

**MINI COOPER S WITH
JOHN COOPER WORKS GP KIT.**

FOR 2,000 LUCKY DRIVERS WHO KNOW TIME IS TOO
PRECIOUS TO WASTE.
THE EXTERIOR.

AIR RESISTANCE IS FUTILE.

Remodelled front and rear aprons, plus side skirts, underside panelling and a wing-shaped rear spoiler all contribute to even better aerodynamics. Add in an engine that can produce 218 brake horsepower* and 245 Nm of torque, and you've got a car that can hit 100km/h from a standing start in less than 6.5 seconds*. Another reason why only a lucky few will ever get a good look at it.

WHEELS THAT RAISE YOUR PROFILE.

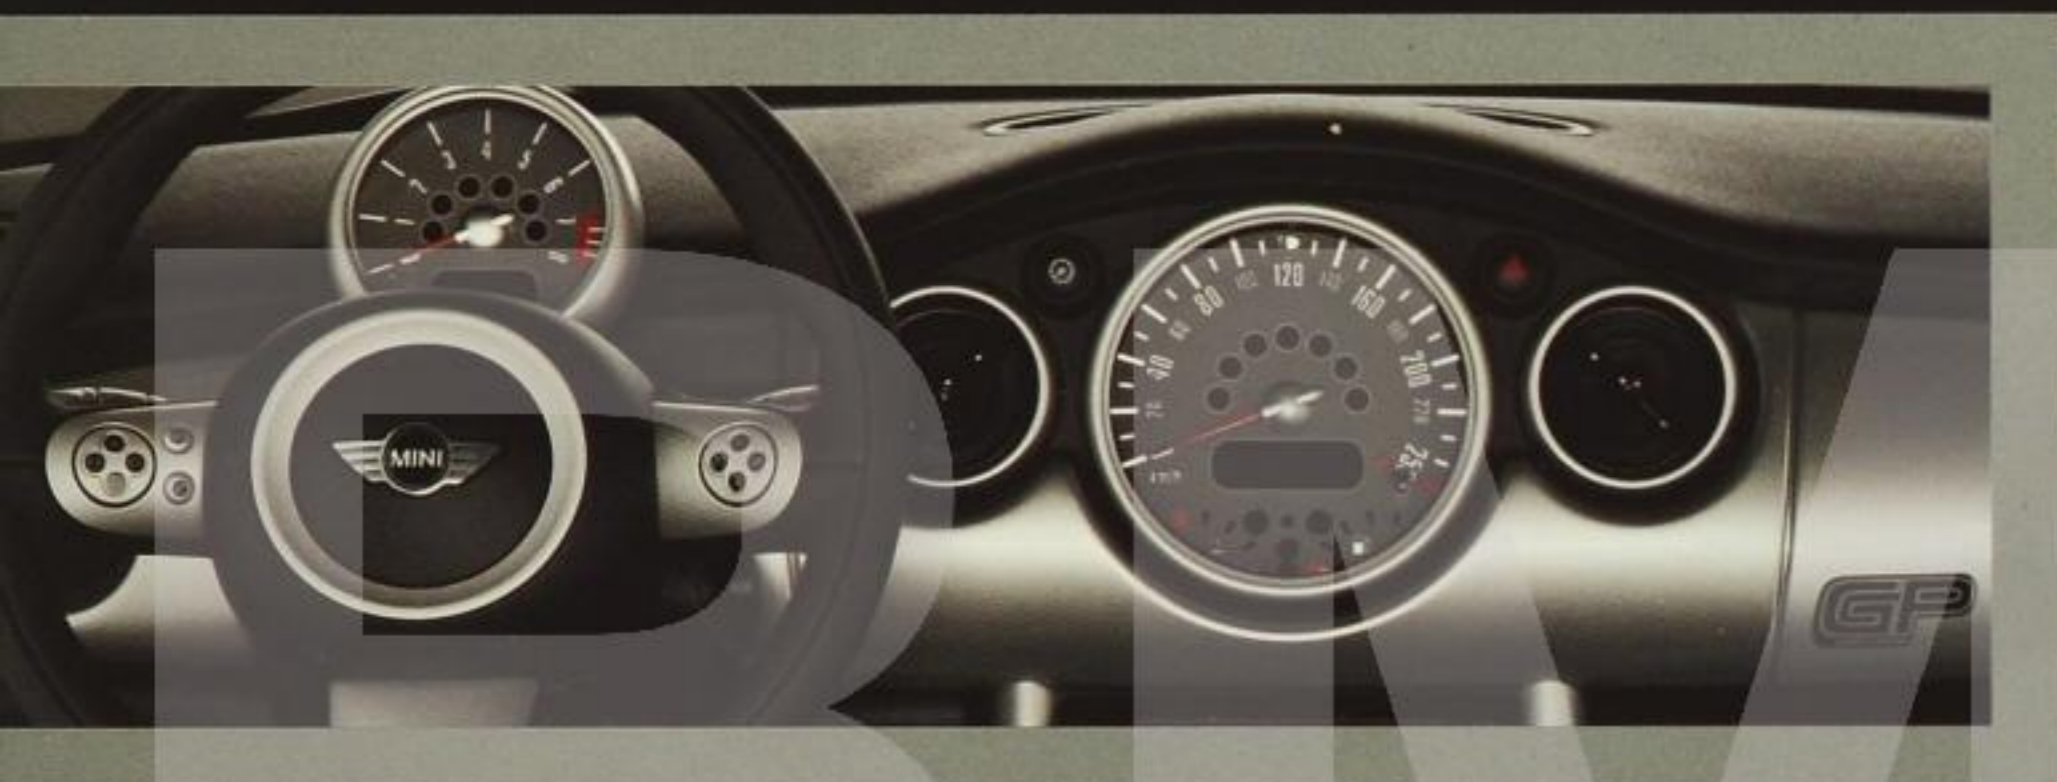

The 18-inch light alloy wheels feature an exclusive new lightweight design, plus the impressive stopping power of a 16-inch disc braking system, with its striking red-painted calipers. Limited slip differential improves traction, for enhanced active safety when cornering at higher speeds.

SERIOUS EYE CANDY.

Thunder Blue paintwork on the body is combined with a Pure Silver contrast roof, Chili Red exterior mirror caps and white indicators.

FOR 2,000 LUCKY DRIVERS WHO KNOW THAT LESS IS MORE. THE INTERIOR.

IN SIGHT AND UNDER CONTROL.

The 3-spoke multifunction leather sport steering wheel means drivers can operate the cruise control and radio without taking their hands off the wheel.

The instrument panel is distinctively styled, with the Anthracite speedometer and rev counter dials both featuring a red needle for maximum visibility.

SITTING PRETTY.

The Recaro sport seats are upholstered in Panther Black leather with red stitching, and offer everything a driver could want: excellent lateral support, an adjustable thigh support, and built-in heating.

PLACES ARE STRICTLY LIMITED.

Modifications aimed at improving the car's acceleration and responsiveness include aluminium rear-axle trailing arms, and the removal of the complete rear seat bench. The results of stripping out this excess weight can be felt in the way the car accelerates and corners – and in the way your spirits soar. The rear seat bench has been replaced with a flat cargo platform, which can be lifted up by a Z-shaped folding mechanism to reveal two additional storage compartments.

As standard Optional extra

QUALITY, NOT QUANTITY.

As you'd expected of a limited-edition work of art, every MINI COOPER S with JOHN COOPER WORKS GP KIT has its own unique serial number. The evidence is there in black and silver on the roof and the dashboard – only 2,000 of these cars will ever be made. And one of them could be yours.
