¹ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

² All figures relate to vehicles with standard five-speed manual transmission (MINI One and MINI Cooper) or six-speed transmission (MINI Cooper S). Values in square brackets are for models with automatic transmission (CVT).

³ The MINI One, MINI Cooper and MINI Cooper S comply with the EU4 emission standard. Fuel consumption is determined in accordance with the ECE driving cycle, made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption as such.

Room for manoeuvre. Front or back, the MINI is surprisingly spacious. So it's not just the driver who will enjoy those long journeys. And there's plenty of room for all your bits and pieces, with between 150 and 670 litres of luggage space.

A well-balanced individual. ASC + T Automatic Stability Control prevents front wheelspin, particularly when moving off on slippery surfaces.

THE CHASSIS.

Individual suspension, with wishbones and MacPherson struts at the front and wishbones, longitudinal arms and struts at the rear, ensures enjoyable handling and gives drivers a real go-kart feeling.

ENGINE.

The engines, specially developed for the MINI range, really make their presence felt. According to which model you choose, power outputs vary from 55 kW (75 bhp) to 120 kW (163 bhp) and maximum speeds from 168 km/h to 218 km/h.

Racing pedigree.

The leather gear knob cuts a real dash – and makes changing between the five gears (or six in the case of the MINI Cooper S) a genuine pleasure. Of course, if you prefer not to work for your kicks, CVT automatic transmission is also available (MINI One and MINI Cooper only).

Style as standard.

The tachometer, which includes an LCD mileometer and trip counter, is positioned centrally on the dashboard. The circular rev counter (as standard on the MINI Cooper and MINI Cooper S, and an optional extra on the MINI One) sits on the steering column.

Chrome wherever you look. The electric windows, Automatic Stability Control + Traction (ASC + T) or Dynamic Stability Control (DSC), central locking and front and rear fog lights are all operated by chrome-plated toggle switches.

SAFETY.

Four airbags as standard (plus two optional head airbags), disc brakes all round, Anti-lock Braking System (ABS with CBS and EBD), Automatic Stability Control + Traction (ASC + T) as standard on MINI Cooper S (optional on MINI One and MINI Cooper), Run Flat Indicator (RFI) and incredibly rigid bodywork. You couldn't be in safer hands.

An exact science.

You'll be doing a lot of driving in your MINI. And to make sure you get where you've got to go, you can have your MINI fitted with a navigation system (6.5-inch 16:9 monitor), showing you the quickest way to your destination. Should you wish to take it. (Available as an optional extra on all models.)

Body-built.

The sports seats (as standard in the MINI Cooper S and an optional extra on other models) were designed on the assumption that a healthy posture and a comfortable posture are one and the same thing. Particularly in corners. They are also available in leather on all models, if you should so desire.

MINI ONE. MINI COOPER.

MINI COOPER S.

All measurements in millimetres. *The total height of the MINI One is 1416 mm, and that of the MINI Cooper 1408 mm.
