INVEST YOUR LIFESTYLE
WITH EXTRA ZEST. ORIGINAL
MINI ACCESSORIES.

ARE RARE. MINI
ACCESSORIES CONSISTENTLY
BEGUILE THE BEHOLDER.

With its seductive contours, the MINI will move you before it ever turns a wheel. The array of added attractions includes generously sized wheels. With their unabashed aesthetic appeal, our premium-quality alloy wheels signal pure driving satisfaction while endowing your MINI with extra individuality – classic, modern or performance-oriented. But aesthetics are not everything. Custom wheels improve handling response. By increasing the flow of cooling air to the brake discs, they promote a longer service life and reduce brake wear – all while meeting the highest quality standards.

- 1 Cross-spoke composite alloy wheel R90 Two-piece, with titanium bolts, size 7 J x 17", 205/45 R17 tyre V.
- 2 S-spoke alloy wheel R85 Size 7J x 17", 205/45 R17 tyre V.
- 3 Cross-spoke alloy wheel R90 One-piece, size 6.5 J x 16", 195/55 R16 tyre H.
- 4 5-star alloy wheel R83 Size 6.5 J x 16", 195/55 R16 tyre H.
- 5 X-lite alloy wheel R84 Size 6.5 J x 16", 195/55 R16 tyre H.
- 6 Double-spoke alloy wheel R88 Size 6.5 J x 16", 195/55 R16 tyre H.
- 7 Star-spoke alloy wheel R86 Size 5.5 J x 15", 175/65 R15 tyre H.

8 7-hole alloy wheel R81

Size 5.5 J x 15", 175/65 R 15 tyre H.

9 8-spoke alloy wheel R82

Size 5.5 J x 15", 175/65 R 15 tyre H.

10 Double-spoke alloy wheel R87

Size $5.5 \,\mathrm{J} \,\mathrm{x}\, 16$ ", $175/60 \,\mathrm{R}\, 16$ tyre (only available as a winter wheel and tyre assembly).

11 RUD-matic IV snow chains

High-quality snow chains, ready for mounting.

12 Mud flaps

Protect against dirt, gravel and road salt in the area adjacent to the wheel housings. Available for both front and rear wheels.

Wheel bolt locks (not shown)

Customised internal socket design prevents bolt locks being unscrewed without special tool (supplied).

Numbers and letters - a MINI tyre glossary

A standardised code is imprinted on the sidewall of every tyre. For example: 175/65 R15 H.

How to read this combination of letters and numbers:

- 175 indicates the tyre width in millimetres,
- 65 the aspect ratio, indicates the sidewall height as a percentage of tyre width,
- R identifies the carcass structure's design, radial in this case,
- 15 is the diameter of the wheel in inches,
- H indicates the tyre's top speed, in this case, H = 210 km/h or V = 240 km/h.

Wide track, long wheelbase and direct steering – with its superbly responsive handling, the MINI Cooper S offers unexcelled driving pleasure. This personality is reflected in its appearance. The aerodynamic kit is available to endow the MINI Cooper S with even more sporting appeal. Since all parts are produced and painted to provide superb quality, care is easy. They always emerge from car washes with their glossy image intact. The driving performance and noise characteristics are exemplary: the aerodynamic components have been exhaustively tested in wind tunnels. But one thing cannot be determined in facts and figures: the impression you are left with by the aerodynamic kit.

1+5 Aerodynamic kit and roof spoiler for MINI Cooper S

The kit comprises front and rear aprons and side skirts – each painted in the car body colour. The custom radiator grille and the fog light trims are retained in black. A roof spoiler is available on request which is painted in the same colour as the roof.

2+5 White lights

The entire rear light unit is designed in white, together with reflectors in the bumper. This equipment is completed by the third brake light, also in white, and the white direction indicators.

There are also **Clear-Look bulbs** for the front white direction indicators, which only light up yellow when they flash.

3 Rear lights with white direction indicators

This kit features as well as the rear lights with white direction indicators the third brake light in white. This allows you to further individualise your MINI and accentuate its sporty looks.

4 Additional headlights

Add the finishing visual touch to your MINI with the stylish chrome-plated additional headlights. These round headlights have a diameter of 150 mm, are mounted directly in front of the radiator grille and are activated in conjunction with the main beam headlights.

Sport is one alternative that sometimes helps to keep your mind free after a strenuous day. The other alternative is to take your MINI for a drive. For example, when it is fitted with the electric folding roof. Just one push of a button is enough to give you all the light and fresh air you need to clear your head. Clarity radiates from the aerodynamic kit for the MINI One and the MINI Cooper, thanks to its sporty simplicity and powerful appearance. Not only is the visual touch so strong. All components comply with the most stringent requirements in crash safety.

1+2 Electric folding roof

The folding roof available on all models can be opened or closed in one movement using touch buttons. Two opening positions can be programmed. The black folding roof (equipped with an anti-trapping mechanism) is made of durable vinyl, well insulated against cold and heat, weatherproof and car-wash-resistant. Enjoy the exhilaration of pure fresh air with the folding roof open (max. opening 640×620 mm). The MINI gives an extremely pleasurable ride with its roof open – the folding roof is equipped with an aerodynamic wind deflector which ensures optimum air routing.

1-3 MINI aerodynamic kit and roof spoiler

The kit for the MINI One and the MINI Cooper consists of front and rear aprons, as well as side skirts in the body colour. The custom radiator grille and the fog light trims are retained in black. A roof spoiler is available on request which is painted in the same colour as the roof.

4 Wing mirrors, chrome-plated

The chrome-plated housing for the wing mirrors emphasises their elliptical shape. This effect makes the MINI even more dynamic.

5 Chrome exhaust pipe cover

Gives the rear end of the MINI One and the MINI Cooper a resoundingly sporty appearance.

6 Sports rear silencer

The sports rear silencer, which comes with a high-gloss end pipe, is made of stainless steel. Its extremely sporty look goes hand in hand with the powerful roar of the engine.

The MINI allows you to show not only your excellent taste but also your national colours: for example on the roof of your MINI. All the flags are characterised by their special features, made from high-quality adhesive film and are waterproof and resistant to abrasion – however they do not afford protection against yearning glances.

1 Union Jack

The Union Jack serves as a reminder of the British MINI and its history of over forty years.

1 Bonnet-Stripes

Available in black or white, the bonnet-stripes exude an aura of motor sport and competition.

2-5 National flags

The MINI brings together like-minded people: people who enjoy being on the road, who enjoy travelling and who enjoy getting to know and experiencing other cultures. If you wish to express your leanings towards Switzerland, the USA, England, Scotland, Germany or even Canada, we have just the things for you: the national flags for the MINI roof.

6 Chequered flag

The chequered flag gives your MINI a unique sporty appearance.

7 Wing mirrors with Union Jack or chequered flag

These roof flags are also accompanied by the same designs for the wing mirrors. A detail that is guaranteed to please.

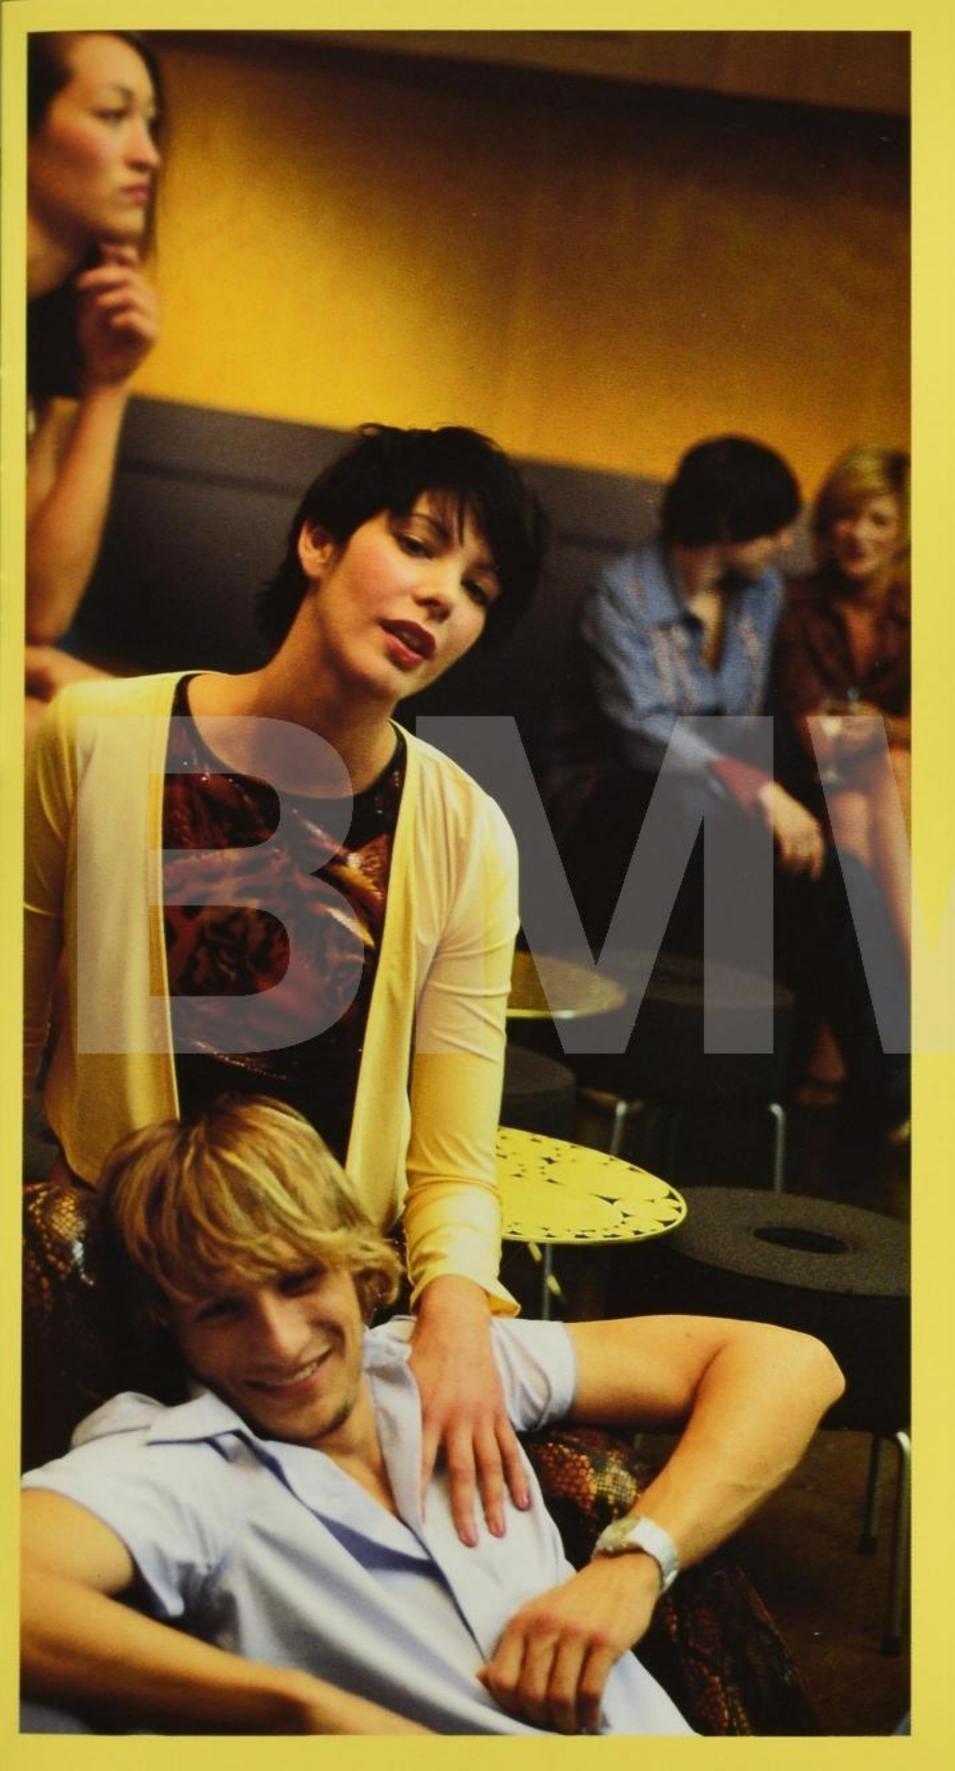

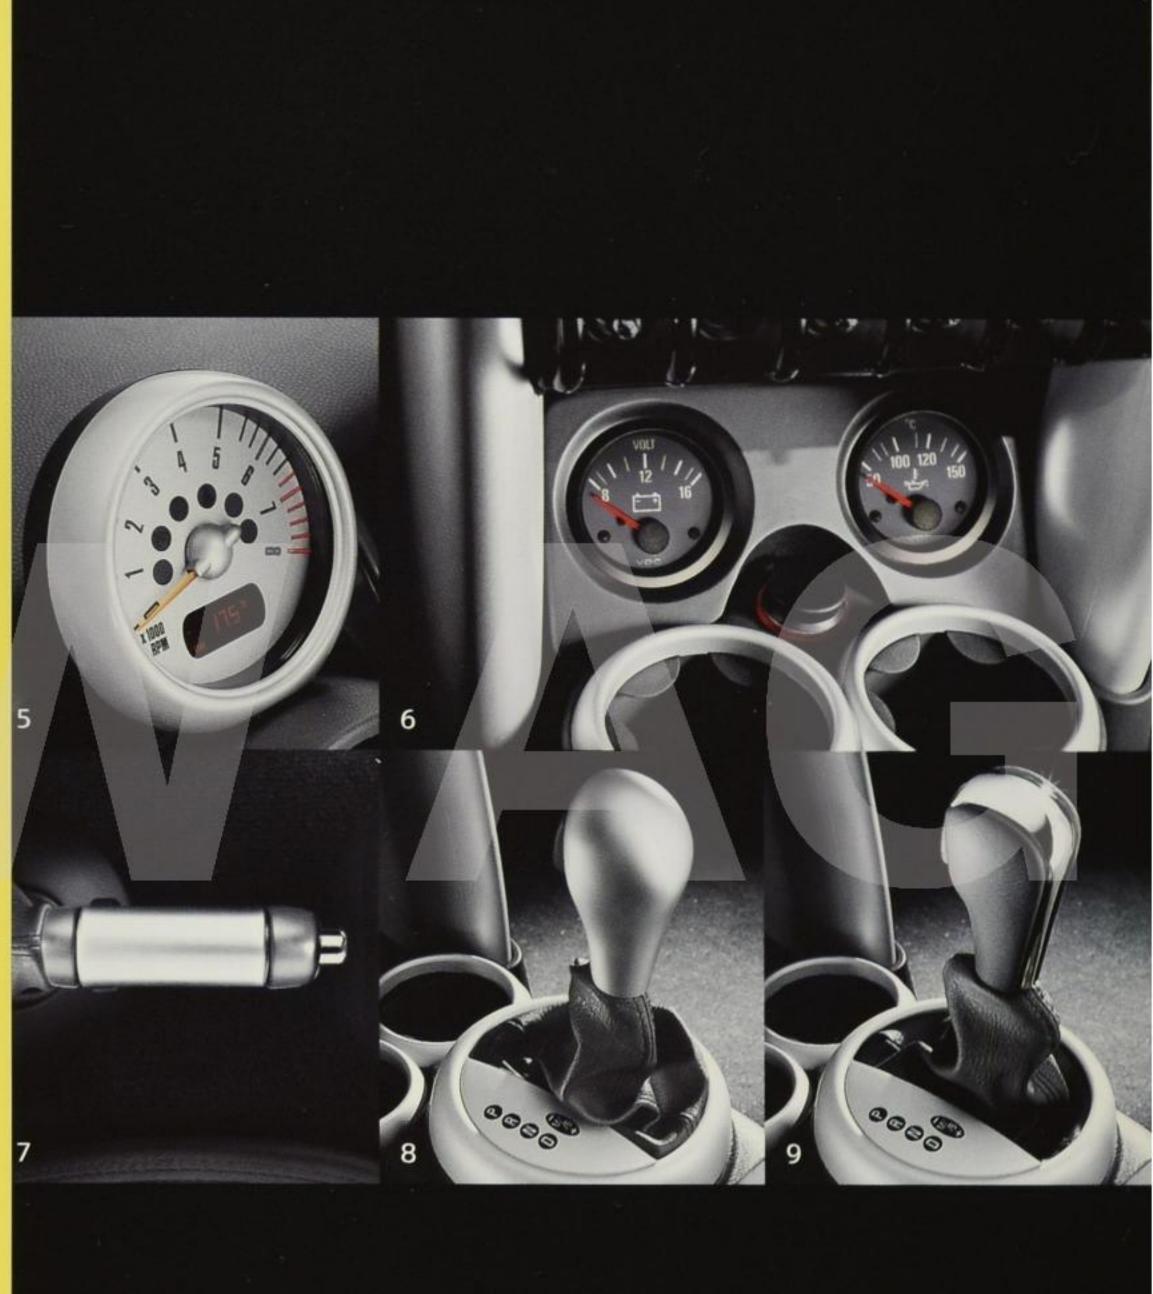

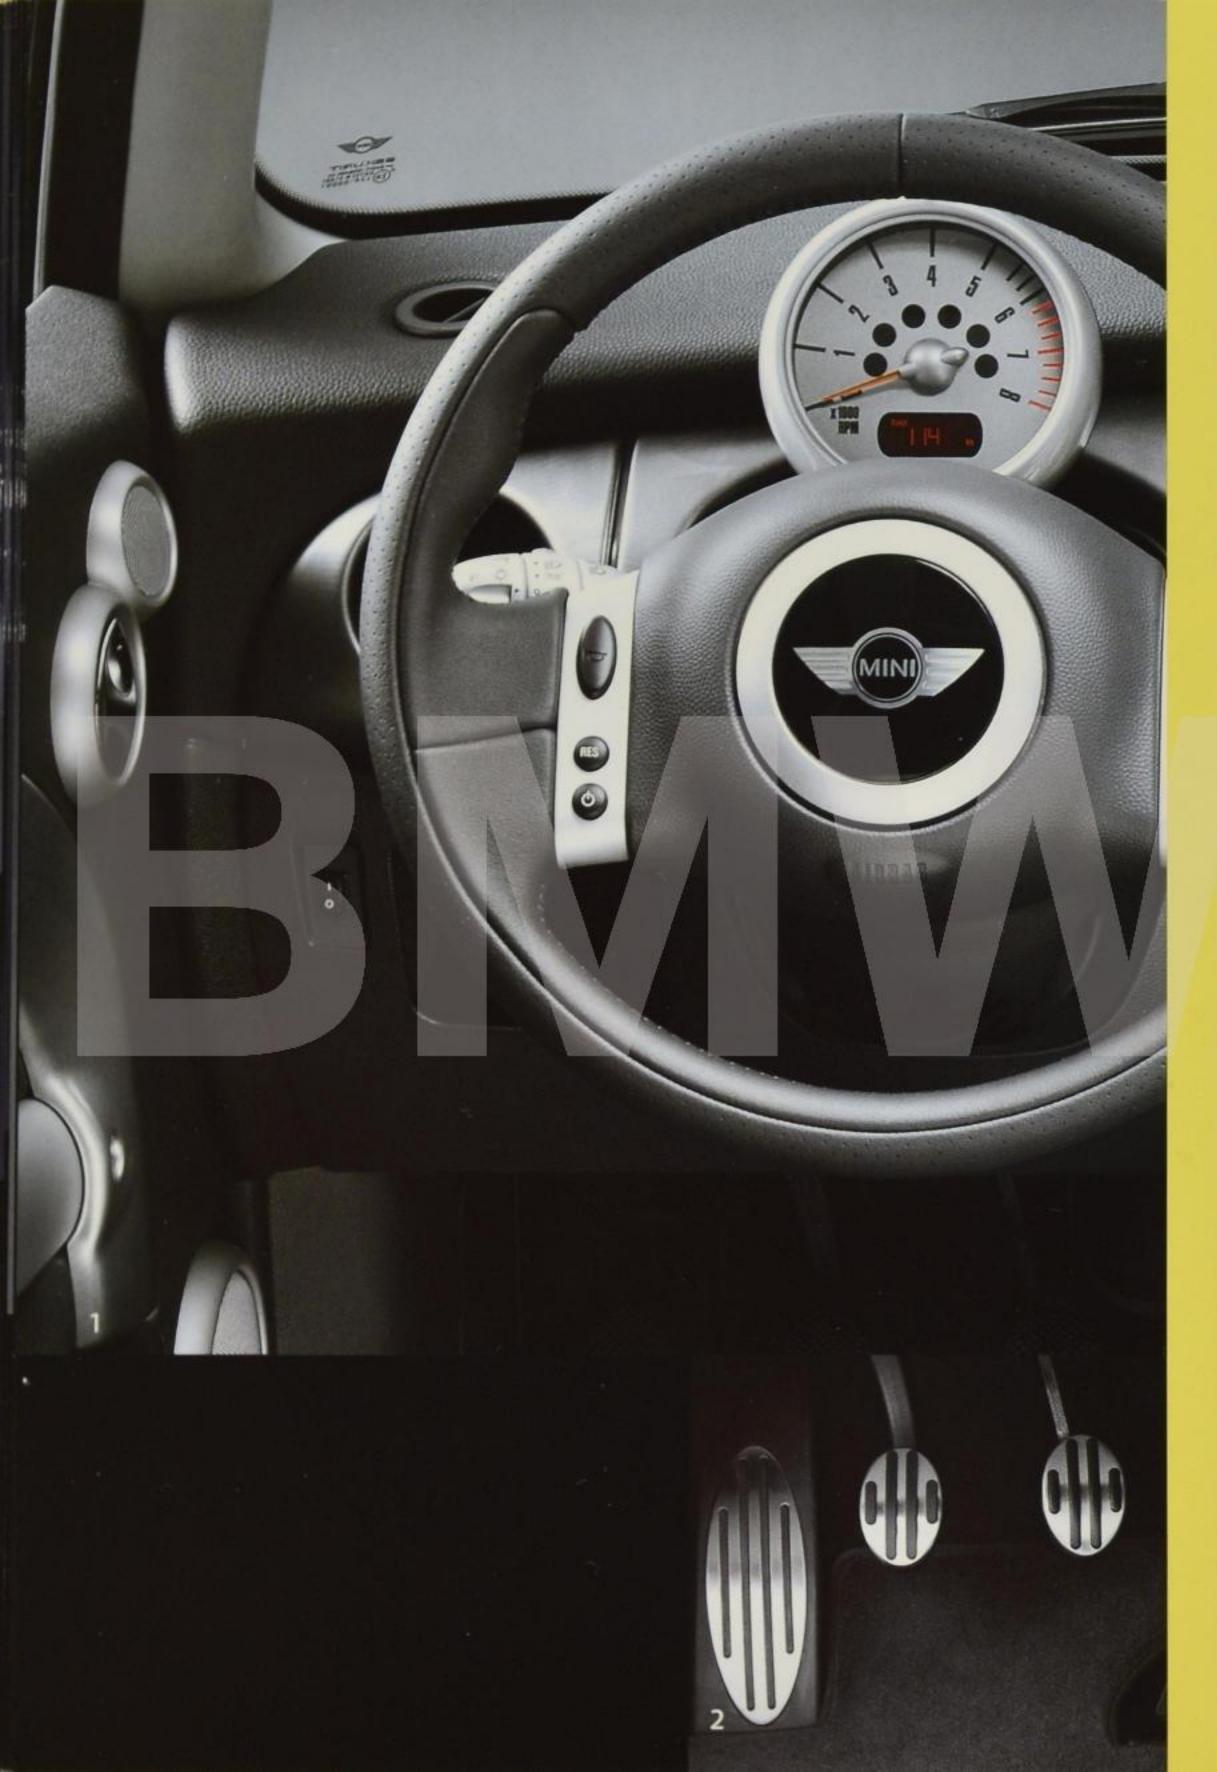

YOU HAVE A MIND OF YOUR OWN. YOU DEFINE YOUR OWN STYLE - WITH MINI INTERIOR ACCESSORIES.

1 Cooper S design leather-covered steering wheel with multifunction buttons

The Cooper S design leather-covered steering wheel feels as good as it looks. The buttons integrated in the steering wheel allow you for example to operate the cruise control and the radio.

1 Onboard computer

Integrated within the rev counter just above the steering column. It provides information on average speed and fuel consumption, range and outside temperature, time and date.

1 Matt chrome gear lever knob

For a classically elegant look.

I Aluminium Patina interior trims

Give the inside of your MINI a high-tech sporty look.

2 Stainless steel footrest and pedal mounts

Accentuate your MINI's sporty feel.

3 Matt chrome entry strips

These matt chrome entry strips give your MINI an individual look.

The MINI is fascinating from every perspective. With its seductive lines, capacious interior and a broad range of optional accessories, you are spoilt for choice: be it brushed stainless steel, chrome or leather – the exciting and perfect mix of materials is a sensual treat.

4 Illuminated entry strips

A feature which attracts attention particularly in conditions of darkness.

5 Rev counter for MINI One

Displaying the current engine speed promotes an economical driving style and helps – for instance when the engine is cold – to protect the engine-gearbox unit.

6 Auxiliary battery voltage and oil temperature gauges The battery voltage gauge indicates the status of the car's ele

The battery voltage gauge indicates the status of the car's electrical system while the oil temperature gauge indicates the engine operating status. These dial gauges (diameter 52 mm) are perfectly matched to the design of the MINI interior.

7 Matt chrome handbrake grip

The ideal complement to the MINI's modern interior.

8 Matt chrome selector lever grip

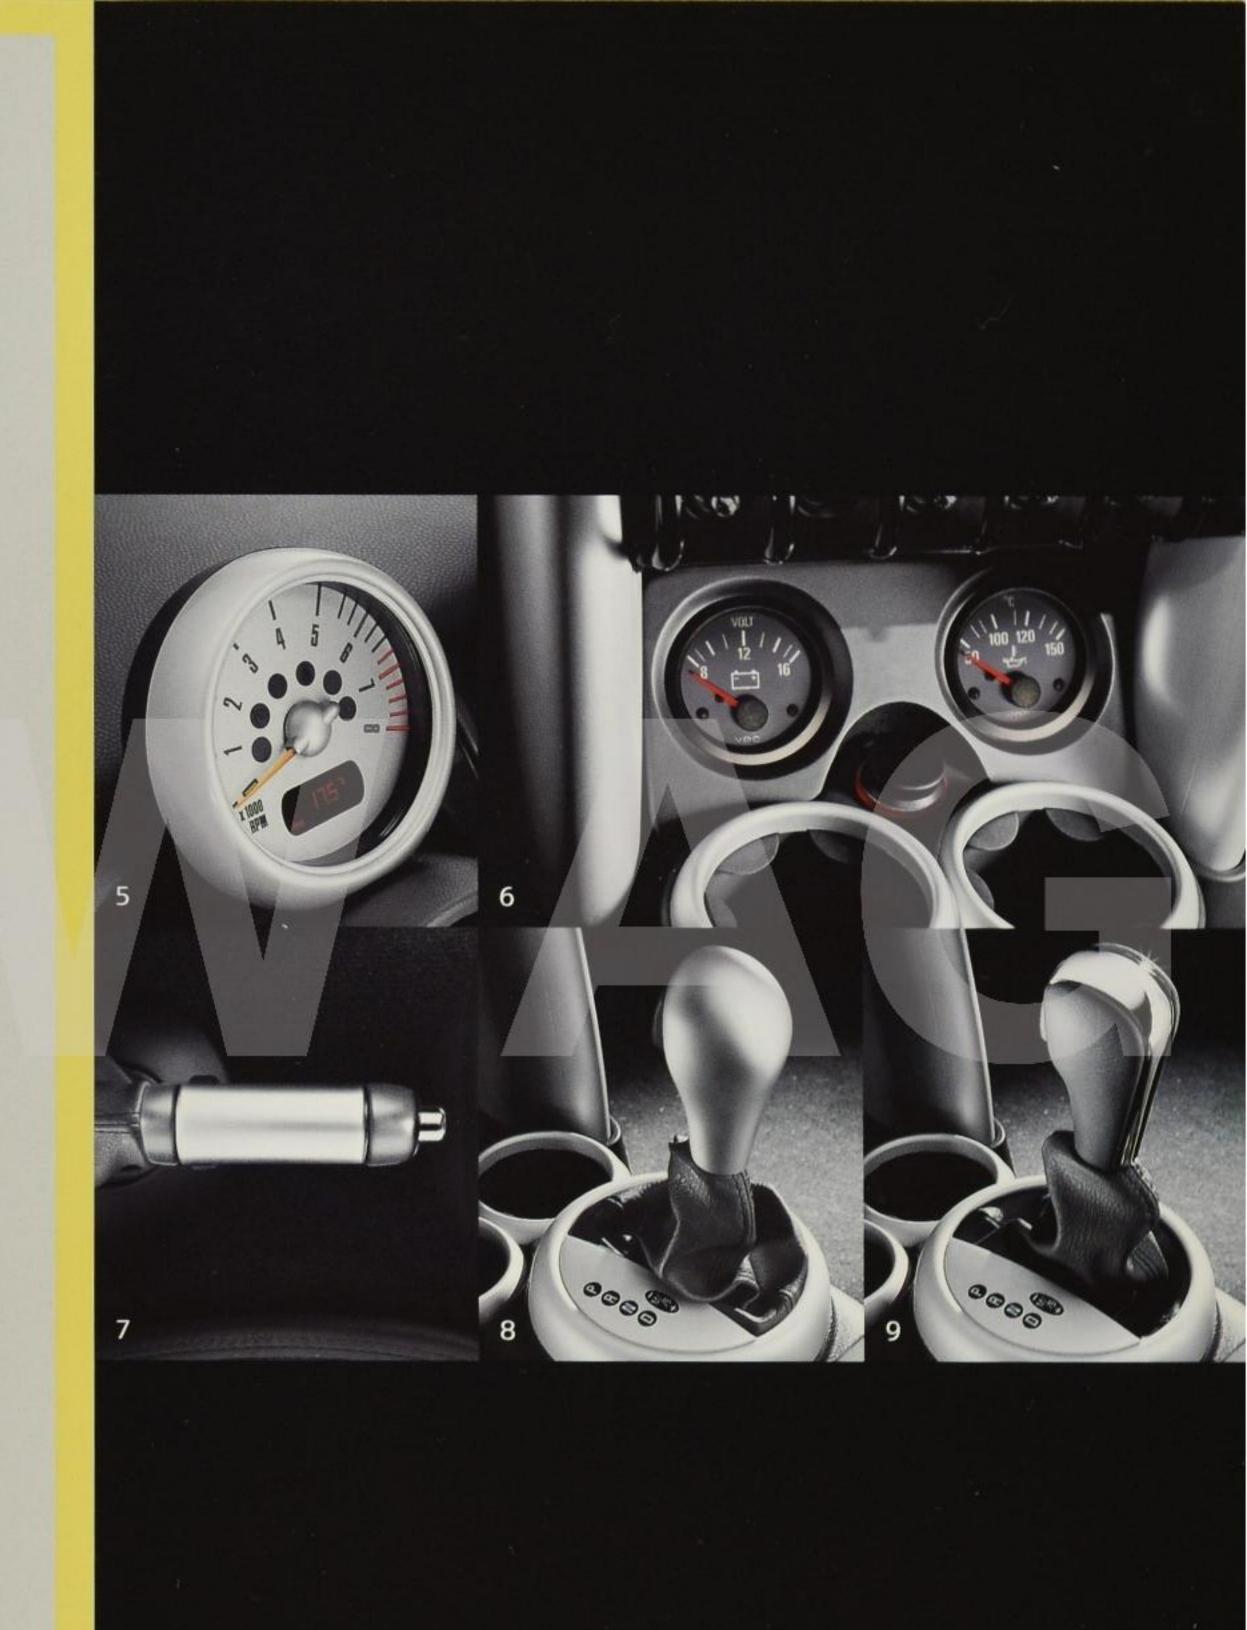

With the chrome design, every touch is a pleasurable experience.

9 Leather-covered selector lever grip with chrome strip

Opposites attract: cool chrome and supple leather combine to create a unique feel – one which you will find irresistible.

Drinks holder (not shown)

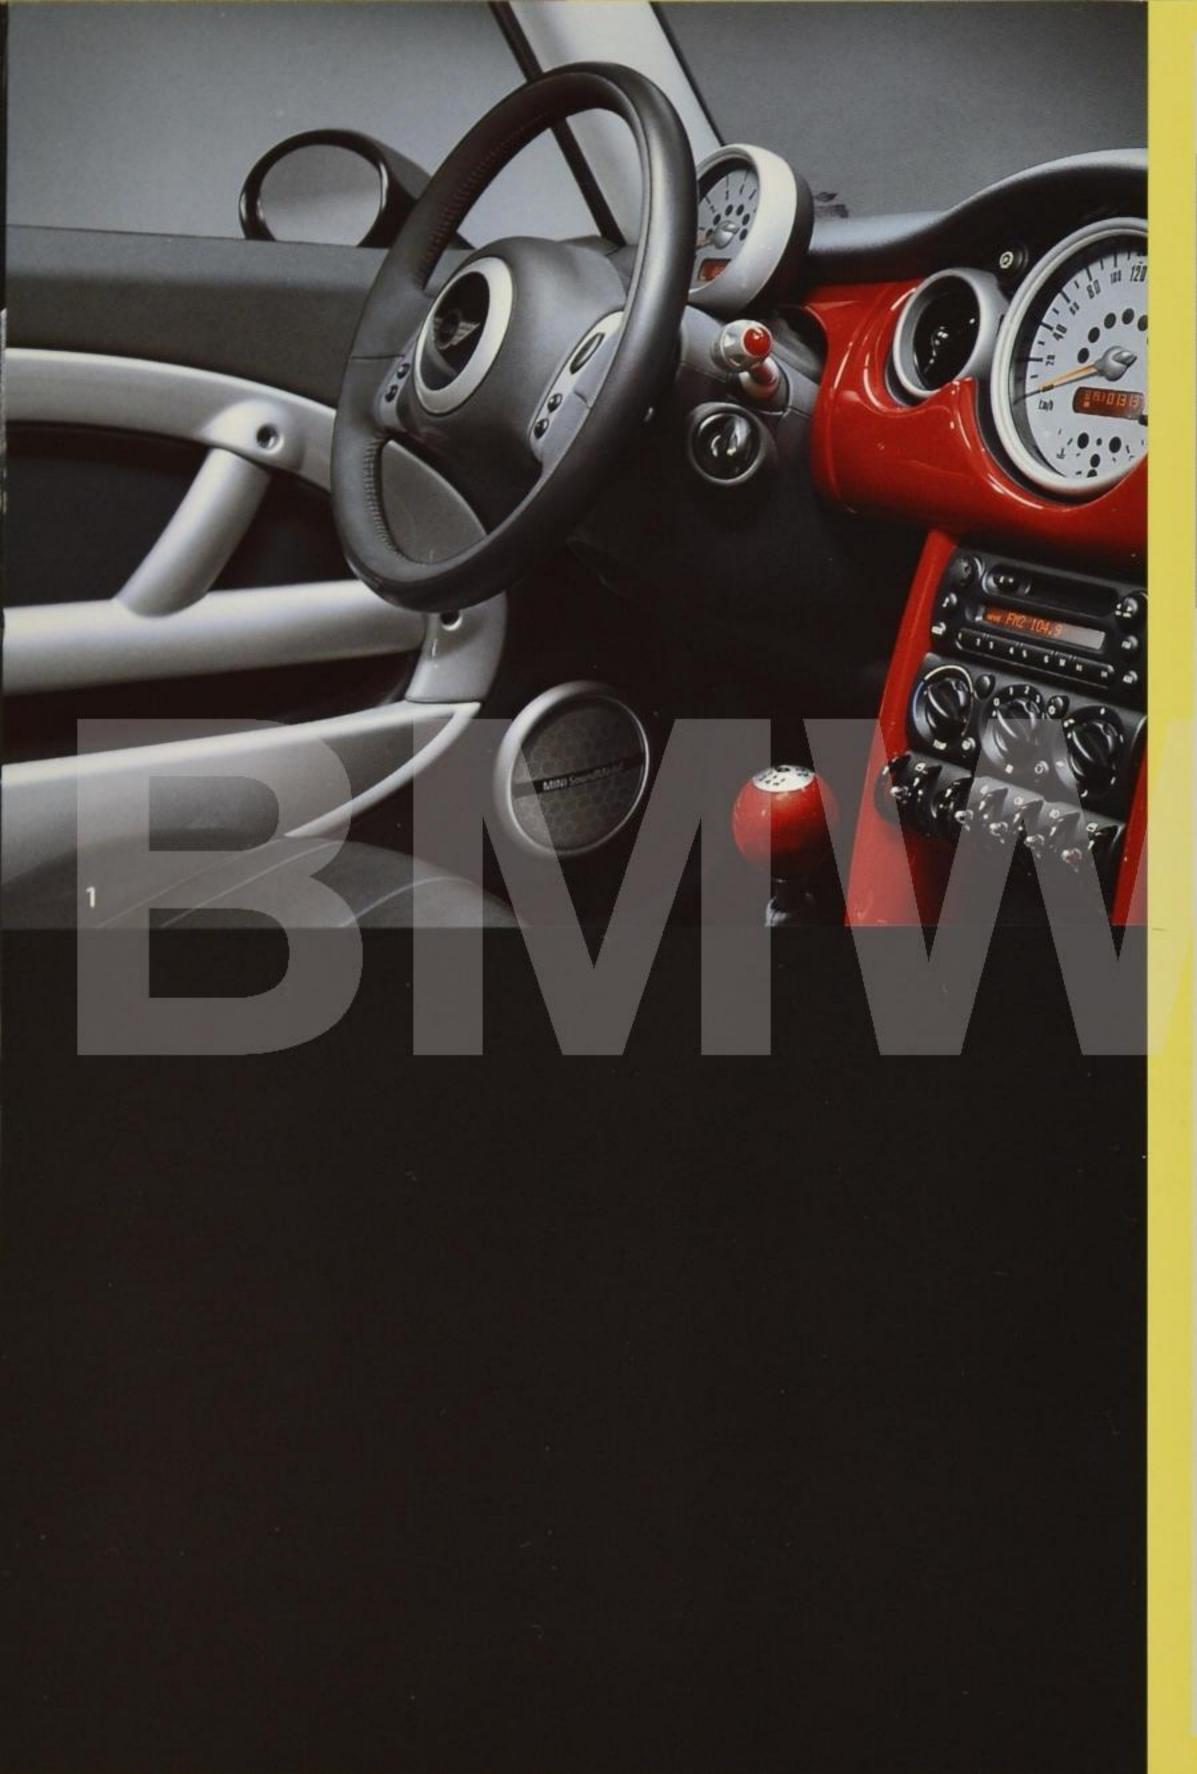

An additional drinks holder which is particularly suitable for larger-sized receptacles can be fitted in the top section of the centre console.

Choosing a MINI is a completely conscious decision. Because its shapely design and attention to detail are an inspiration – especially with the wide variety of optional equipment for the interior. The various leather trims also give a special sense of well-being. For example, steering wheel and gear lever knob, when covered with superior-quality leather, are a sensual treat for the hands. The impressive colours are a feast for the eyes. What does it feel like? You'll find out.

1 Interior trims in vehicle body colour

Add an extra touch of fun-filled colour to everyday driving: interior trims are available in all the standard car colours – Chili Red is shown in the picture here. Even the leather trims are available in virtually all the colour combinations – for instance in Panther Black, Cordoba Beige, Emerald Green or Lapis Blue. Consult your MINI dealer for more details.

1+5 Plastic gear lever knob

This gear lever knob not only feels good, it also looks fantastic with the MINI logo on the gearshift pattern. It is available in Chili Red (Fig. 1) and Indy Blue (Fig. 5) and all standard body colours.

2 Bicolour leather seats

The MINI bicolour leather seats are characterised by their optimum fit, outstanding workmanship and superior quality. They have been meticulously tanned and are exceptionally supple – an important quality characteristic of the MINI leather trim. The unique sitting feel and the visual impression they convey are further factors that speak in favour of these leather seats. Available in a variety of colour combinations.

2 Panther Black leather

Available for: leather-covered steering wheel rim, handbrake grip and gaiter, gear lever knob and gaiter or selector lever grip and gaiter (not shown).

3 Sport seats

Available in unicolour or bicolour leather trim. The seat back angle and seat height of the sport seats are individually adjustable depending on body size and posture. The special seam guide conveys a highly sporty feel.

4 Lapis Blue leather

Visually captivating. Exclusive to the Cooper S. Available for: handbrake grip and gaiter, gear lever knob and gaiter (not shown).

1 Unicolour leather seats

MINI unicolour leather seats, shown here in grey, impart a feel of refinement and exclusivity to the car interior. The leather seats are available in a variety of colours.

2 Seat heating, two-level regulation

The heated backrest and cushion start to exude warmth and well-being in just a matter of minutes. Two-level regulation.

3 Seat covers

These protective seat covers in flat weave are precision-tailored for an exact fit, stretch-resistant and show their most attractive side: the original look of MINI seats.

4 Backrest-mounted map pocket

Offers additional storage in the rear.

Although it handles with the precision of a kart, the MINI is a genuine four-seater. Available with an array of optional accoutrements that go way beyond standard fare. Each accessory item is perfectly tailored to your needs and is of impressively superior quality: this will leave you with a warm glow of satisfaction.

5 Cordoba Beige leather-covered steering wheel rim

Finest craftsmanship: the Cordoba Beige leather-covered steering wheel rim – also available in Emerald Green or in all one colour Panther Black – provides for an individual contrast inside the MINI.

6+7 Cordoba Beige leather

Comfortable to grip: handbrake grip and gaiter and gear lever knob and gaiter in superior Cordoba Beige leather. Further accessories: selector lever grip and gaiter (not shown).

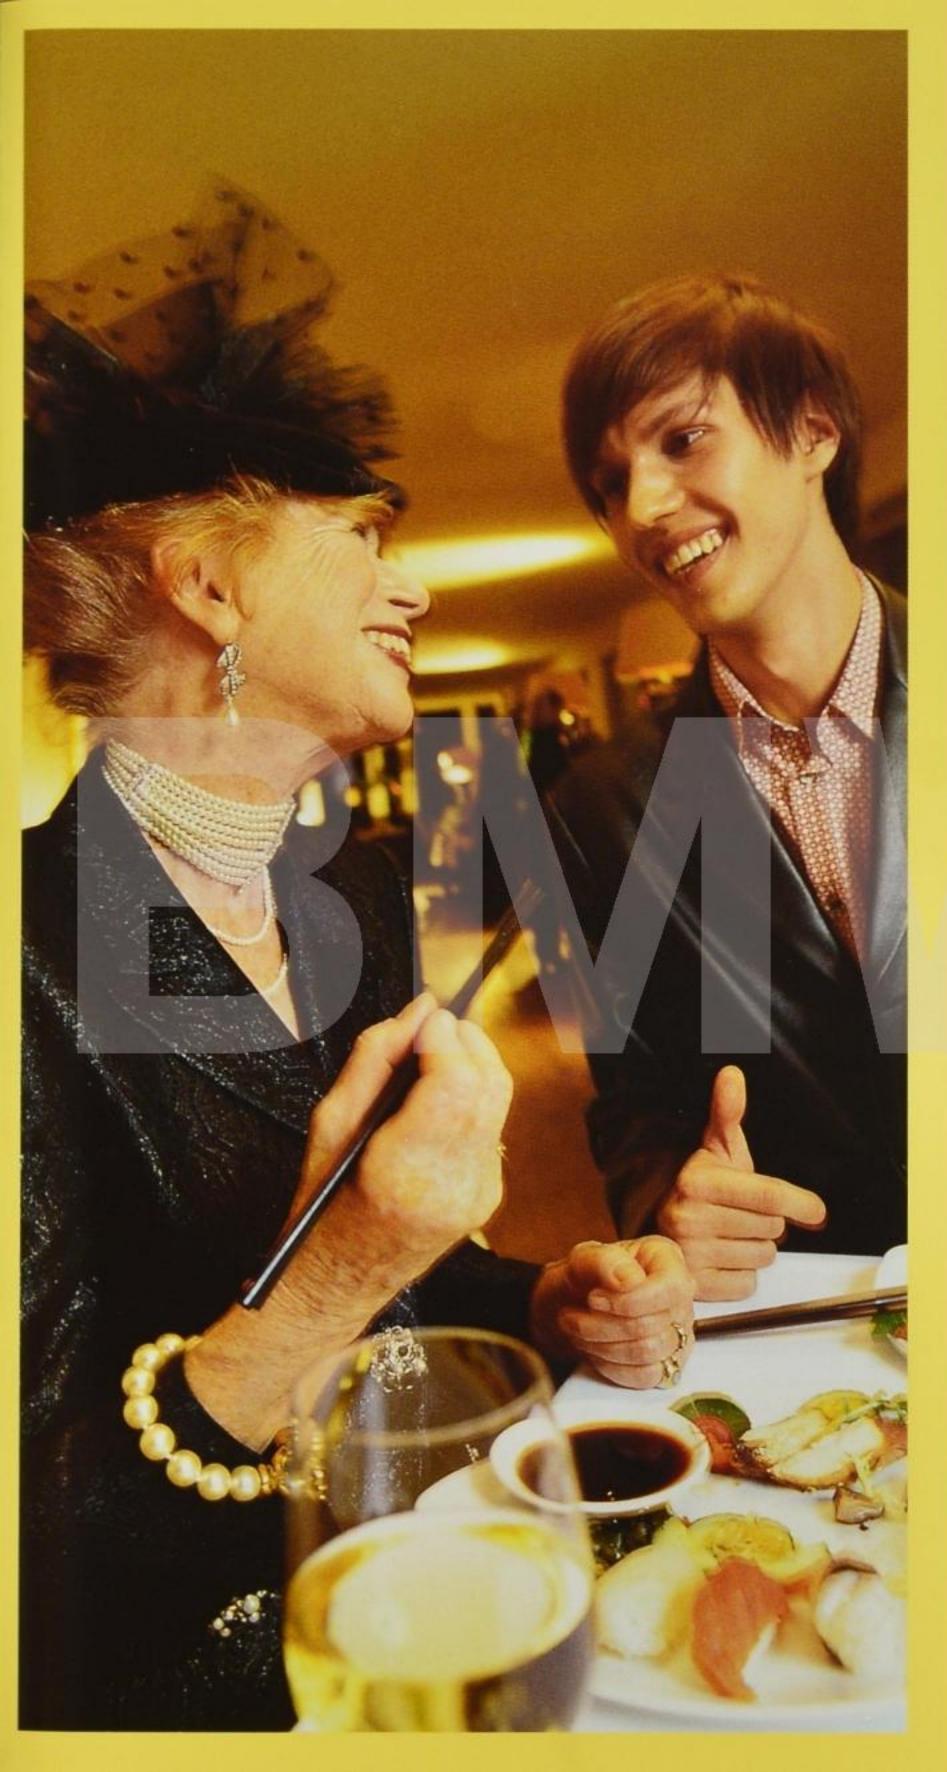

8+9 Emerald Green leather

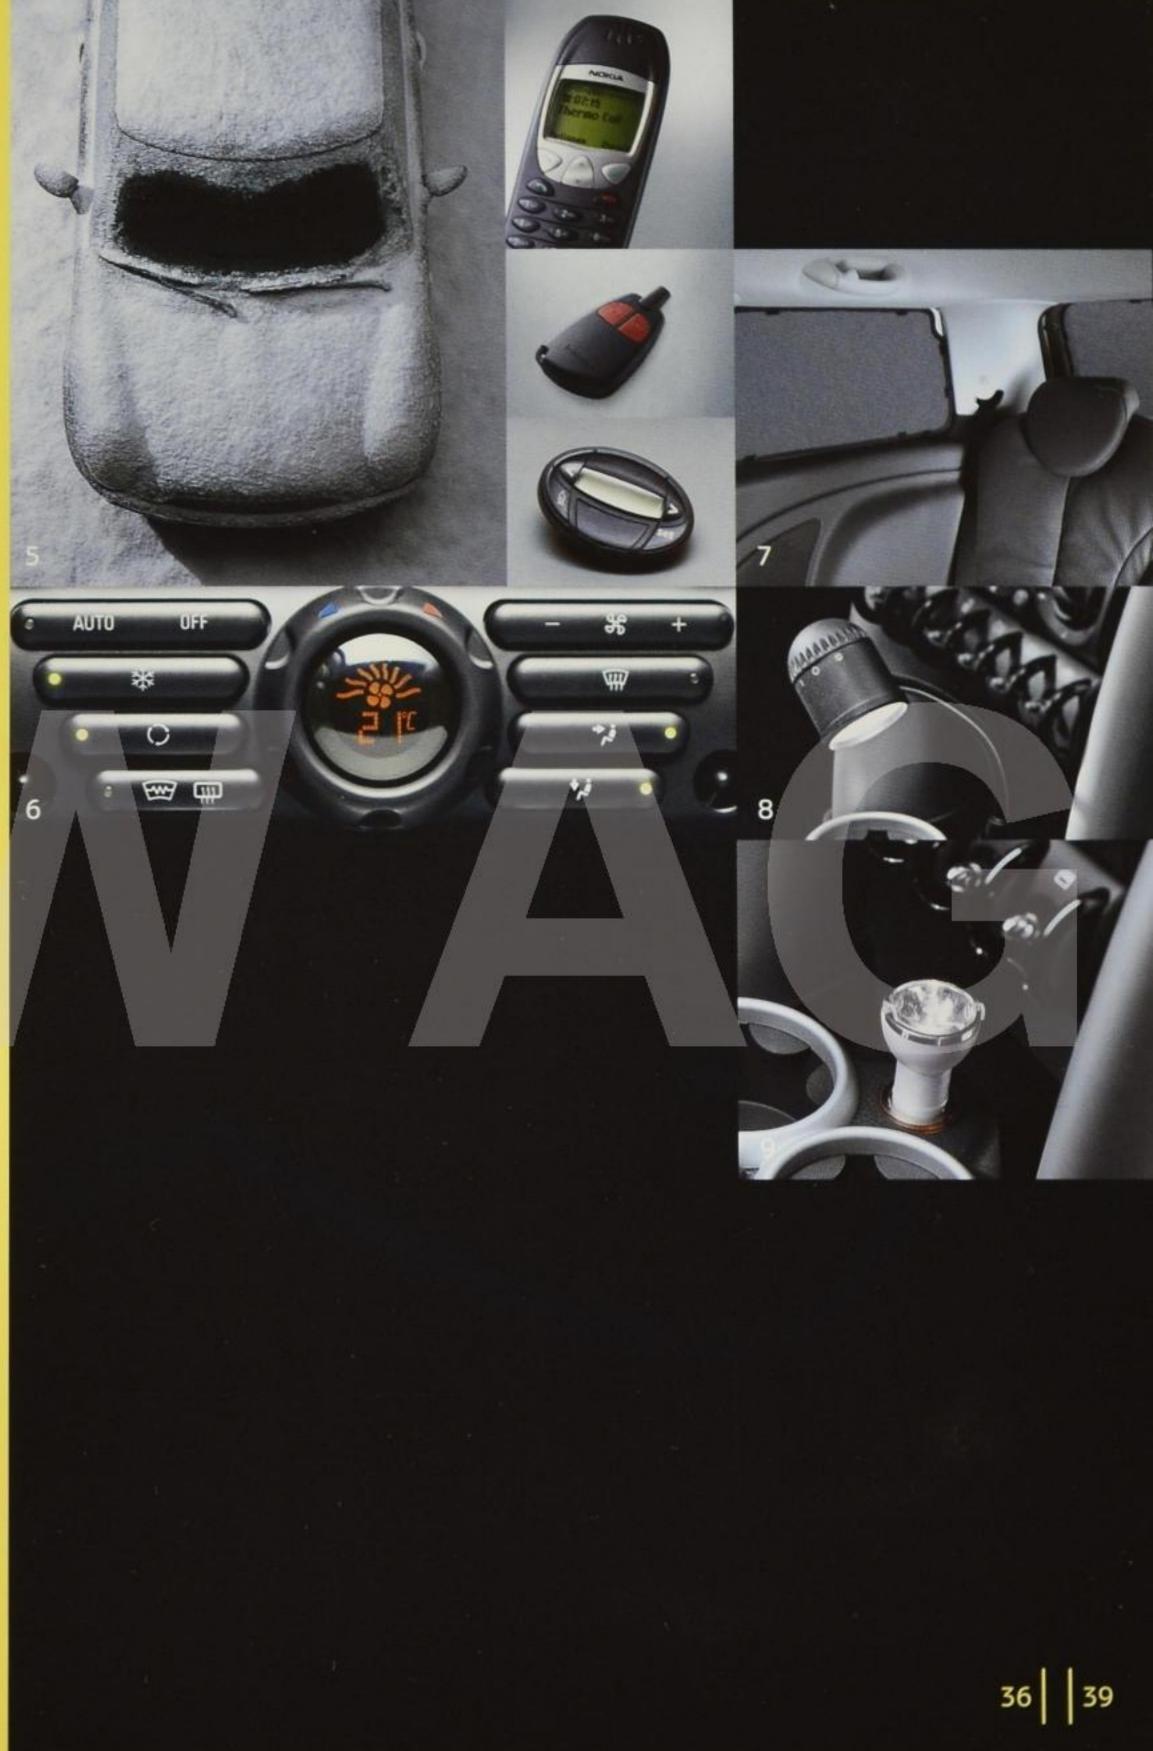

Each gear a positive pleasure: handbrake grip and gaiter and gear lever knob and gaiter in finest Emerald Green leather.

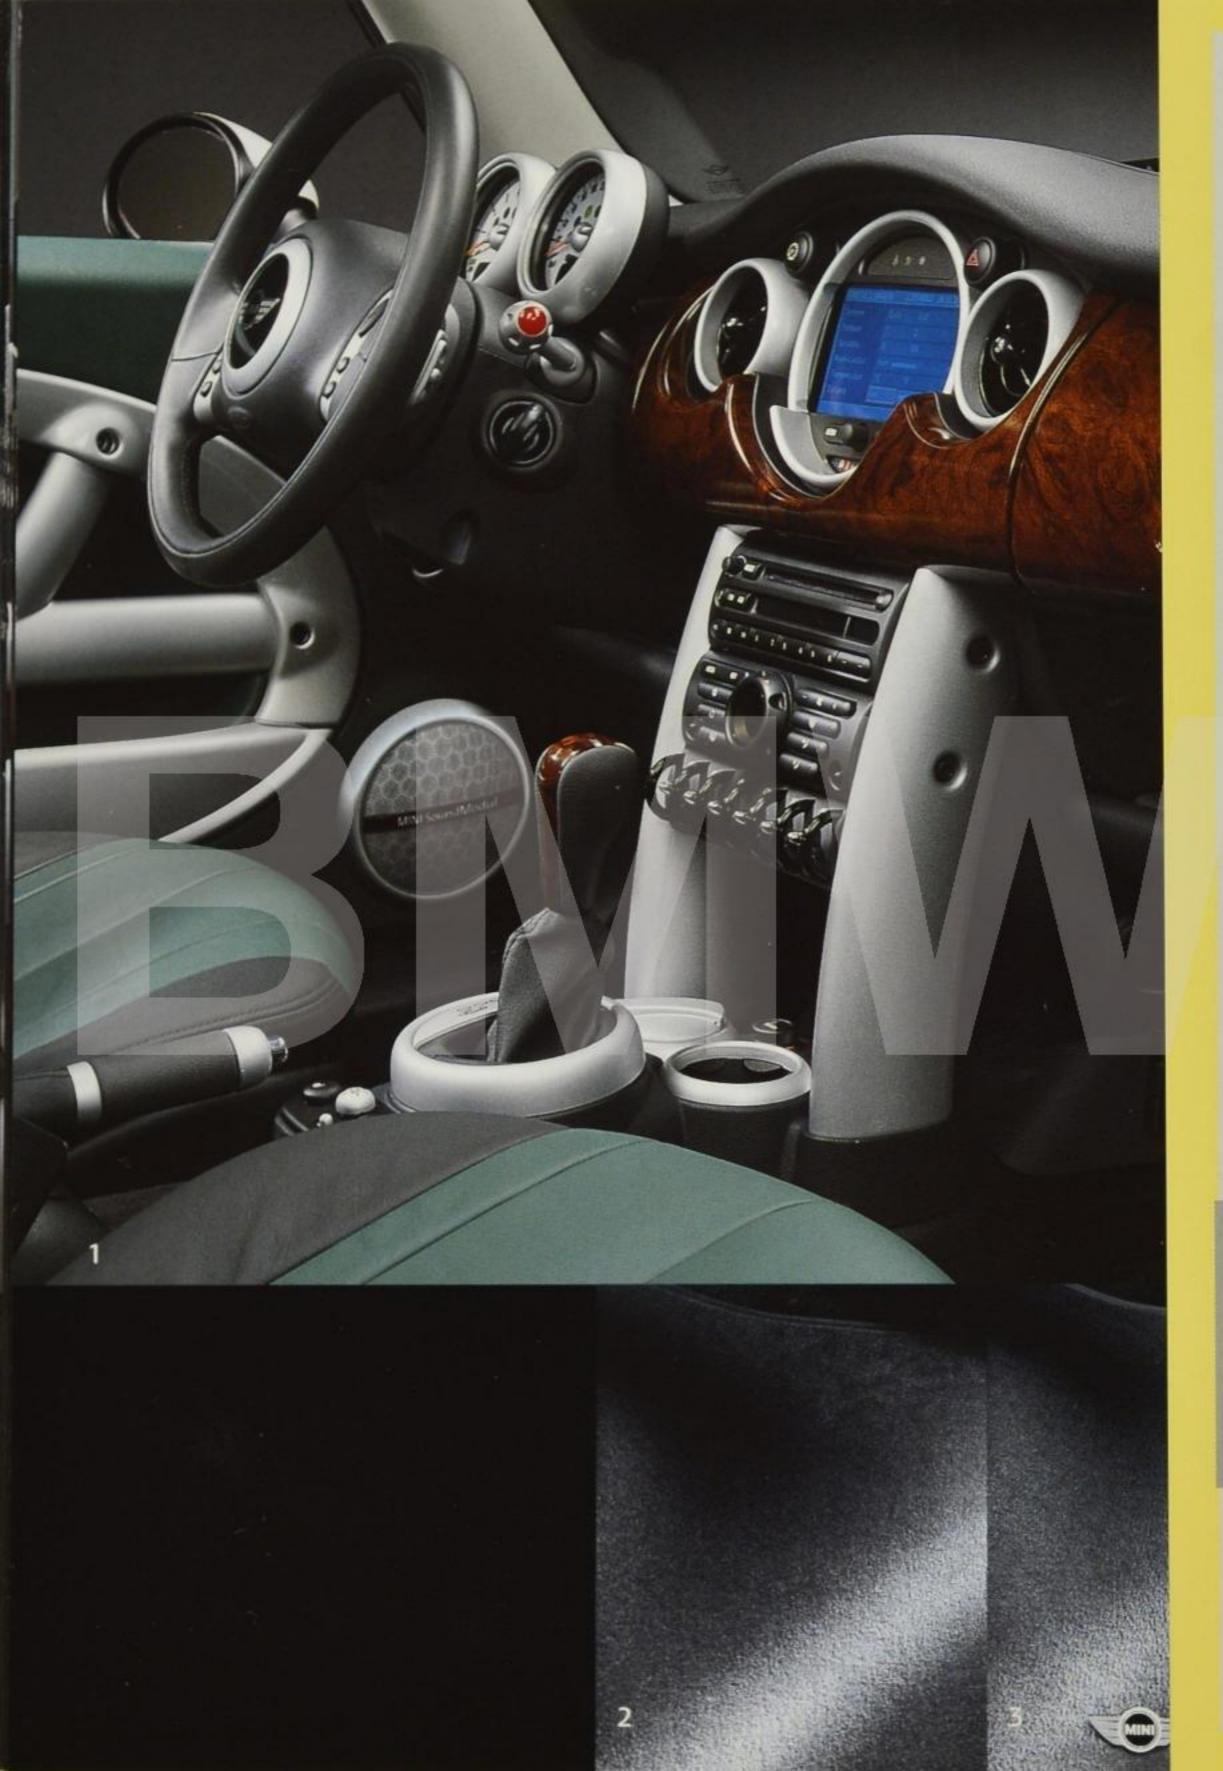

Further accessories: selector lever grip and gaiter (not shown).

1 Interior wood decor trims

The interior of the MINI with selected wood accessories has a classic appearance. The dashboard has a particularly eyecatching style.

1 Leather-covered selector lever grip with fine wood strip
Panther Black leather, with fine walnut strip. This elegant detail
enhances your MINI's interior.

Fine wood gear lever knob (not shown)

Fine mahogany. The gearshift pattern is incorporated to striking effect.

2 Velour floor mats

High-quality soft velour. Available in a variety of colours.

3 City floor mats

This high-quality design of tight short-hair velour is waterproof and resistant to abrasion. Every floor mat features the MINI emblem. Available in a variety of colours.

4 Rubber floor mats

With raised step section – to protect your shoes. Available in a variety of colours.

Modern and yet classic. The lavish wood decor dashboard and interior trims lend your MINI a charm all of its own. Combined with the matching fine wood gear lever knob or selector lever – enjoy the full extent of possibilities opened up by the MINI.

Independent heating/independent ventilation

Generates warmth inside the passenger compartment in winter before the car is even driven. During the starting phase the engine is protected and fuel consumption is reduced by the preheated coolant circuit. In summer independent ventilation provides a more pleasant in-car climate by exchanging the heated air even before the car is driven. Can be activated with the multifunction clock, radio remote control (up to 600 metres) and ThermoCall.

Automatic climate control

Automatic climate control sets the desired interior temperature with minimal delay and then maintains it at the preselected level. Air quantity, air distribution and temperature (to a precision of one degree) can be activated automatically at the touch of a button but can also be adjusted manually.

Sunblinds for rear and side windows

This foldable sunblind is attached to the rear and side windows. When not in use, it can be stowed in the car in a folding storage pocket.

Halogen reading lamp

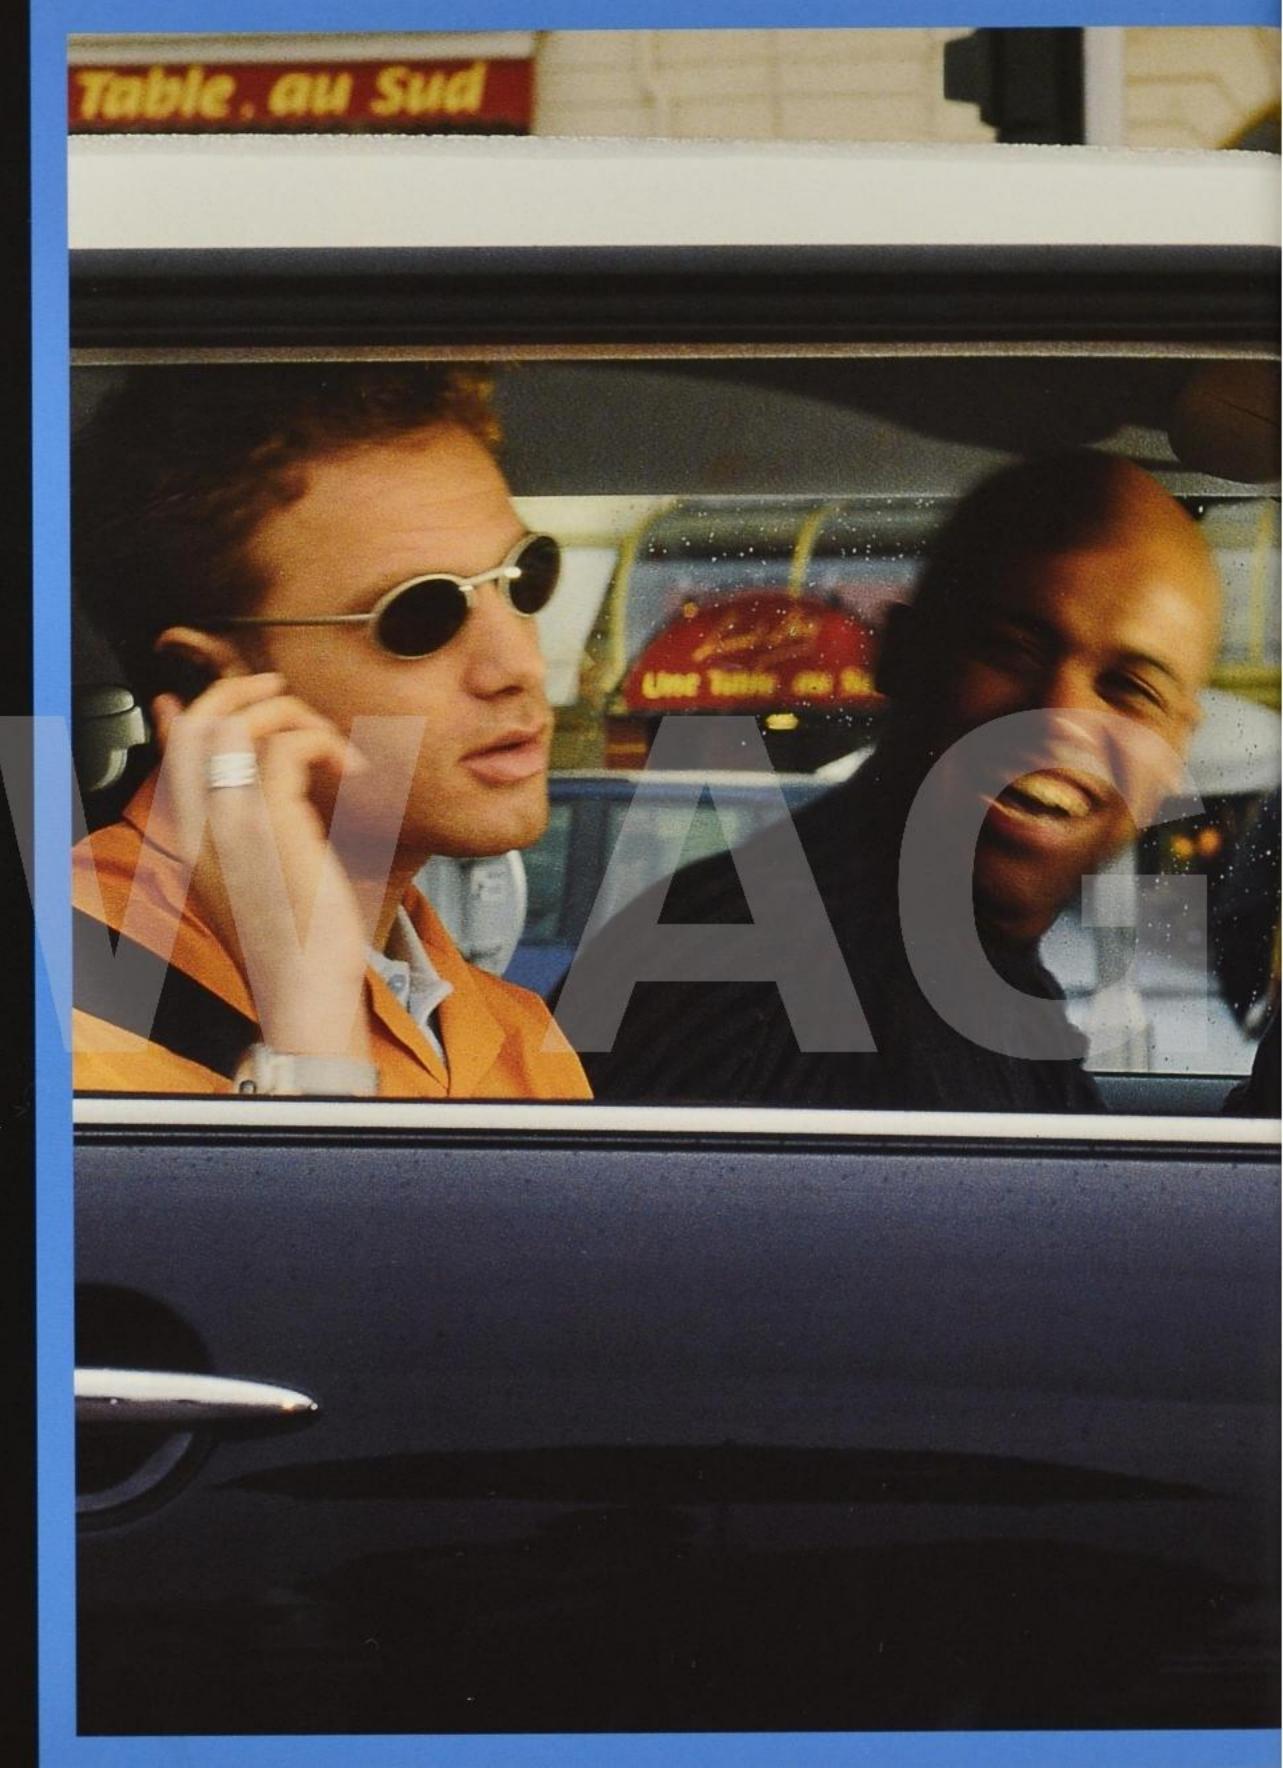

Anti-dazzle light. You can adjust the light beam to shine in any direction desired.

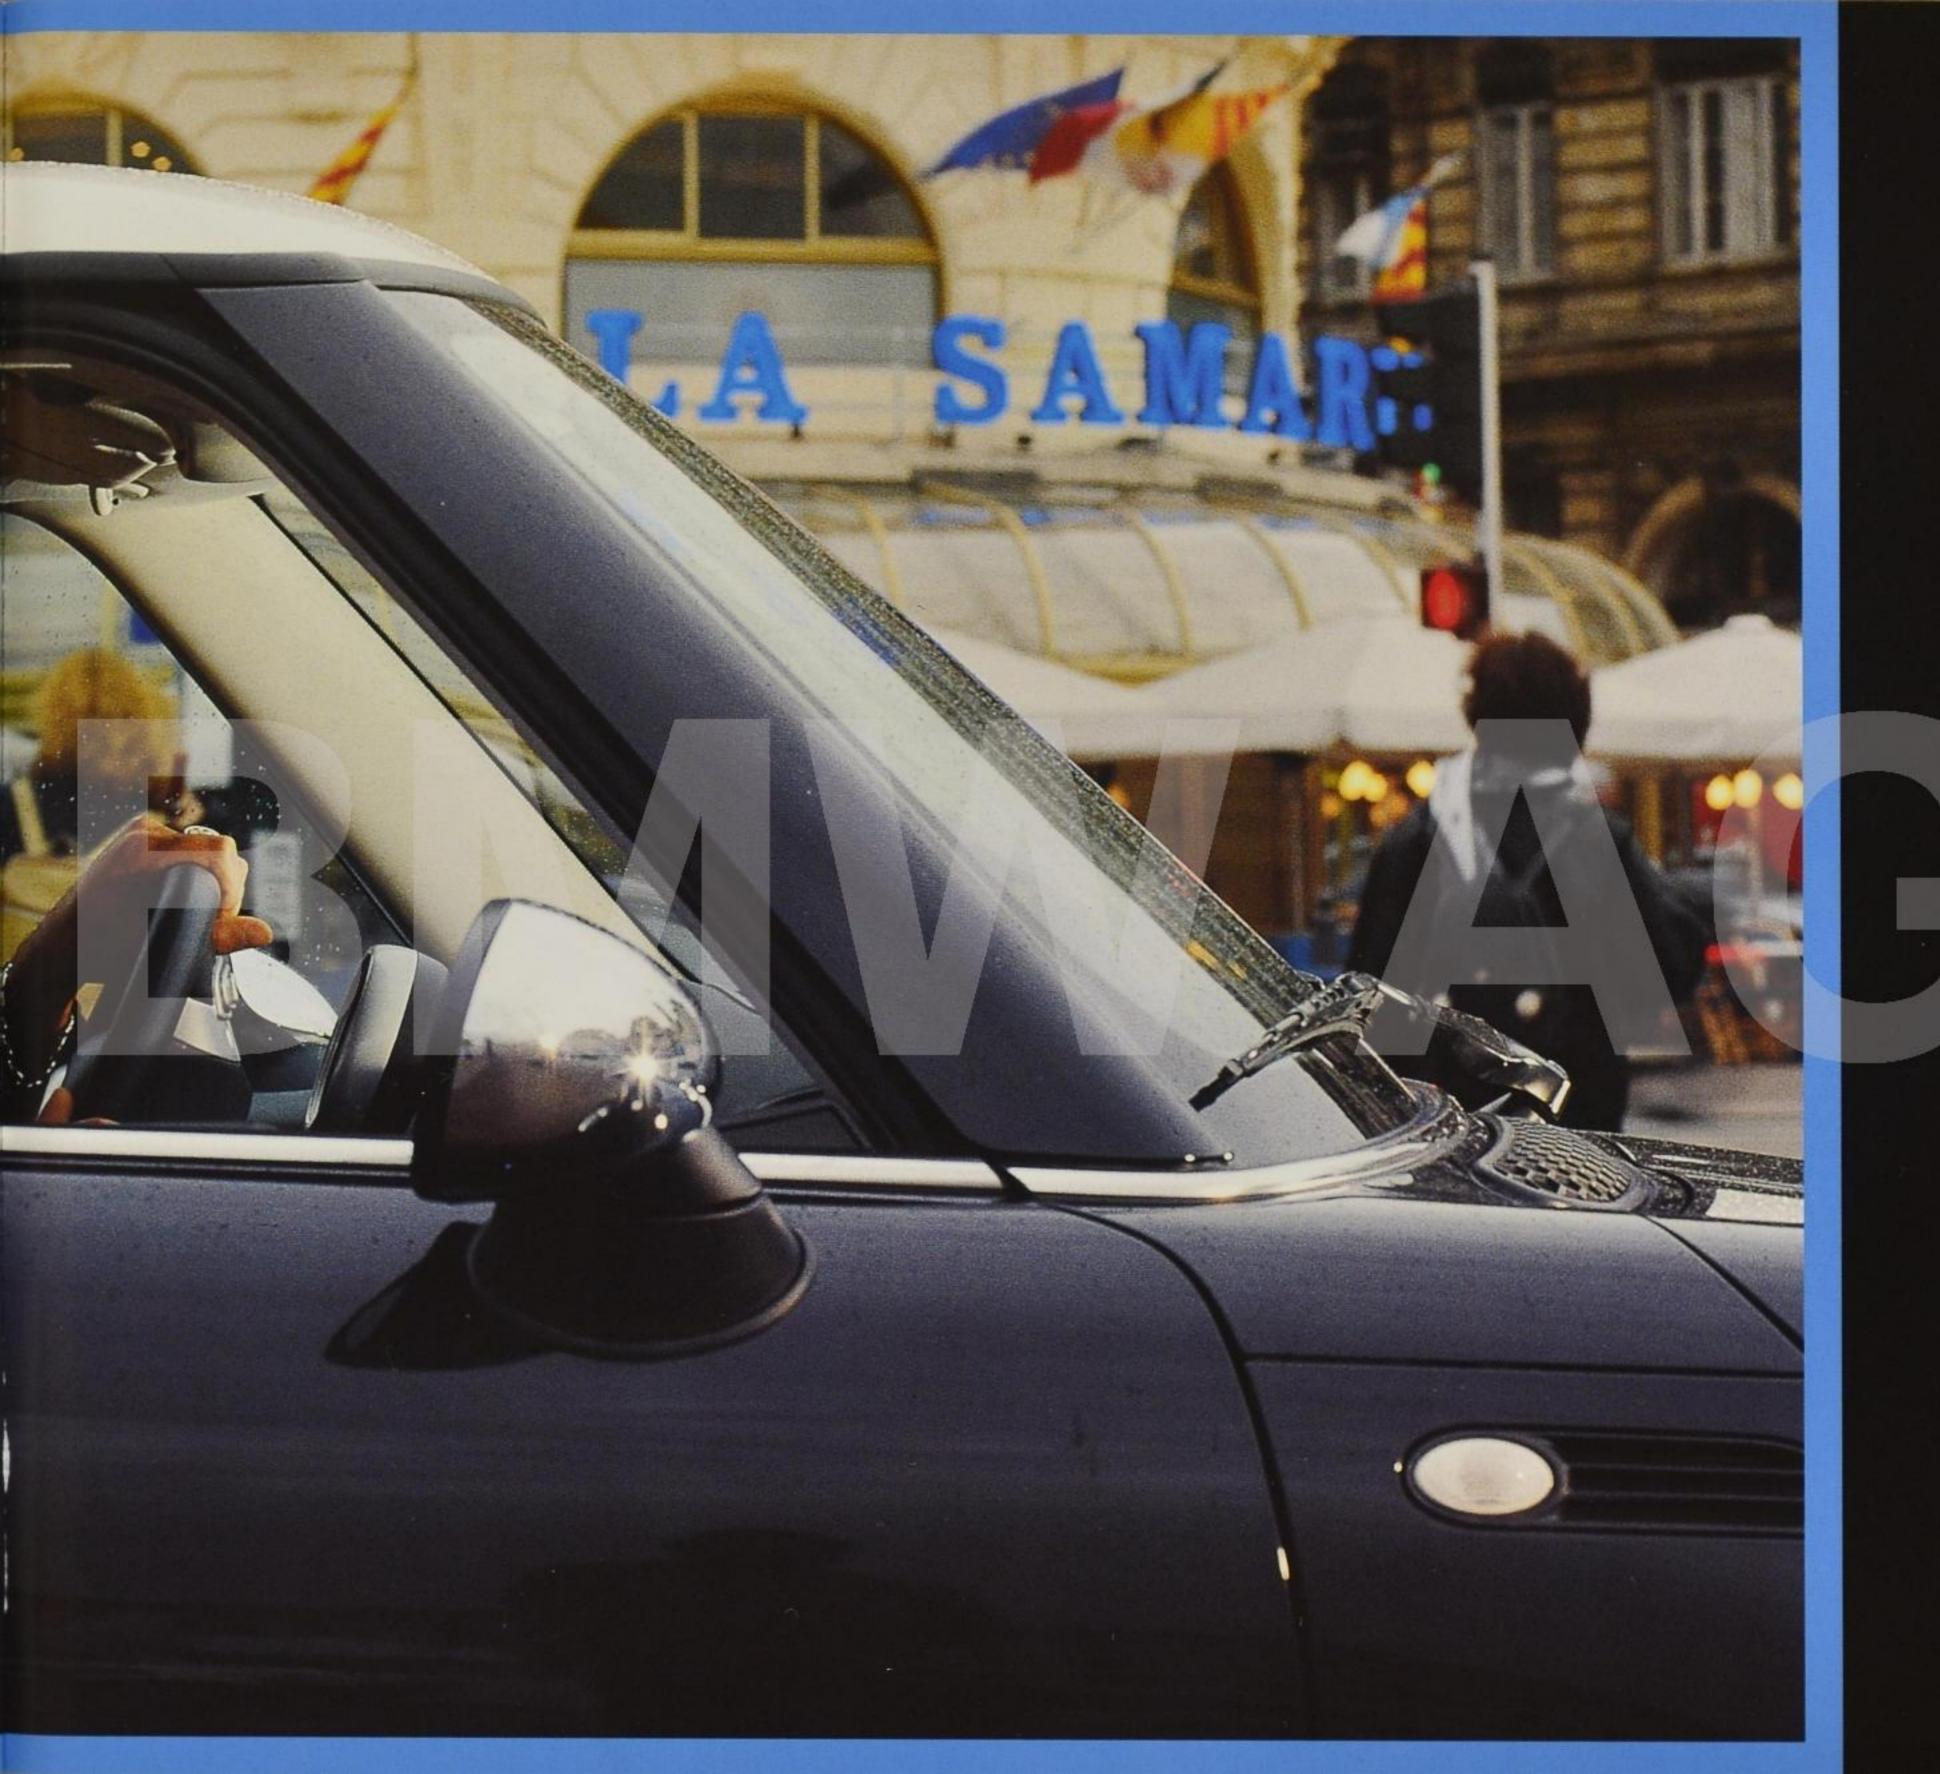

MINI torch

With magnifying glass. The small torch with storage battery can be connected to the cigarette lighter and charged.

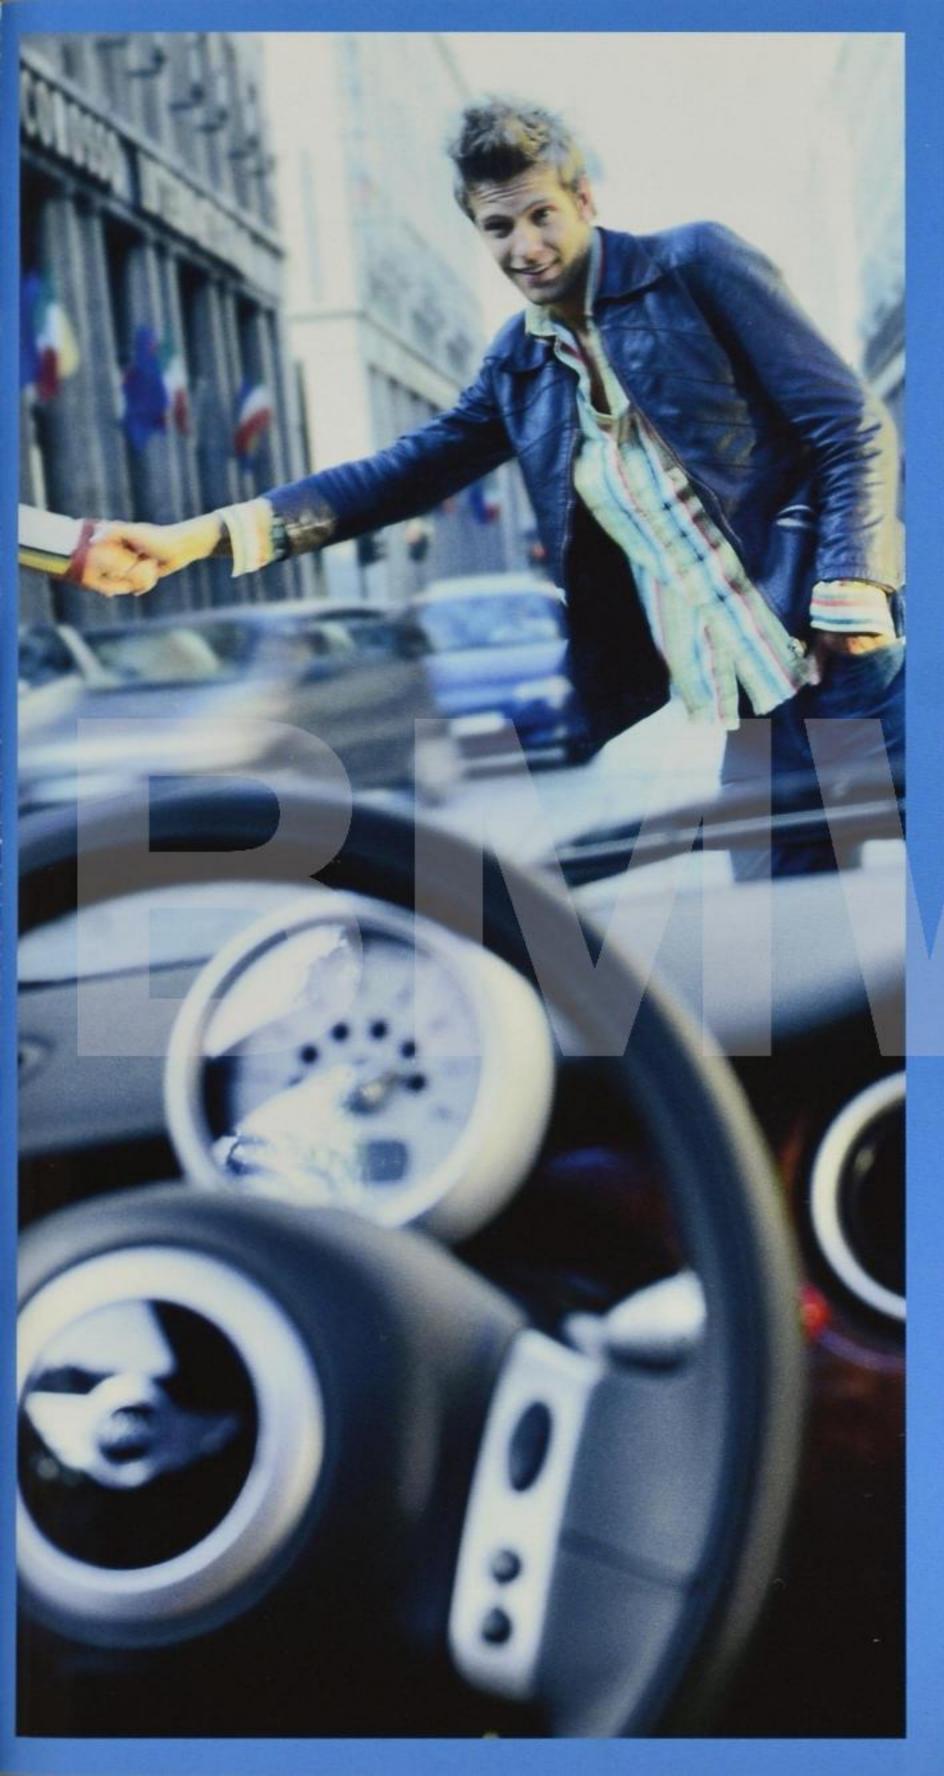

IT'S IMPOSSIBLE TO BE EVERYWHERE AT THE SAME TIME. YET IT IS POSSIBLE TO BE KEPT INFORMED USING THE BUILT-IN COMMUNICATIONS SOLUTIONS OF MINI ACCESSORIES.

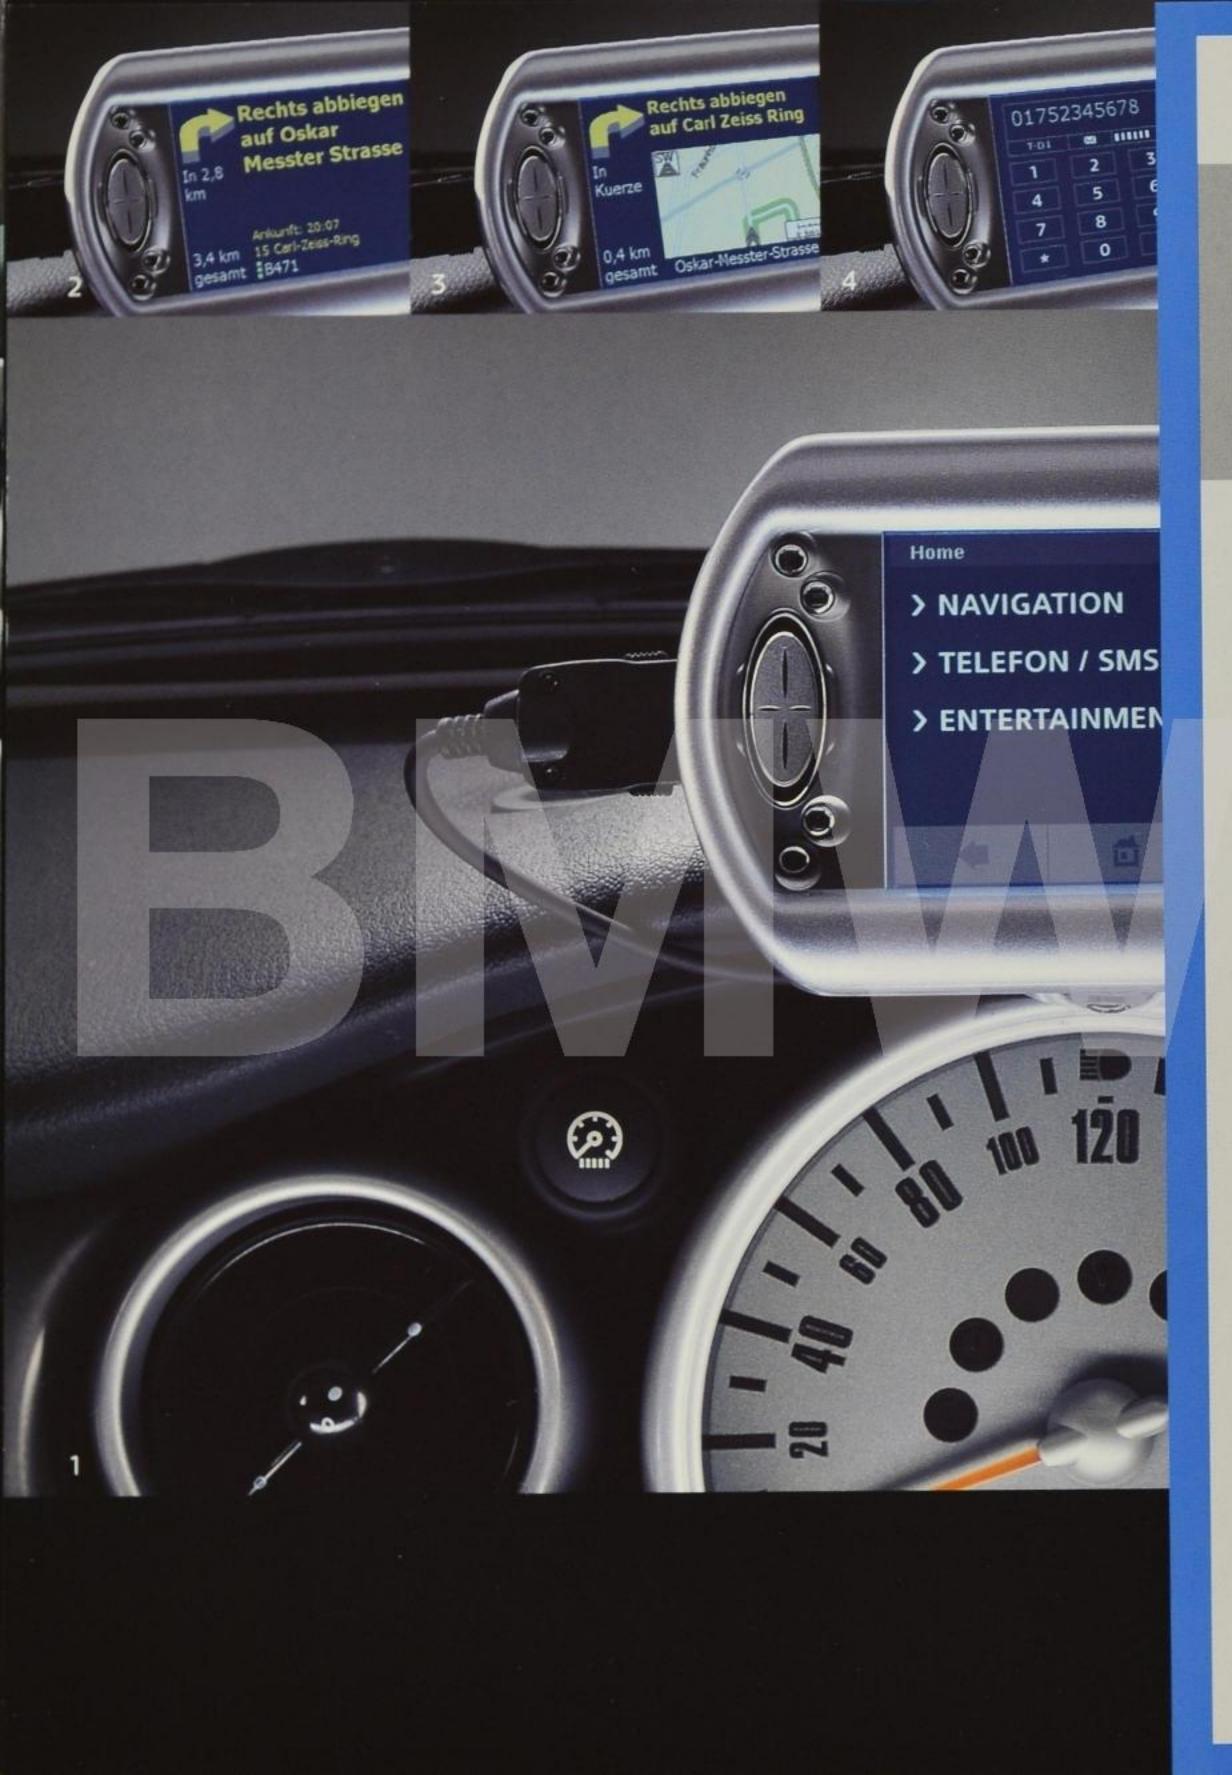

UMGEBUNG ORT/LAND

B 5 AKT NEWS Bay B5a Enr K1s G96 Ant ->

The MINI allows you to be as mobile as you wish. With radio navigation, which gets you safely to your destination. Or with the new PDA integration feature, which swiftly provides you with all the information you really need to know. What are you waiting for? Enter the world of MINI communications.

1-5 PDA integration

The PDA (Personal Digital Assistant) starter kit comprises a holder which carries your Compaq unit in landscape format. This is located centrally above the speedometer, in an excellent position within the driver's field of vision and area of operation. It has a central unit with electronic charging facility, a receptacle for memory expansion cards and the specific MINI PDA software. Available for iPAQs of the H3600, H3700, H3800 and H3900 families. Integration of further PDA models is currently in preparation.

2+3 Navigation

PDA navigation gets you safely and quickly to your destination. The whole of Western Europe is stored on the Navigation CD (included in the scope of delivery). You can divide the map material as desired on the PC into freely selectable and combinable map extracts and copy them to the PDA. Your route is reliably calculated by means of coupled location, i.e. by way of GPS, angle-of-rotation sensor and speedometer signal evaluation. The navigation instructions are displayed on the PDA and output in the form of speech (text-to-speech). PDA navigation also has a splitscreen function, i.e. the screen can be split to display maps and symbols simultaneously. In the event of traffic congestion, you can get the system to calculate an alternative route by pressing the congestion button. If you deviate from the calculated route, a new route calculation is performed automatically.

4 Telephone/SMS

You can also use your PDA to make phone calls comfortably and to send SMS messages. Direct dialling of phone numbers is possible as are connections via your mobile phone's SIM card or via the addresses stored on your PDA. For this you need a mobile phone and a hands-free kit – both data-compatible – or a PDA with integrated GPRS/GSM module.

5 Entertainment

This stage allows you to listen to your favourite songs in MP3 format. Playlists are used here to compile and manage individual MP3 files. When you buy the PDA navigation feature, you can download Entertainment free of charge from the internet address www.mini.com/pda. Depending on the radio fitted, you can use a supplementary-equipment set to further improve the sound.

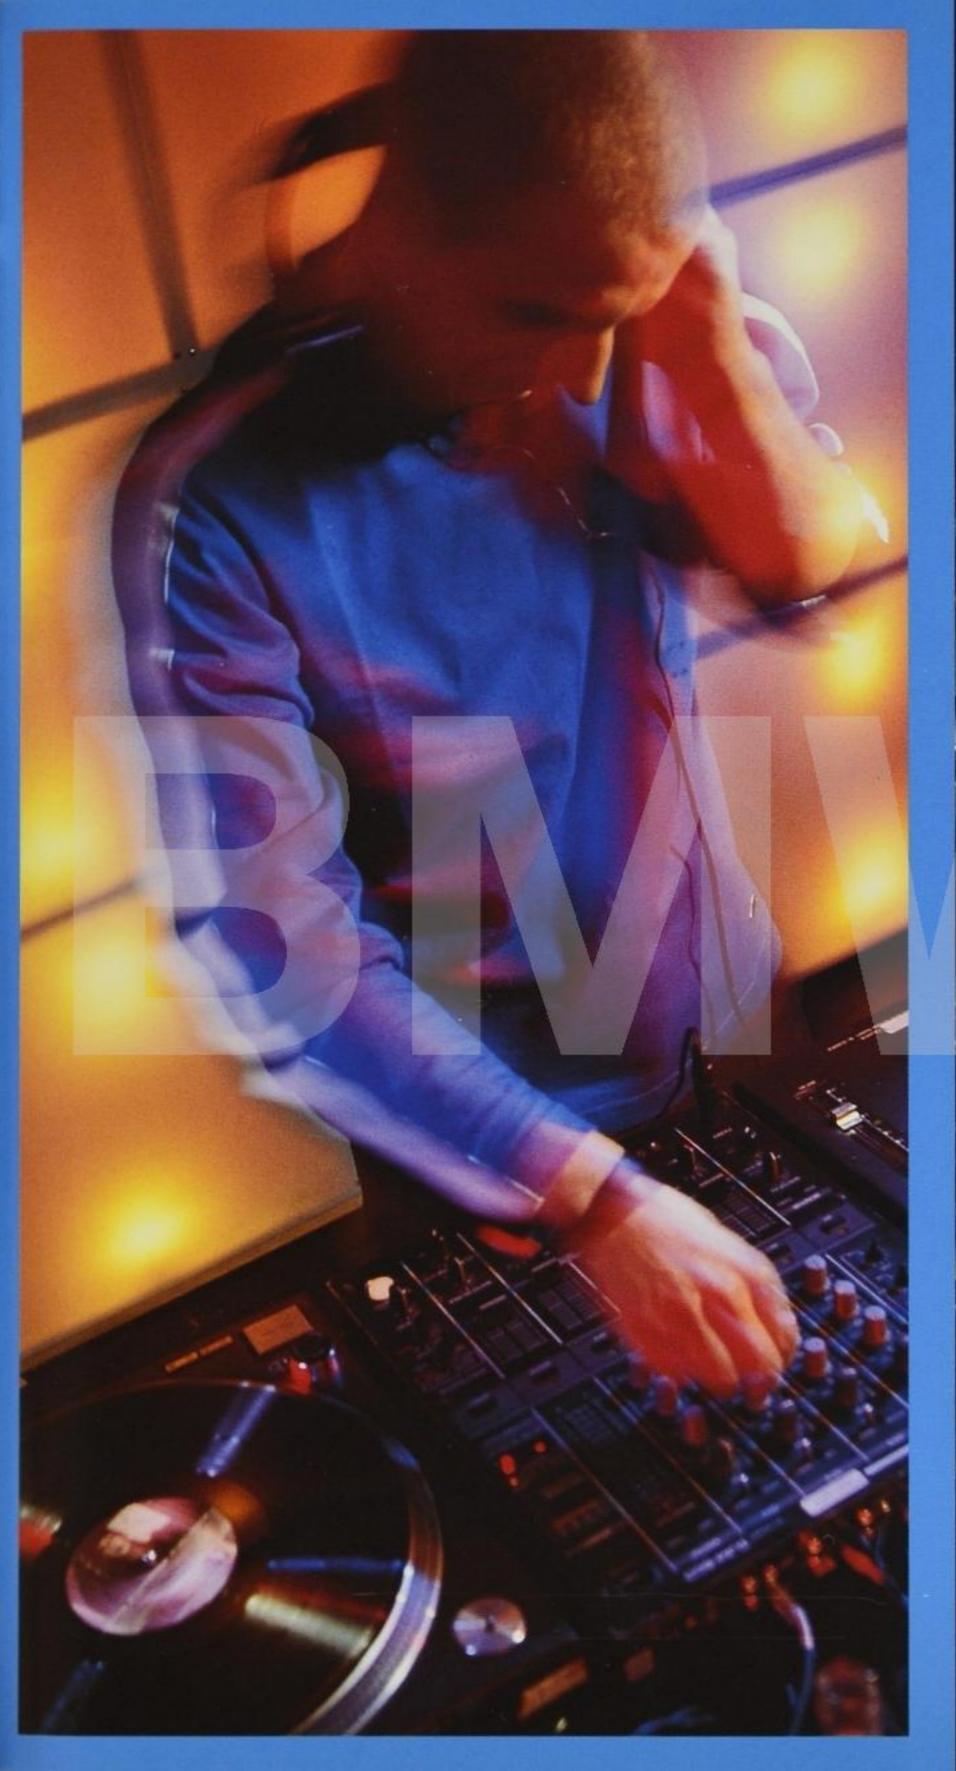

6 Radio navigation

Navigation system, CD player and RDS double tuner with outstanding features combined in a single unit. The navigation unit guides you safely with arrow and speech instructions through the whole of Western Europe. It identifies traffic obstructions before you are affected by them and uses dynamic route guidance (by way of TMC) to calculate an alternative route which takes you past traffic jams in good time. You can listen to a CD or the radio at the same time. Some radio details: FM, AM and LW reception, dynamic station scan, 4 x 30 W amplifier power output, including a CD drive as well as a connection for a CD changer and multifunction steering wheel.

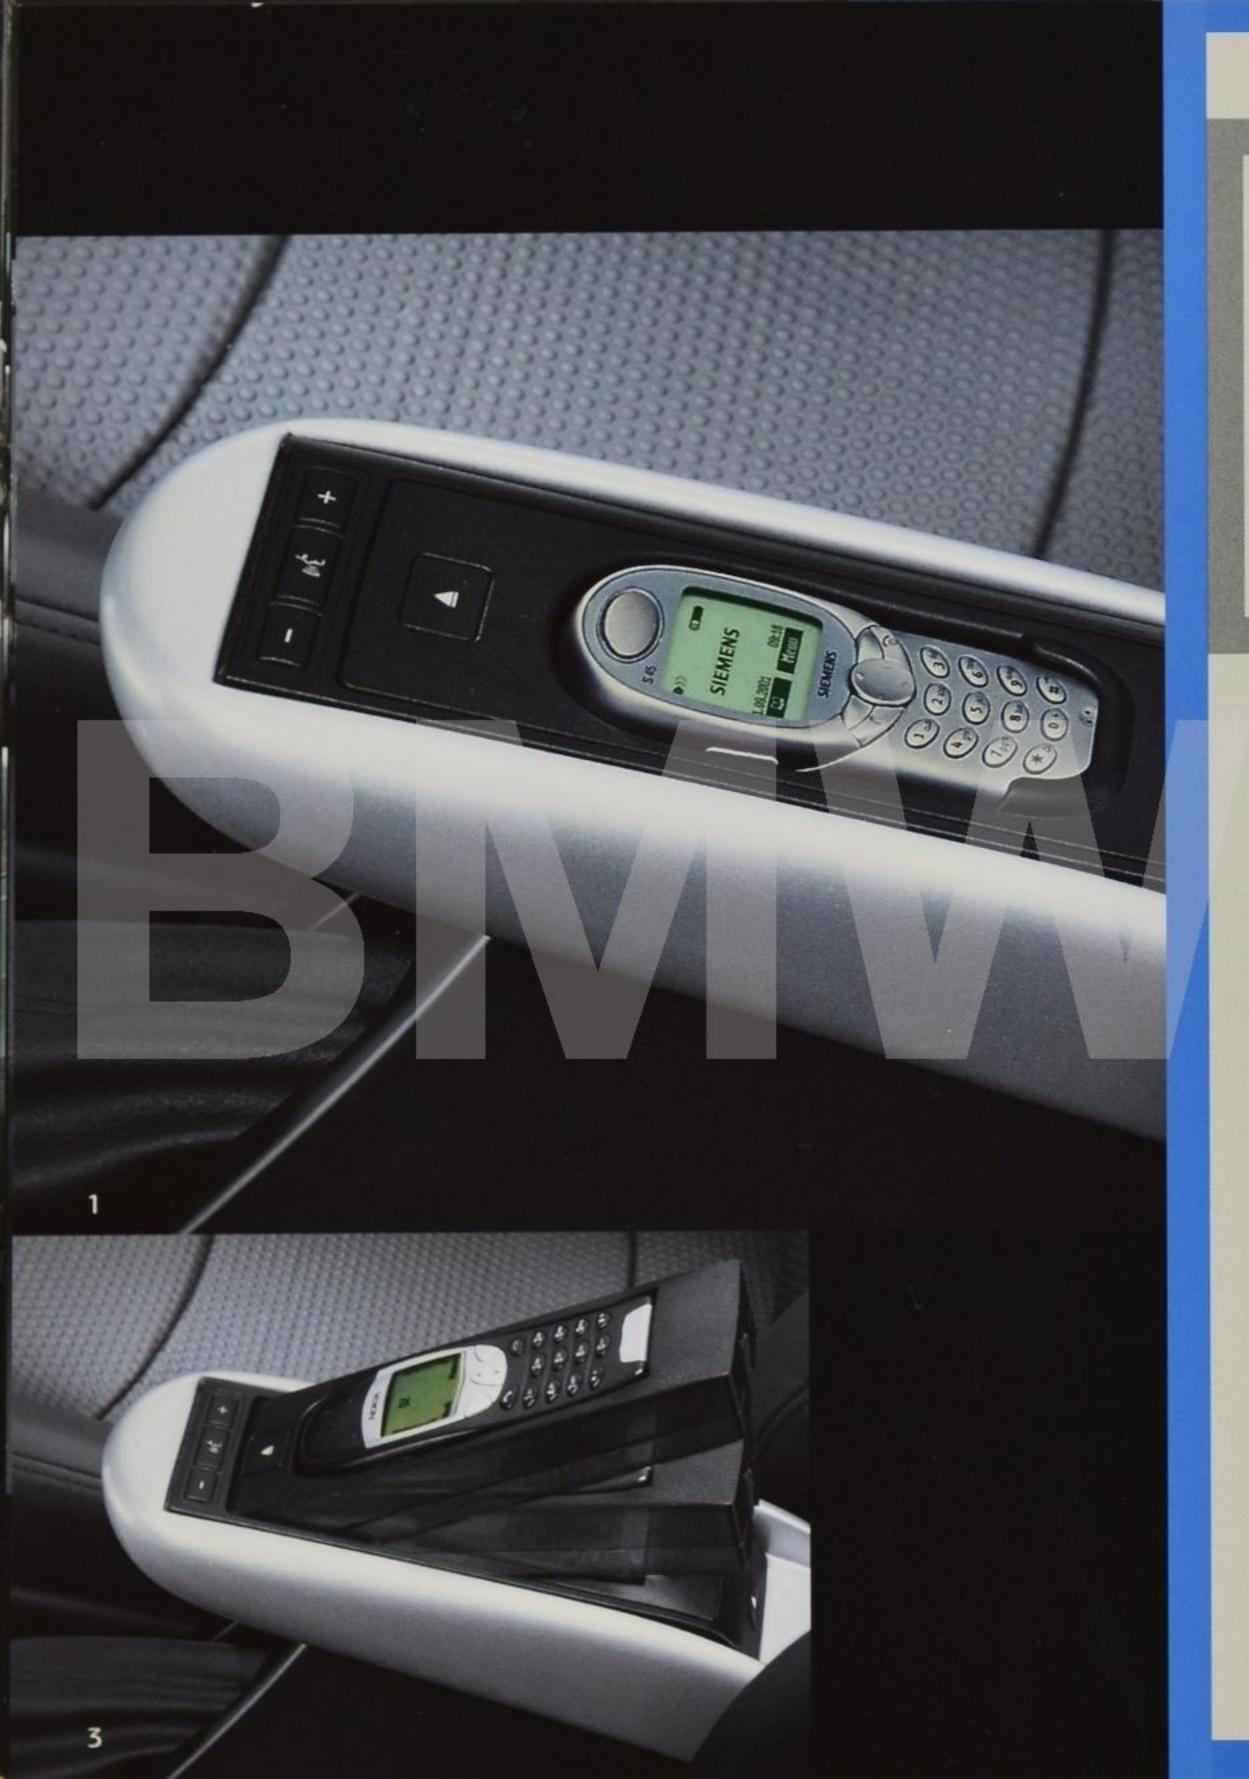

One hallmark of an exceptional automobile is the way it offers the ideal solution in every situation. The MINI is such a car – a virtue reflected in its extensive and multi-faceted array of accessories. In the MINI, mobile communications means more than access to the latest generation of radio navigation systems, mobile phones and CD changers – it means that all of these systems complement each other perfectly. Thus, for example, when you operate the mobile phone with the hands-free kit, your radio is momentarily muted. However, you should not be affected in the same way!

1+3 Telephone console

The telephone console is optically precision-matched to the MINI design and simultaneously can be used as an armrest for the driver and the front passenger. Also available in anthracite. The telephone console perfectly accommodates the **universal MINI Classic hands-free kit**, which is available as an additional extra. You can use mobile phones of assorted manufacturers on a universal basis with this hands-free kit – simply by using phone-specific snap-in adapters. The adapter can be easily snapped in and out of the telephone console (available as an option). Another driver can use straight away the hands-free kit with its own snap-in adapter and mobile phone – always perfectly matched to all the control functions and the passenger compartment of the MINI.

2 MINI Economy hands-free kit

This package features hands-free kit, telephone console, charging function and comfort function with radio muting. In this equipment version, the telephone console and the hands-free kit are permanently installed in the driver's field of vision.

4 SoundModul

Large-capacity speakers, excellent, bass-accentuated sound (rear woofer 16 cm in diameter) and improved frequency response for the entire system. High-quality amplifier/speaker combination, precision-matched to Radios Wave and Boost, 4 x 70 W amplifiers, sound pressure over 121 dB(A). The MINI SoundModul is based on the MINI stereo system.

5-7 Radio Boost with cassette/CD or MD drive

Radio Boost provides 4 x 20 watts. It offers FM, AM and LW reception with six station buttons and an automatic adjustment feature that varies volume in response to changes in your car's speed. Radio Boost is available with cassette/CD or MD drive.

Makes a special sound experience possible. A total of 320 W amplifier power output, a digital sound processor (DSP) and eight speakers ensure a full, clear sound with resounding bass and brilliant treble. The hi-fi speaker system is based on the MINI stereo system.

9 CD changer

Installed in the luggage compartment, it holds up to six CDs.

Telephone Aerials (not shown)

The powerful receiving **window aerial** is attached to the windscreen at the height of the interior rear-view mirror. Alternatively a **roof-mounted aerial** is available.

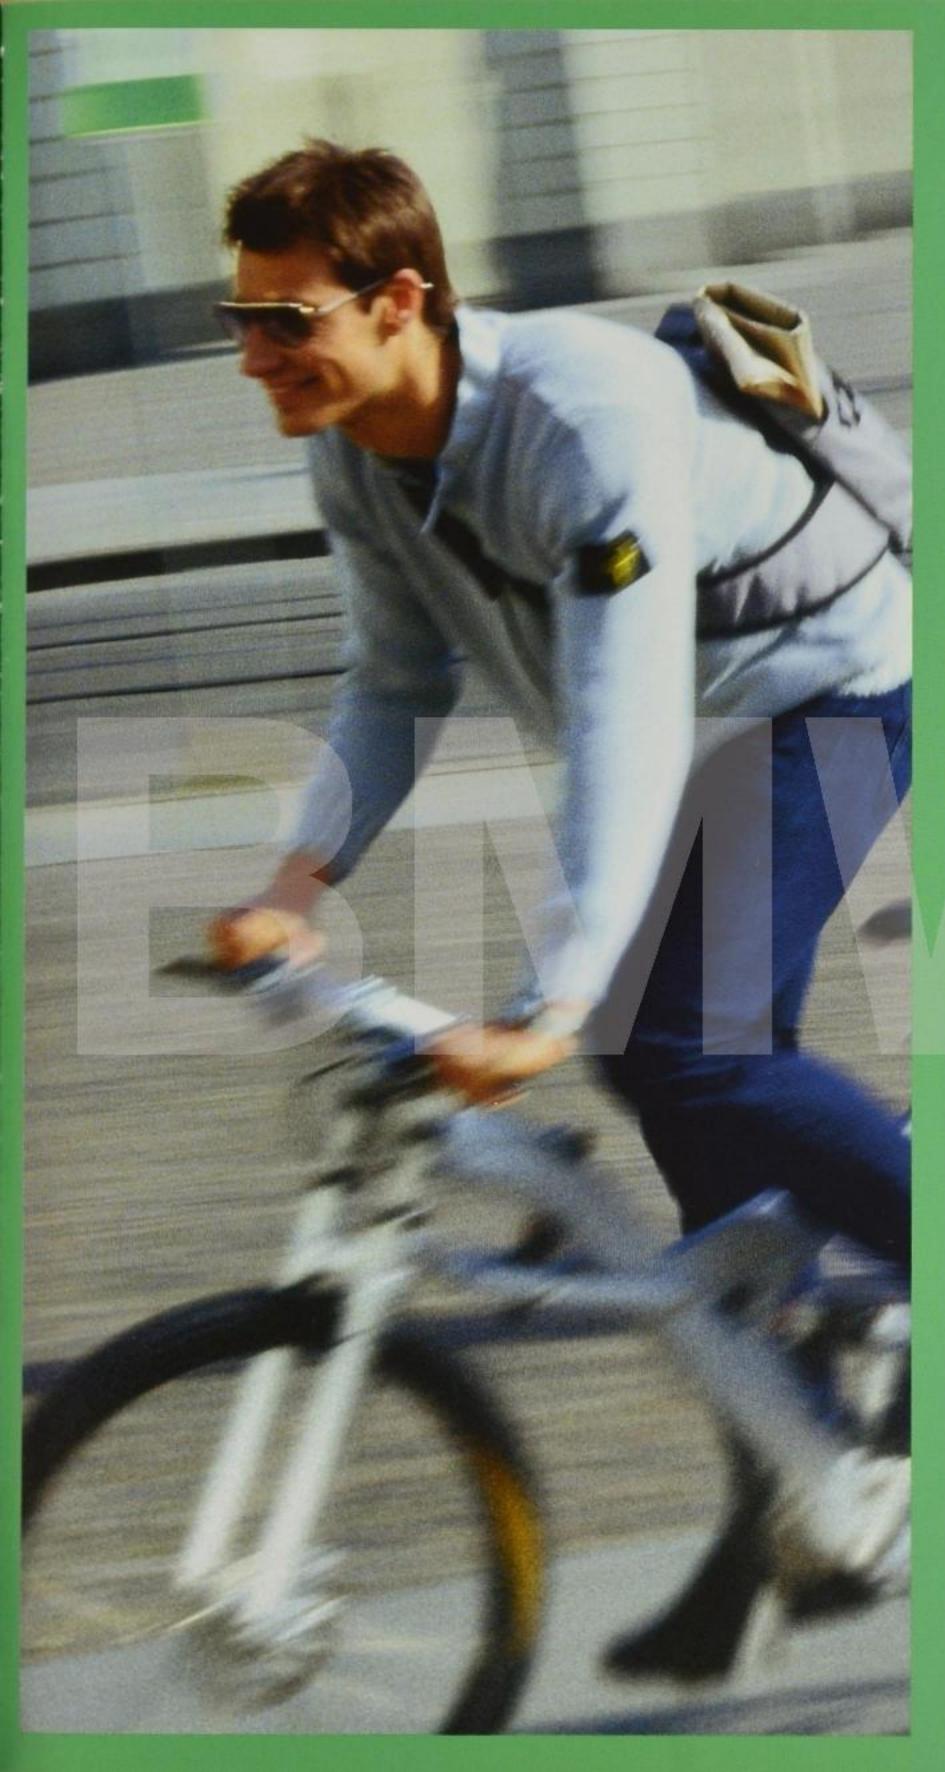

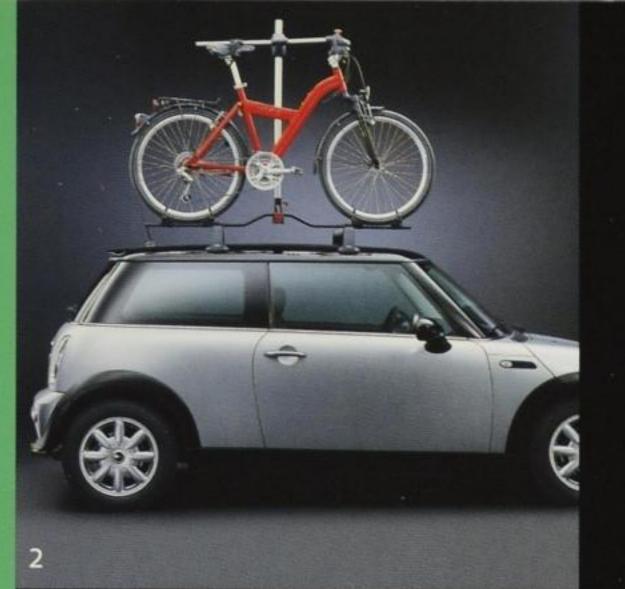

WHATEVER YOUR PLANS
WITH YOUR MINI ARE - YOU DON'T
HAVE TO MISS OUT ON
ANYTHING. EXCEPT BOREDOM.

Driving a MINI is a life-changing experience. Because the MINI is the very embodiment of what we want from a car: to look great and to feel great. Because it's fun and offers a unique driving experience. And it gives us the freedom to do what is of most importance to us – organising our precious leisure time.

1-4 Roof rack base support system

Four attachment points each with two threaded bushes are fitted by your MINI dealer and plugged with protective caps in black or in the car's body colour (with roof rack base support system removed). The support arms are made of high-strength aluminium tubing and are particularly sturdy and corrosion-proof. They are suitable for roof loads of up to 75 kg, the useful width is approx. 900 mm (see also PP. 56-58, Figs. 1-6).

Touring cycle holder, lockable

Sturdy fixture for transporting a bicycle with a frame diameter of up to 80 mm. A simultaneous locking kit for mounting up to four touring cycle holders on the roof rack base support system is available.

Bicycle lift

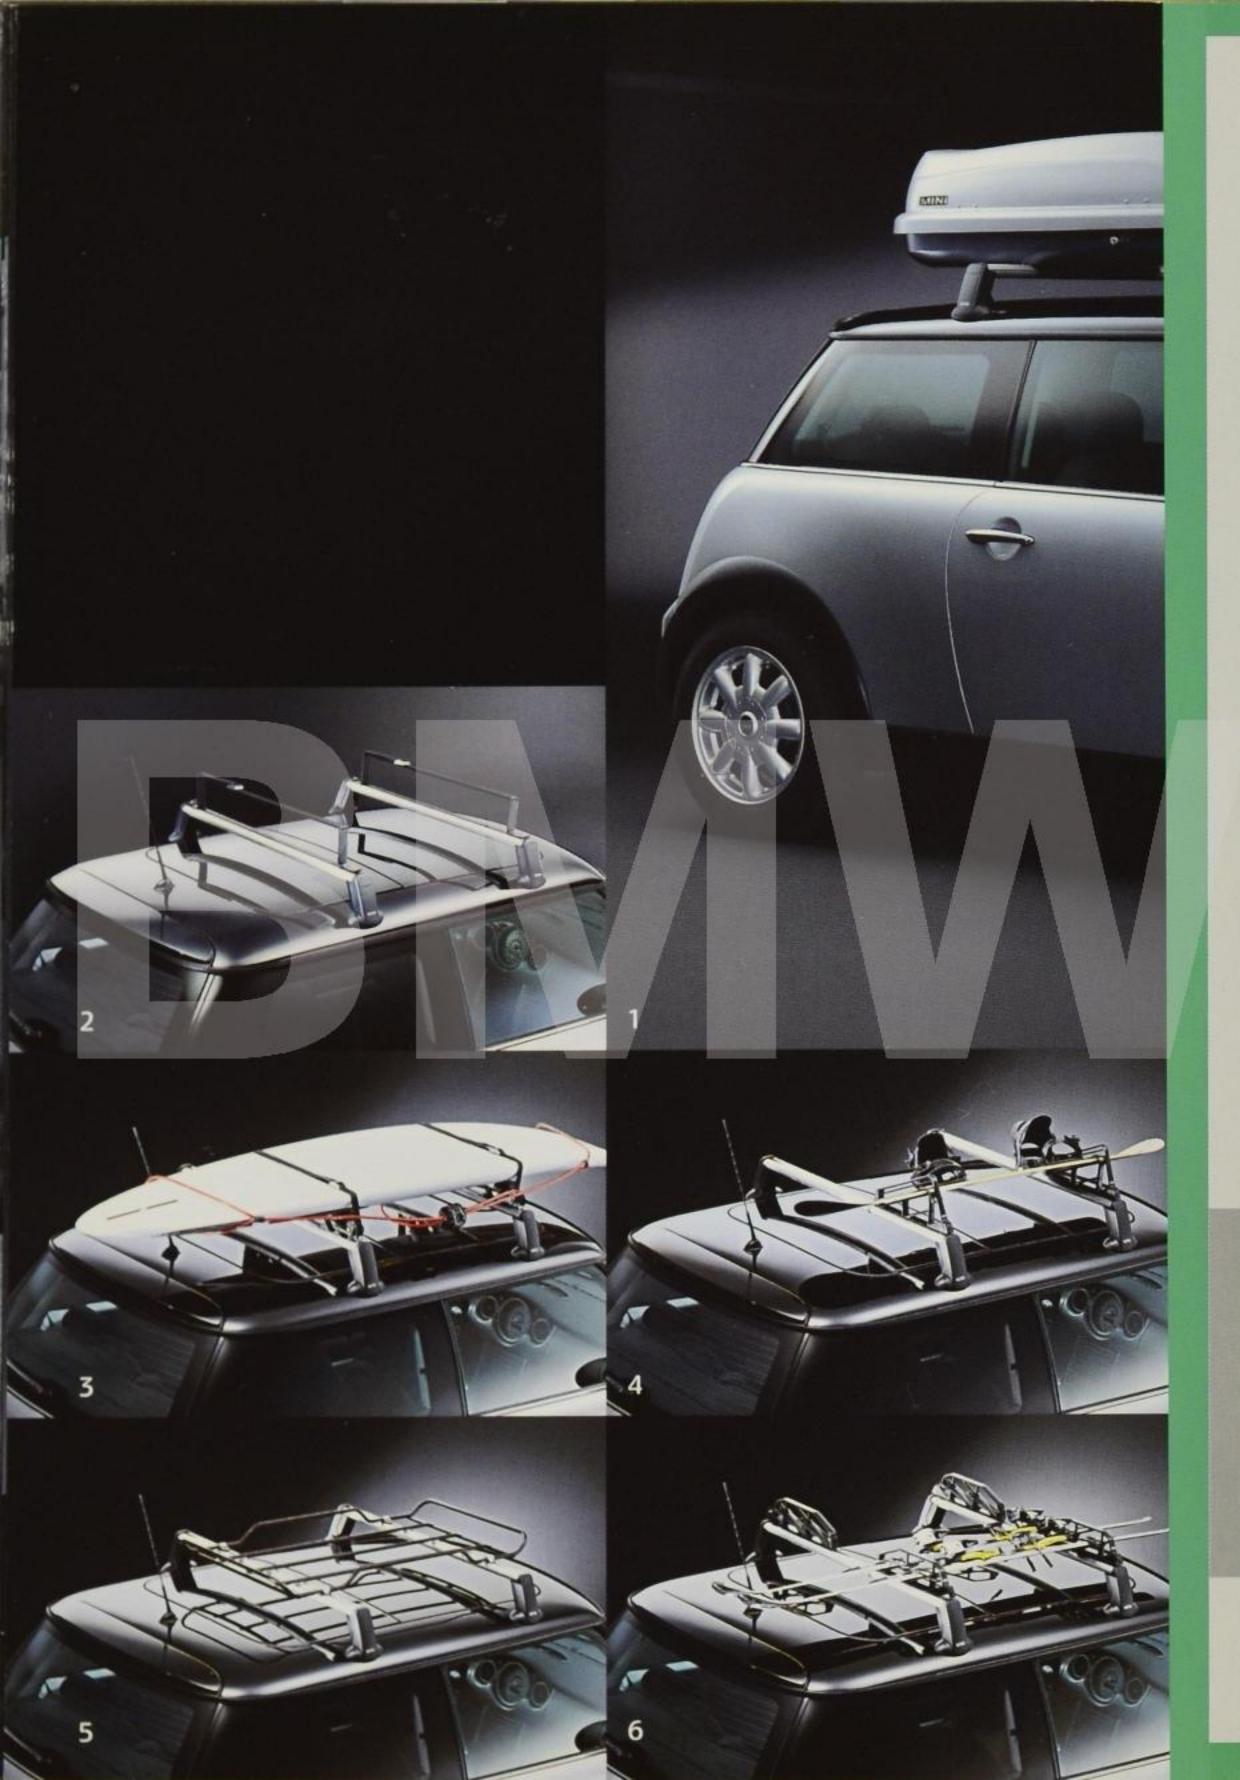

A bicycle can be lifted onto the roof rack and taken down again effortlessly. The system is suitable for different sized bicycles.

1 Roof box

With central locking. Black lower tray, silver metallic upper tray. Capacity approx. 350 l, weight approx. 16 kg. Dimensions (LxWxH) 1900 x 600 x 350 mm.

2 Universal holder

Fitted on the roof rack base support system. It consists of four adjustable retaining brackets, two retaining straps and four strap eyelets – for a firm grip even of bulky items.

3 Surfboard holder

This holder features support surfaces in impact-resistant plastic, an integrated mast bracket, strap eyelets and retaining straps.

4+6 Snowboard/ski holder

For transporting up to two snowboards or four pairs of skis. A **ski** and snowboard set is also available (not shown).

5 Cargo box mount

High capacity unit in corrosion-resistant steel.

Roof railing (not shown)

Aluminium, black anodised. Suitable for all MINI fixtures and attachments. If the roof rack base support system is not fitted, the roof railing is covered with aluminium rails.

Weekdays driving to work. Evenings on the town. And weekends on the road with friends. Every journey in a MINI provides moving moments – because a MINI can convey more than just great feelings. For example, on the roof rack base support system or with the specially designed MINI luggage compartment accessories.

7 Protective bootspace cover

Easy to handle. Protects the entire luggage compartment.

8 Collapsible box for luggage compartment

Can be rapidly assembled and secured with Velcro-type fasteners. Two collapsible boxes can be stowed side by side in the luggage compartment. For loads of up to 20 kg. Black, with MINI logo.

9 Protective rear cover

Waterproof, dirt-repellent imitation leather. Protection for the doors on both sides.

10 MINI coolbag, electric

CFC-free, cools to approx. 20° below the interior temperature. Capacity 12 l.

11 Luggage compartment tray

Lines the luggage compartment. With cover. Breakproof, acidproof.

12 Fitted luggage compartment mat

Protects against dirt and moisture. Features a slip-resistant surface and custom-moulded contours that conform to the shape of your luggage compartment. Made from durable plastic, oil- and solvent-resistant.

13 Anti-slip mat

Specially designed to prevent cargo from sliding. Includes a retaining strap, shaped for a perfect fit in your luggage compartment.

14 Luggage compartment floor net

Secures cargo in the luggage compartment. Attached to the sturdy fitted S-hooks. Highly flexible material.

Trailer tow hitch (not shown)

Authorised for high trailer loads of up to 650 kg (max. nose weight of up to 75 kg). The trailer tow hitch is not visible when the ball hitch attachment is removed.

CHILDREN NEED SECURITY.

PARENTS TOO. MINI SAFETY

ACCESSORIES ARE DESIGNED

TO REASSURE BOTH.

TO REASSURE BOTH.

MINI child seats	Age	Weight
MINI Baby Seat 0+1	0-18 months	up to 13 kg
MINI Junior Seat I-II ^{1, 2}	approx. 9 months-7 years	9-25 kg
MINI Junior Seat II	approx. 3.5-7 years	15-25 kg
MINI Junior Seat III	approx. 6-12 years	22-36 kg

1+2 Headlight washer system and heated windscreen washer jets

Prevents dirt from accumulating on your headlights to ensure improved visibility. The heated washer jets (Fig. 1) let you clean the windscreen efficiently and effectively, even at sub-zero temperatures.

1 Xenon headlights

Dipped beam headlights with maximum luminous power and long service life. Throw a bright, far-reaching and uniform beam onto the road and the edge of the road without dazzling oncoming traffic, including automatic headlight range adjusters.

1 Fog lights

These round fog lights offer enhanced illumination with wider coverage of the road while also reducing back-glare.

3 Anti-theft alarm system

With radio-frequency remote control, responds to attempts to break into or tamper with the car with a siren accompanied by activation of the hazard warning flashers.

4 Park Distance Control

Facilitates parking and manoeuvring. Obstacles closer than a distance of approx. 1.5 m are detected and signalled by way of an acoustic warning.

5 Emergency accessories

Safely stowed in a waterproof holdall in the luggage compartment. This holdall contains the warning jacket, warning triangle, first aid box and tow-cable. Also available: a **powder-type fire extinguisher** (capacity 1 l, not shown) and **jump leads in original MINI pouch** (not shown).

Rodent protection, electric (not shown)

This system provides active protection against damage caused by gnawing rodents using the electric cattle fence concept, the most effective method for discouraging rodents.

6 Car cover, indoor

Highly elastic anti-static material. With MINI logo.

7 Car cover, outdoor

Waterproof but breathable car cover made of light, tear-proof nylon fabric with a UV-resistant surface. With MINI logo.

The only thing modest about the MINI is its size. Otherwise you don't have to miss out on anything – least of all safety: the accessories specifically designed for your MINI range from the ultra-bright xenon headlights right through to the series of child seats which can be used in all age categories. This makes every trip pleasurable and safer still.

8 MINI Junior Seat I-II, with and without ISOFIX

Includes a height-adjustable and inclinable seat back and a restraint cushion (required for children weighing between 9 and 18 kg). When the restraint cushion is no longer required, you secure your child in place directly with the seat belt (for MINI Junior Seat I-II without ISOFIX from the start). Refer to the adjacent table for more detailed information.

9 MINI Baby Seat 0+, with and without ISOFIX

For children weighing between 3 and 13 kg (aged up to roughly 18 months). Fitted in the opposite direction to the forward movement of the car on the rear seat or when the airbag is deactivated also on the front passenger seat. Various sitting and lying positions can be adjusted, if required a seat reducer is also available. The baby seat shell can be quickly released from its mounting and is then ideal for use as a carrycot.

10 Buggy

The baby seat shell can also be attached to the buggy with the aid of an adapter.

The MINI is unique. In its design, in the driving experience it conveys, in its quality. And also in after-sales service. The MINI has been designed and developed with short repair and service times in mind. And the long service intervals provide the very mobility you expect from your MINI. Your MINI dealer will provide you with swift, competent and comprehensive support. You can rely on this assurance.

With us, your MINI's always in good hands.

Your local MINI Retailer is completely familiar with the ins and outs of your MINI and will be able to offer you fast and competent assistance with the latest cutting-edge technology.

An essential and integral service component is your MINI's intelligent key. This key stores important data such as e.g. the chassis number, the mileage and the service intervals. Your MINI dealer uses a device called a "KeyReader" to read this data and determine the exact amount of service work that has to be carried out. The service interval display integrated in the speedometer enables you to plan each service appointment more efficiently. Each time you start your car, it briefly indicates the next service appointment automatically and tells you in the form of a mileage reading exactly when the next oil change and the next service are due.

Contact your MINI Retailer for further information on MINI Service or visit www.MINI.ca
