

MINI ONE

MINI COOPER

MINI COOPER S

BMW AG

MINI ONE. MINI COOPER. MINI COOPER S.

Looking good.

**WHICHEVER
WAY YOU LOOK
AT IT, IT'S ONE
EXCITING CAR.**

Great to look at.

But even better to drive.

MINI ONE

MINI COOPER

MINI COOPER S

Feel the road beneath you:
long wheelbase, low centre
of gravity, wide track.

JUST LIKE A GO-KART.

The MINI Cooper is so
much fun to drive, whatever
the type of road.

It's designed for grown-ups,
but it'll make you feel like a
child all over again.

MINI COOPER

MINI COOPER S

163 bhp.

**6 GEARS.
1 GREAT
FEELING.**

Feel the power of
a true sports car.

And enjoy yourself.

Mile
after mile
after mile.

¹ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

² All figures relate to vehicles with standard five-speed manual transmission (MINI One and Cooper) or six-speed transmission (Cooper S). Values in square brackets are for models with continuously variable automatic transmission.

³ The MINI One, Cooper and Cooper S comply with the EU4 emission standard. Fuel consumption is determined in accordance with the ECE driving cycle, made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption as such.

■ Optional extra on MINI Cooper S

■ As standard on MINI Cooper S

¹ All light alloy rims are available in white with white roof.

² Only available in fabric/leather combination or leather.

³ No-cost option.

1. The chassis.

Individual suspension, with wishbones and MacPherson struts at the front and wishbones, longitudinal arms and struts at the rear, ensures enjoyable handling and a real go-kart feel.

An exact science. You'll be spending a lot of time on the road in your MINI, which is why a navigation system with a 6.5-inch, 16:9-format screen is available as an optional extra on all models. It'll make sure you find the quickest route from A to B – not that you'll always want to, of course.

Sport for all. The leather gear knob cuts a real dash, and makes changing between the five gears (or six in the case of the MINI Cooper S) a genuine pleasure. Of course, if you prefer not to work for your kicks, automatic transmission is also available (MINI One and MINI Cooper only).

Room for manoeuvre. Whether you're in the front or rear seats, the MINI is surprisingly spacious, making even the longest journeys a pleasure. And there's plenty of room for all your bits and pieces, with between 150 and 670 litres of luggage space.

¹ Available only on MINI One and MINI Cooper.

² Available only on MINI Cooper S.

Style as standard. The tachometer, which includes an LCD mileometer and trip counter, is positioned centrally on the dashboard. The circular rev counter (standard on the MINI Cooper and MINI Cooper S, and an optional extra on the MINI One) sits on the steering column.

A perfect fit. The sports seats (as standard in the MINI Cooper S, and an optional extra otherwise) are designed for maximum comfort and body fit, even in tight bends. You can also have leather seats on any model if you wish.

3. Safety.

4 + 2 airbags, anti-roll brakes, Anti-lock Braking System (ABS with CBC and EBD), Automatic Stability Control (ASC + T), Run Flat Indicator (RFI) and an outstandingly rigid chassis. Cars don't come much safer than this.

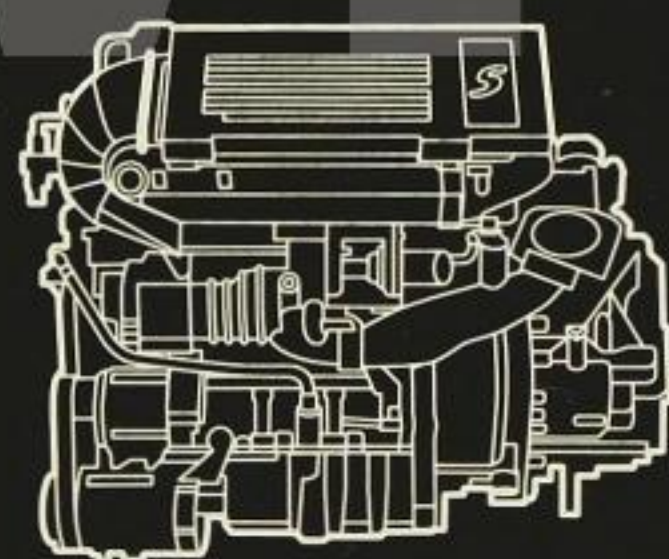

Built for stability. ASC + T Automatic Stability Control prevents front wheelspin, particularly in tight bends and on slippery surfaces.

Chrome wherever you look. The electric windows, ASC + T or DSC, central locking and front and rear fog lights are all operated by chrome-plated rocker switches.

Great looks and class-leading safety: the MINI was awarded four stars in the Euro NCAP crash test – an outstanding result.

2. Engine.

With its aluminium cylinder heads and grey iron engine block, the MINI's four-cylinder engine is specially designed for maximum driving fun. It has a capacity of 1598 cc, with outputs of 66 kW (90 bhp) in the MINI One, 85 kW (115 bhp) in the MINI Cooper and 120 kW (163 bhp) in the MINI Cooper S. Maximum speeds are 185 km/h (MINI One), 200 km/h (MINI Cooper) and a blistering 218 km/h (MINI Cooper S).
