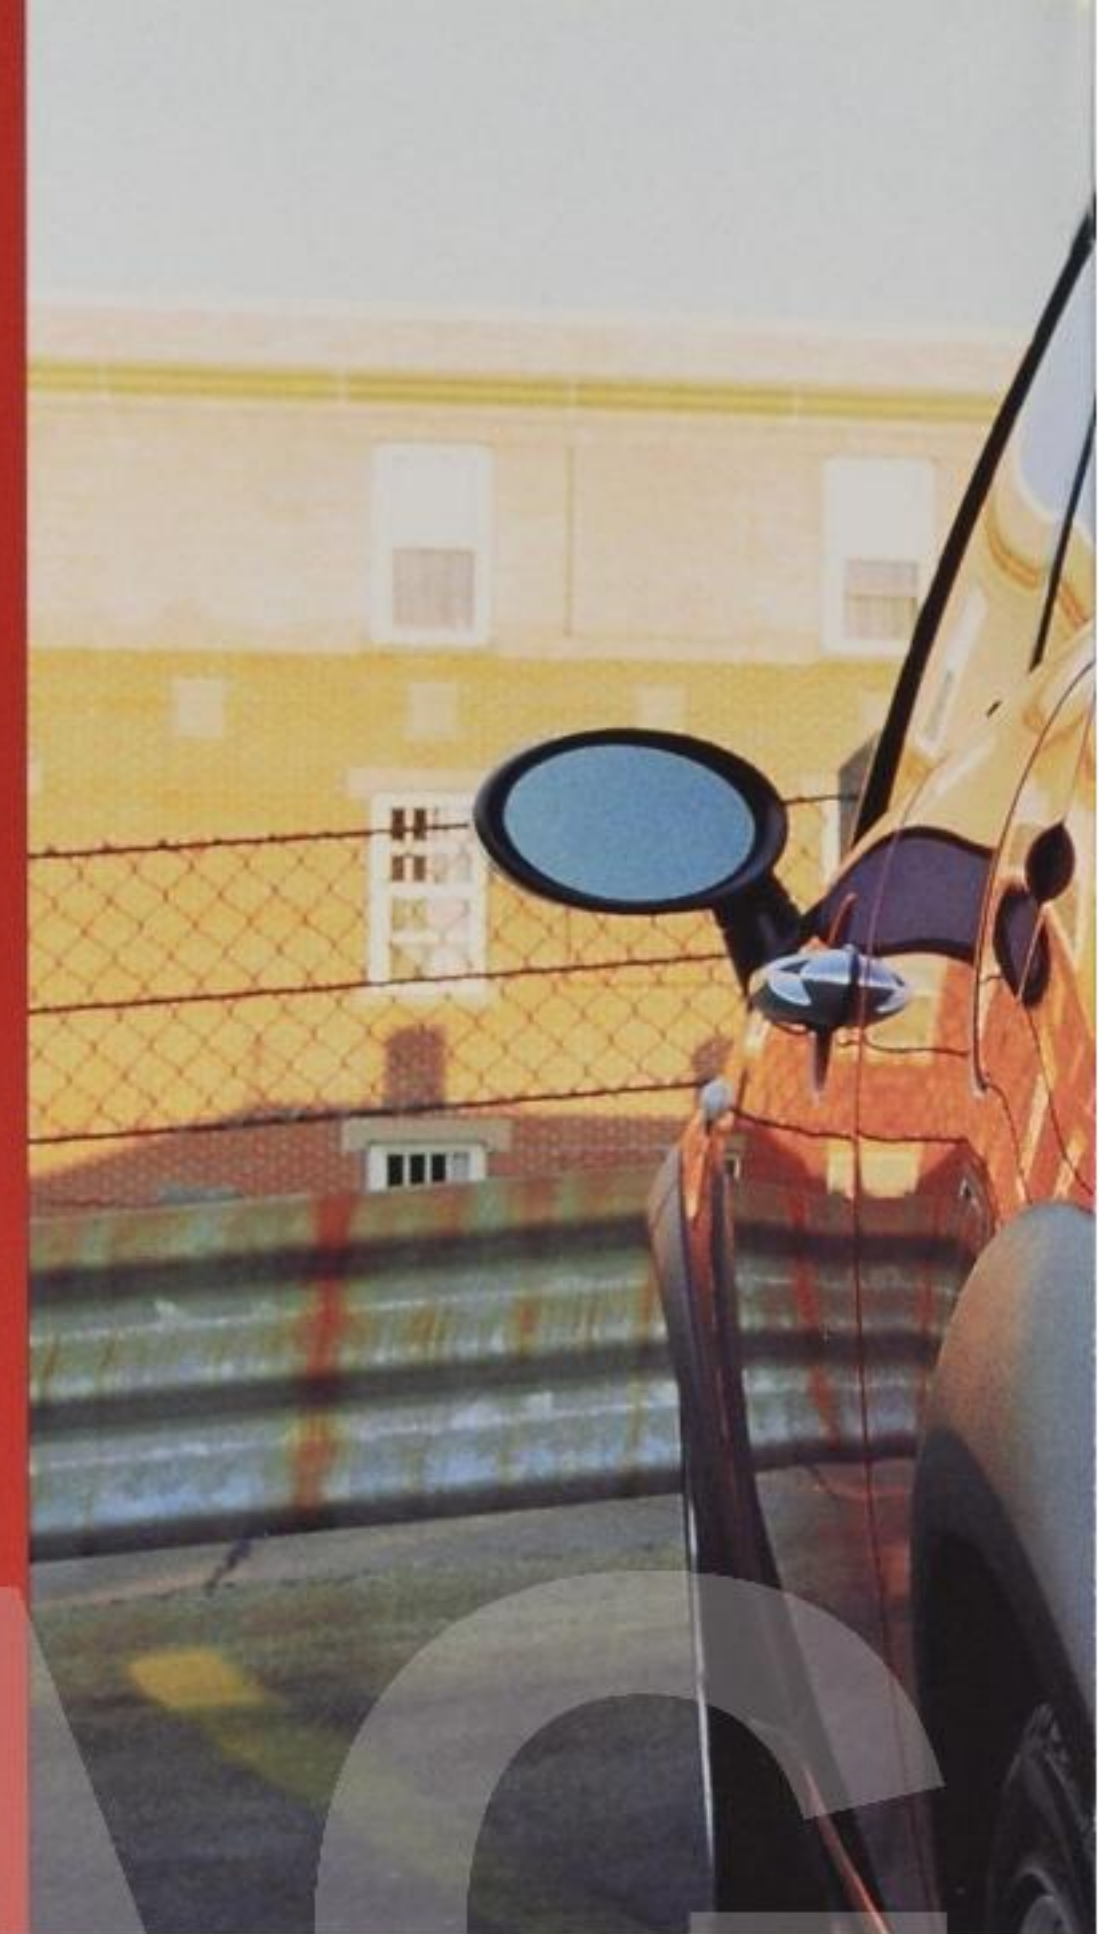

BMW

STOP, DROP AND DROOL.

At first, it's a chrome and red flash that catches the corner of your eye. The magnetic force of that initial glimpse forces your head to turn and, from that point on, the rest is a blur. The assertive Aero Kit and custom wheels. The chrome mirrors and clear lamps. Your eyes fix until a red dot drops over the horizon and a car horn shakes you back to reality. But you have seen your destiny. And there's no going back.

A. WHITE SIDE TURN INDICATOR

Add an element of European-styling with white direction indicators. Two required to replace stock items.

Cooper only.

63 12 0 141 252

\$ 35.00

B. INTERIOR CARBON FIBER TRIM KIT

Give the interior a unique look with a Carbon Fiber Trim Kit. Kit consists of dash and door panel inserts (See diagram).

51 45 0 306 045

\$150.00

Note: All prices in this catalog are suggested retail prices and subject to change. Actual prices may vary and depend upon MINI dealer. Prices do not include installation or painting, if required. Prices exclude taxes and/or shipping and handling charges. Check with your authorized MINI dealer for complete accuracy of information and availability.

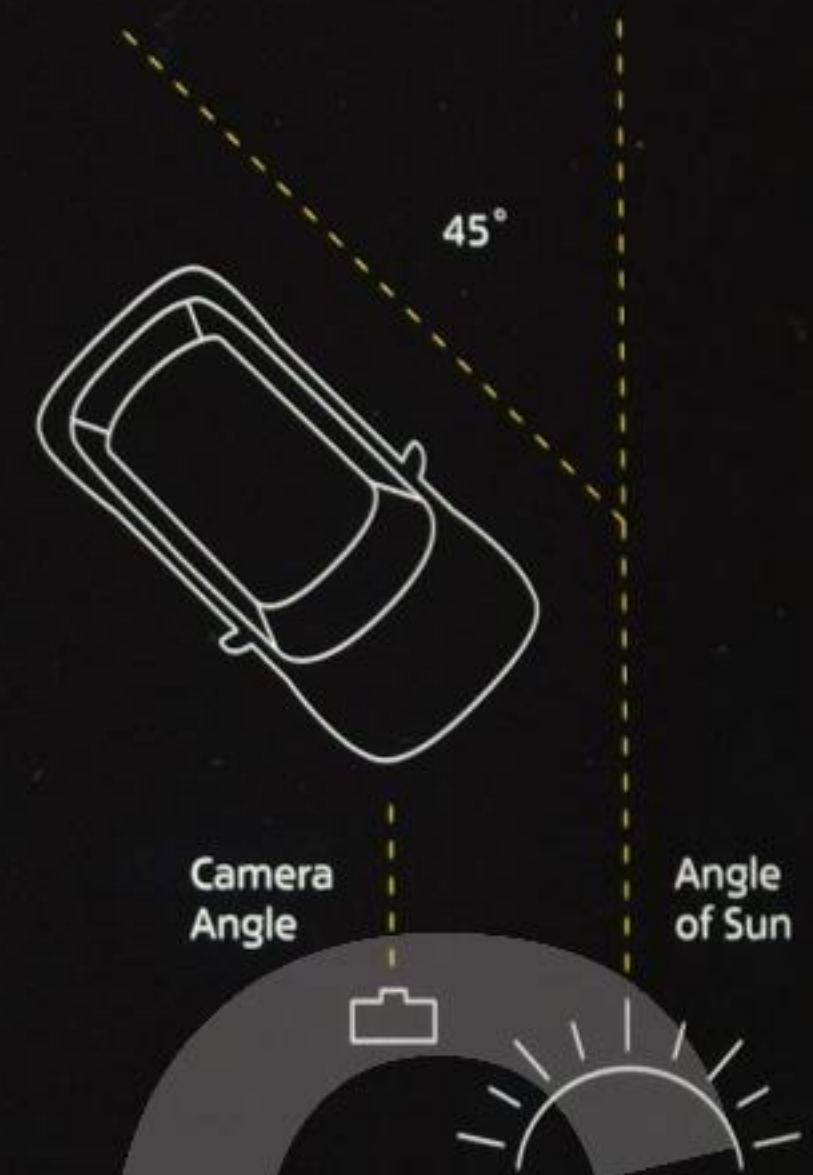

WORK WITH ME, BABY.

SHOOTING CAR PICS LIKE THE PROS.

After you spend considerable time and money you-ifying your MINI, you'll want to share it with as many people as possible. Here's how to shoot pictures that match your masterpiece:

1. Start with a decent camera and, if possible, a tripod.
2. Plan on staging your MINI and equipment two hours before sunset, so you can begin shooting a half hour before sunset.
3. Wash, wax and detail your MINI.
4. Position your MINI in the open where there are no shadows, preferably in a place with a simple or scenic background. Park your MINI at a 45 degree angle in the direction of the sun, with the camera at the same angle as the sunlight and aimed just right of the left headlight.
5. Adjust the tripod height to approximately bonnet height and center your MINI in the frame.
6. Thirty minutes before sunset, start shooting and don't stop until five minutes after the ball drops. If you can, adjust the exposure as you go to take advantage of the available light.
7. That's a wrap. Take the film to a trusted developer and ask for a proof sheet. Select the best shots from the sheet and make as many prints as you need.

C. WHITE TAILLAMPS

Entire rear light unit is designed in white. Features a third brake light, in white, and white direction indicators. Bumper-mounted reflector kit required for DOT approval.

63 12 0 145 835 \$ 290.00
63 12 0 146 748 (Install kit) \$ 125.00

BUMPER MOUNTED REFLECTOR KIT

63 21 0 142 223 (Standard) \$ 35.00
63 21 0 142 518 (Aero) \$ 35.00

D. FOG LIGHT BLACK OUT PANEL

Add an additional element of style to the Aerodynamic kit.

51 11 0 151 570 \$ 79.00

E. BONNET STRIPES

Back in the day, your MINI's ancestors donned bold racing stripes and battled for street supremacy. Now you can reclaim that heritage with these sporty bonnet stripes. See page 20 for more options.

RALLY

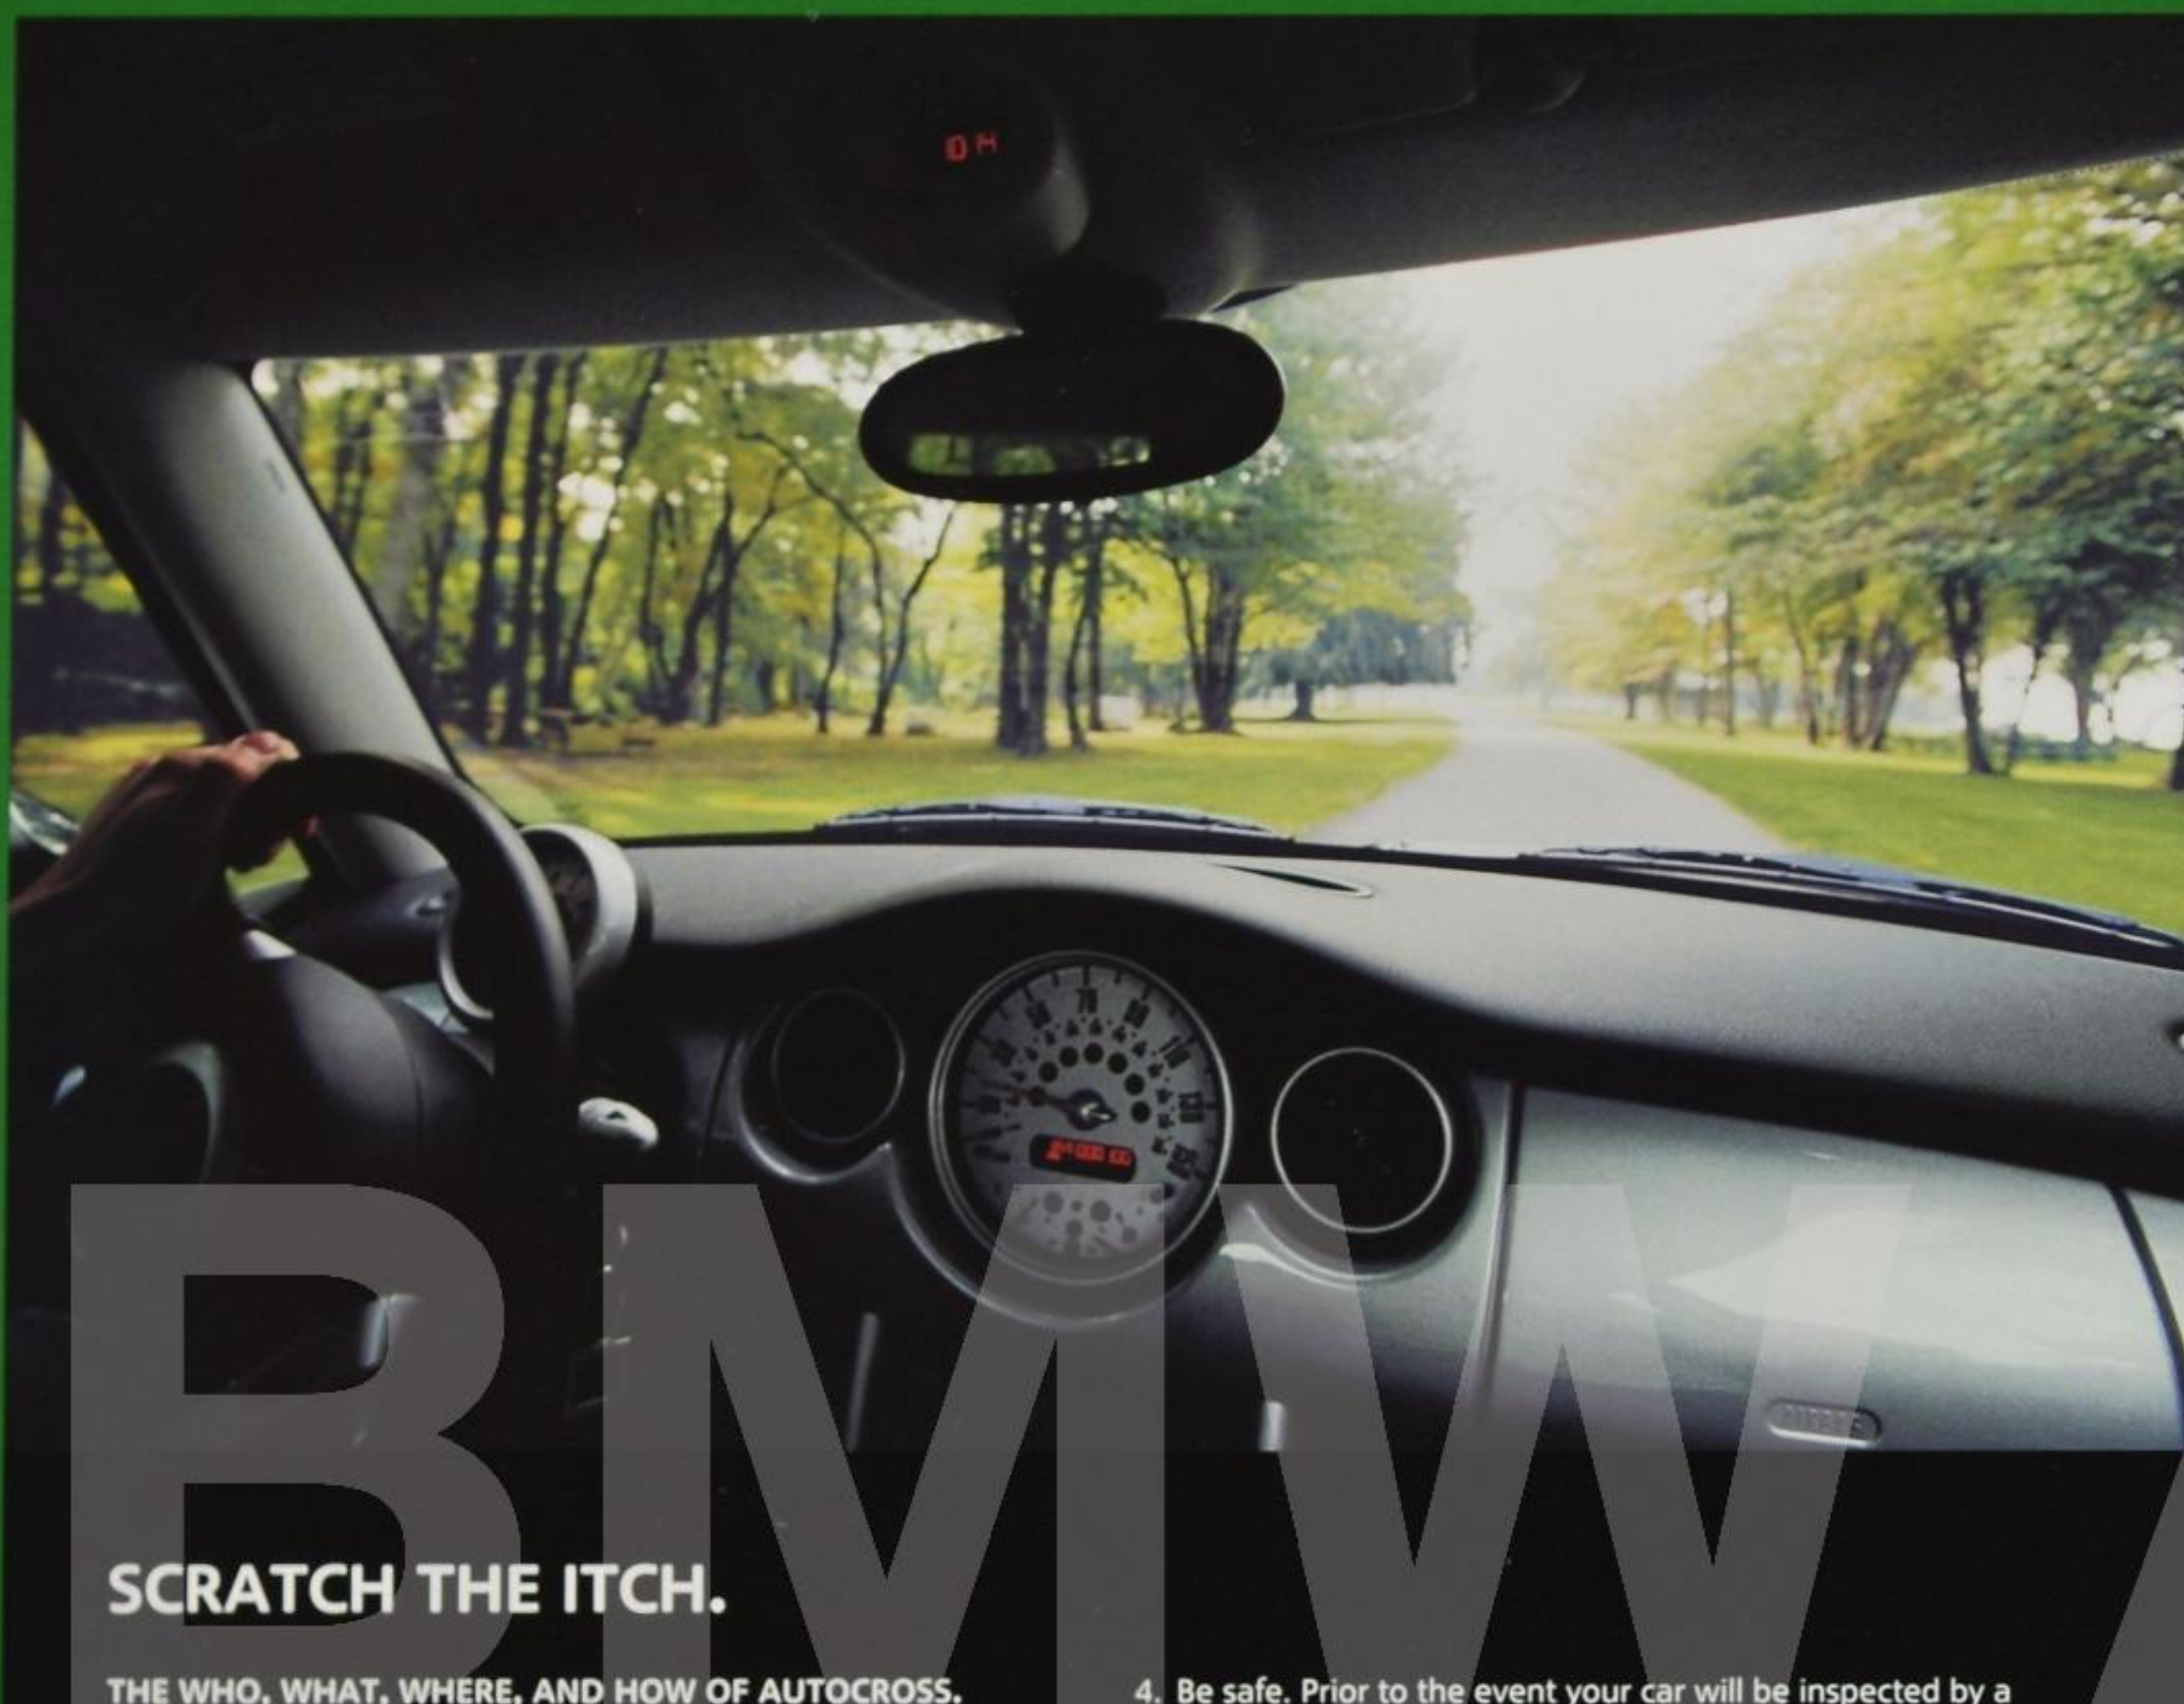

**FOR THOSE WHO DREAM
IN CHECKERED
BLACK AND WHITE.**

The second you strap yourself into the driver's seat of a MINI Cooper, something supernatural happens. The spirit of Paddy Hopkirk* engulfs you, channeling visions of hairpin turns and grandstand straight-aways. Knuckles crack as you grip the wheel and your feet prepare for the precise dance. You fist the gear knob and you are overcome by an uncontrollable urge to accelerate. Don't panic. This is normal for a MINI owner. This is "the itch."

* Hopkirk and Henry Lidden won the 1964 Monte Carlo Rally against stiff competition and huge odds.

SCRATCH THE ITCH.

THE WHO, WHAT, WHERE, AND HOW OF AUTOCROSS.

Autocross is an easy and safe way to try your hand at competitive racing. One at a time, classes of similarly equipped cars navigate a track designated by pylons. With a two-second penalty for any displaced pylon, the car with the best time wins. It takes extreme coordination and concentration, providing a real test for car and motorer.

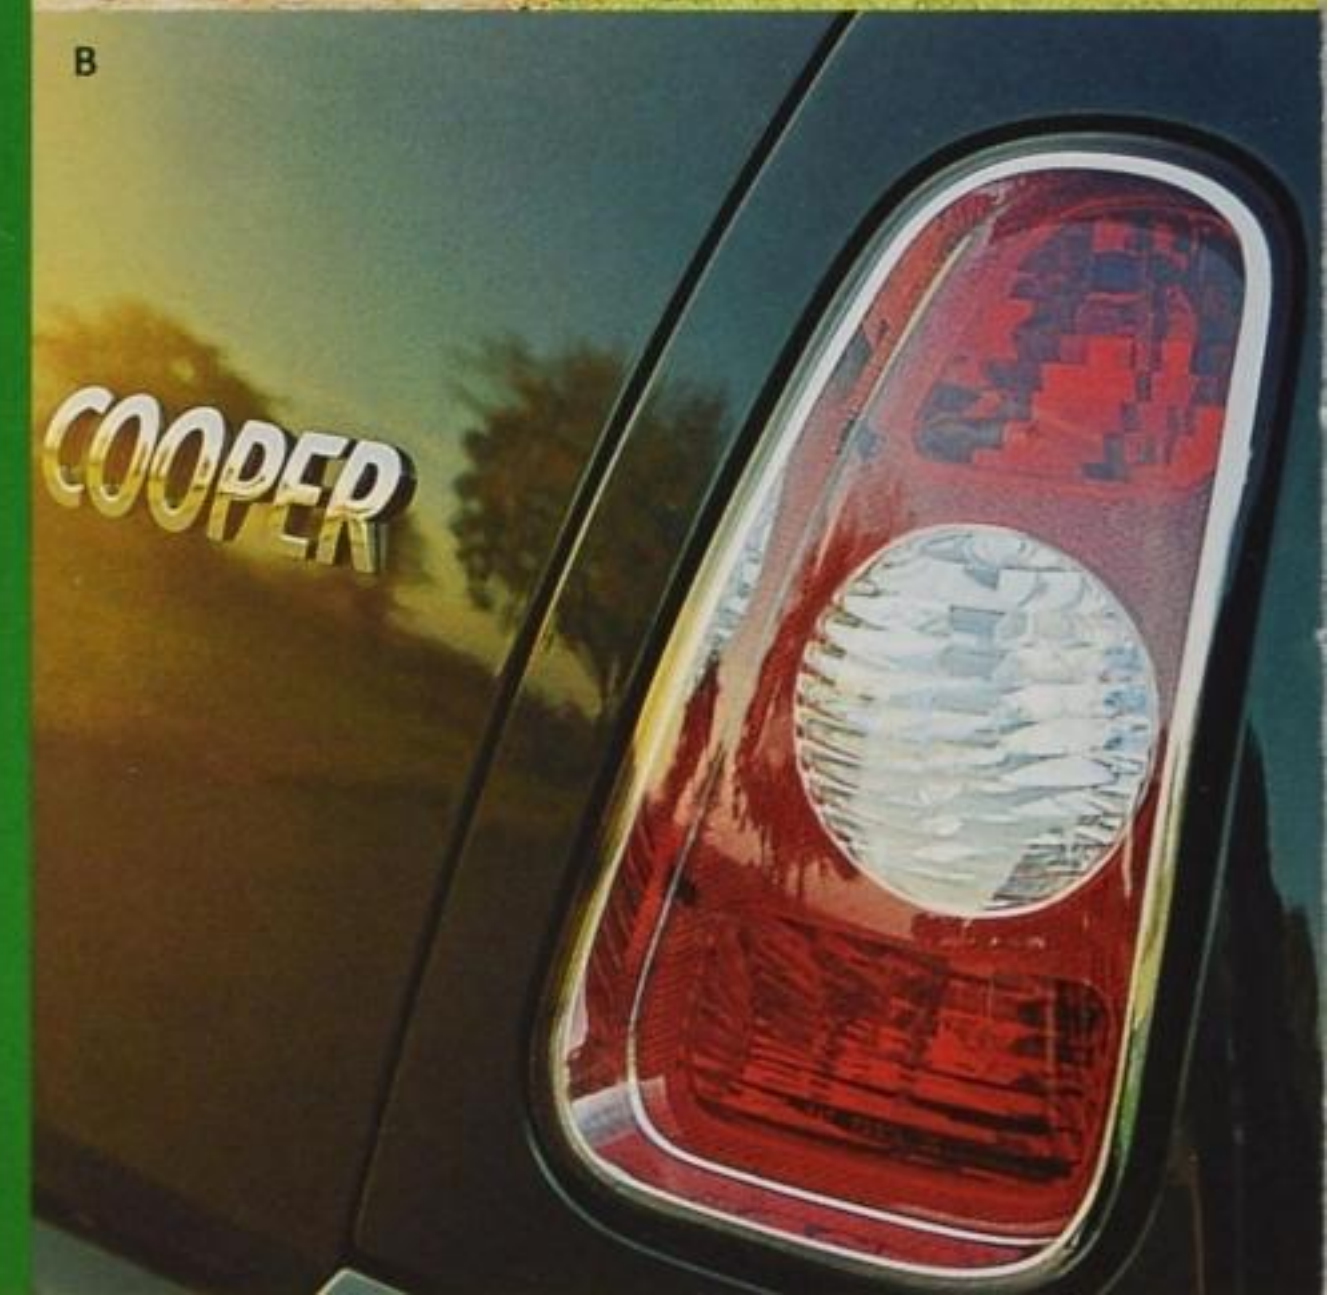

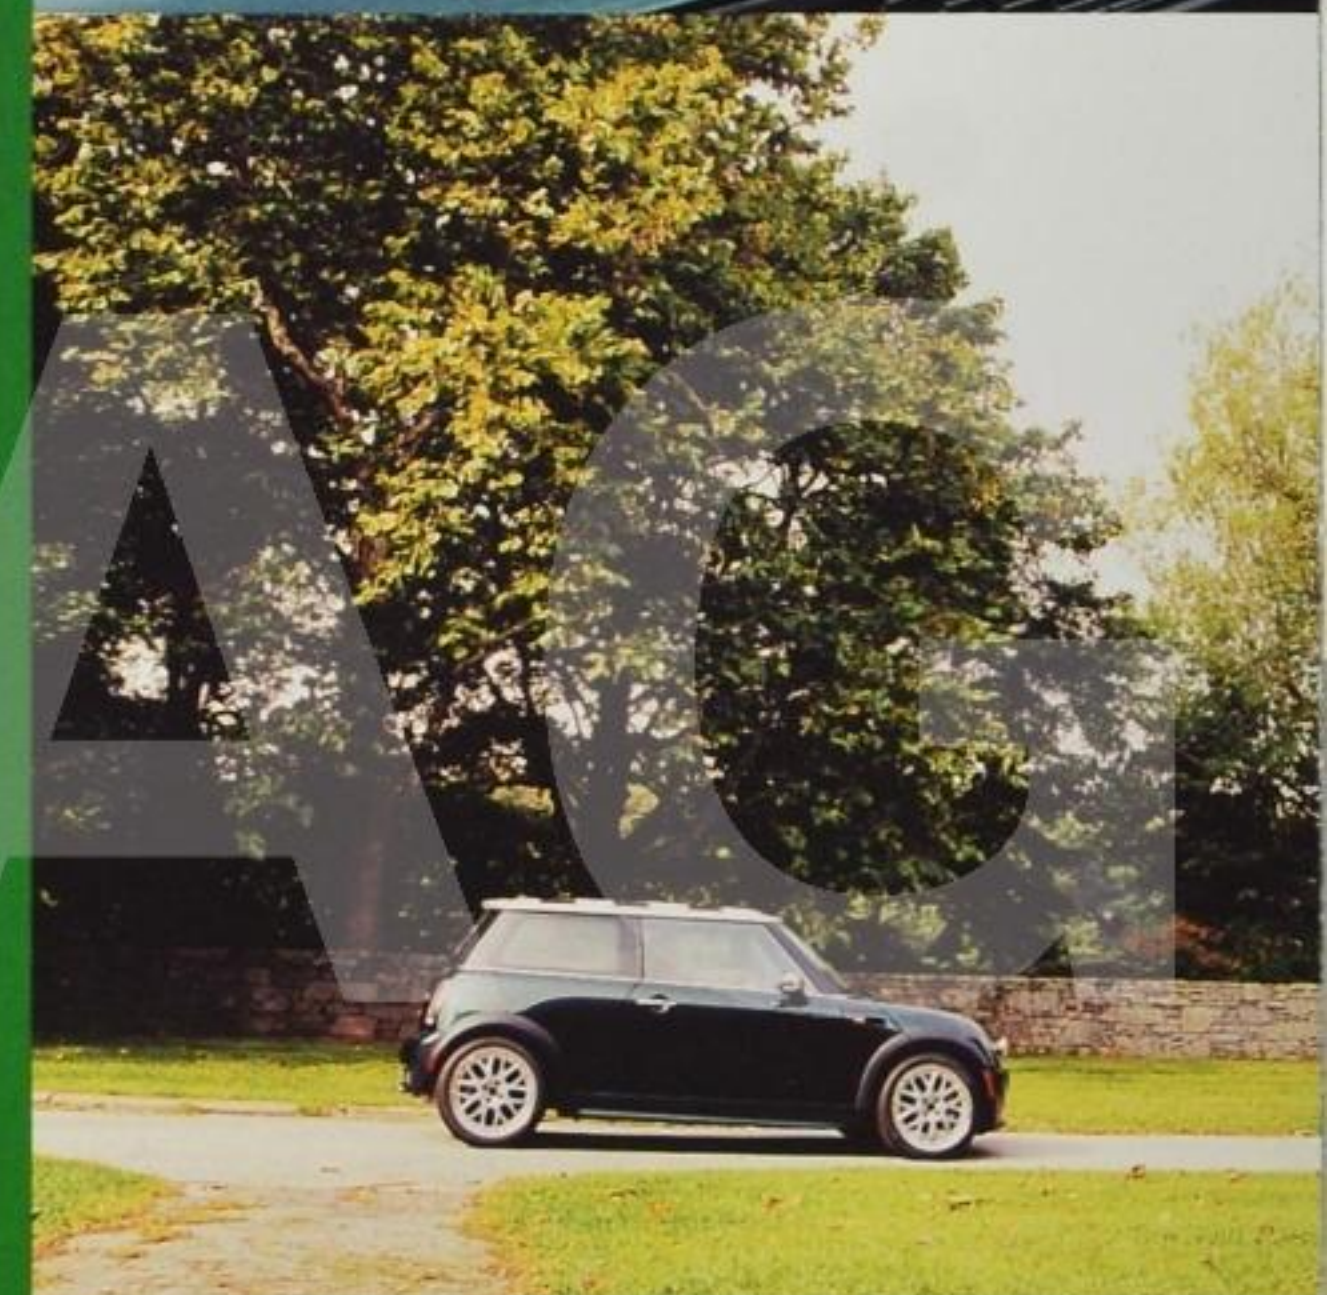

HERE'S HOW YOU CAN GET INVOLVED IN AUTOCROSS:

1. Get started. Find a local autocross event in your area and show-up.
2. Be prepared. You will need a helmet, a tire gauge and your entry fee. Secure loose items and remove any unnecessary equipment that adds weight. Make sure you know which modifications are allowed for your vehicle stock. For SCCA events, a MINI Cooper is in the "H" stock, while a Cooper S is in the "G" stock.
3. Get entered. Entrance fees are generally inexpensive and memberships, while not required, have advantages. It is also usually mandatory for each participant to work some portion of the competition. This is a great time to meet, or intimidate, your fellow competitors.

4. Be safe. Prior to the event your car will be inspected by a fellow entrant for safety and class qualification. Bribes are not allowed (though the offer of a drive in your MINI will make you a friend for life).
5. Let's dance. Walk the course and study its challenges. Create a mental image of your race strategy and lock it in. Stay focused. Concentrate. Don't let up until the clock is tripped for the last time.

* Check <http://www.scca.org/amateur/solo2/> for event locations and dates in your area.

Note: Please consult with your MINI dealer before making any modifications or using your vehicle for a race event that may affect your new vehicle warranty. Drive safely and wear the appropriate protective gear, including a helmet. Autocross on a closed, sanctioned course only and obey all traffic laws. Do not, after winning an event, drive around, point at your competitors and yell, "I am the master of the universe, kneel before me and behold my greatness!" As a general rule of thumb, act like you've been there before.

A. DRIVING LAMPS

Chrome trimmed. Work with standard high beams. Separate on/off switch. Kit Includes removable plastic covers for driving lamp.

63 12 0 144 132 \$ 400.00

Also shown on page 13.

FOG LIGHT KIT (Not Shown)

Offers enhanced illumination with wider coverage on the road while reducing back-glare.

Kit includes front and rear fog lights.

See dealer for parts list. \$ 199.00

REAR FOG LIGHTS (Not Shown)

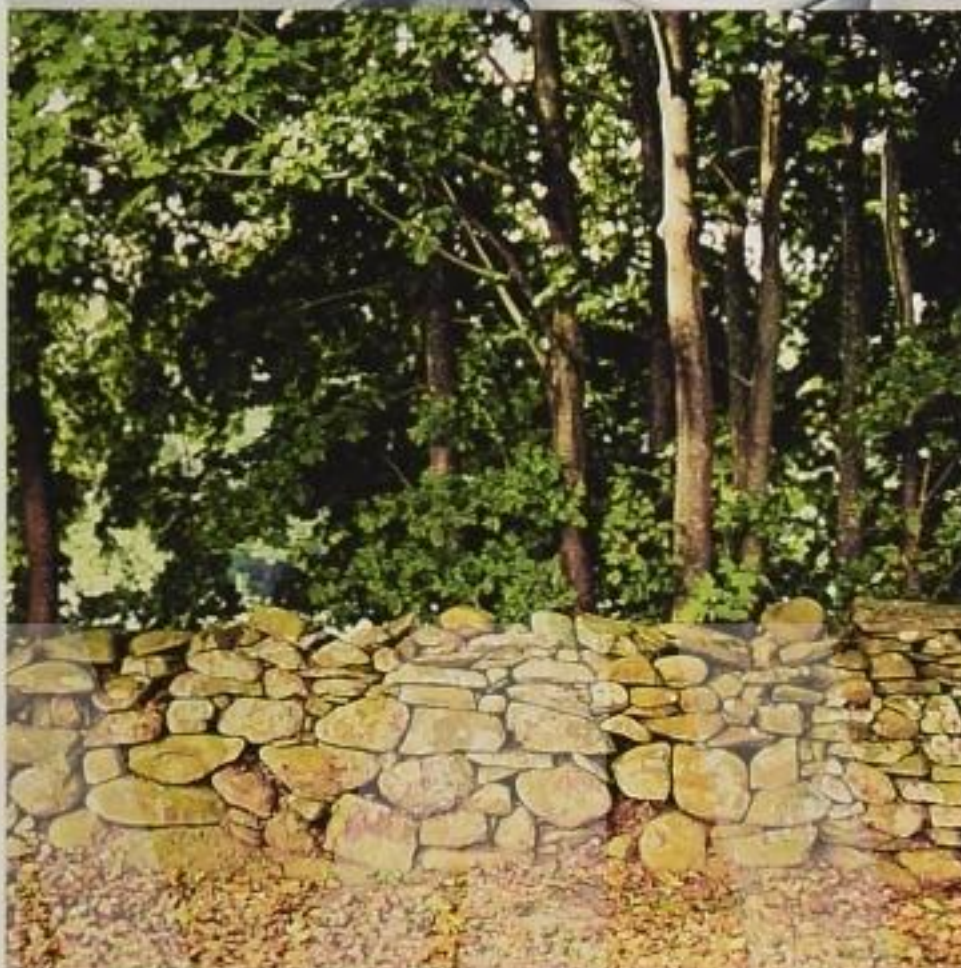

Enhanced illumination for rear of car. Additional safety for your MINI in hazardous weather conditions.

See dealer for parts list. \$ 75.00

B. TAILLAMPS WITH WHITE TURN INDICATOR

Rear lights with white direction indicators add to MINI's sporty look.

63 21 0 305 538 \$250.00

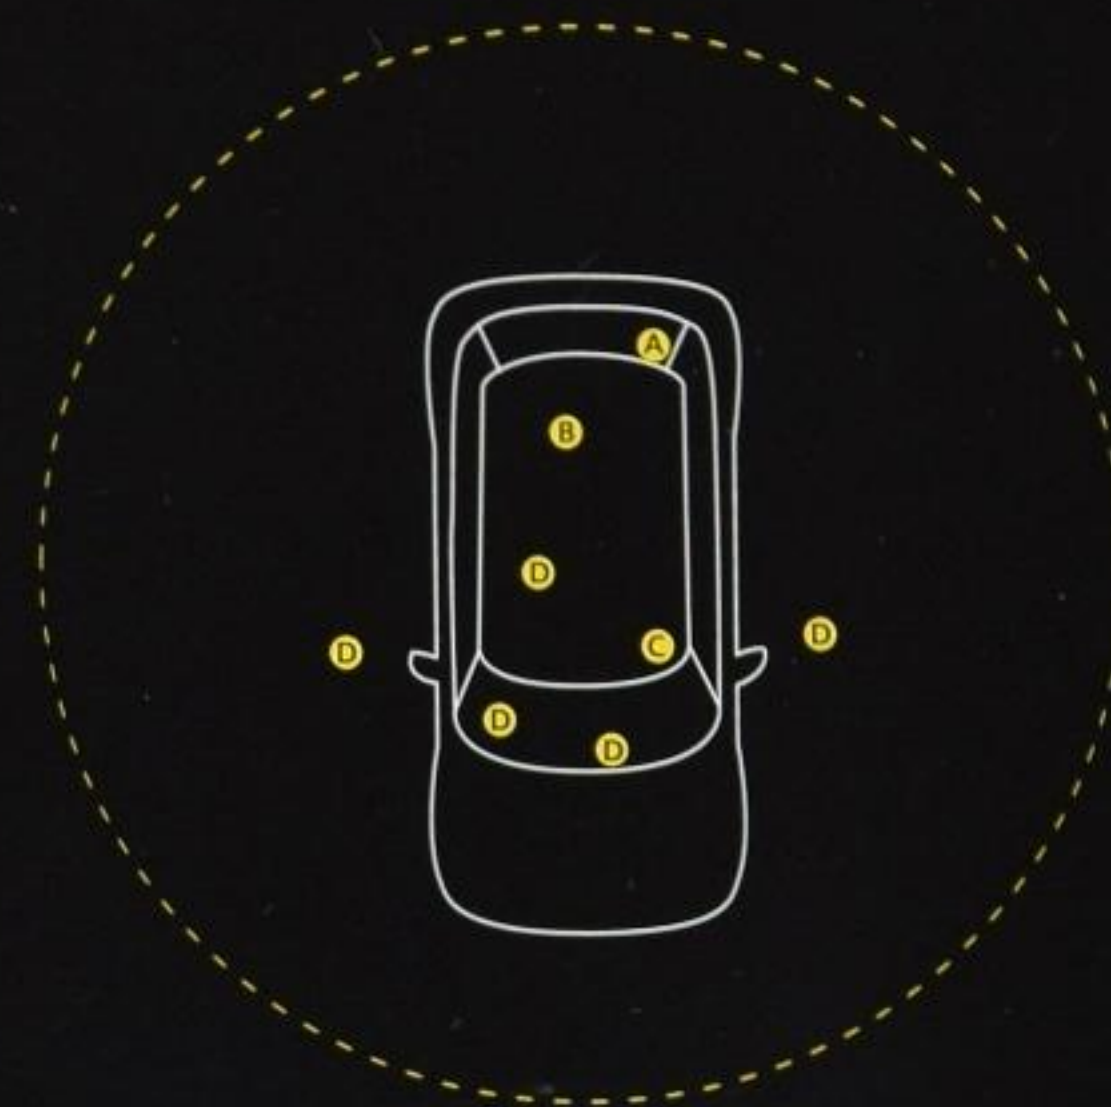

C. HANDS FREE PHONE SYSTEM

Nowhere in the Book of Motoring does it tell you how to drive, eat a cheeseburger and call your grandma at the same time. And well it shouldn't.

Two hands on the wheel is the way to motor, but that doesn't mean you can't make a few phone calls. This Hands Free Kit with Bluetooth® wireless technology allows you to handle calls through voice activation or through the dedicated control pad.

Put your Bluetooth cell phone in the boot (A), in the backseat (B), in a jacket pocket (C) or anywhere (D) within ten meters of your MINI and you can still make and receive calls while steering and shifting through the twisties.

84 11 0 302 897 \$ 450.00

● Bluetooth Phone
--- Range of use

D. CHROME SPORT EXHAUST TIP

Eye-catching chrome for an extremely sporty look. Cooper only.

82 12 0 143 376 \$ 29.75

E. CHECKERED FLAG VALVE STEM CAPS

This valve stem cap is the perfect detail to complement a MINI with a checkered roof and mirrors.

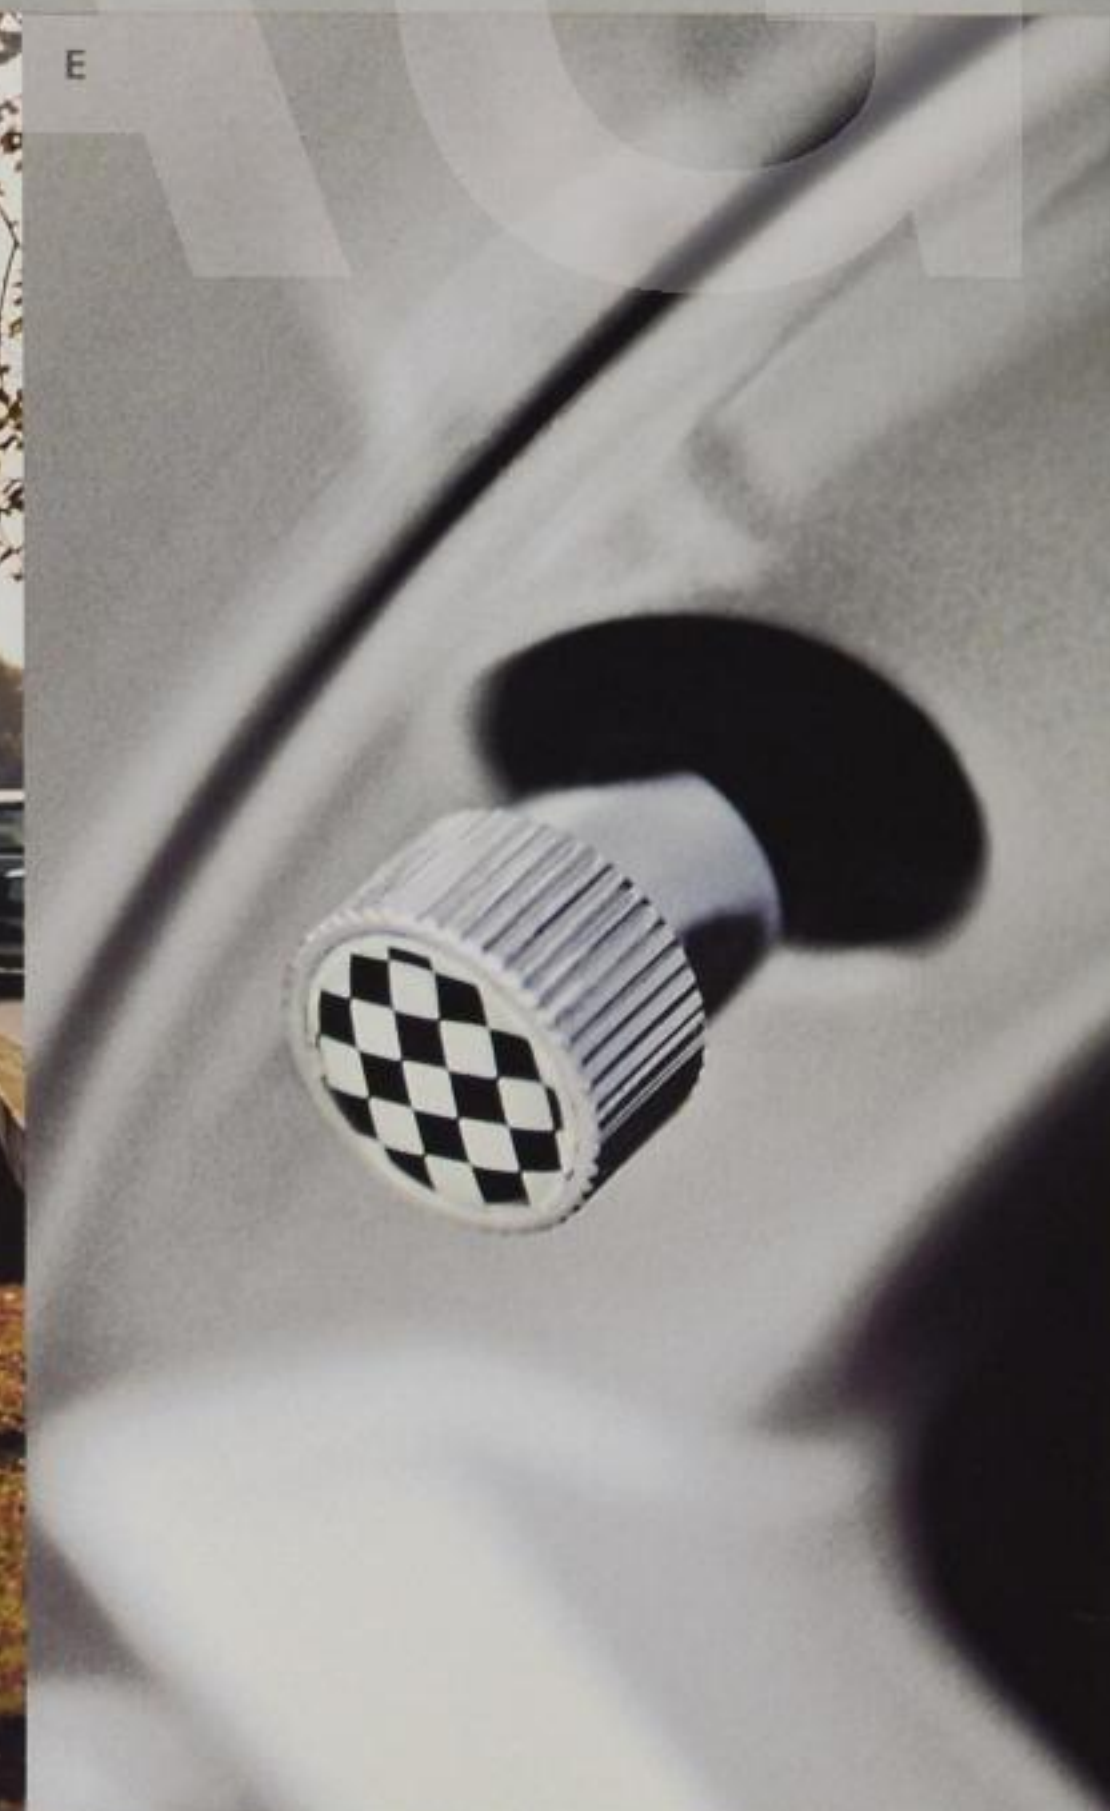

36 11 0 308 865 \$15.95

Refer to page 17 for more options.

DIGITAL TIRE PRESSURE GAUGE (Not Shown)

Instrument with touch-button operation has easy-to-read LCD display.

82 12 0 150 931 \$ 25.55

WHEELS

SHAPE

Designed to allow cooling air to the brakes, which reduces wear and promotes longer brake life.

MATERIAL

The premium quality alloy is extremely durable and adds to the signature MINI style.

DETAILS

Each piece is engineered to meet rigorous quality standards and vigorous daily use.

MINI

TIRES

Wider, high performance tires to give the road a bear hug.

See page 15 for photo of Checkered.

D. WHEEL LOCKS

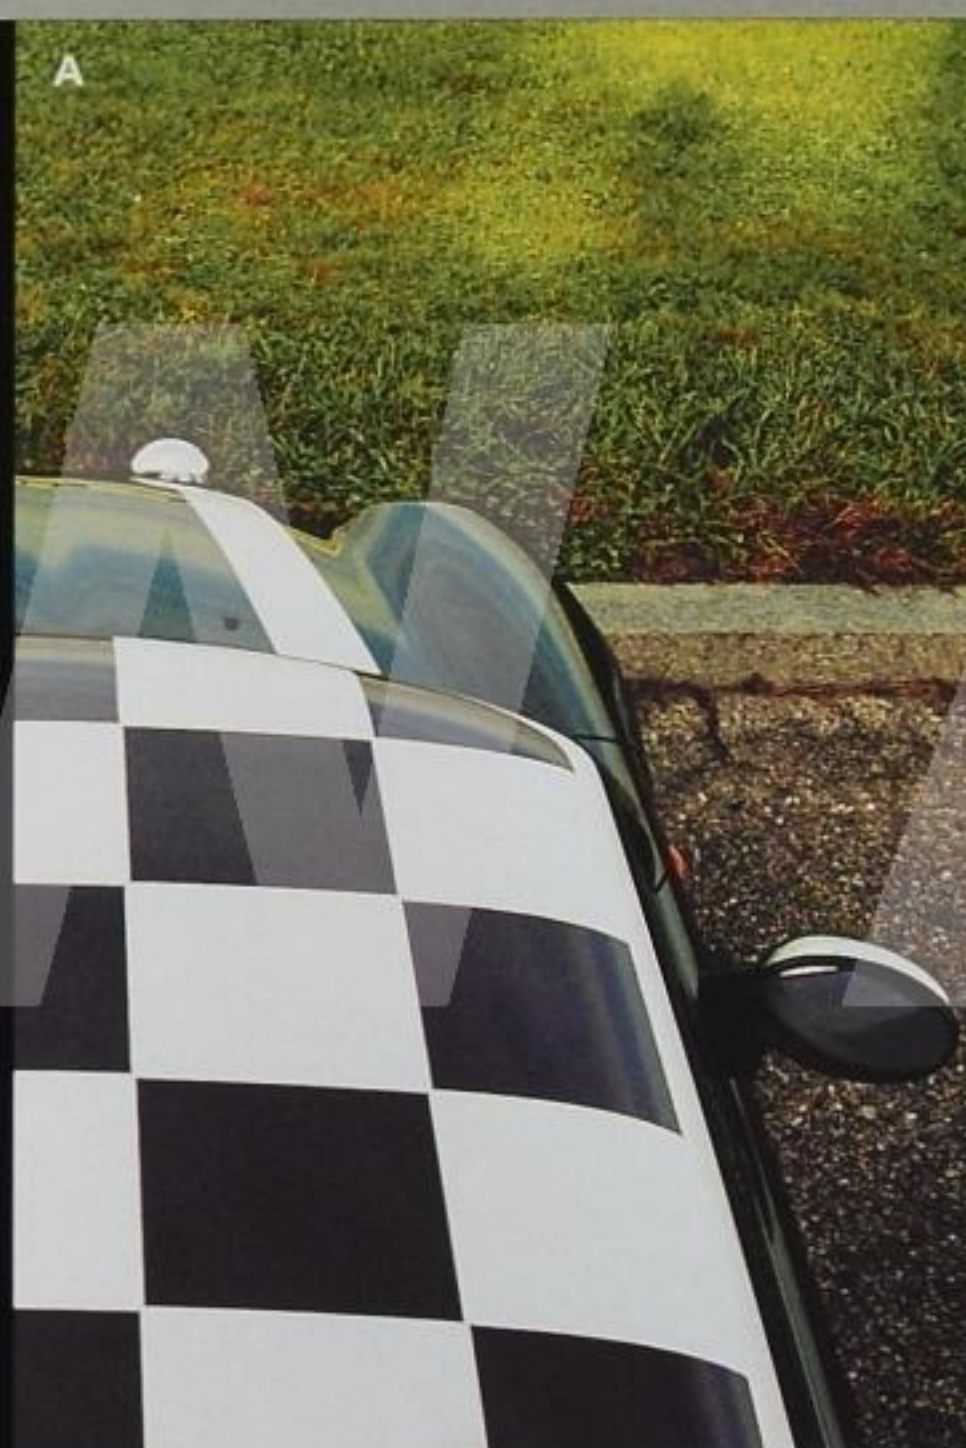

- 36 13 0 141 577 (Set of 4) \$ 31.00

Note: Low-profile wheels and tires are more susceptible to road hazard and consequential damage.

At first glance, an autocross track may look no different than a driver's ed course, but there is method to the madness. Pylons and chalk lines form elements such as "slaloms," "sweepers" and other maneuvers designed to test the performance of both driver and vehicle. Be patient, as courses are specifically designed to separate the serious drivers from the novice. You will have the opportunity to walk the track prior to the competition and course guides are usually distributed. Commit the track to memory. Once the clock starts, there's no time to stop and ask for directions.

RALLY

A. ROOF GRAPHICS

Highly durable, waterproof decals that should be applied by your MINI dealer, these eye-tickling retro roof graphics can be removed without damaging the original paint.

CHECKERED FLAG

A photograph of a historic building corner, likely in New York City. The building is made of dark stone or brick. A fire escape is visible on the right side of the building. A sign above the entrance reads "TWENTY". The entrance has a large, arched window with a grid pattern. The street is paved with cobblestones. The word "BMWVAG" is overlaid in large, semi-transparent letters across the middle of the image.

BMWVAG

IS THAT FOR HERE OR TO GO?

As you pull into the philosophical drive-thru of MINI customization, remember this: you're not just satisfying an immediate hunger, you're feeding a long-term thirst for spontaneity. Adjustable racks, boot boxes and interior creature comforts will provide your MINI with a steady diet of flexibility and agility. So go ahead and super-size it. Because, when it comes to motoring, your eyes will never be bigger than your appetite.

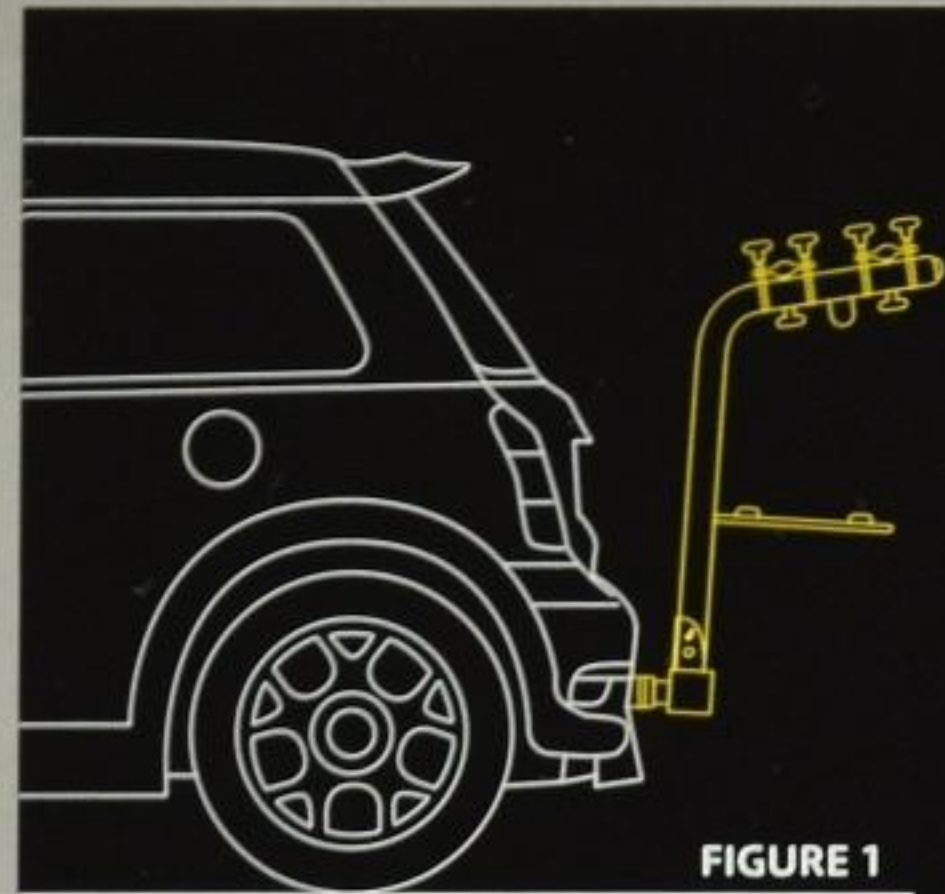

FIGURE 1

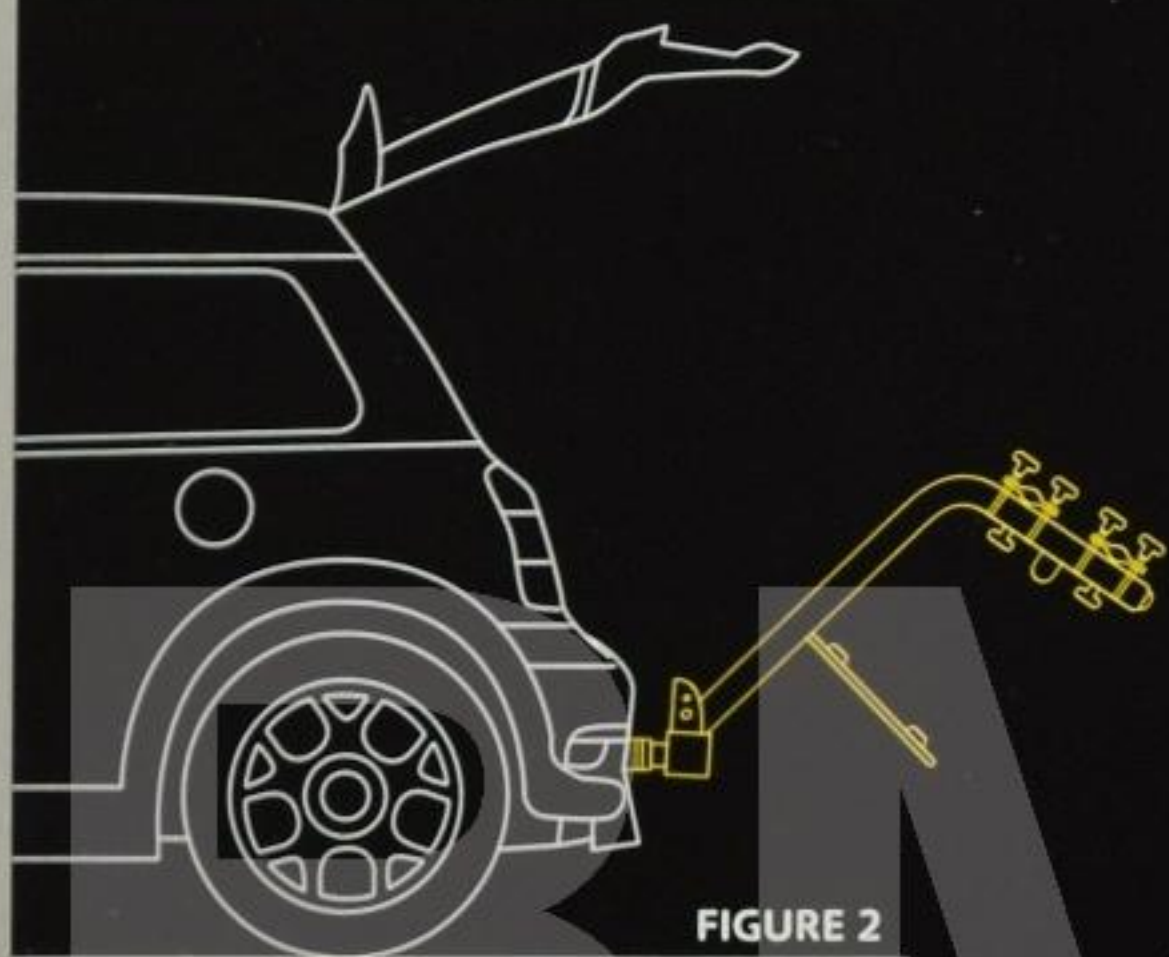

FIGURE 2

MINI LINK SYSTEM

For your two-wheel motoring adventures, this rear mounted bicycle carrier allows easy access to the boot. No need to remove an entire rack. Simply remove a fastening pin and fold the rack down (figure 1). Open hatch and remove what you need for the trails (figure 2). When done, return the system upright and secure with the fastening pin. Holds two bikes and is suitable for various bike sizes.

A. BIKE HOLDER

82 11 0 154 540 \$ TBD

B. SPORT LINK

82 11 0 154 539 \$ TBD

C. MAGNETIC STONE GUARDS

Prevent nicks and bruises around the wheel well. Made of a sturdy, magnetic plastic for easy application and removal.

82 11 0 304 813 \$ 34.95

EXPLORE

GET THAT "YOU" CAR SMELL.

Whoever decided that a car's interior should smell like a pine forest or a fresh ocean breeze never motored in a MINI. The scent of your MINI is an experience odometer, logging the places, people and cargo that have been part of the ride. So don't mask it out with artificial flavors. Let it cultivate. Your MINI should smell like your adventures. Your MINI should smell like you. Note: Exceptions to this rule include smells such as wet dog, uncivilized roommate and the deviled eggs accidentally left in the boot overnight.

D. CUP HOLDER

Oversized cupholder conveniently placed within easy reach.

82 12 0 304 026 \$ 35.00

E. ROAD READY DUFFEL

EXPLORE

What normal road signs mean to a MINI motorer with MINI Motoring Accessories:

The ups and downs of life on the road are what make the whole thing fun and worthwhile.

Suggests close-mindedness, a road upon which a MINI motorer will never travel.

For the motorer, this goes without saying. There's more than enough to go around.

A reminder to the world that the diminutive yet powerful MINI is really a wolf in sheep's clothing.

A. NOSE MASK

Synthetic leather mask keeps the nose clean and stylish.

82 11 0 302 222 (Cooper) \$ 98.50

ROOF RACK SYSTEM

Designed specifically to complement the unique profile of MINI, this roof rack system provides the ultimate accessory for motoring flexibility, with several adapters for activities ranging from bicycling to skiing. Installed by your MINI dealer, the rack features cross bars made with high-strength extruded aluminum tubing that provides stability, corrosion resistance and the muscle to support up to 165 pounds of cargo. Easy to remove, includes color-matching caps for white and black roofs to cover mounting points when the rack is removed. Note, All roof rack options require the installation of the MINI base support system.

IF PERFORMANCE WAS ONLY MEASURED IN TORQUE AND HORSEPOWER, YOU'D NEVER NEED A DENTIST.

Pure, unadulterated joy. That's what you feel behind the wheel of a stock MINI Cooper S. When you add the John Cooper Works tuning kit, the feeling accelerates. Every component is matched and balanced to provide dazzling performance and, if fitted by an authorized MINI dealer, won't affect your warranty. Just the thought gets you smiling. Put this kit into action and you'll be grinning from gear to gear.

* ALL PRICES IN THIS CATALOG ARE SUGGESTED RETAIL PRICES AND SUBJECT TO CHANGE. Actual prices may vary and depend upon MINI dealer. Prices do not include installation or painting, if required. Prices exclude taxes and/or shipping and handling charges. Check with your authorized MINI dealer for complete accuracy of information and availability. To find the nearest MINI dealer or to shop online, go to www.miniusa.com.

WHAT'S NEW

Your MINI changes every day. With every mile, a little more of you rubs off on your MINI. And a little of your MINI rubs off on you. In the spirit of this constant evolution, MINI Motoring Accessories change, too, with new products that provide unique style and the latest technology for you and your MINI.

BMW AG

When installed by a MINI dealer prior to delivery, MINI Motoring Accessories carry the full new vehicle warranty. This warranty does not apply to bobblehead dolls, pictures of mom or other personal accessories you may apply to your MINI, though the addition of these items are highly encouraged.

DEALER-INSTALLED ACCESSORY WARRANTY

The best time to order your MINI Motoring Accessories is when you order your MINI. When your MINI Motoring Accessories are installed by your dealer prior to delivery, the accessories will carry the full new vehicle warranty. If the installation is made by your dealer after the retail sale of your MINI, the accessory will be warranted for the balance of the new vehicle warranty period, or one year from its date of installation, whichever is greater. That's what we call customizing with confidence. All MINI Motoring Accessories fit both the MINI Cooper and Cooper S unless otherwise specified.
