MINI DATA.

The key facts and figures at a glance, plus detailed
information about servicing, finance, recycling
and warranties.

Technical data	88
Dimensional drawings	90
Servicing and financial services	92
Warranty and recycling	97

Details of fuel consumption and CO₂ emissions as required under EU law can be found in the Technical Data section on pages 88/89.

OPEN 24/7. ARE YOU?

Are you open to new experiences? If so, the MINI Cabrio offers a drive like no other car.
Below you the road, above you the sky, in between just pure go-kart feeling.
And the Always Open Timer lets you measure the fun in hours and minutes.

EXPERIENCE
EIGHT STEPS TO YOUR VERY OWN MINI

THE MINI CABRIO. BECAUSE LIFE IS MORE INTERESTING WITH A FEW TWISTS AND TURNS.

A low centre of gravity and short overhangs add up to a unique open-top go-kart feeling. Making every journey in the MINI Cabrio an experience to be savoured.

Illustration shows MINI Cooper Cabrio with Original MINI accessories.

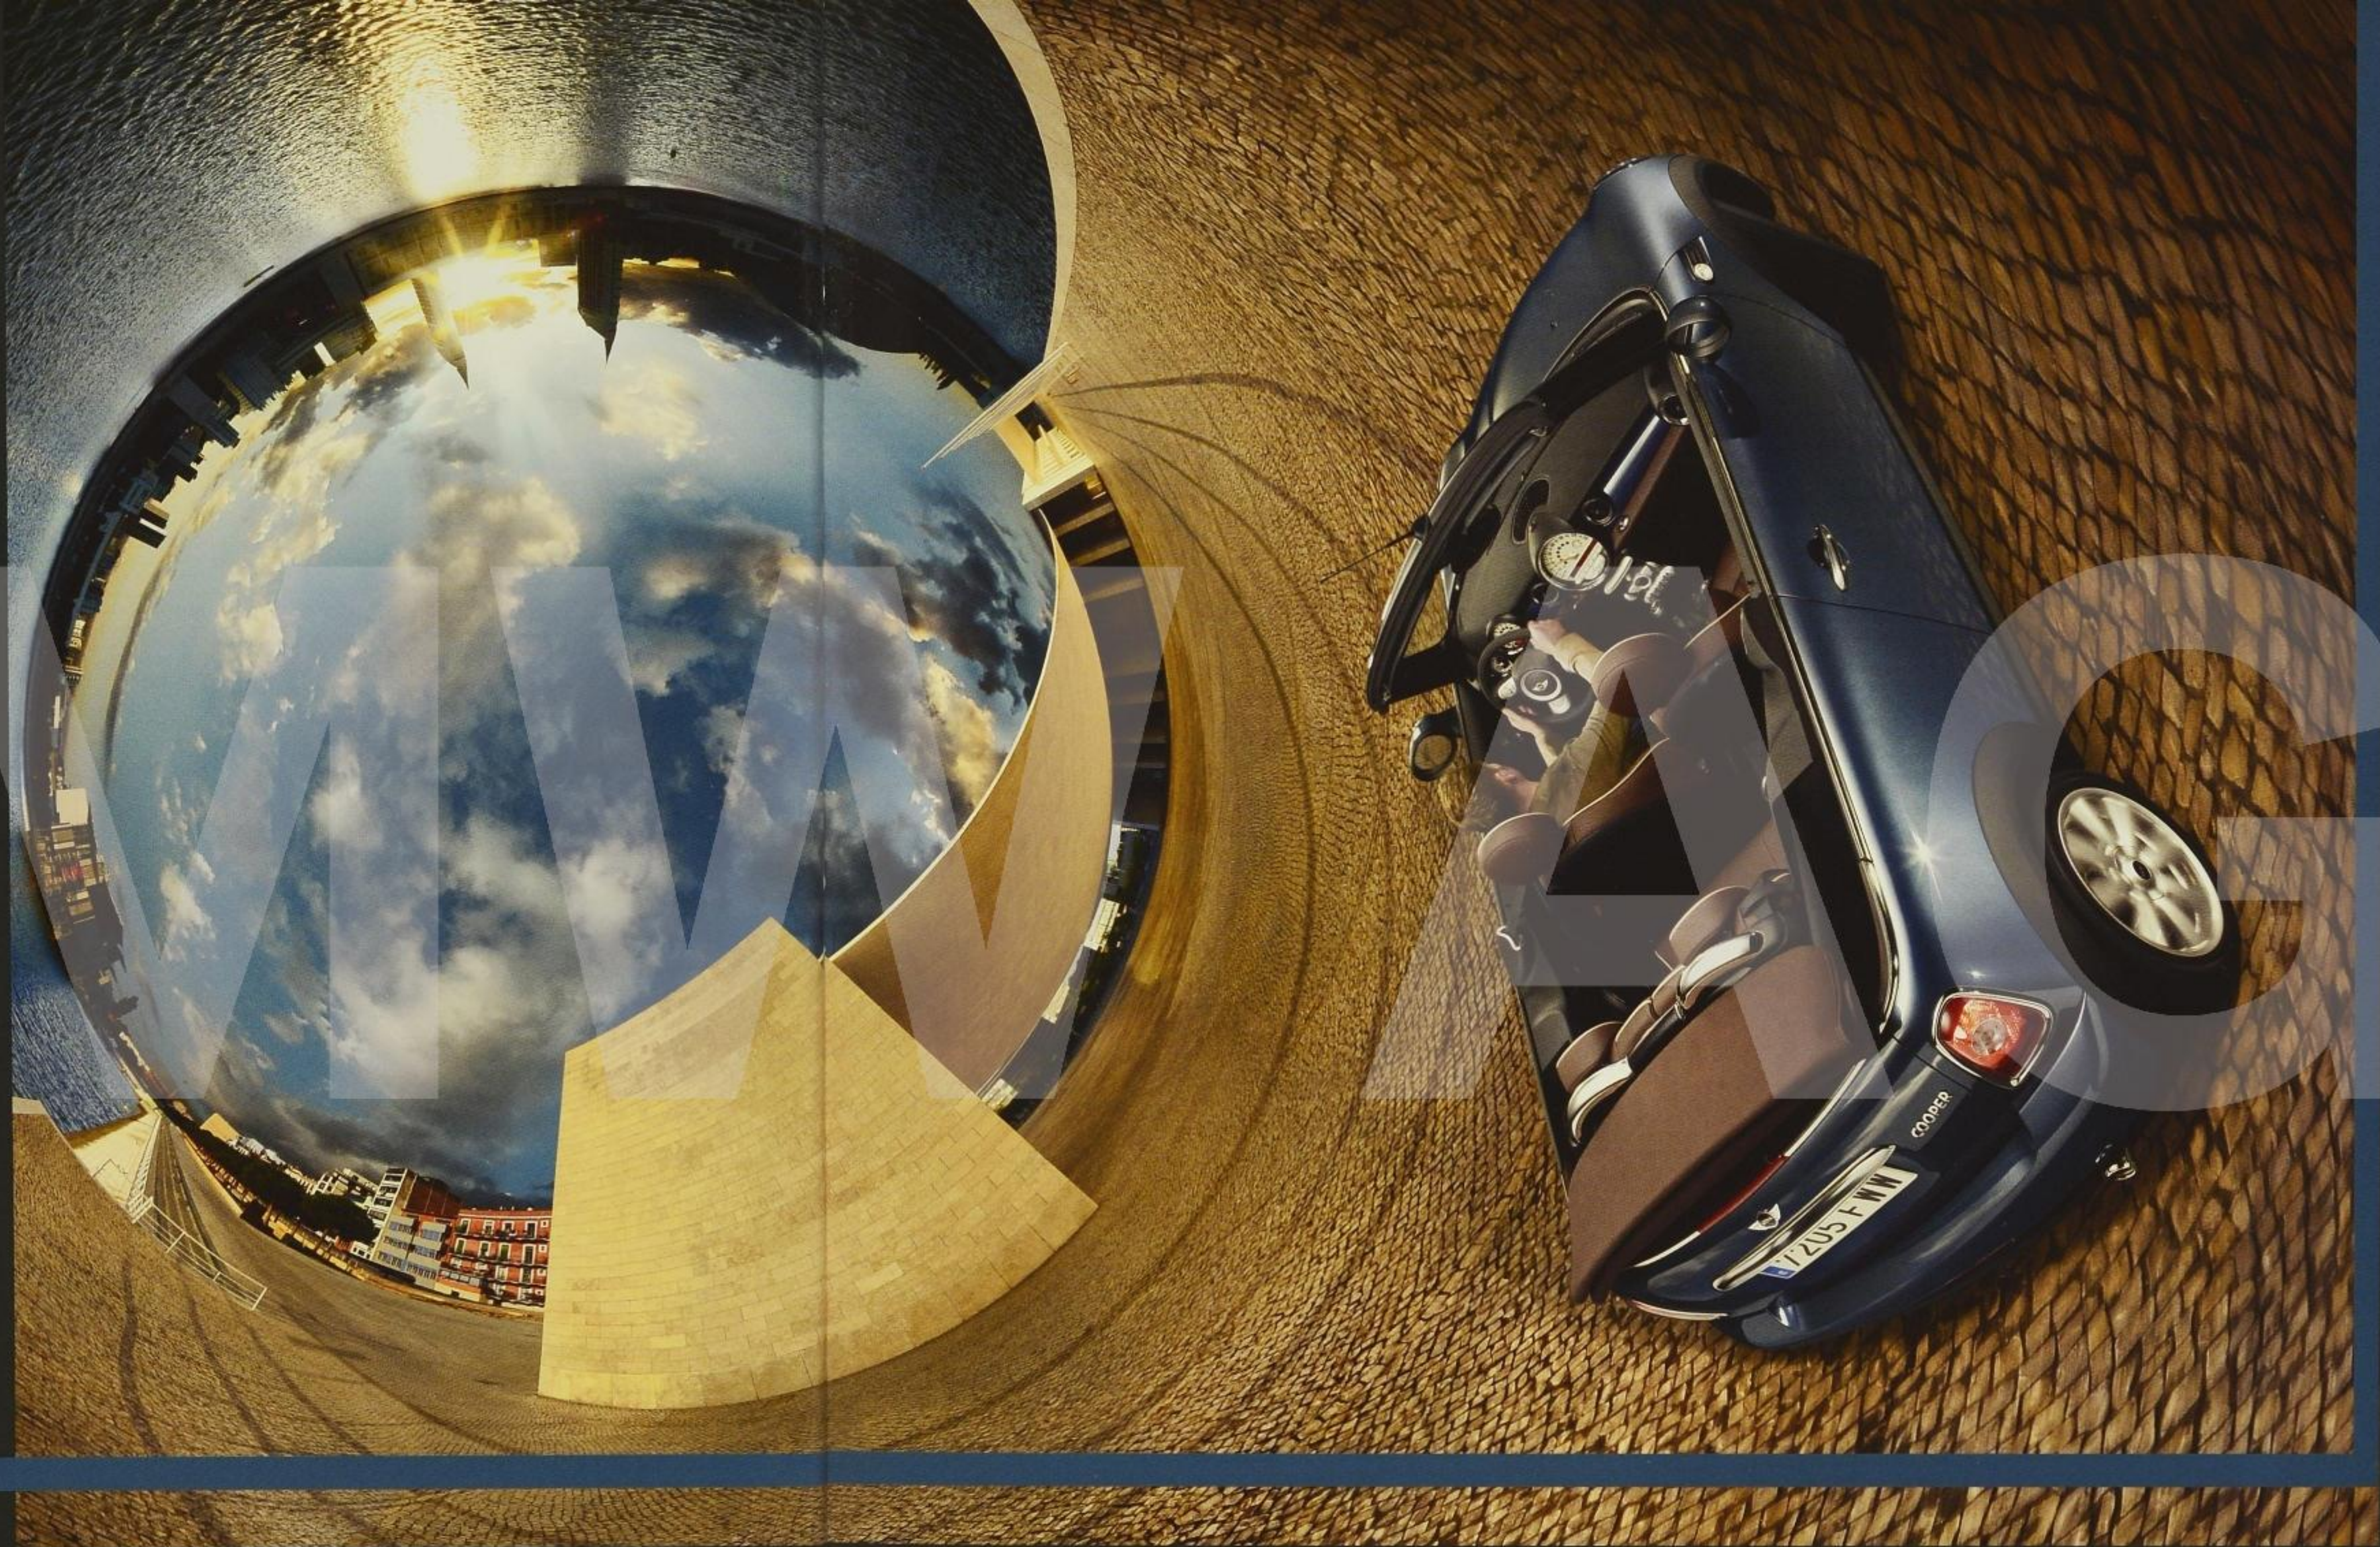

GOOD DESIGN REVEALS CHARACTER.

Feast your eyes on this. The MINI Cabrio captivates at first glance – and what's inside more than delivers on the promise of its good looks.

BMW

SOMETIMES, THE SAFE OPTION IS ALSO THE MOST EXCITING.

In the MINI Cabrio, you can feel safe in the knowledge that you enjoy the best possible protection, thanks to features such as stiffened bodywork, Dynamic Stability Control (DSC) as standard, an active roll-over bar and four airbags.

EIGHT STEPS TO YOUR VERY OWN MINI

FASTEN THE SEAT BELTS AND TIE DOWN THE DOG.

Once behind the wheel, you'll never want to get out again. With its ultra-stiff chassis and perfect front/rear weight distribution, the MINI Cabrio handles like a dream on any road.

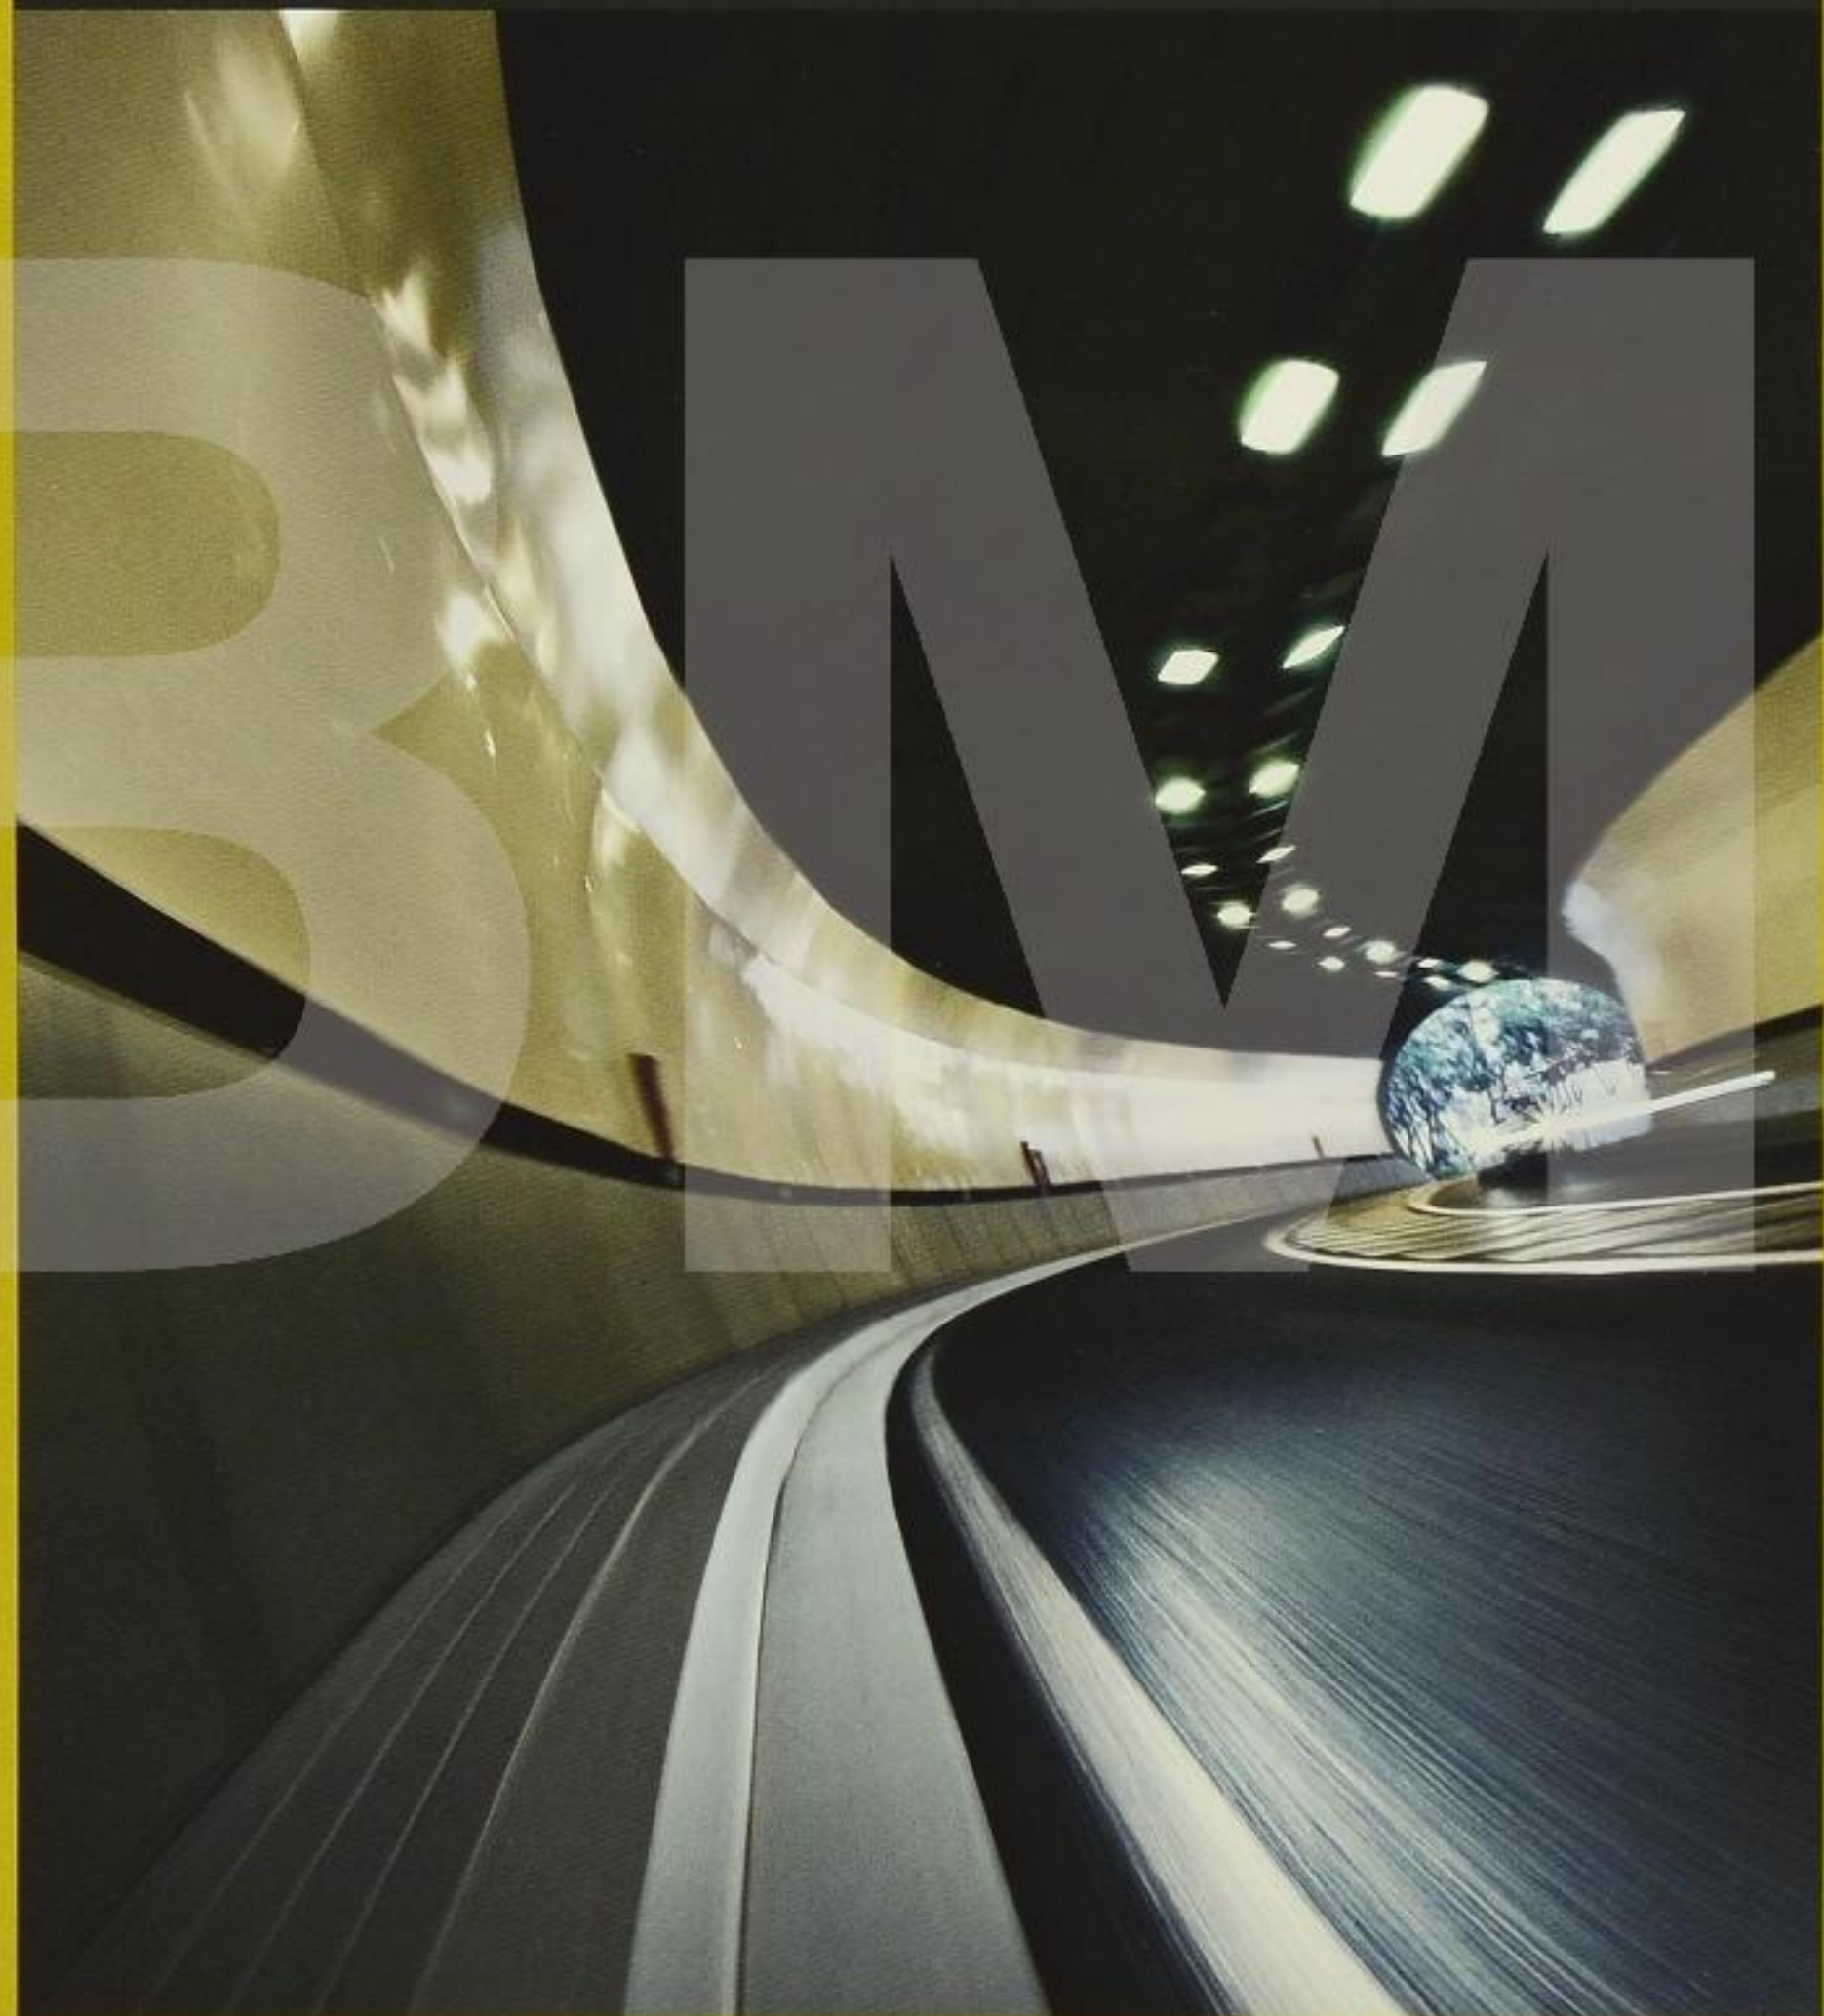

STOP CRYING! IT'S JUST RAIN.

The weather is just about the only thing you can't specify on a MINI Cabrio. Choose from an almost bewildering array of colours, materials and equipment options.

MUSIC TO THE EARS.

The engines available for the MINI Cabrio provide some seriously uplifting sounds – at up to 6,000 beats per minute. And the MINI Cooper S Cabrio even pumps them out in stereo, thanks to its chrome-plated double-pipe exhaust system.

BEFORE THE ECSTASY OF DRIVING, THE AGONY OF CHOICE.

Choose between a MINI Cooper Cabrio and a MINI Cooper S Cabrio.
Difficult decisions aren't supposed to be this much fun.

ALL THE HORSEPOWER YOU'D EXPECT FROM A THOROUGHbred.

The MINI Cabrio transfers as much as 175 horsepower seamlessly onto the tarmac. For unbridled driving enjoyment.

REACH FOR THE STARS.

The more time you spend in the MINI Cabrio, the more you'll come to realize that with the soft top down, nothing comes between you and the perfect drive.

EIGHT STEPS TO YOUR VERY OWN MINI

**THE NEW MINI CABRIO.
NOW WITH EVEN MORE OXYGEN.**

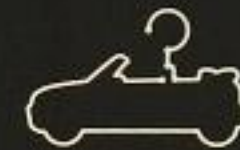

Gets you there quicker. Makes you wish it took longer.

FIND THE COURAGE TO OPEN UP.

Wherever you're going, getting there in the MINI Cabrio will be an experience to remember.

EIGHT STEPS TO YOUR VERY OWN MINI CABRIO.

Putting together your own MINI Cabrio couldn't be easier. The symbols at the top of the page will guide you through the process step by step. First choose your model – will it be 120 or 175 horsepower? Racy rims, an extra-tactile steering wheel – or both? A 230-watt amplifier, or a MINI navigation system? Eight easy steps to your very own MINI Cabrio.

The standard and optional equipment available in your country may differ from that described in this brochure. For more information, please contact your local authorized MINI dealer.

7. PERFORMANCE

8. ACCESSORIES

OPENNESS IS AN ATTITUDE.

With the soft top down, everyone can find their heaven. It can be opened and closed when moving at speeds of up to 30 km/h. When the car is stationary, the soft top can be opened by remote control from the vehicle key.

GET A NEW PERSPECTIVE ON THINGS.

The Z-shaped folding mechanism that powers the soft top springs into action at the touch of a button. The MINI Cabrio offers a clear rearward view whether the top is up or down, as the active roll-over bar is fully retractable, and generally remains below the tops of the rear seats.

A WIDESCREEN VIEW, WHATEVER THE WEATHER.

Get your fix of fresh air: the continuously variable built-in sunroof function leaves a gap of 40 centimetres when fully open. It can be operated when travelling at speeds of up to 120 km/h.

AN OPEN AND SHUT CASE.

Unmistakably MINI: the MINI Cabrio with the soft top closed. The transformation takes just 15 seconds to complete. The vertical sides and upright front and rear windscreens help to maximize interior space.

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

SPACE.

The MINI Cabrio is designed for free spirits – four of them at once, in fact. It offers 125 litres of space in the boot, and as much as 170 litres with the soft top closed. Two handles allow the rear seats to be folded either forwards separately or together, expanding luggage capacity to a maximum of 660 litres.

SEATS.

The most comfortable go-kart there's ever been. The driving seat can be adjusted to give the ideal position in relation to the steering wheel and pedals. All four seats offer excellent lateral support and feature height-adjustable headrests, while the steering wheel is height and depth-adjustable.

EASY LOAD FUNCTION.

Easy does it. The tailgate folds down and the back section of the soft top swings up when the roof is closed. This Easy Load Function gives a wide opening, taking the hassle out of loading and unloading. When the tailgate is open, it forms a flat shelf which can support loads of up to 80 kilograms.

7. PERFORMANCE

8. ACCESSORIES

1

SINGLE-JOINT SPRING-STRUT FRONT AXLE.

Where the fun begins. Two drive shafts of equal length in the front suspension minimize the extent to which the drive train interferes with the steering, and optimize the car's cornering, acceleration and braking.

2

MULTIPLE-CONTROL-ARM REAR AXLE.

Unique in a car of its class, ensuring optimum contact between the wheels and the road, for the best possible traction. Aluminium construction keeps weight to a minimum and increases agility.

3

RACK-AND-PINION STEERING.

A turn for the better. Electronic power assist ensures outstanding steering responses, with the driver receiving precise and involving feedback. The stiffness of the steering wheel adjusts to the speed of the car, for easier steering at low and high speeds alike. For maximum comfort, it is only 2.4 turns from full lock to full lock.

4

WEIGHT DISTRIBUTION.

To improve the traction of the drive wheels, almost exactly two thirds of the car's weight is over the front axle, with the other one third distributed to the rear wheels in order to deliver the best possible handling.

7. PERFORMANCE

8. ACCESSORIES

SHORT AND SWEET.

Accelerating the pace of change. Designed for short, positive, precise gear shifts. All MINI Cabrio models come with a 6-speed manual transmission as standard. A 6-speed automatic transmission with Steptronic is available as an optional extra.

TWO ENGINES, ONE UNIQUE DRIVING EXPERIENCE.

MINI Cooper Cabrio: the figures – 120 hp (88 kW), 160 Nm, 198 km/h. The feeling – instantaneous reaction to the accelerator, but a fuel consumption of just 5.7 litres per 100 kilometres, thanks to fully variable valve timing.

MINI Cooper S Cabrio: the twin-scroll turbo produces 175 hp (128 kW) of power, and the overboost function delivers 260 Nm of torque. In practical terms, that means 0 to 100 km/h in 7.4 seconds, a top speed of 222 km/h, and fuel consumption of just 6.4 litres per 100 kilometres.

7. PERFORMANCE

8. ACCESSORIES

MINIMALISM. LESS IS MORE.

Cutting out the fumes needn't mean cutting out the fun. This is true for both MINI Cabrio models: the MINI Cooper Cabrio uses just 5.7 litres of fuel per 100 kilometres and emits only 137 grams of CO₂ per kilometre, while for the MINI Cooper S Cabrio, the figures are 6.4 litres and 153 grams of CO₂. This is made possible by a range of innovative technologies:

1

AUTOMATIC START-STOP FUNCTION.

The Automatic Start-Stop Function (manual transmission only) means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2

SHIFT POINT DISPLAY.

The Shift Point Display (manual transmission only) tells you via instructions in the revolution counter display what gear you should be in to maximize fuel economy, reducing your emissions and your expenditure on fuel. Clever or what?

3

BRAKE ENERGY REGENERATION.

Brake Energy Regeneration uses Intelligent Alternator Control to convert unneeded braking force into electricity. The battery is only charged normally when the driver's foot is not on the gas – under acceleration, less energy is diverted to charging the battery.

1. CONCEPT AND SAFETY

2. MODELS

3. COLOURS AND UPHOLSTERY

4. EXTERIOR DESIGN AND WHEELS

5. INTERIOR DESIGN

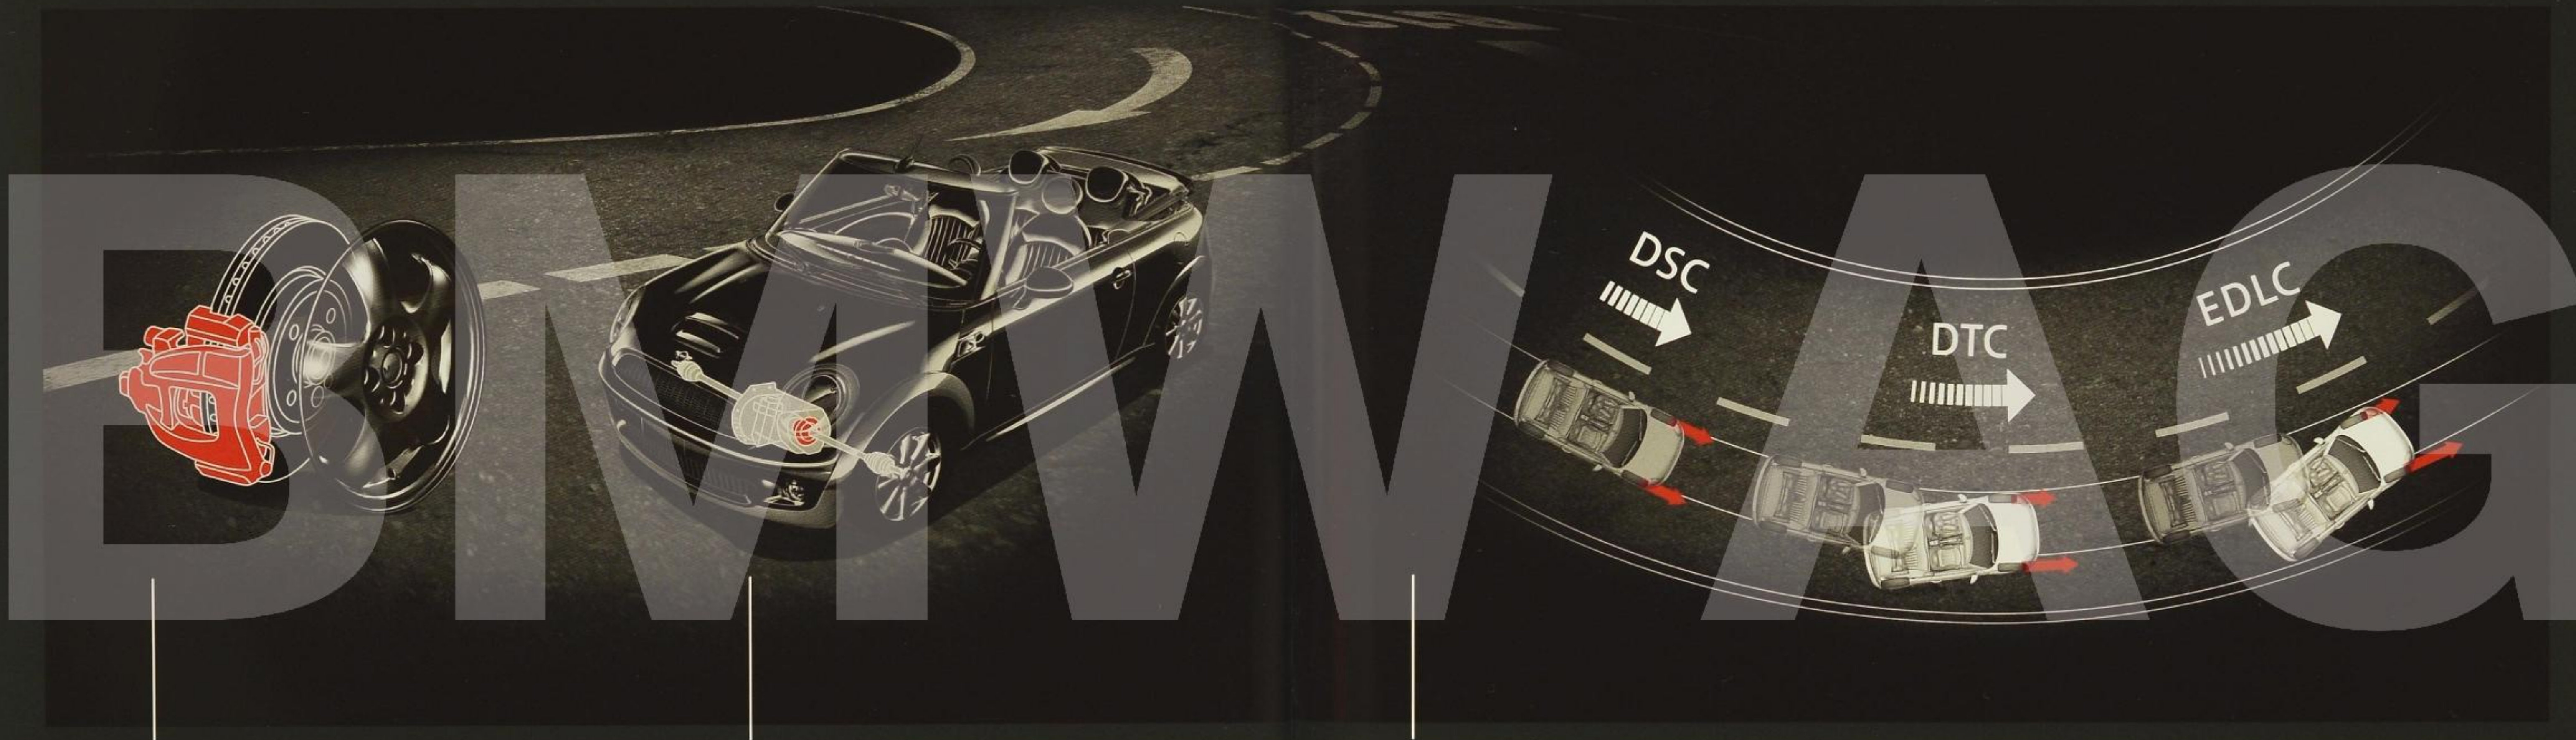

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

BRAKING SYSTEM.

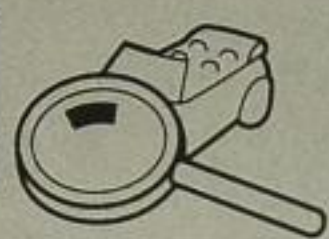

Four disc brakes with Anti-lock Braking System (ABS) and Cornering Brake Control (CBC) as standard ensure optimum braking performance in any situation. Electronic Braking force Distribution (EBD) manages the distribution of braking force between the front and rear axles. Brake assist accelerates the delivery of braking force to ensure the shortest possible stopping distances.

LIMITED-SLIP DIFFERENTIAL.

For improved traction on awkward surfaces. If one wheel loses purchase, drive is transferred to the wheel with better grip, allowing higher cornering speeds. The self-regulating differential (optional on the MINI Cooper S Cabrio) increases both driving enjoyment and safety, so you get where you're going even faster.

DSC AND DTC.

Dynamic Stability Control (DSC) counteracts vehicle instability by intervening in the engine management and applying braking force to individual wheels at front and rear as necessary. It also includes hill assist. The optional **Dynamic Traction Control (DTC)** with Electronic Differential Lock Control (EDLC) gives drivers the option to make more of the car's natural handling, by delaying interventions in engine management and braking until the last possible moment. As a result, skilled drivers can still use the accelerator pedal to powerslide – although should the inner wheel lose too much traction, EDLC will apply braking to it, ensuring the car maintains forward momentum through corners and on surfaces with variable levels of grip. Braking interventions on the rear axle also help the car to hold its line when cornering.

5. INTERIOR DESIGN

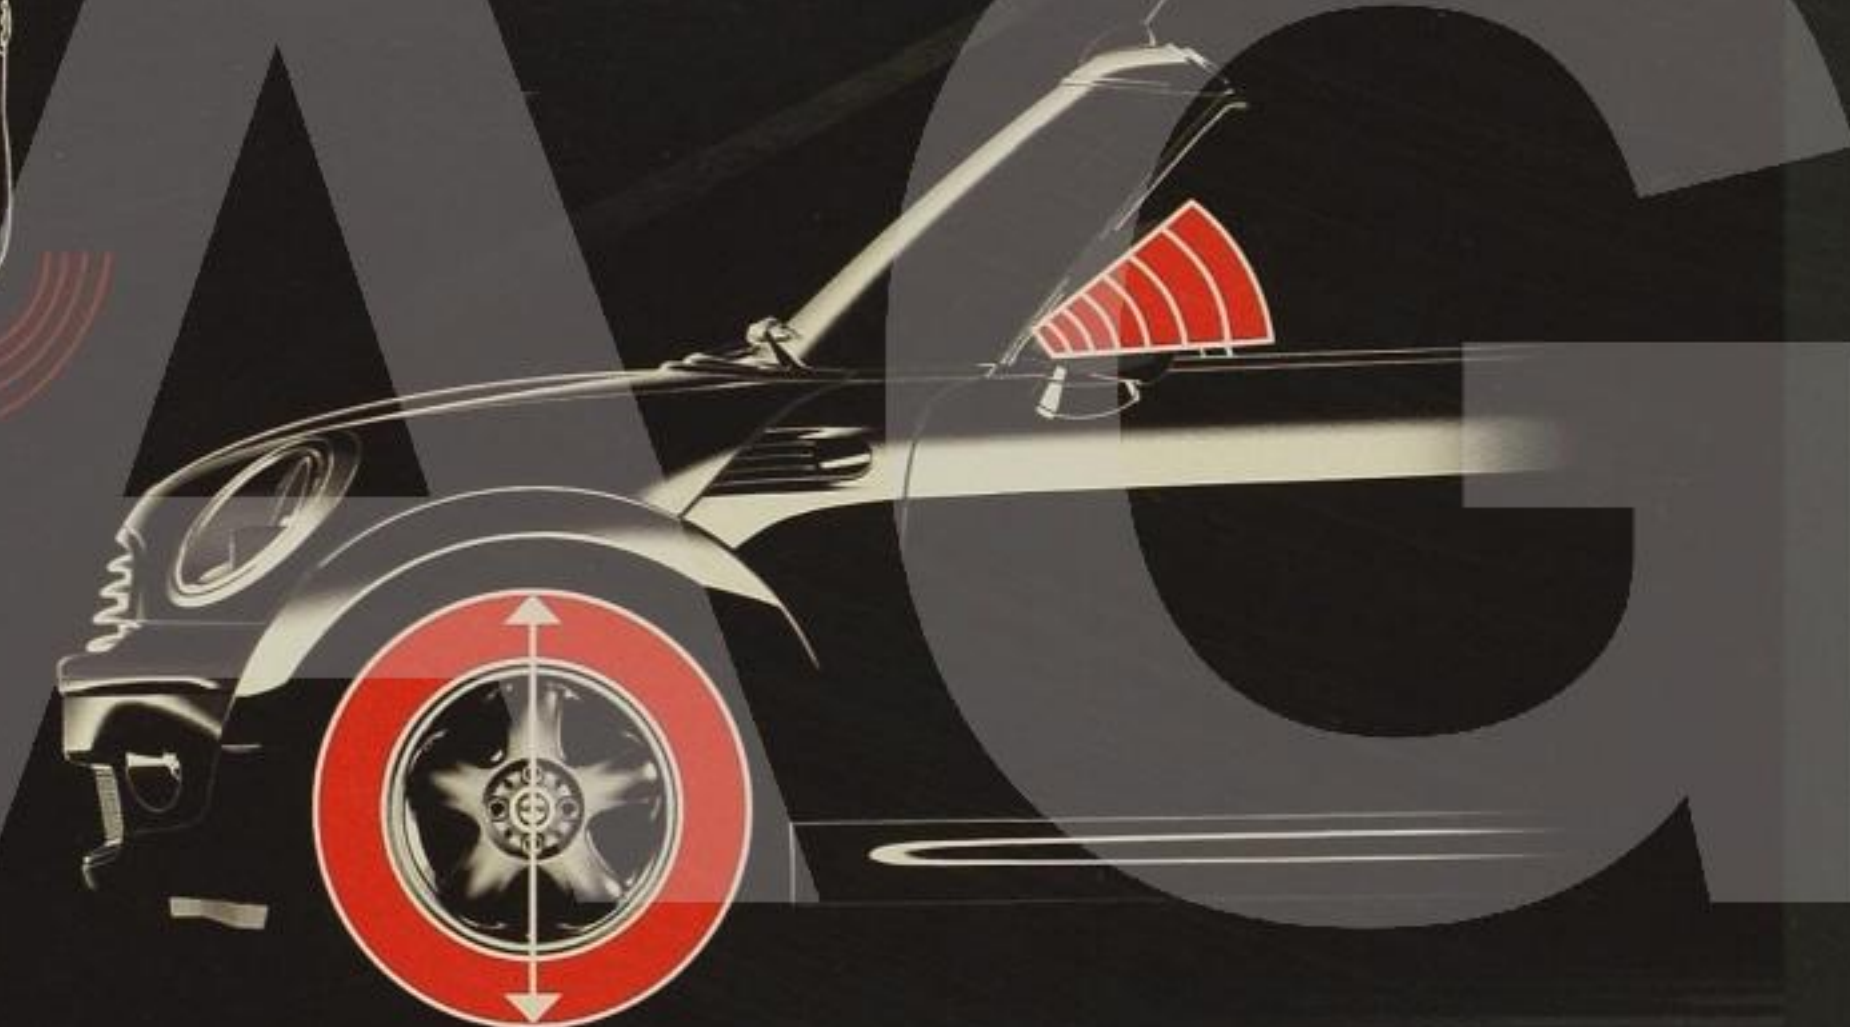

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

BODY.

The body of the MINI Cabrio has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

SUSPENSION.

The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity result in the unmistakable MINI feeling: stable, agile, with excellent cornering ability at all speeds, plus superb traction and outstanding safety.

CRASH SENSOR.

The crash sensor automatically deploys the airbags in the event of an impact, and unlocks the doors, ensuring the occupants of the car can get out in a hurry. Interior and hazard lights are also automatically switched on.

ALARM SYSTEM.

A siren sounds and the hazard lights are switched on if anyone attempts to move or break into the vehicle. It works whether the soft top is up or down.

RSC TYRES WITH RUNFLAT PROPERTIES.

The runflat tyres (optional on 16-inch rims, as standard on 17-inch rims) are designed in such a way that the car can keep driving in the event of a sudden loss of tyre pressure. Even with a completely flat tyre, it can continue for up to 150 kilometres at speeds as high as 80 km/h.

RUNFLAT INDICATOR (RFI).

A warning light in the cockpit alerts the driver in the event of any loss of tyre pressure.

5. INTERIOR DESIGN

6. MUSIC, COMMUNICATIONS AND TECHNOLOGY

7. PERFORMANCE

8. ACCESSORIES

RESTRAINT SYSTEM.

A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

ISOFIX.

To ensure the safety of younger passengers, one or two ISOFIX child seats can be mounted in the rear.

AIRBAGS.

The MINI Cabrio is fitted with four airbags as standard: driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while the two head/thorax airbags in the front seats are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

ACTIVE ROLL-OVER BAR.

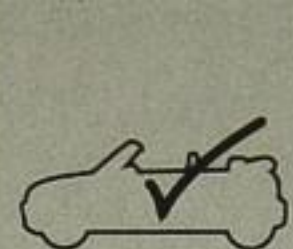

Made of high-strength aluminium, the active roll-over bar ensures optimum protection for back-seat passengers. Normally it is almost invisible, blending seamlessly into the beautiful lines of the new MINI Cabrio, but in an emergency, it deploys upwards in approximately 150 milliseconds.

REINFORCED PANELS.

These elements are built into the safety-critical areas of the bodywork and the upper and middle parts of the doors to increase structural rigidity and protect passengers in the event of a collision.

MINI COOPER CABRIO

Sparkle comes as standard: the classic chrome-plated radiator grille in a hexagon look and striking chrome exhaust emphasize the unique character of the MINI Cooper Cabrio.

MINI COOPER S CABRIO

It could only be the MINI Cooper S Cabrio: the powerful air intake in the bonnet, racy radiator grille in a hexagon look, and chrome-plated double-pipe exhaust system make this a car to keep your eye on – even when it's not moving.

SOFT TOP COLOURS

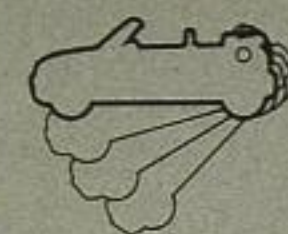

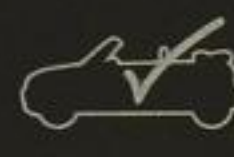

The soft top of the MINI Cabrio opens and closes automatically in just 15 seconds, and incorporates a continuously variable sunroof function. And when it comes to the choice of colours, you have a similar amount of flexibility. Depending on the exterior paint colour, there is a choice of up to three soft top colours – Denim Blue with silver effect, Hot Chocolate, or classic Black. Whichever option you go for, the inside of the soft top is always Black.

EXTERIOR COLOURS¹

The range of colours includes a wide variety of bold solid colours and dazzling metallic options, offset with striking contrast elements. The soft top is available in Denim Blue with a silver effect, Black or Hot Chocolate, while the mirror caps come in a choice of body colour, White or Black (only in conjunction with soft top in Black). Where White mirror caps are specified, White rims are also available. Possible colour combinations are shown on the following pages.

INTERIOR SURFACES

Unmistakably MINI – the shape and layout of the interior surfaces, door grips and decorative rings are as impressive as the variety of options. A good example is the elliptical door ring. It sweeps backward beyond the edge of the door, and is available in a choice of different variants and materials, depending on the model and equipment specified. The elegant Horizon Blue and eye-catching Interchange Yellow options are exclusive to the MINI Cabrio. The entire interior colour scheme coordinates with the surface finish of the instrument panel.

STANDARD SEAT

Sit back and relax: you'll feel right at home in the comfortable standard seats, with their discreetly accentuated central panels. The only thing you won't like about them is that you eventually have to get out.

SPORT SEAT

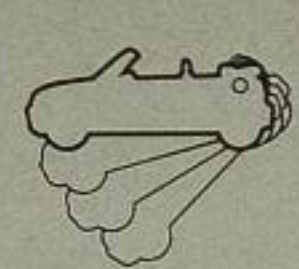

In the box seat: the sport seats (as standard on the MINI Cooper S Cabrio) feature side bolsters in a contrasting colour for extra lateral support when cornering at speed.

SPORT SEAT WITH PIPING

Take a seat: the sport seats with piping feature elegant stitching, and are as supportive as they are stylish.

INTERIOR SURFACES

The above options come as standard with Checkered interior trim finishers, but can also be combined with any of the six optional finishes available. However, where Gravity leather or Lounge leather upholstery is specified, the interior trim finishers are not available in the Checkered finish. Horizon Blue and Interchange Yellow interior surfaces are only available in conjunction with the matching exterior colours.

With its vertical sides and upright front and rear windscreens, the **soft top** ensures four people have room to travel in comfort. The rising line of the lateral seam at the rear gives the car a dynamic appearance. The soft top is available in **Black** on all MINI Cabrio models.

The **soft top** in **Hot Chocolate** gives the MINI Cabrio a highly distinctive look. Available on the MINI Cooper Cabrio and MINI Cooper S Cabrio.

The **soft top** in **Denim Blue** features a stylish metallic silver effect to really set it apart from the crowd. Available on the MINI Cooper Cabrio and MINI Cooper S Cabrio.

Bonnet stripes in **White** or **Black** are available as an option on the MINI Cooper Cabrio (illustrated left) and MINI Cooper Cooper S Cabrio (illustrated right).

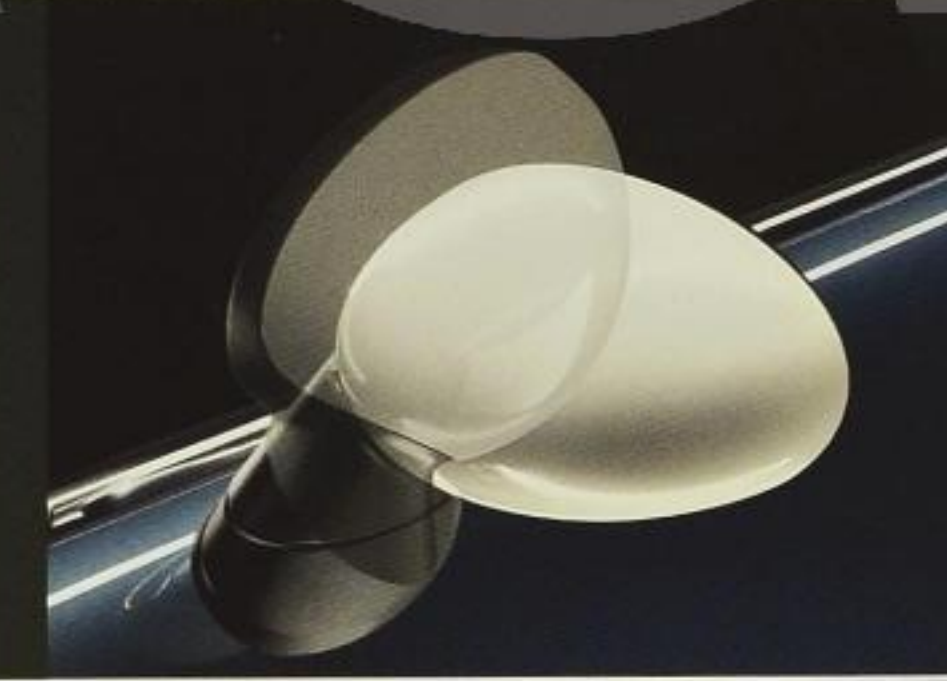

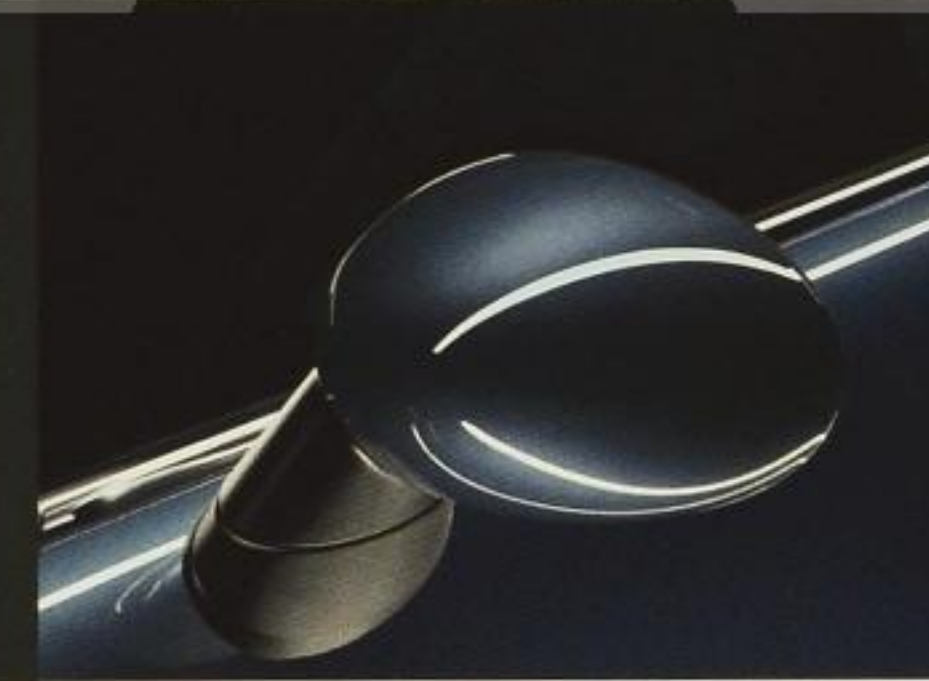

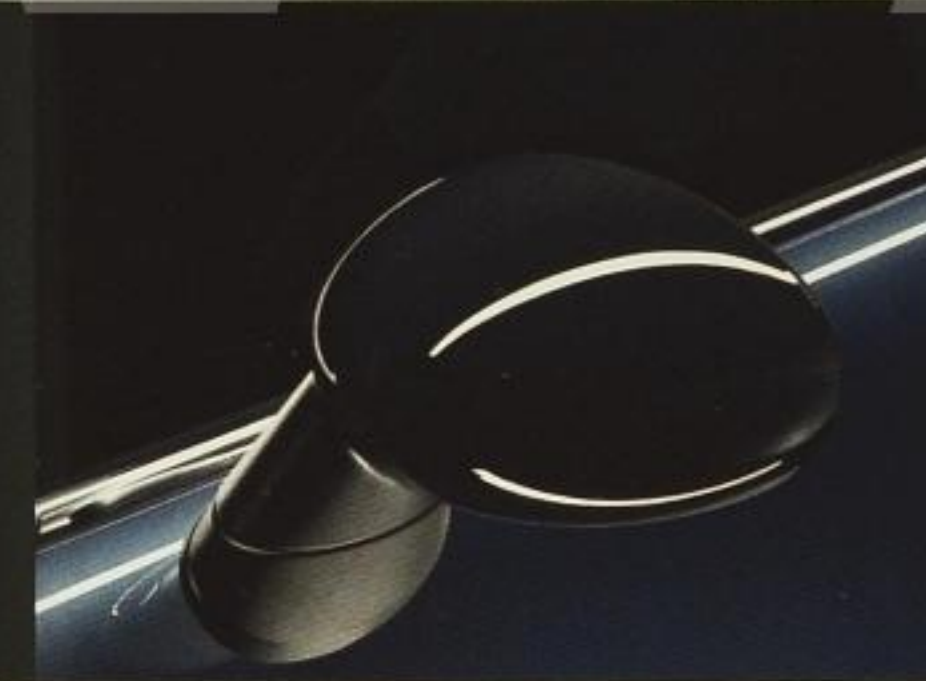

Optional **chrome-plated mirror caps** are available in combination with any colour of roof.

When the MINI Cooper Cabrio and MINI Cooper S Cabrio have a Black soft top, the **mirror caps** are also available in **Black**. The mirrors are electrically adjustable, and heating is available as an option.

If the rims are specified in White on the MINI Cooper Cabrio or MINI Cooper S Cabrio, the **mirror caps** are also available in **White**. The mirrors are electrically adjustable, and heating is available as an option.

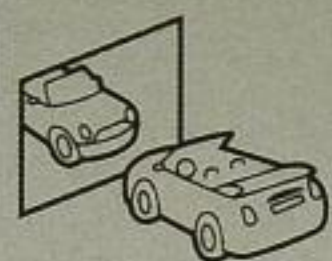

The **mirror caps** are also available in **body colour**.

If the optional electric folding function is specified, both **exterior mirrors fold away electrically** and fold back out at the touch of a button. Both mirrors and the windscreen washer jets are heated.

The MINI Cooper Cabrio has **5-Star Spooler light-alloy rims** as standard, in the 5.5 J x 15-inch size with 175/65 R 15 tyres.

The **5-Star Blaster light-alloy rims** come in the 6.5 J x 16-inch size, with 195/55 R 16 runflat tyres available as an option.

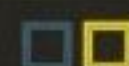

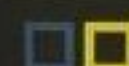

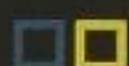

The **Black Star Bullet light-alloy rims** fill the wheel arches, and are the perfect complement to the dynamic styling of the MINI Cabrio. The rim size is 7 J x 17 inches, while the runflat tyres are in the 205/45 R 17 size.

The MINI Cooper S Cabrio is fitted as standard with **S-Winder light-alloy rims** in the 6.5 J x 16-inch size, with 195/55 R 16 runflat tyres available as an option.

The **Bridge Spoke* light-alloy rims** come in the 6.5 J x 16-inch size, with 195/55 R 16 runflat tyres available as an option.

The expressively styled **Crown Spoke* light-alloy rims** come in the 7 J x 17-inch size with 205/45 R 17 runflat tyres.

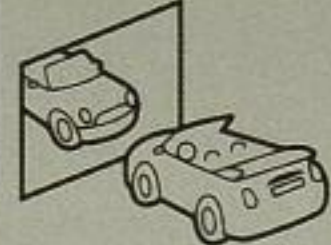

The **Web Spoke light-alloy rims** feature a composite design, the two parts being bolted together. They come in the 7 J x 17-inch size with 205/45 R 17 runflat tyres. There is also the choice of a two-tone Anthracite finish.

■ As standard on MINI Cooper Cabrio

8. ACCESSORIES

At the front of the car, the **Chrome Line Exterior** includes chrome plating of the radiator grille slats, the edging of the lower front grille and fog lights, and the cross-bar in the lower air inlet, depending on the model.

At the rear of the car, the Chrome Line Exterior for the MINI Cooper Cabrio features a chrome surround for the central rear fog light, and a chrome-plated roll-over bar with Piano Black insert (as standard on the MINI Cooper S Cabrio). On the MINI Cooper S Cabrio, this option also includes chrome plating of the tailgate handle, the edging around the grille in the rear bumper, and the exhaust tailpipe finisher.

The **white direction indicators** option includes white indicator glasses in the front headlight units (illustration shows bi-xenon headlights), side direction indicators (as standard on the MINI Cooper S Cabrio) and rear light units.

The round **exhaust pipe finisher** on the MINI Cooper Cabrio is chrome-plated and has a muscular look.

Situated in the middle of the rear bumper, the **double-pipe exhaust system with chrome finishers** on the MINI Cooper S Cabrio looks as unique as it sounds.

The **rear-mounted rack preparation** allows multifunctional carriers for bicycles and the like from the Original MINI Accessories range to be fitted (for more information see chapter 8, Accessories). It is located in the rear apron, and is concealed behind a cover in body colour.

The **interior surfaces** and the elliptical ring in the door can be colour-coordinated with the **Horizon Blue** or **Interchange Yellow** exterior colour. Where this option is specified, the revolution counter, speedometer, air vents, and gearshift lever are all edged in Silver.

The **interior surfaces** of the MINI Cooper Cabrio are finished as standard in **Fine White Silver** (illustrated left), with the revolution counter, speedometer, air vents and gear lever all edged in Silver. In the MINI Cooper S Cabrio, the interior surfaces are finished as standard in a **Checkered design** (illustrated centre), as is the door ring. The interior surfaces and elliptical ring in the door are also available in **Fluid Silver** (illustrated right) as an option. Where this option is specified, the revolution counter, speedometer, air vents, gearshift lever, front and rear cup holders, door handles and speakers set in the door trims are all edged in Silver.

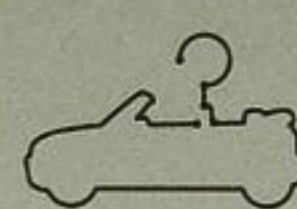

As an option, the **interior surfaces** and door grips are available in **English Oak** (illustrated left). Where this option is specified, the door ring is in Piano Black. With the **interior surfaces in Piano Black** (illustrated centre), the elliptical door ring features the same finish. Alternatively you can opt for a **Brushed Alloy** finish (illustrated right), with the door ring in Grey Silver Matt. Other trim elements included with this option are as for the Checkered-design interior surface finish.

With the **Colour Line** option, the knee roll and the armrest in the door come in a choice of five colours: Pacific Blue, Dark Grey, Hot Chocolate, **Cream White** (illustrated left) and **Rooster Red** (illustrated right).

8. ACCESSORIES

On standard-specification cars, the **door ring** and door grips come in **Carbon Black**.

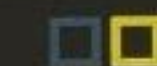

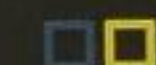

The standard Checkered-design interior surfaces in the MINI Cooper S Cabrio are partnered with a **Checkered-design door ring** and door grips in **Carbon Black**.

Where **Interchange Yellow** interior surfaces are specified, the **door ring** is in the same colour, while the door grips are in **Carbon Black**.

The interior surfaces are also available in a stylish Piano Black, with a matching **Piano Black door ring** and door grips in **Carbon Black**.

If you opt for the Brushed Alloy finish for the interior surfaces, the **elliptical door ring** comes in **Grey Silver Matt**, and the door grips in **Brushed Alloy**.

With the traditional **English Oak** option, the interior surfaces and door grips are finished in fine wood, complemented perfectly by the use of **Piano Black** for the **elliptical door ring**.

If the optional **Chrome Line Interior** is specified, the instruments, instrument-panel air vents, front loudspeakers, belt loops (illustrated below) and ring on the gear lever knob are all edged in chrome.

On the MINI Cooper S Cabrio, and on all vehicles with an optional interior surface finish or upholstery in leather or cloth/leather, the chrome trim is also applied to the door handles and the front and rear cup holders.

8. ACCESSORIES

The **2-spoke standard steering wheel** features a built-in driver airbag. The horn is sounded by pressing the impact absorber.

The **2-spoke steering wheel in leather** (as standard in the MINI Cooper S Cabrio) features a built-in driver airbag. The horn is sounded by pressing the impact absorber. This option also includes a gear lever knob in leather.

The **3-spoke sport steering wheel in leather** is an option on both MINI Cabrio models. It sits comfortably in the hand for even more agile handling.

A **3-spoke sport steering wheel with a wooden rim** (supplied with a gear lever knob in wood veneer) is also available. It incorporates the multifunction option.

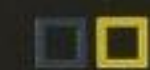

The **standard seat** for driver and front-seat passenger is manually position-adjustable, and upholstered in cloth. It features a storage pocket on the backrest, and a backrest memory function. The driver's seat is also height-adjustable.

The **sport seat** for driver and front-seat passenger is also available in **Lounge leather**, with special **pipng** and particularly elegant stitching.

The **sport seat** for driver and front-seat passenger includes a storage net on the backrest, and a backrest memory function. It is manually position-adjustable, and upholstered in cloth, or, as an option, in leather or a cloth/leather combination. The driver's seat is also height-adjustable. Excellent lateral support when cornering at speed is provided by the raised side bolsters.

Both front seats are equipped with an **easy entry function**. Simply tip the seat and it will automatically slide forward for easier access to the rear seats; slide it back again and move the backrest upright, and the backrest memory function means it will click back into its original position.

8. ACCESSORIES

The **rear backrest** can be divided (50:50 split) and the two halves folded down separately, using a release handle in the luggage compartment. This means that three people can travel in comfort even if they have bulky luggage. Alternatively, the entire rear backrest can be folded down, making loading easier and increasing luggage space to as much as 660 litres. And the seats are also lockable, to ensure the luggage compartment is safe even if you leave the car parked with the top down.

The **light package** includes handle-area illumination in the door trim, footwell lights in the front, lighting of the windshield panel, and colour-adjustable (orange/blue) ambient lighting for the door handles, storage compartments in the doors, side trims in the rear and softlight on the instrument panel.

The soft top and the built-in sunroof function can both be opened and closed automatically **at the touch of a button**.

A **wind deflector** is available as an optional extra, for more comfortable open-top driving without irritating draughts around the neck and shoulders. When not in use, it can be folded away and kept in a space-saving storage bag in the luggage compartment.

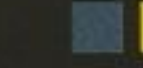

The **centre armrest** in the front folds away, and also incorporates a storage compartment.

ISOFIX is an industry-standard system whereby a child seat fitted with two telescopic bars can be safely and securely mounted on the back seat. The illustration shows a child seat from the Original MINI Accessories range.

The **storage package** includes a storage compartment in the instrument panel on the passenger side, and a storage net in the front passenger footwell, plus a floor net and a 12-volt socket in the luggage compartment.

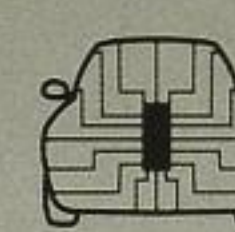

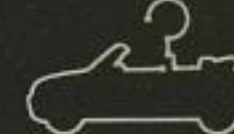

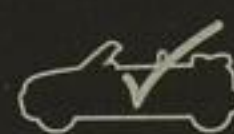

The **glove compartment** is illuminated, lockable and easily accessible.

The optional **smoker's package** consists of a cigarette lighter and a removable ashtray.

8. ACCESSORIES

Fun in full measure: the **Always Open Timer*** keeps track of how long you have spent with the top down to the minute. It starts running as soon as the soft top is fully open and the engine is running. The trip counter goes up to seven hours, and the total time spent with the top down is logged by the on-board computer.

The circular **revolution counter** is mounted on the middle of the steering column. The upper part of the display shows the outside temperature, current time or current speed, while the lower part shows such information as the trip distance. It also includes the Shift Point Display.

The **on-board computer** tells you your range, current and average fuel consumption, and average speed at the touch of a button. In conjunction with the Always Open Timer, it can also show you the total amount of time you have spent with the top down.

The large **speedometer** is positioned in the middle of the instrument panel, and incorporates various warning lights and the fuel gauge.

The **Condition Based Service (CBS)** system warns you when the next oil change or service is due, with a digital countdown of the distance to the next service appearing in the lower part of the display in the revolution counter.

The **MINI navigation system** features a 16:9 monitor in the round central instrument, and includes the Radio Boost CD, on-board computer and a speedometer around the outside. It directs you to your destination via voice instructions, directional arrows and/or on-screen maps.

The **air conditioning system** with microfilter means passengers can enjoy their ideal interior temperature, whatever the conditions outside. The amount and distribution of conditioned air can be individually adjusted.

Once the key is in the ignition, the **Start/Stop button** can be used to switch the engine on or off.

The **visibility package** ensures drivers can always see clearly. It includes a heated windscreen, a rain sensor, a rear-view mirror with automatic anti-dazzle function and automatic driving light control.

Automatic air conditioning rapidly adjusts the interior temperature to the desired level, and then keeps it constant. An integrated active carbon filter protects passengers against unpleasant odours. Automatic Cabrio mode pumps hot air into the footwells when the top is down on cold days, and blows cool air at the passengers on hot days.

The perfect soundtrack for any journey: fitted as standard, the **Radio MINI CD** includes an RDS tuner with scan function, permanent clock display and FM, MW and LW reception, and a built-in CD player with intro scan function and fast forward/rewind. The system also features six speakers, and an AUX-IN connection for MP3 players.

An MP3-compatible **CD changer** is available as an option. This is built into the glove compartment, and can hold up to six CDs.

The **Radio Boost CD** has all the features of the Radio MINI CD, plus a 2-column display, MP3 compatibility, and controls for optional equipment such as the CD changer, Bluetooth mobile phone preparation, DAB tuner and antenna diversity for optimum reception.

The **hi-fi loudspeaker system** uses a 230-watt 8-channel digital amplifier and 10 loudspeakers to deliver an outstanding listening experience, with powerful bass and brilliant treble.

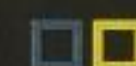

The **AUX-IN connection** allows an external audio source such as an MP3 player to be connected.

The optional **Bluetooth hands-free kit with USB audio interface** connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface supports the connection of an iPod, USB memory stick or MP3 player. Users can select tracks stored on the device by album, artist, genre etc. via the radio or navigation display. The **Bluetooth mobile phone preparation with USB audio interface** option also includes a 3-spoke multifunction sport steering wheel in leather, featuring cruise control, and a centre armrest (smartphone not included). The **extended connectivity of the music player in the mobile phone** option allows Bluetooth-enabled mobile phones to be plugged into the armrest via a snap-in adapter (available separately), so that the music stored on them can be played through the vehicle's loudspeakers. For more information about the compatibility of various mobile phones and the availability of snap-in adapters, speak to your authorized MINI dealer.

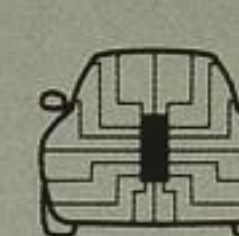

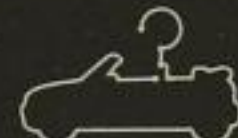

A **multifunction** option is available for the 3-spoke leather steering wheel, which allows drivers to operate the cruise control, radio and phone without taking their hands off the wheel.

8. ACCESSORIES

The **seat heating** for driver and front-seat passenger offers a choice of three temperature settings, and will be particularly appreciated on cold days.

The **rear-view mirror with automatic anti-dazzle function** dims the light from the headlights of a following vehicle if this reaches a certain level of intensity.

The **garage door opener** makes life that little bit easier. The programmable remote control can be used to open and close your gates or garage door without getting out of the car.

The optional **bi-xenon headlights** for low and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

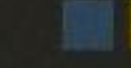

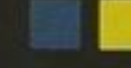

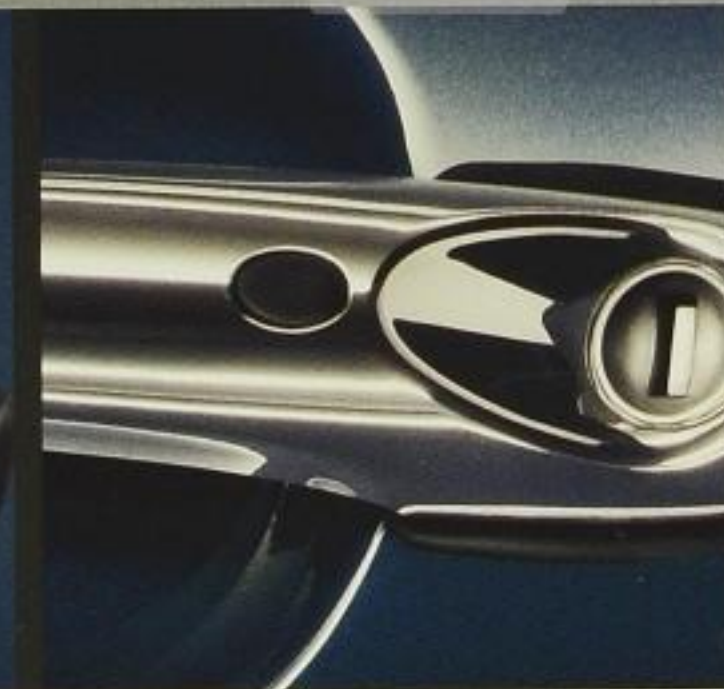

The **fog lights** are built into the side light housing in the front apron, and offer improved safety when visibility is poor.

When the **rain sensor** is activated, it automatically switches on the wind-screen wipers when necessary, and adjusts their speed to how hard it is raining. The built-in light sensor automatically switches on the driving lights when needed in dark or twilight conditions.

The **comfort access system** allows you to lock and unlock the car without even having to touch the key. Simply having it in your pocket or handbag is enough. You can also switch the ignition on and off keylessly, simply by pressing the Start/Stop button.

The MINI Cooper Cabrio has one **rear fog light** in the centre of the bumper (illustrated left), while the MINI Cooper S Cabrio features two, positioned at the sides (illustrated centre).

Park Distance Control (PDC) at the rear makes it easier to park and manoeuvre in tight spaces. An acoustic signal (and a visual display, if the navigation system is also fitted) tells you the distance between your MINI Cabrio and any obstacle.

8. ACCESSORIES

The **aerodynamic package** features modified front and rear aprons, aerodynamically optimized for a more enjoyable drive. These components are finished in body colour, as are the radiator grille slats and tailgate handle.

From the side as well, the aerodynamic package helps the MINI Cabrio cut a sporty figure, with specially designed side skirts, wheel arches painted in body colour and special side reflectors giving it a real sense of dynamism.

The optional **6-speed automatic transmission** with Steptronic makes gear changes easier, and – in Steptronic mode – decidedly sporty. On the MINI Cooper S Cabrio, the 6-speed automatic transmission comes with two shift paddles on the steering wheel in addition to the selector lever (paddles are available as an option on the MINI Cooper Cabrio). These can be operated with both hands on the wheel, for faster, safer gear changes.

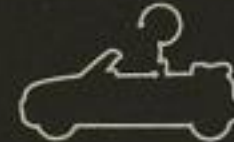

The **6-speed manual transmission** has a pleasingly light feel, and allows quick, precise changes, facilitating a sporty driving style.

Pressing the **Sport button** further increases the responsiveness of the steering and accelerator pedal, for a genuine track-style driving experience. On vehicles with automatic transmission, it also reduces the time taken for gear changes.

The **Black Jack** design gives the MINI Cabrio a unique look. It is available for the **exterior mirrors**, the **rear-view mirror housing**, the **door handles** and the **side scuttles**. **Sport stripes** and **additional headlights** complete the sporty effect.

You can't get enough of it: the **Union Jack** design for the **exterior mirrors**, rear-view mirror housing (not shown), **side scuttles** and **door handles**.

Show the racing heritage of your MINI Cabrio, with the **Checkered Flag** design for the **exterior mirrors**, **rear-view mirror housing** (not illustrated), **side scuttles** and **door handles**.

The **chrome-plated air intake trim** gives the front of the MINI Cooper S Cabrio an even more imposing appearance.

With a diameter of 90 mm, the muscular stainless steel **exhaust tailpipe finishers** on the MINI Cooper S Cabrio feature a polished, chrome-plated finish, contributing to the car's sporty looks. Available on all MINI models.

8. ACCESSORIES*

The **R108 Multispoke light-alloy wheel** comes in the 7 J x 17-inch size with 205/45 R 17 runflat tyres. Also available in Black (not illustrated).

Three times the style: the **R99 Double Spoke light-alloy wheel** is available in Silver, Grey Metallic, and a polished finish (not illustrated). It comes in the 7 J x 17-inch size, with 205/45 R 17 runflat tyres.

The **R90 Cross Spoke composite light-alloy wheel** in Black features a 2-part construction with titanium bolts, and comes in the 7 J x 17-inch size with 205/45 R 17 runflat tyres. Also available in Anthracite and Silver (not illustrated).

Wind deflector. With a handy tool for quick and easy fitting, plus built-in pockets that can be used to store small items. The upper frame has a brilliant anodized finish.

The practical rubber **storage tray** makes optimum use of the space in the centre console, so small items can be kept safely and yet within easy reach. With special slots for credit cards and coins.

Leather trims in Hot Chocolate make a striking contrast to the **Checkered Flag** instrument panel. They are available for the **leather steering wheel**, the **gear lever knob** and **gaiter** or **selector lever grip** and **gaiter**, and the **hand-brake grip** and **gaiter**. All trims also available in Tuscan Beige.

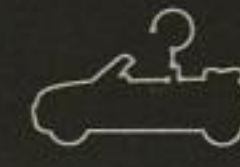

The **glove compartment dividers**, which also include an elasticated band, make it easier to organize the contents of your glove compartment, so you can keep items such as CDs, iPods, vehicle manuals and keys separate.

Enjoy a MINI adventure in sound: the **iPod interface** allows an iPod or iPhone to be connected to the MINI radio. The device is controlled via the MINI joystick, MINI radio or multifunction steering wheel, and artist, album, genre and song title information is displayed on the radio display or the on-board monitor. The iPod or iPhone remains safely out of sight in a storage compartment in the instrument panel.

The comfortable **armrest** for the driver and front-seat passenger features a spacious storage compartment.

An eye-catching touch, particularly after dark: the **illuminated door sill finishers**. Available in stainless steel or blackened stainless steel with personalized lettering, a Union Jack design or a Checkered Flag design, and in stainless steel only with MINI, MINI Cooper or MINI Cooper S lettering.

It means business: the high-quality woven **Urban floor mat**. With a pinstripe design in Cream White or Dark Grey.

The **Cosmopolitan floor mat** is made of high-quality soft velour. It features a MINI logo and a reflective Nubuck border.

The **rubber floor mat** features raised edges to protect the footwell from dirt and moisture. Available in Carbon Black with the MINI logo or MINI Cooper S lettering.

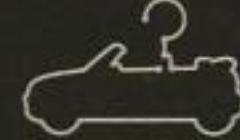

The lockable **aluminium rear carrier** allows you to transport two bicycles or two snowboards/pairs of skis on the back of the car. With anti-theft mounting. Requires the rear-mounted rack preparation with body-colour cover in the bumper (illustrated right, available separately; for more information, see chapter 4, Exterior Design and Wheels).

The electric **MINI coolbag** is CFC-free and can chill its contents to approximately 20°C below the ambient temperature. It has capacity of 12 litres. The design is as cool as you would expect, and features MINI lettering on the front.

The **collapsible boxes for the luggage compartment** can be quickly unfolded and fixed in shape, thanks to their Velcro-type fasteners. Two large collapsible boxes can be stowed side by side in the boot of the car. Size (L x W x H): 440 x 230 x 220 mm. A smaller version (325 x 285 x 130 mm) is also available. Both sizes come in Black and carry the MINI logo.

JOHN COOPER WORKS TUNING.

Racing expertise on the road: the John Cooper Works tuning kit is specially designed to maximize the performance of the MINI Cabrio, boosting the output of the MINI Cooper S Cabrio to a massive 192 hp (141 kW). It comprises a special air filter, engine management software and a sport silencer that gives an unmistakable engine note. The aerodynamic kit and sport brakes give an even more authentic track-car experience, while the exterior mirrors, air intake and tail-gate handle in Carbon provide a stylish finishing touch. And the fun of driving is enhanced still further by the Gear Shift Indicator, with its coloured light-emitting diodes telling you at a glance which gear to choose for maximum acceleration.

The perfect finishing touch: interior trim finishers and door grips in Carbon. The sport steering wheel, gear lever knob and handbrake grip are also available in either leather or Alcantara with Carbon elements.

The rigid suspension cross-brace in the engine compartment enhances the stability of the MINI Cabrio by reducing body vibration.

Striking styling: the R113 Cross Spoke light-alloy wheel with 205/40 R 18 runflat tyre comes in either brilliant Black (left) or a burnished finish (below). 17-inch sport brakes (17-inch at front, 16-inch at rear) are also available, featuring red brake calipers and perforated discs.

A real eyeful: the R109 Double Spoke composite light-alloy wheel, in the 18-inch size with a 205/40 R 18 runflat tyre.

Burnished or Matt Black: the 18-inch R105 Double Spoke light-alloy wheel with 205/40 R 18 runflat tyre comes in a choice of two finishes.

Battery capacity/location	AH	46/front	46/front
Alternator output	A	120	120
	W	1680	1680

¹ All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with the 6-speed automatic transmission.

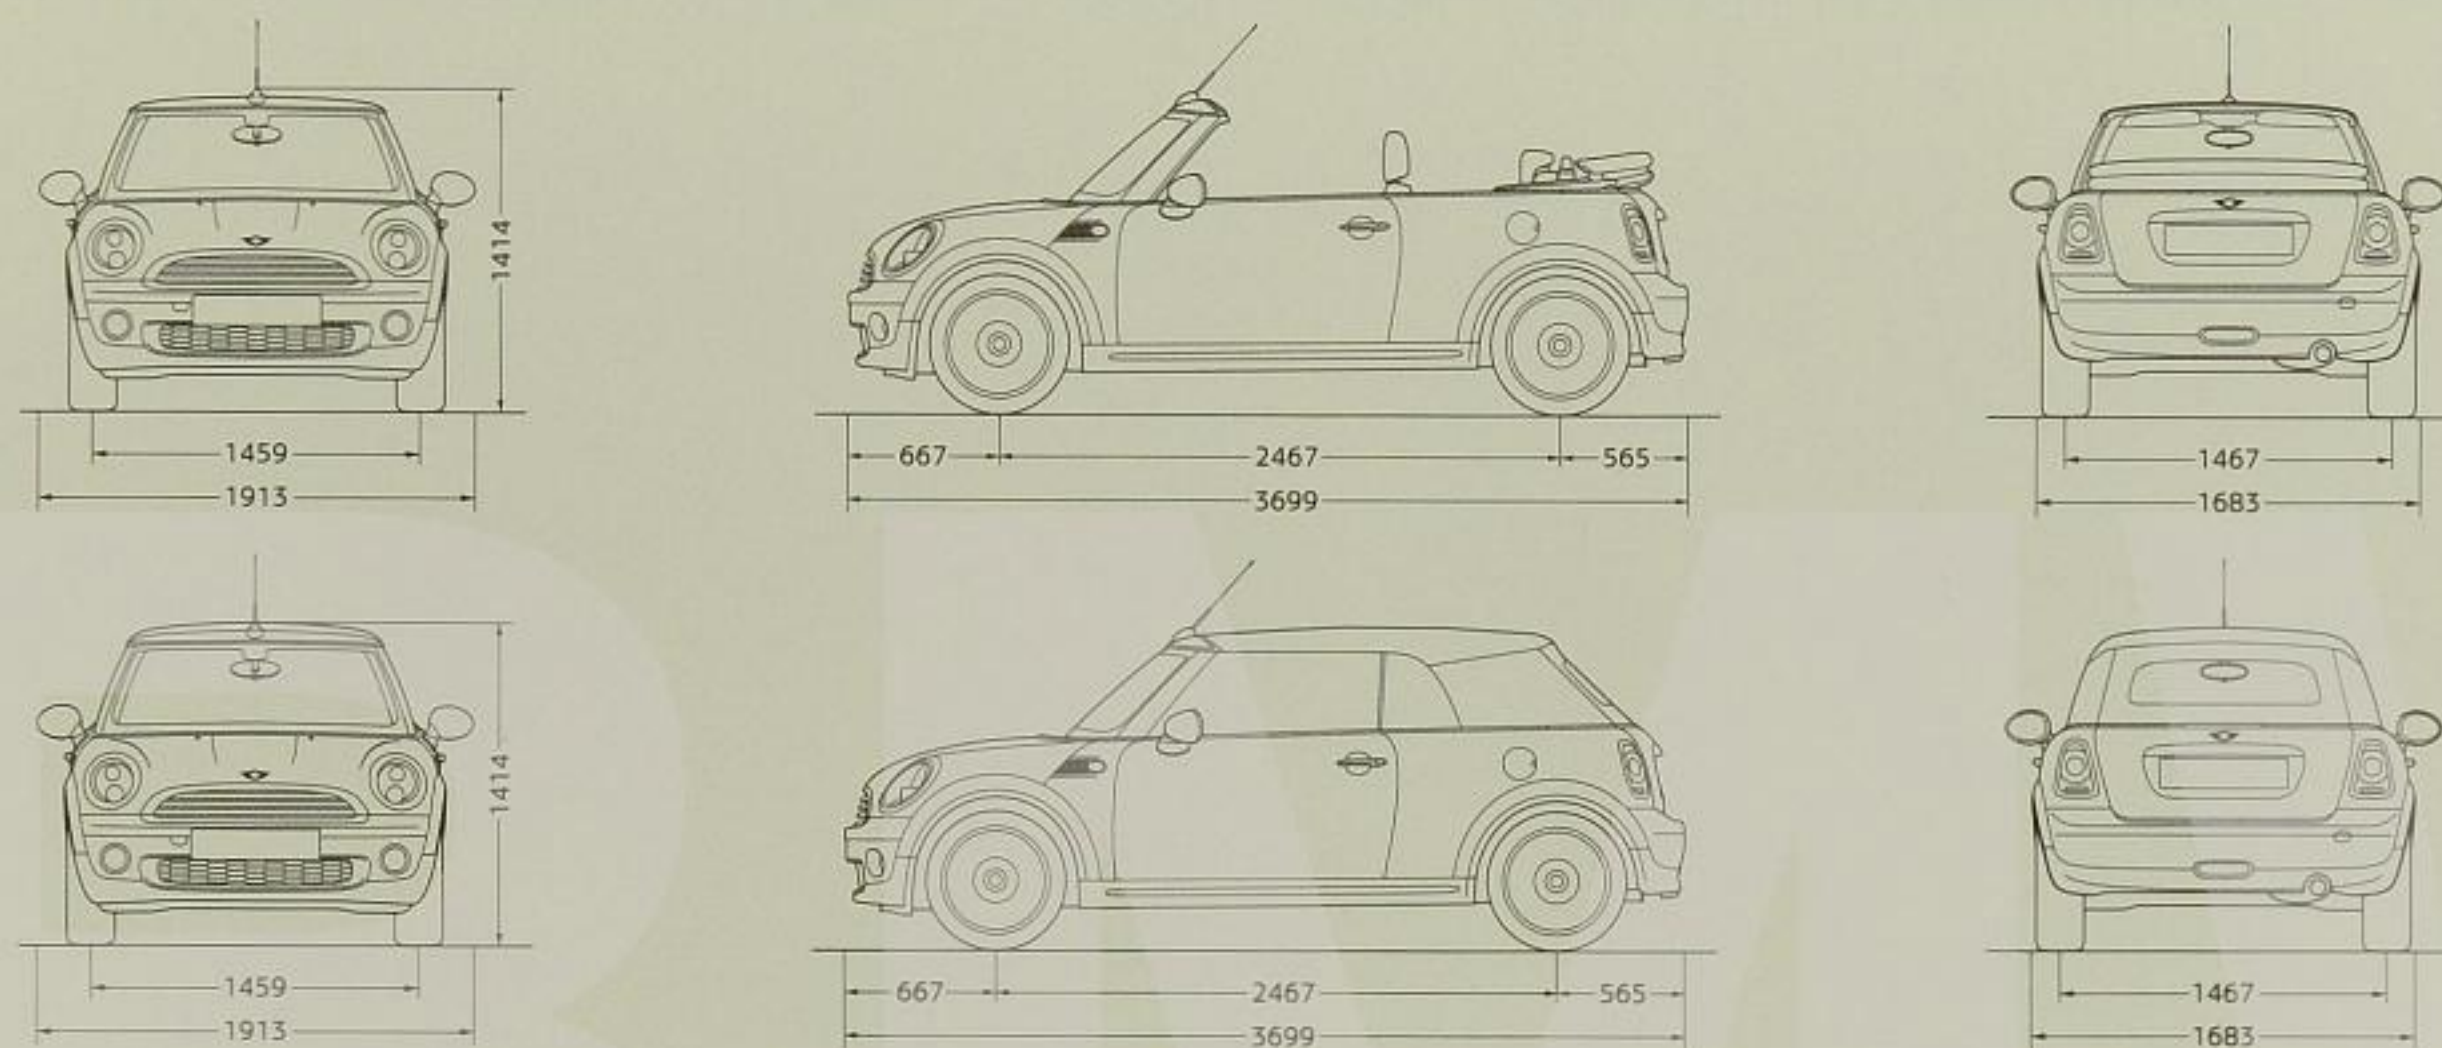

² All MINI models comply with the EU4 emissions standard. From the third quarter of 2009 onwards, the MINI Cooper S Cabrio will comply with the EU5 standard (average fuel consumption of EU5-compliant MINI Cooper S Cabrio: 6.6 [7.3] l/100 km). Fuel consumption is determined in accordance with the ECE driving cycle, made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption.

³ With overboost function.

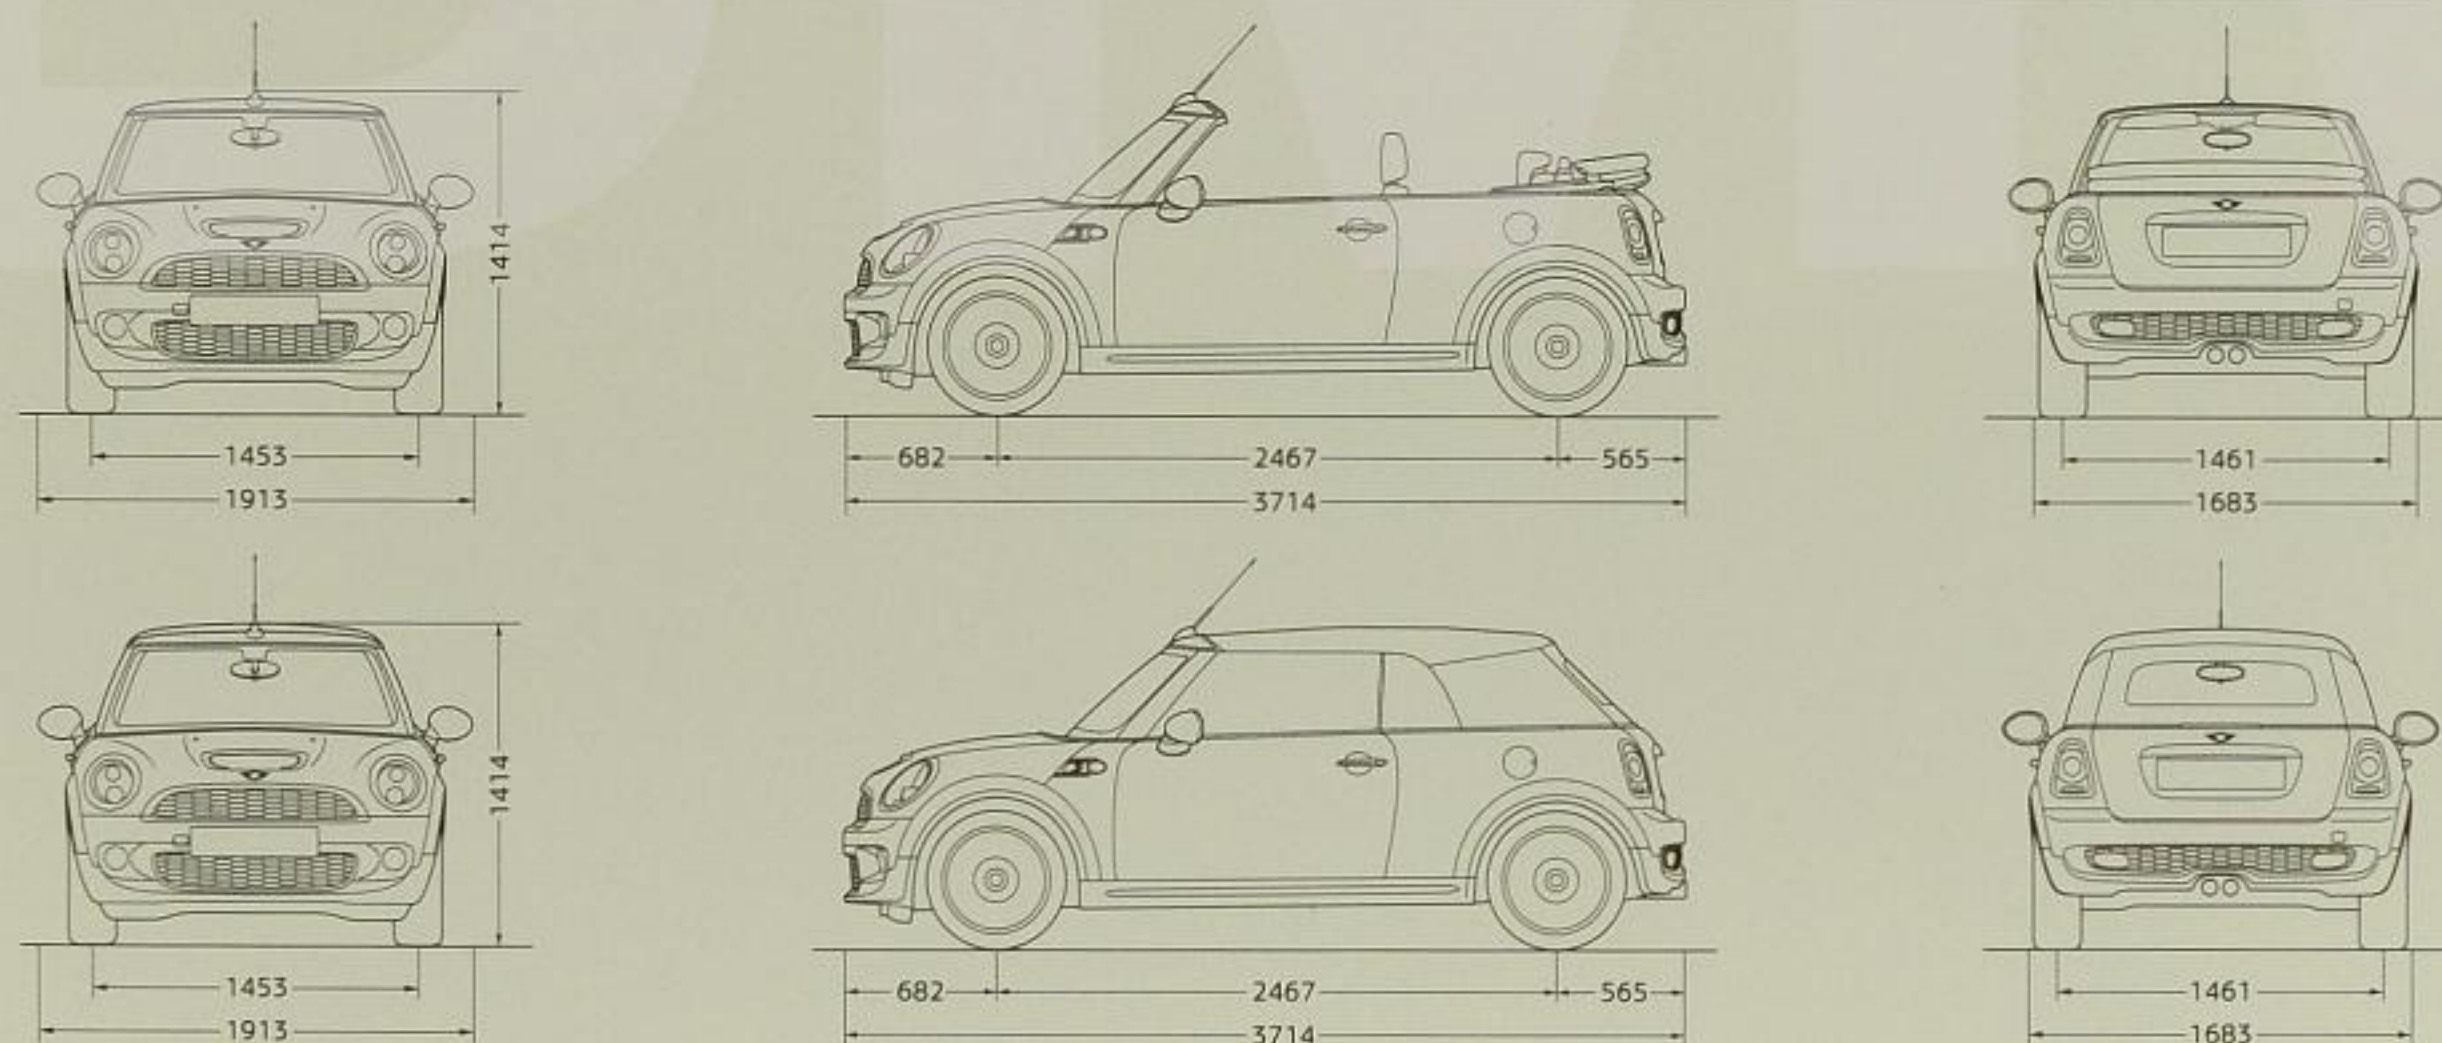

⁴ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

DIMENSIONAL DRAWINGS.

MINI COOPER CABRIO

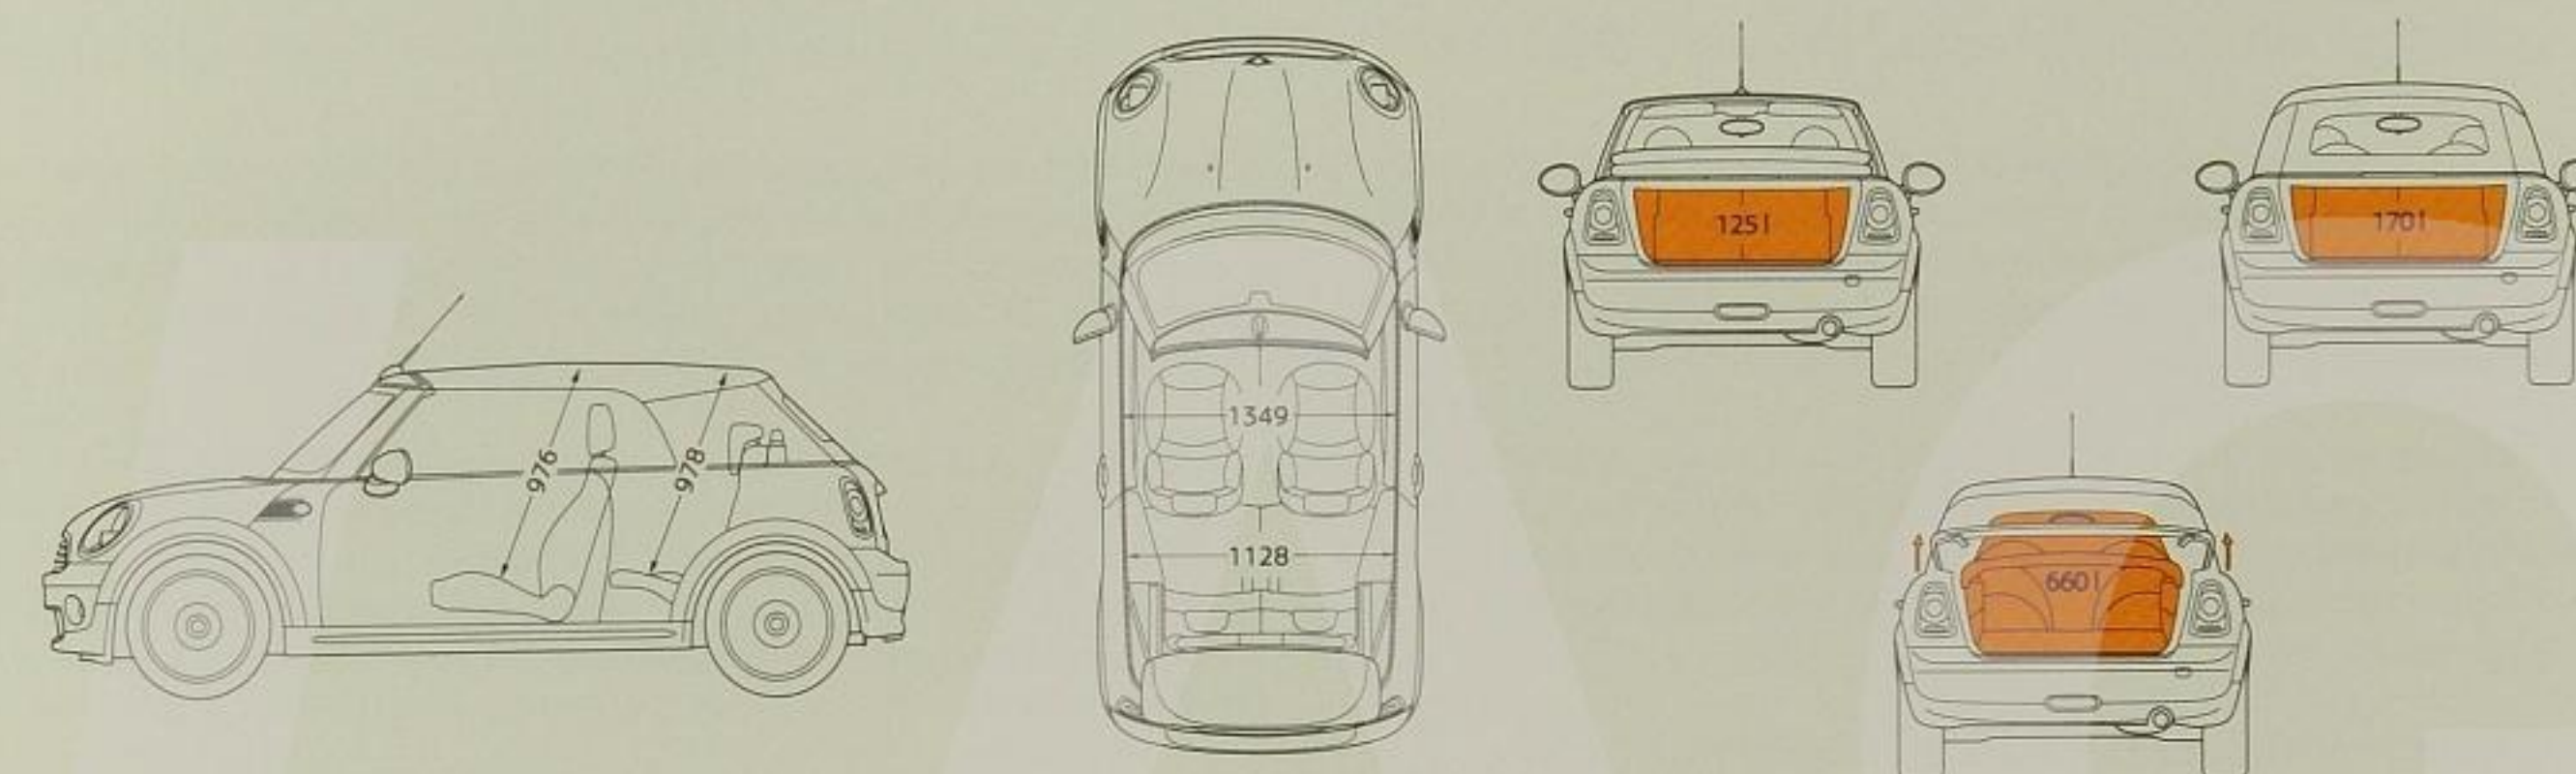

MINI COOPER S CABRIO

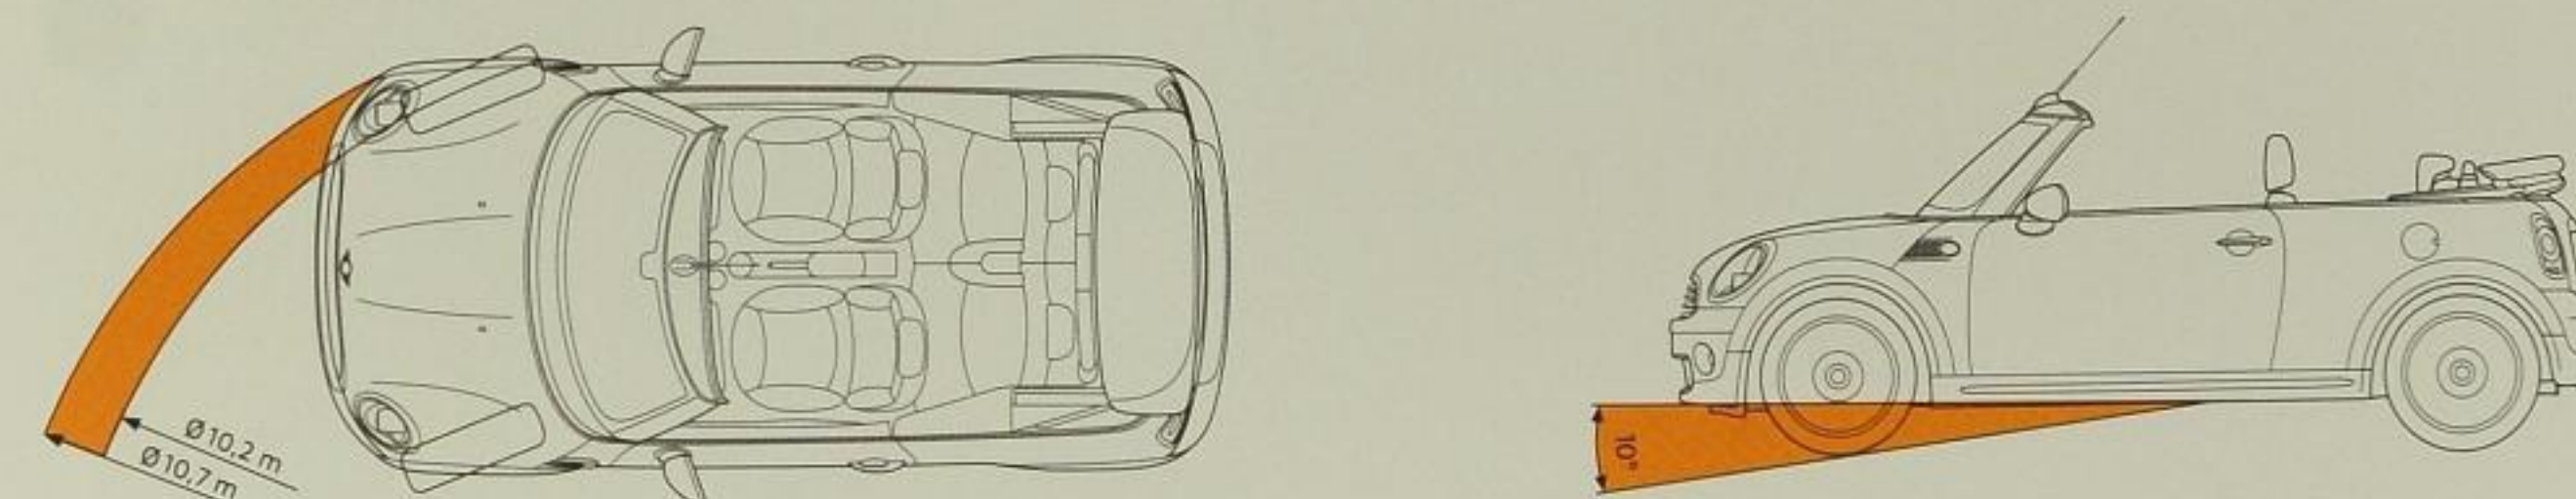

Even with the top up, the MINI Cabrio offers plenty of headroom, with 976 millimetres between seat and roof in the front, and 978 millimetres in the rear. And with 1,349 millimetres of elbow room in the front and 1,128 millimetres in the back, passengers will have plenty of personal space even when there are four people in the car.

The luggage capacity varies from 125 litres to 660 litres with the rear backrest folded down.

As well as being a sporty performer on the open road, the MINI Cabrio is also highly agile in a tight spot, with a turning circle of just 10.7 metres.

A ramp brakeover angle of 10 degrees prevents the car from grounding and makes underground car parks a much less stressful experience.

MINI SERVICE. KEEP IT MINI.

MINI SERVICE – DESIGNED FOR PEACE OF MIND.

Even a MINI occasionally needs some downtime. However, we appreciate that you don't want to leave your pride and joy even in the capable hands of a **MINI Service Centre** any more often than is absolutely necessary, and so the MINI was specifically designed to make it quick and easy to maintain and repair.

The aim of MINI Service is to ensure you and your MINI are looked after at all times, and a global network of **MINI Service Centres** is the key to achieving this. Their highly trained experts know your car inside out, and using computerized diagnostic tools and information systems, they offer a fast, high-quality service.

An important component of this is the MINI's intelligent key. Using a KeyReader, the staff at your MINI Service Centre can read basic data stored on the key, such as the chassis number, mileage and the status of the **CBS (Condition Based Service) display**, which is located in the revolution counter or speedometer, depending on equipment levels. CBS uses sensors to detect when oil changes and brake services are necessary.

Brake fluid status and the distance to the next scheduled test of road-worthiness or emissions test and service are shown on the display. This system means that you never miss an appointment, while the detailed information about the precise condition of your car helps avoid unnecessary costs.

Unlikely, but not impossible: in the event that your MINI does suffer a breakdown, peace of mind is still guaranteed by **MINI Mobile Service**. Telephone support from highly trained MINI technicians is available 24 hours a day, 365 days a year, and if that doesn't resolve your problem, our people on the ground will do all they can to get your MINI back on the road.

If this doesn't do the trick, the extensive MINI Mobile Care range of mobility services will make sure you still get where you've got to go. For more details of what is included in MINI Mobile Care, who is entitled to it, and where it is valid, please contact your MINI Service Centre, or visit our website at www.MINI.com.

If you require extra cover against accident and theft, once again your MINI Service Centre will be delighted to advise you on the services available in your country.

All the phone numbers you need can be found in the separate "Contact" booklet.

And so you don't have to worry about unexpected costs – for servicing, maintenance and (with certain packages) wear-and-tear repairs – we offer **MINI Service Inclusive**, the perfect way to ensure your MINI is properly looked after. A variety of packages are available, giving you free access to all the services included for a specified number of years, or up to a specified number of kilometres.

Keep it MINI. Treat your MINI with the attention and affection it deserves, and make sure you only ever use Original MINI Parts. These proven high-quality components will ensure your MINI continues to give you the fun it was designed to. All **Original MINI Parts** are covered by the same warranties

as the car itself, and their long-term availability is guaranteed – Original MINI Parts will be available from all authorized MINI dealers, anywhere in the world, for 15 years after production of the model in question has ceased. Using Original MINI Parts will also help preserve the car's unique appeal, and protect against depreciation – so your finances stay in the same great shape as your MINI.

For further information on MINI Service and what it includes, contact your authorized MINI dealer or MINI Service Centre. Alternatively visit our website at www.MINI.com/service.

MINI FINANCIAL SERVICES.

OPEN UP A WORLD OF POSSIBILITIES – WITH THE MINI CABRIO.

Open-top driving with all options open: **MINI Financial Services.** Admittedly, dreaming about a MINI Cabrio is pretty exciting. But how could it be as much fun as actually driving one? The right financial package helps you make the road from dream to reality a smooth one. MINI Financial Services will ensure that all options are open to you, helping you take the quickest route to your own MINI experience in a way that suits your lifestyle and budget.

Three roads, one destination: a MINI Cabrio of your own.

MINI Leasing, MINI Finance, MINI Select: all three solutions are designed to make your MINI dream come true as quickly as possible, but all three of them have their own specific advantages. You just have to decide which one is best for you.

MINI Leasing covers a huge range of different options. How? Because the exact terms and conditions are up to you. At the start of the contract, you choose whether or not you wish to lower the monthly instalments you will pay by making a down payment. You also decide the term of the lease and your mileage allowance.

MINI Finance is the best way forward if you want to own your MINI Cabrio. You have as much flexibility to choose the size of your down payment and monthly repayments as you do to specify the car's equipment levels.

MINI Select leaves all your options open. You decide at the end of the term of the contract whether you want to ...

- ... close the soft top of this car for the last time, and replace it with a new MINI Cabrio and a new contract.
- ... extend the financing on your MINI Cabrio because you can't bear to be parted from it.
- ... pay the outstanding balance on your MINI Cabrio to make it 100% yours.

Question: is there any way to make the MINI Cabrio experience even more exciting?

Answer: with difficulty. But you can make sure you avoid the wrong sort of surprises, by taking out an insurance policy which is perfectly tailored to your MINI Cabrio. To accompany your finance package, MINI Financial Services offers insurance that is precisely geared to your specific wishes and needs:

- car insurance to protect you and your MINI Cabrio if the worst comes to the worst.
- letters of protection (Schutzbriefe) to safeguard you against all adverse circumstances.
- payment protection insurance to guarantee the payments on your MINI Cabrio if life takes an unexpected turn.

What next?

Why not arrange a personal meeting with your local MINI dealer? The F&I manager and the sales staff there have an in-depth knowledge of all MINI Financial Services products, and are looking forward to making your MINI Cabrio dream come true.*

* For more information about MINI Financial Services and its leasing, finance and insurance products, and to find out who these services are offered through in your country, visit www.MINI.com or speak to your local MINI dealer. Details of services may differ from country to country.

WARRANTY.

Every MINI is supplied with a 2-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts.)

Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a 3-year warranty. This excludes any damage to painted surfaces caused by external or environmental factors.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. And every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your authorized MINI dealer will also be pleased to advise you on the disposal of your old vehicle.

BMW AG

The models, standard and optional equipment and combinability of options in this brochure relate to cars supplied by BMW AG for the German market. The availability of standard and optional equipment, and the combinability of options, may vary from country to country within the European Union for all models. For detailed information about the situation in your country, please contact your authorized MINI dealer. Subject to change in design and equipment.
