**MOTORER'S GUIDE  
TO THE YOU-NIVERSE**

**BMW AG**

**MINI MOTORING ACCESSORIES  
AND MOTORINGGEAR 2007**

## AND IN THE BEGINNING, THERE WAS YOU.

When you chose MINI, you did much more than become a motorer. You single-handedly created a world that revolves around you. A world of adventure and self-discovery. A You-niverse of infinite possibilities designed to enhance every facet of your motoring experience. With that in mind, these pages contain just about everything you and your MINI need to explore this as-yet-uncharted territory with confidence and conviction. Plus some additional guidance that may help you along the way. So read on, fellow motorer. And Godspeed. After all, the You-niverse is what you make of it.

1

## OUTFITTING YOUR MINI FOR YOU-UNIVERSAL TRAVEL

While your MINI is a wholly unique and fully operational vehicle by birth, it should not be considered truly complete until you, the motorer, have made it your own. For only then can you hope to experience everything the You-niverse has to offer. Developed specifically for this process of personalization, or 'you-ification,' MINI Motoring Accessories have been engineered by highly intelligent beings with almost nothing but MINI on their minds. And as a result, you can you-ify your MINI as you see fit, both inside and out. The sooner you get started, the sooner you can enhance your motoring enjoyment at every conceivable turn.

### ADOPT THE YOU-BER VIEW

Step back and view your MINI as a whole, from boot to bonnet. Envision the overall effect you want to achieve.

### CHART THE PROPER COURSE

Look down the road at your ultimate destination, taking into account the sort of motoring you plan to do.

### MASTER THE MEANS

Immerse yourself in the tools of you-ification, beginning with those in this book. Then consult your MINI dealer.

### DO THY BIDDING

Here, you are the supreme being. You are creating MINI in your own image. So you-ify with authority.

**RULE #1**  
**BECOME ONE WITH**  
**YOUR MINI**

**Your primary focus in the early stages of you-ification should be getting to know your MINI even better than it knows itself. And to do that, you've got to put yourself in its tires. Begin by exploring every inch of your MINI, down to every last nut and bolt. Start thinking in asphalt, chrome and bonnet stripes. Soon you'll discover that holiest of places where the line between motorer and MINI ceases to exist.**

**RULE #2**  
**THINK OUTSIDE**  
**THE BONNET**

After the initial waves of you-phoria, you may feel as though you've hit a dead end. This is perfectly normal. Even the veteran motorer has to put on the brakes every once in a while. The fact is, there is much more to you-ification than immediately meets the eye. This is the time to get creative, to consider the details others might overlook. This is what you've trained for. So don't rush it. Just let it come to you.

## THE YOU-NIVERSE IS CONSTANTLY EXPANDING.

Don't think for a nanosecond that the you-ification possibilities begin and end with the infinitely alluring products in these pages. In 1961, legendary racecar builder John Cooper put the Cooper in MINI. And these days, the John Cooper Works company (referred to as simply JCW in some circles) builds performance kits, components and race-inspired accessories engineered to make your MINI a head-turner in more ways than one. Ask your MINI dealer for a copy of the latest John Cooper Works catalog. Then watch the horizons expand before your very eyes.

## MUSIC, COMMUNICATIONS AND TECHNOLOGY

### 55 SIRIUS SATELLITE RADIO

We're talking 120 channels of ear-tickling, commercial-free digital entertainment beamed down from the heavens directly to your MINI. And it's all thanks to a network of three dedicated satellites that circle the earth in figure-eight, geosynchronous orbits to ensure you receive virtually uninterrupted coverage from sea to shining sea. Serving up an unparalleled selection of music, sports, news and entertainment, the SIRIUS Satellite Radio System has been designed to work seamlessly with your MINI CD Radio. When activated with SIRIUS, it will not only display the SIRIUS channel, genre, artist name and song title, but also let you preset 18 of your favorite channels. ### 56 MINI IPOD® INTERFACE

A perfect marriage of music and MINI, the iPod Interface offers a seamless sonic experience to any motorer who will listen. Technically speaking, it delivers uncompromised sound quality and constant power through a connection in the glovebox that creates a direct link to your MINI's audio system, giving you and co-pilots even greater control over your music library. Once your iPod is connected, your audio system becomes a literal extension of the player itself, allowing you to play Master of Music using the multi-function steering wheel or radio controls. Which means you can sort music by playlist, artist, album, genre and podcast, not to mention make any selection from the music library. The Interface is compatible with any iPod equipped with a dock connector—including fourth- and fifth-generation models, as well as the iPod Mini and iPod Nano. So just plug. And play. \$319.00

## 57 MINI PORTABLE NAVIGATION SYSTEM

While motorists have nothing against stopping and asking for directions, there's something to be said for always knowing where you are and (if desired) exactly where you're headed. Powered by best-on-planet Garmin® GPS technology, the powerful and pocket-sized MINI Portable Navigation System comes pre-loaded with detailed maps and data covering the U.S., Canada and Puerto Rico, and features a touchscreen for unbelievably intuitive operation. Look up addresses, restaurants, hotels, ATM locations and other points of interest—and then follow the turn-by-turn directions on the unit's 3D street map display. The "spoken text" interface actually calls out turns by street name, so your eyes can stay on the road where they belong.

And get this: The system comes standard with a bootful of other features, including an MP3 player, JPEG picture viewer, Audio.com audio book reader, world time clock and currency converter. Oh, we're not done yet. A built-in SD card slot allows you to load optional software, like supplemental maps, language translators and travel guides. Bluetooth® technology enables hands-free calling with compatible wireless phones.

And you can you-ify your experience by selecting a custom MINI icon to stand in for your vehicle on the map navigation display. Includes USB connector, suction-cup dash mount and lithium-ion battery. \$750.00

## 58 MULTI-DISC CD CHANGER

Tidily mounted behind the dashboard, this 6-disc changer features a serious anti-shock mechanism capable of handling rockier roads without skipping a beat. Designed for full integration with the MINI stereo system, it can read audio CDs and CD-Rs, as well as CDs containing MP3s. And that should be music to your eardrums. \$725.00

## THE MINI PORTABLE NAVIGATION SYSTEM POWERED BY GARMIN® GPS TECHNOLOGY

### BONUS ROUND

An MP3 player, audio book reader, picture viewer, world time clock, currency and measurement converters, and calculator are standard equipment.

### LOAD UP

A built-in SD card slot means you can add optional software, like supplemental maps, language translators and travel guides, on the fly.

### TOUCH AND GO

A 3.5" touchscreen lets you tap through menus and map views, and look up addresses, hotels, restaurants, ATMs and local points of interest.

### THIS WAY

Get turn-by-turn directions on a 3D map display, while the special, spoken text interface calls out turns by street name—with a British accent, if you prefer.

### HANDS OFF

Thanks to Bluetooth® wireless technology, you can make hands-free calls on a compatible phone while your mitts stay at ten and two, just like you learned in Drivers Ed.

### YOU-IFICATION READY

Customize your on-screen MINI icon, right down to checkerboard or Union Jack roof graphics. And then there's the custom MINI dashboard mount.

**RULE #3**  
**YOUR COCKPIT**  
**IS YOUR CASTLE**

To the untrained eye, a MINI that reflects your personality and makes passersby stop and stare appears suitably you-ified. But a look beneath the sheet-metal surface reveals that the cockpit of the MINI is the motorer's true domain. Because it is there that you practice the motoring arts, it is there that you must feel completely at home. Thus, appointing it based on your wants and needs is not only appropriate, but essential.

Please see your MINI dealer for pricing.

#### REARVIEW MIRROR WITH ELECTROCHROME TECHNOLOGY

For the technically challenged, electrochrome technology is an automatic dimming feature that takes the glare out of high beams coming from the rear. For the technically obsessed, electrochrome technology means that when dazzling light hits the mirror surface, it triggers an electric current that passes through a gel encapsulated between the mirror's two layers of glass, which then reduces the reflectivity of the glass. Either way, this eye-saving accessory is available with a fully integrated Universal Garage Door Opener (UGDO) as well.

**RULE #4**  
**AN IDLE MINI BELIES**  
**AN IDLE MIND**

Although your MINI may be nice to look at, it was built for one thing above all else: to motor like nobody's business. So while you're busy basking in you-ification bliss, bear in mind that making your MINI more "you" is not an end in itself. The goal is to make the most of every mile. Remember, firing the ignition helps spark the imagination. Because the next big idea could be just around the next bend.

## LEAVE NO TERRITORY UNCHARTED.

Regardless of the route you take, you-ifying your MINI will always be a rewarding endeavor. But to make the journey truly extraordinary, we suggest you forgo the straight and narrow in favor of the road less traveled. Seek out the back roads, byways and detours. Explore every last nook and cranny. Head out into the wild blue yonder and see where you end up. You'll soon find that inspiration can be found in places you never even knew existed. In short: when it comes to you-ification, you owe it to yourself and your MINI to boldly go where no motorer has gone before.

## THE SECRET HIERARCHY OF DASHBOARD FIGURINES

It is unwritten but well known that a distinct pecking order pervades the land of dashboard decorations.

- 1 Hula Girls, Nodding Mammals
- 2 Prophets and Messiahs
- 3 Robots, Fez-Wearing Monkeys
- 4 Troll Dolls, Tikis, Flamingos
- 5 Monks, Nuns, Priests, Rabbis

Thanks to MotoringGear, the beanie has left its propeller-topped days behind to become an icon of cranium-covering style.

## T-SHIRT FOLDING TECHNIQUE

As the T-shirt is a staple of the motorer's wardrobe, you should be aware of common folding methods.

**THE RETAIL:** A complex, origami-like approach yielding impeccable results. For connoisseurs.

**THE TWO-TIMER:** Also known as "halfies." One fold along the vertical axis and another along the horizontal.

**THE ROLL:** One vertical fold followed by a tight roll from bottom to top. Runaway favorite of sock-ballers.

**THE HAMPER:** For the decidedly indifferent. Starts with balling or crumpling and ends with a throw.

You'll want to keep your paws stylishly comfy when in the pilot's seat. You'll also want to keep giving the six-speed salute.

Feel free to wear your heartbeat on your sleeve. Preferably the left one, as it becomes extra visible when your arm assumes motoring position in the pilot's side window.

#### MINI Motoring Accessories

Dealer-Installed Accessory Warranty: When installed by a MINI dealer prior to delivery, MINI Motoring Accessories carry the full new vehicle warranty. This warranty does not apply to bobblehead dolls, pictures of mom or other personal accessories you may apply to your MINI, though the addition of these items are highly encouraged. The best time to order your MINI Motoring Accessories is when you order your MINI. When your MINI Motoring Accessories are installed by your dealer prior to delivery, the accessories will carry the full new vehicle warranty. If the installation is made by your dealer after the retail sale of your MINI, the accessory will be warranted for the balance of the new vehicle warranty period, or two years from its date of installation, whichever is earlier. That's what we call customizing with confidence. All MINI Motoring Accessories fit both the MINI Cooper and Cooper S unless otherwise specified. Installation cost for all MINI Motoring Accessories is additional unless otherwise specified.

## MOTERING LEXICON

**BONNET** n. Proper term for the hood of your MINI.

**DRIVERSION** n. Something that distracts a driver, such as a cell phone conversation, DVD player or PDA.

**DUAL CARRIAGEWAY** n. What your MINI's mum and da would call a divided highway.

**ESTATE** n. In your MINI's mother tongue, a station wagon.

**FLASHOLE** n. Someone who flashes you with their brights even though your highbeams aren't on.

**SEATUS QUO** n. The normal position of your car seat. May be upset by valets and others given the honor of driving your MINI.
