## BREAKING THE WIND'S RESISTANCE.

The aerodynamic package is a sophisticated piece of engineering that visually reflects the sporting heritage of John Cooper Works.

The front apron features a Black ventilation grille and fog lights trimmed with Black fins, underlining the car's dynamism, while the bold lines of the chunky side skirts end in racing-style air intakes. The side skirts are painted in body colour, while the wheel arches are available in either Black or body colour. The imposing rear apron features Black fins above the rear fog lights, making the perfect finishing touch. The package also includes Black Band design elements for the front and rear aprons.

This optional diffuser in Carbon and rear spoiler, which increases downforce, further improve aerodynamic performance. Because performance, much more than simple cosmetic changes, is what the aerodynamic package is all about. All these modifications contribute to enhanced handling, while two additional brake ducts also help to ventilate the brakes more effectively.

- 1 Legendary Formula One constructor John Cooper
- 2 Wheel arches in body colour
- 2 Front apron
- 2+3 Side skirts
- 3 Rear apron
- 3 Roof spoiler
- 3 Rear spoiler

# HOW THE MINI GOT SOME MUSCLE.

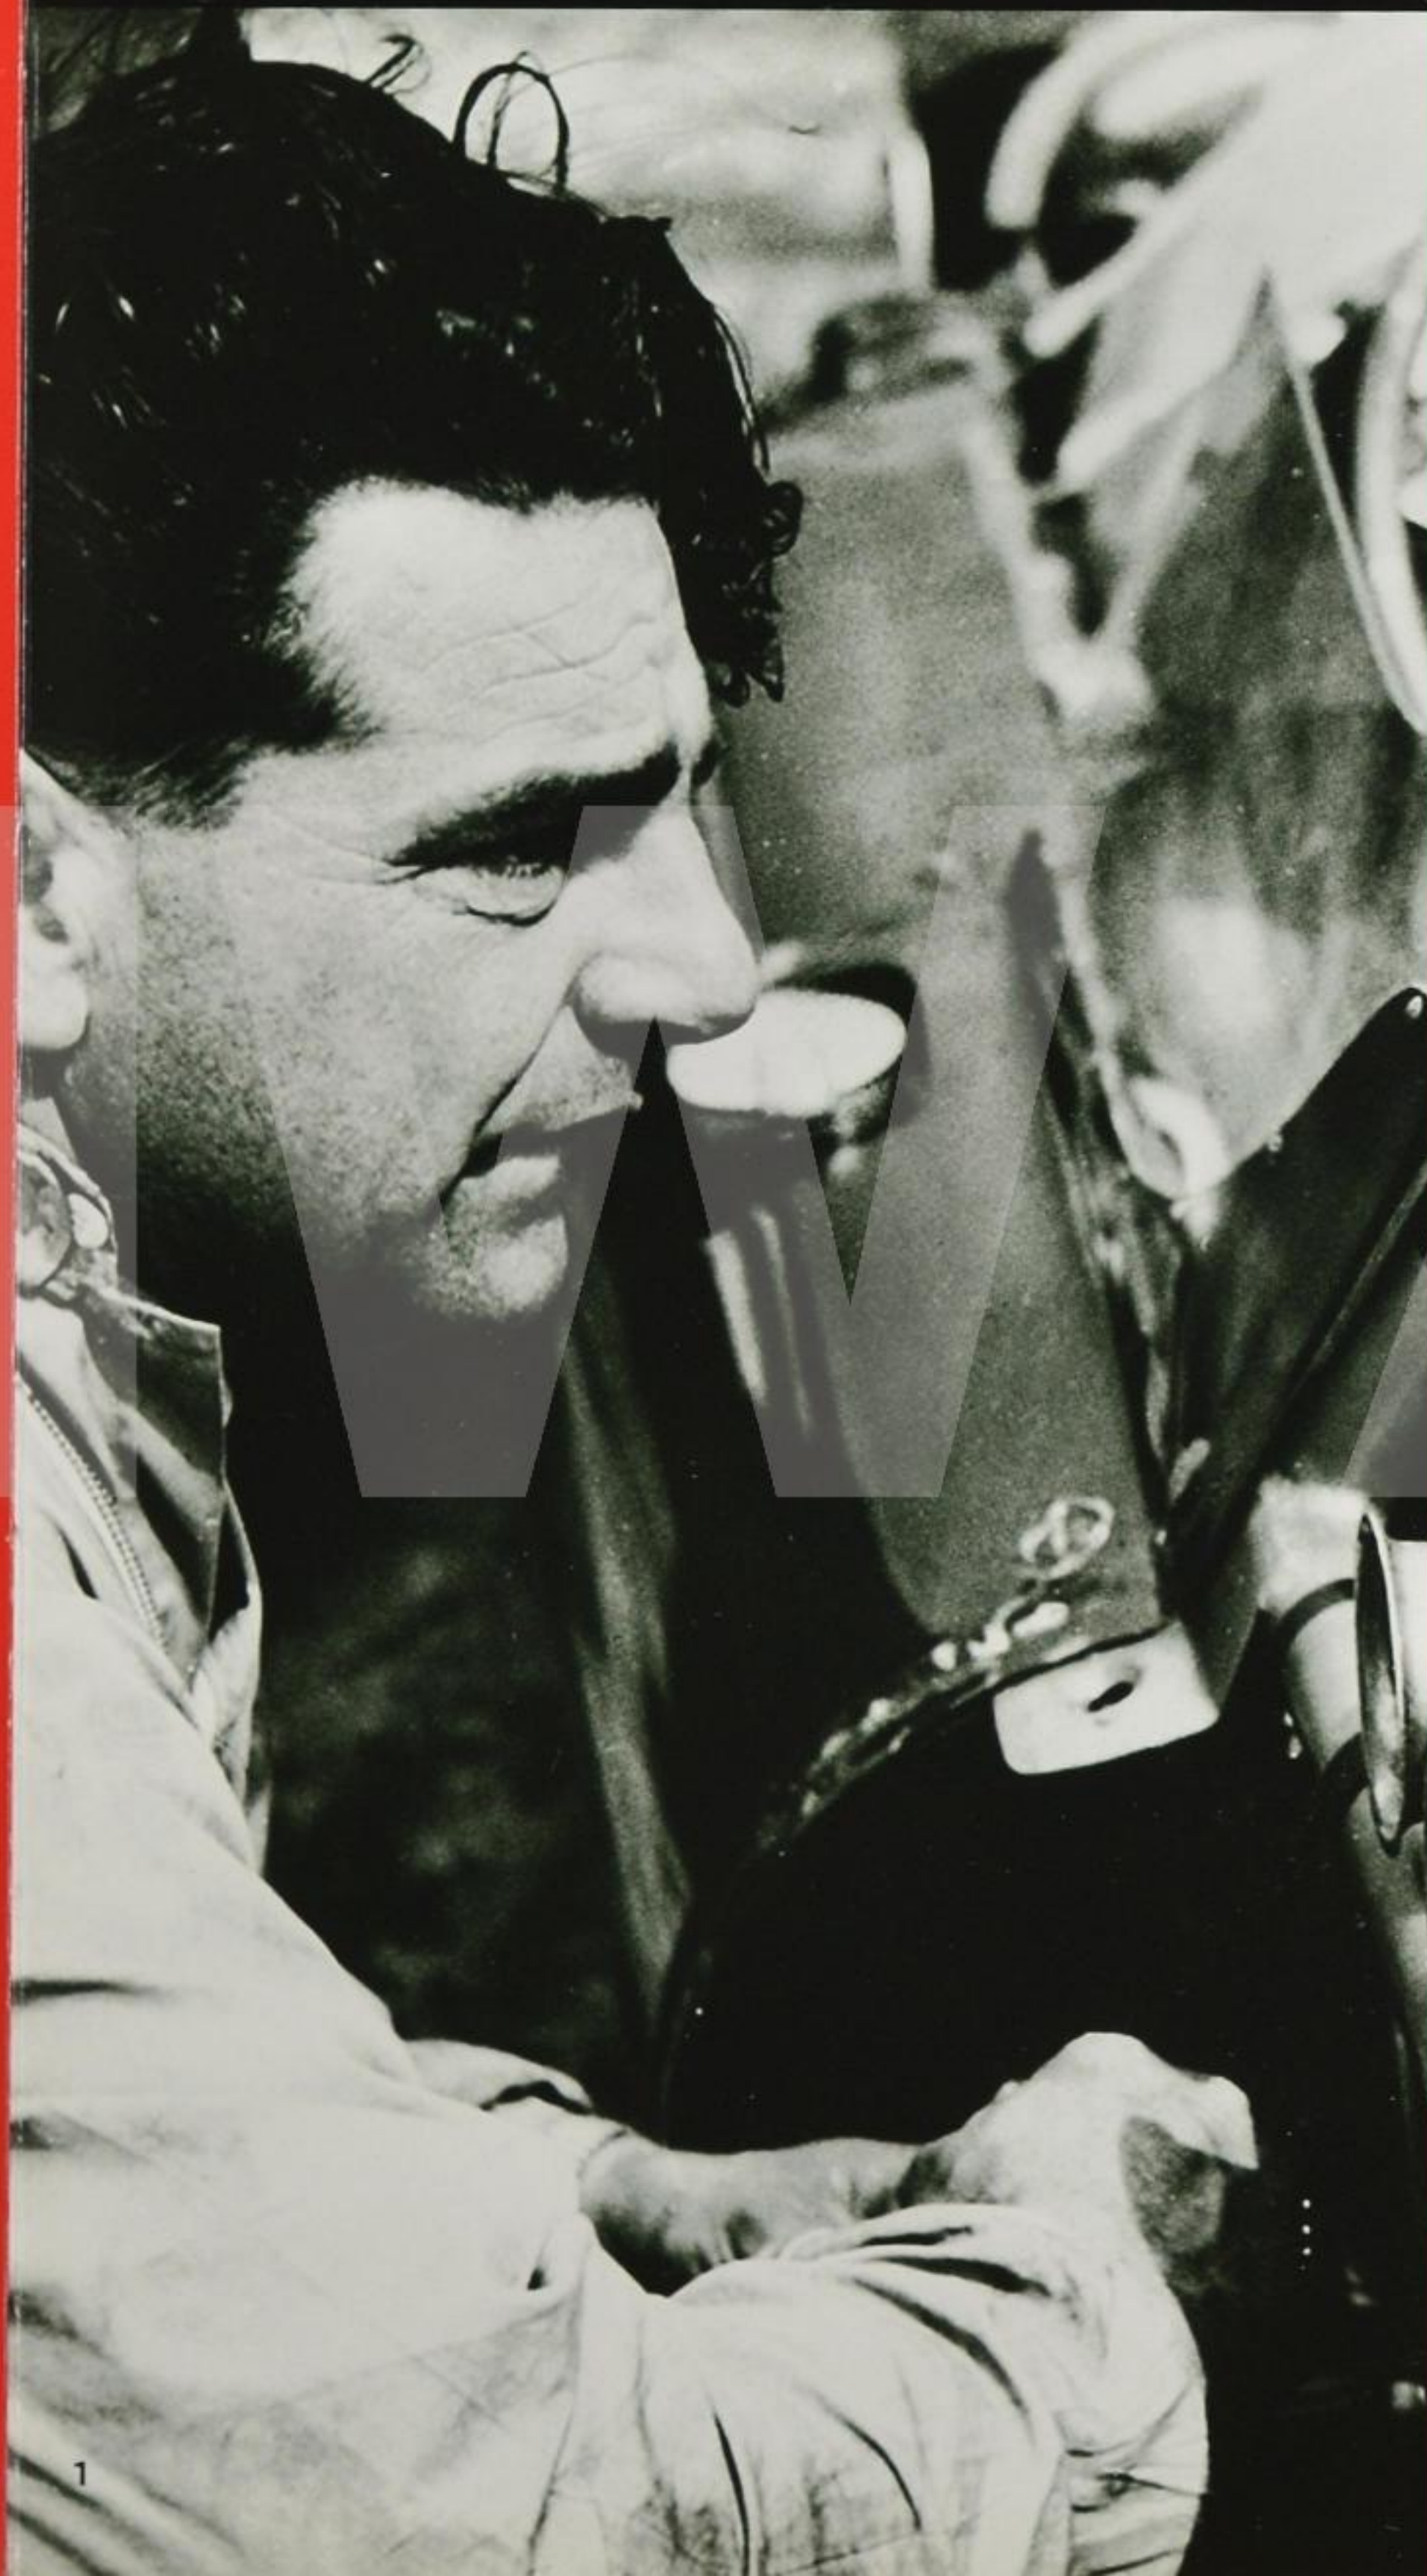

## THE LIFE AND TIMES OF A LEGEND.

John Newton Cooper, born in Kingston, England in 1923, was a motorsport legend in his own lifetime. In 1946, he founded the Cooper Car Company, and it quickly became Britain's premier racing manufacturer. By the mid-1960s, it could look back on 16 Formula One victories in just nine years.

## REVOLUTION, NOT EVOLUTION: THE MINI COOPER.

In 1959, the British public was amazed by the launch of the Mini. But they hadn't seen anything yet. Because two years later, John Cooper unveiled the Mini Cooper, which took the standard car and turned it into an exciting high-speed machine that drew on all his racing experience.

When the idea of a special edition of the new MINI was first floated, the company was re-founded as John Cooper Works to contribute all its years of racing experience and expertise. Today, John Cooper Works is synonymous with performance components designed especially for the MINI, combining 50 years of racing experience and engineering excellence with state-of-the-art manufacturing and testing techniques. As a result, a MINI fitted with a John Cooper Works tuning kit delivers passion you can feel, and power that is transformed directly into performance as soon as you touch the throttle.

MINI COOPER WORKS

## GET A GRIP.

### SUSPENSION TUNING.

The specially developed sports suspension ensures you can put the full power of the MINI down onto the tarmac. It also delivers outstanding roadholding – and of course, a unique driving experience. Painted in eye-catching Red, the system's short springs are more than just a design highlight. They also provide a stiffer ride, and lower the car by 10 millimetres.

By reducing body vibration, the chunky suspension cross-brace in the engine compartment further improves the stability of the MINI, while the high-performance braking system is further evidence of the importance professional tuners place on safety. Extra-large brake discs and Red-painted four-piston calipers work in combination with special brake linings to ensure highly effective braking even in extreme situations.

The sport brakes with perforated and slotted brake discs are sharp, direct and immediate – the kind of responses racers' dreams are made of. They are also equipped to deal with high temperatures, guaranteeing stability and reliability at all times.

- 1 Sports suspension
- 2 Suspension cross-brace
- 3 Sport brakes, 17-inch

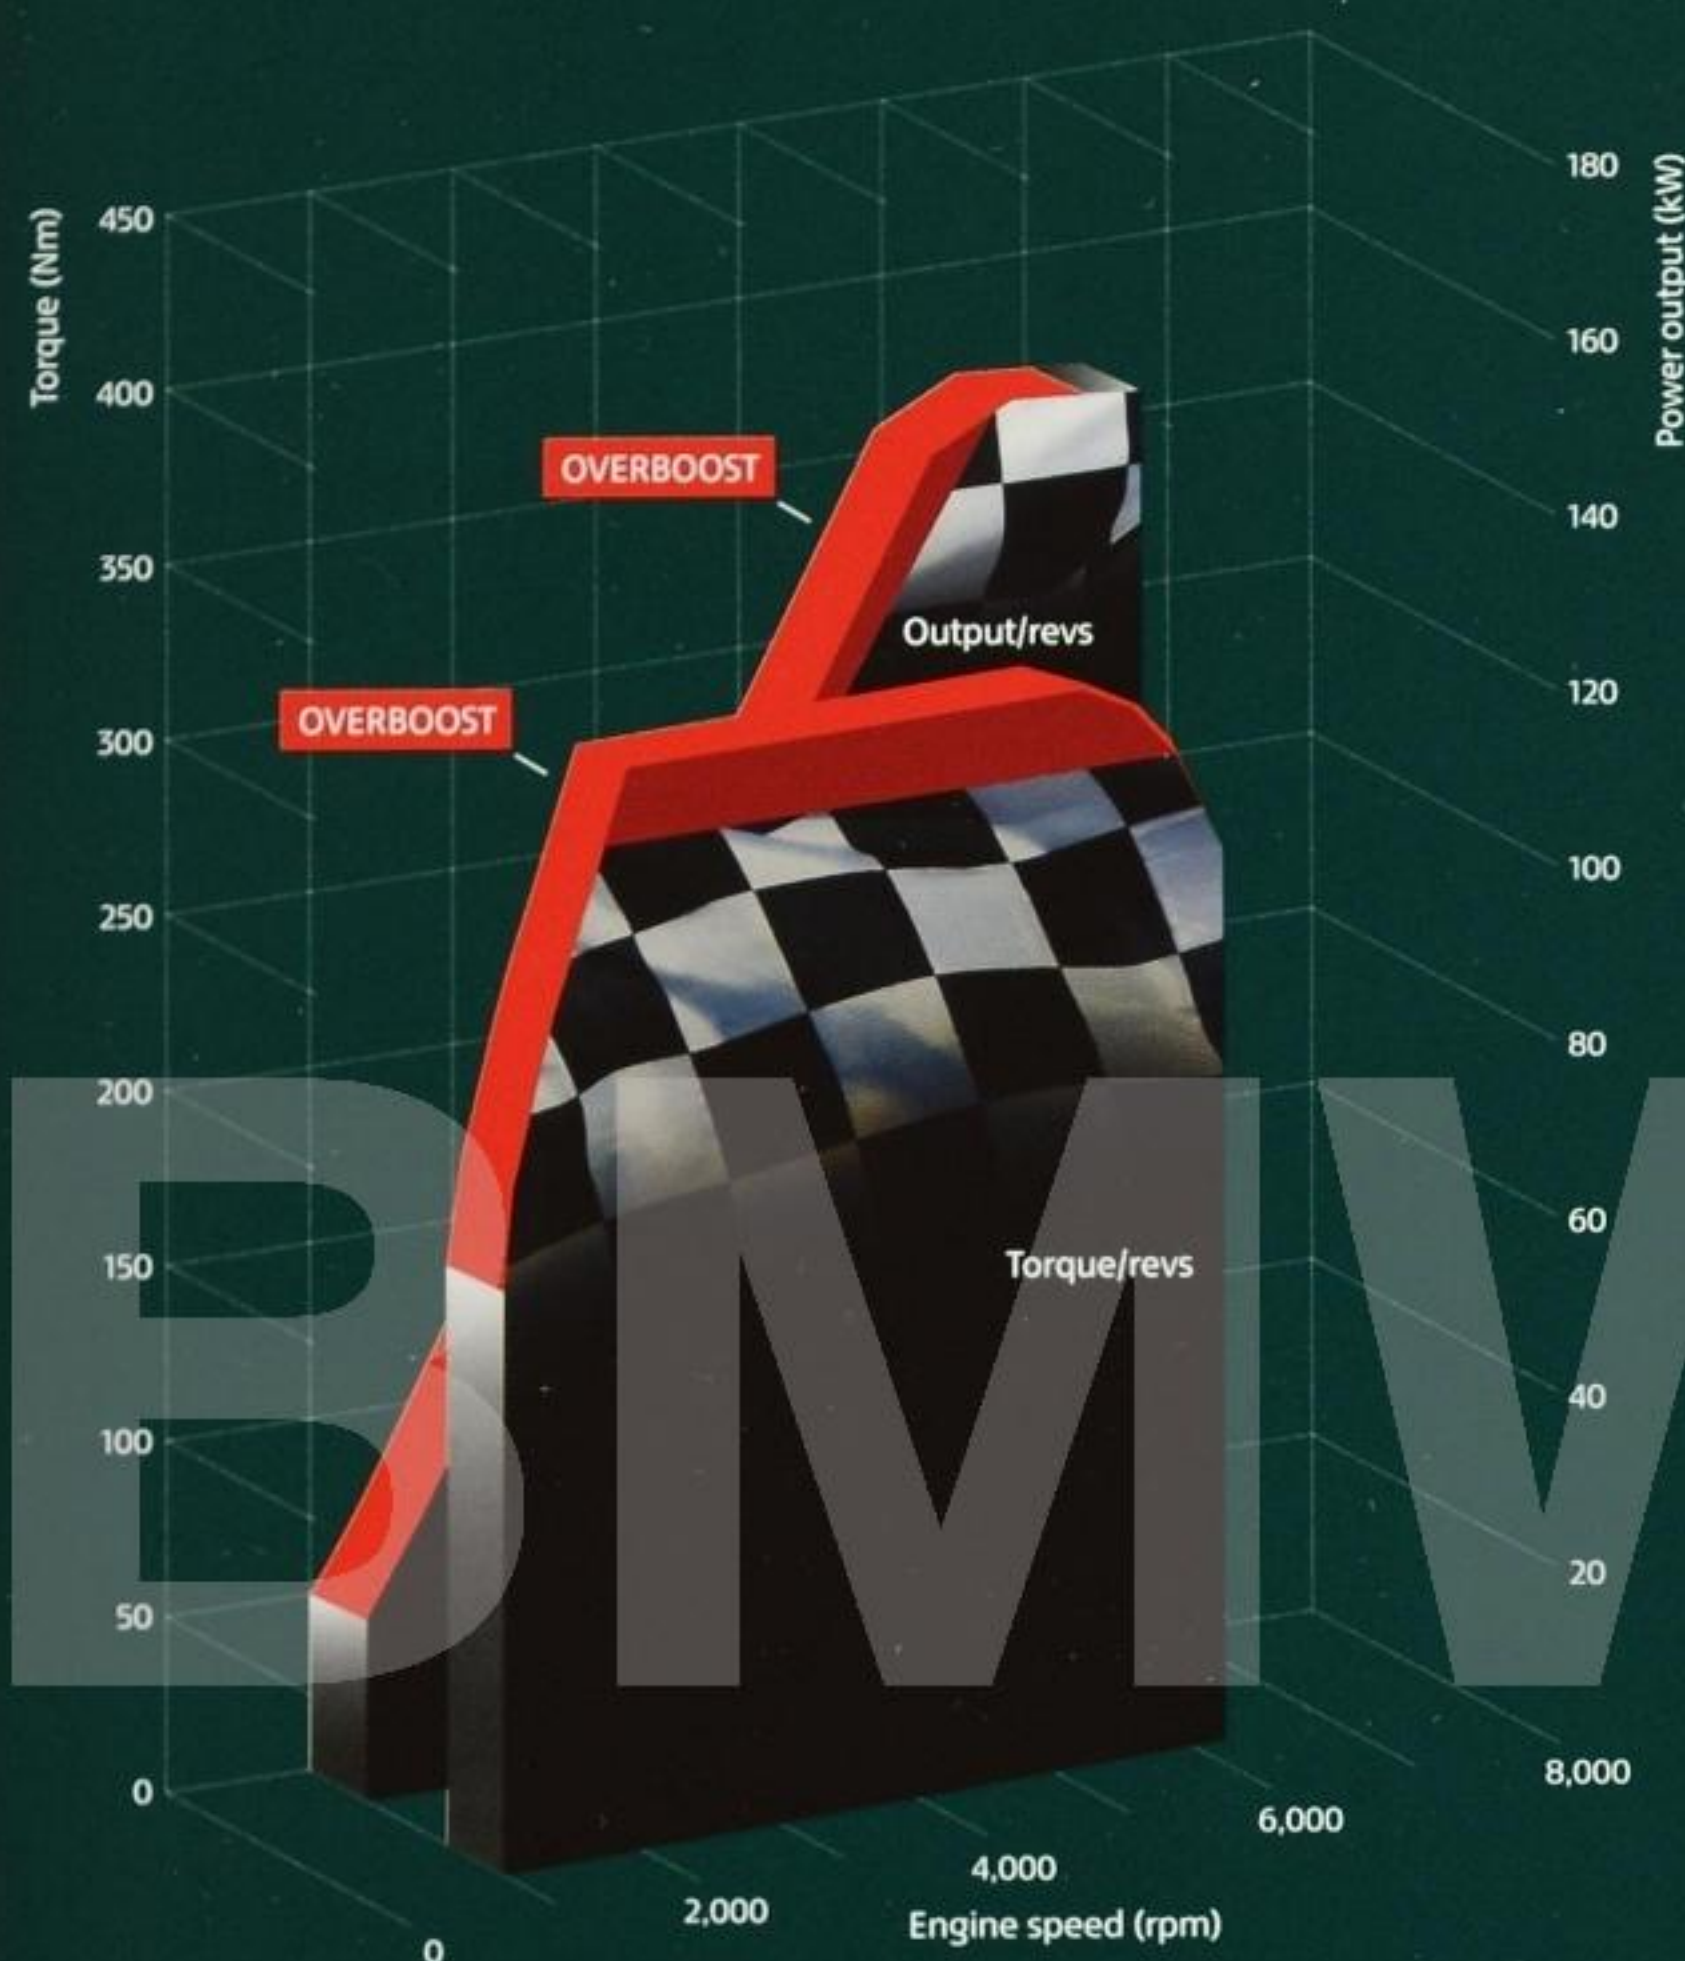

John Cooper Works Tuning can take even a MINI John Cooper Works to a higher level. For more information, visit the MINI website.

## PERFORMANCE DATA FOR MINI COOPER S WITH JOHN COOPER WORKS TUNING KIT.

### MINI Cooper S tuned by John Cooper Works: engine and vehicle performance data

	MINI Cooper S	MINI Cooper S Clubman	MINI Cooper S Convertible
Max. speed	234 km/h [230 km/h]	234 km/h [230 km/h]	232 km/h [228 km/h]
Acceleration 0–100 km/h	6.8 sec [7.0 sec]	7.2 sec [7.3 sec]	7.3 sec [7.4 sec]
Acceleration 80–120 km/h (4th/5th gear)	5.3 sec / 6.6 sec	5.6 sec / 7.2 sec	5.9 sec / 7.5 sec

All figures relate to vehicles with the standard six-speed manual transmission. Figures in square brackets relate to vehicles with six-speed automatic transmission.

## A WIN-WIN SITUATION.

### THE JOHN COOPER WORKS TUNING KIT.

John Cooper Works Tuning for the MINI, MINI Clubman and MINI Convertible is a winner any way you look at it – because it delivers the perfect balance between spine-tingling performance and safety. This is why every component of the John Cooper Works tuning kit is subjected to the most stringent testing imaginable, to ensure it meets the strict quality demands of professional engine tuning.

If the engine is the heart of the MINI, John Cooper Works makes it beat just that little bit faster. For example, the tuning kit boosts the output of the twin-scroll turbocharger in a MINI Cooper S with manual transmission to an incredible 147 kW (141 kW)<sup>1</sup>, with maximum torque of 250 Nm between 1,700 and 5,000 rpm (1,750 and 5,000 rpm)<sup>1</sup>. With the overboost function, 270 Nm can be achieved between 1,800 and 5,000 rpm (1,750 and 4,500 rpm)<sup>1</sup> – enough to take the MINI Cooper S from 0 to 100 km/h in just 6.8 seconds, and on to a maximum speed of 234 km/h (232 km/h)<sup>1</sup>.

The sport silencer, with its eye-catching tailpipe trims in Chrome and optimized exhaust gas routing, is not just a visual highlight, it also gives a throatier engine note. A specially developed air filter system which improves power delivery completes the kit.

The engine management software has been reconfigured so as to squeeze every last drop of power out of your MINI, ensuring it delivers invigorating acceleration right across the rev range.

As long as the installation is carried out by an authorized MINI Service Centre, tuning your MINI with John Cooper Works components does not affect the validity of your original warranty. Because every part and product used has proven its reliability and worth over thousands of test miles carried out under the harshest conditions.

- 1 Engine with optimized engine management
- 2 Tailpipe trims in Chrome
- 3 Air filter system

## THE LOOK OF POWER.

### LIGHT-ALLOY WHEELS.

All light-alloy wheels are weight-optimized and fitted with runflat tyres, offering the ultimate combination of driving enjoyment and peace of mind. Every single design has been subjected to stringent testing, ensuring impeccable performance and quality. Choose between finishes including Burnished, Brilliant Black and Matt Black. The closer you look, the more impressed you'll be. For an overview of all the products and variants available, take a look at the "At a glance" section on pages 12/13.

### EXTERIOR DESIGN COMPONENTS.

Even when a MINI with John Cooper Works Tuning components is not moving, its racing credentials are clear for all to see. The air intake on the bonnet features a trim in clear lacquered Carbon, and in combination with exterior mirror caps also in Carbon, it is the perfect visual expression of the power and performance of your MINI, MINI Clubman or MINI Convertible. The diffuser and tailgate handle are also made of the same high-tech material, and combine stylishly with the John Cooper Works side scuttles to highlight the striking, distinctive design of the MINI.

The indoor and outdoor car covers offer excellent protection for your MINI against dust, dirt and damp. And the Checkered Flag design reflects the motorsport pedigree of the car it conceals.

- 1 Exterior mirror caps in Carbon
- 1 Air intake trim in Carbon
- 1 Side scuttles
- 2 Indoor car cover for MINI
- 3 Cross Spoke R113 light-alloy wheel in Burnished Black
- 3 Cross Spoke Challenge R112 light-alloy wheel
- 3 Cross Spoke R113 light-alloy wheel in Brilliant Black
- 4 Cross Spoke R113 light-alloy wheel with Red Stripe
- 5 Double Spoke R105 light-alloy wheel, Burnished
- 6 Double Spoke Composite R109 light-alloy wheel

# THE INNER BEAUTY OF THE BEAST.

## INTERIOR DESIGN COMPONENTS.

As a motor racing enthusiast, you know the importance of a bespoke driving environment. Which is why you need a seat that's just right for you. Choose between high-quality leather and elegantly finished Alcantara (a matching handbrake grip, selector lever grip or gear lever knob, and sports steering wheel in leather or Alcantara can also be specified).

Featuring a lightweight plastic seat bucket and raised side bolsters, the sports seats offer outstanding support, compensating for the effect of centrifugal force in fast corners. They also ensure a safe and comfortable journey, incorporating side airbags, an easy access function and height adjustment between two settings. Three-setting seat heating is also available as an added luxury.

John Cooper Works Tuning offers superb quality and racetrack design. The sports steering wheel in leather or Alcantara with a Carbon trim looks as good as driving your MINI feels. The gear lever knob and handbrake grip in the same combination of materials emphasize the car's sport-style design, as do the interior trim finishers and interior door grips in Carbon. And with the additional instruments (radiator temperature, relative torque, and lateral acceleration gauges), you'll feel just like you're driving your John Cooper Works-tuned MINI for a top race team. Even the floor mats, with their woven metallic Checkered Flag design, take their inspiration from the world of motorsport, while the door sill finishers feature the John Cooper Works logo set in brushed stainless steel.

- 1 Sports steering wheel in Alcantara with Carbon trim
- 1 Gear lever knob and gaiter in Alcantara/Carbon
- 1 Interior surfaces in Carbon
- 1 Interior door grips in Carbon
- 2 Additional instruments with dials in Anthracite

- 3 Handbrake grip in leather/Carbon
- 4 Door sill finishers with logo, illuminated
- 5 Sports seats in Alcantara
- 6 Floor mats with Checkered Flag design

## THE WHEEL DEAL.

There's more to wheels than meets the eye. There's the attention to detail and knowledge required in various development and design stages that make our Original MINI light-alloy wheels special. Quality, driving enjoyment, comfort, safety – all these things come as standard when your authorized MINI Service Centre fits new wheels to your MINI.

**1 Cross Spoke Composite R90 light-alloy wheel in Brilliant Black**  
Size 7J x 17 inches, 205/45 R17 V runflat tyres.

**1 S-Spoke R85 light-alloy wheel in Chrome**  
Size 7J x 17 inches, 205/45 R17 V runflat tyres.

**1 Multi Spoke R108 light-alloy wheel in Matt Black**  
Size 7J x 17 inches, 205/45 R17 V runflat tyres.

**2 Double Spoke R99 light-alloy wheel, Polished**  
Size 7J x 17 inches, 205/45 R17 V runflat tyres.

**3 Snow chains**  
Specially designed for use with MINI tyres, the snow chains are easy to fit, and ensure optimum traction on snow and ice.

**4 Mud flaps**  
Protect your own car and following traffic from dirt and loose chippings. Available for front and rear.

More information on the available wheel/tyre combinations and winter complete wheels can be found on the pages at the back of this brochure, or in the Accessories section of the MINI website.

2

3

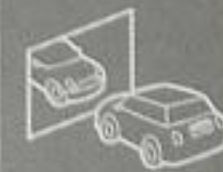

4

# CATCHES THE EYE, STEALS THE HEART.

2

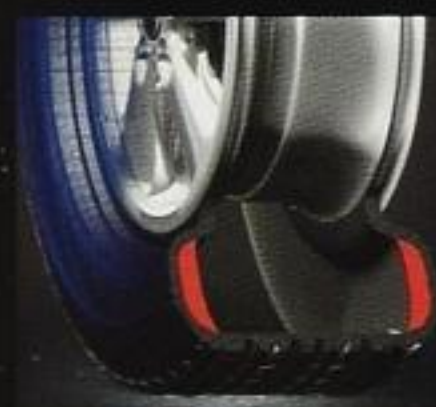

3

4

5

**RUNFLAT TYRES.** How can you keep driving after a puncture without changing the wheel? Easy. With runflat technology. The sidewalls of the tyres are specially reinforced and made of an extremely heat-resistant rubber compound. Together with humps on the rim, this prevents the tyre from detaching after a complete loss of pressure, even when cornering. As a result, there is no need to change the wheel. Depending on the load you are carrying, you can keep going at speeds of up to 80 km/h for between 150 and 800 kilometres.

Everywhere it goes, the MINI leaves a trail of broken hearts behind it. It doesn't mean to. But the truth is, Original MINI Accessories make it too gorgeous to resist.

**1 Double Spoke R99 light-alloy wheel in Silver**  
Size 7J x 17 inches, 205/45 R17 V runflat tyres.

## 1 Checkered Flag design for roof

The Checkered Flag design gives the MINI a unique look, with Black and White squares on the roof (Silver squares also available on MINI Clubman only). The decal extends to the dune lines at the side of the roof on the MINI Clubman.

## 1 Exterior mirror caps with Checkered Flag design

The perfect complement to the Checkered Flag roof design.

## 1 Additional headlights in Chrome

These round lights with a diameter of 140 millimetres are mounted in front of the radiator grille, and switched on when high-beam is activated.

## 1-3 Side scuttles

The striking side scuttles add the perfect finishing touch to your MINI. They are available in a choice of stylish designs and vibrant colours.

## 4+5 MINI valve caps

A small detail that makes a big impact. Available in a Black Jack (Fig. 4), Union Jack (Fig. 5) or Checkered Flag design.

# IT'S GETTING PERSONAL.

Stamp your personality on your MINI. Any MINI looks good, but by making it unmistakably yours, you'll ensure you're the centre of attention everywhere you go.

## **1 Union Jack design for roof**

Show your true colours. On the MINI Clubman, the decal extends to the dune lines at the side of the roof, making a striking impression from any angle.

## **2 Bonnet stripes**

Bonnet stripes in Black or White bring a touch of the racetrack to your MINI. For the MINI Clubman, the bonnet stripes are also available in Silver.

## **3 Wind deflector with built-in pockets**

The MINI wind deflector, with its brilliant anodized frame, doesn't just put an end to irritating draughts. Its built-in pockets, with rigid bases and Checkered Flag decoration, also offer additional storage space.

## **4 Indoor car cover for MINI Convertible**

Protects against dust and dirt. Made of a stretchable, antistatic material. Machine-washable at up to 30 degrees.

## **5 Exterior mirror caps with Union Jack design**

Quintessentially British. The perfect complement to the classic roof design.

## **5 Additional headlights in Black**

These round lights with a diameter of 140 millimetres are mounted in front of the radiator grille, and switched on when high-beam is activated.

## **5 Sport stripes**

Cutting a dash: sport stripes for the bonnet, tailgate and roof in White, Black, Red and Silver, available in various different combinations depending on the model.

# INTERIOR DESIGN.

## PERSONAL SPACE.

Close the door, and lose yourself in a little world of your own. A world where nothing is lacking, and everything is just the way you want it – thanks to Original MINI Accessories.

### 1 Sports steering wheel in Hot Chocolate leather

Deeply stylish: the Hot Chocolate colour makes a striking contrast in the interior. The optional multifunction buttons allow features such as cruise control and the radio to be operated. Not available in conjunction with the optional shift paddles.

### 1 Gear lever knob and gaiter in Hot Chocolate leather

Look good, feel good. A gear lever knob and gaiter in Hot Chocolate leather make the perfect finishing touch to the interior.

### 1+2 Handbrake grips

The handbrake grip and gaiter can be specified in Hot Chocolate (Fig. 1) or Redwood Red (Fig. 2) leather.

### 3 Glove compartment dividers

The glove compartment dividers create additional small compartments and make it easy to keep your CDs, books and maps neat and tidy.

### 4 Centre armrest with large storage compartment

The large storage compartment in the centre armrest is the perfect place for items you need to keep close at hand, like your sunglasses or wallet.

2

3

4

HOME IS WHERE MY HEART IS.

Looking good is easy – the real trick is to do it in your own unique style. But with Original MINI Accessories you can do just that, with a range of options that let the true character of both you and your MINI shine through.

#### 1 Interior surfaces in Checkered Flag design

Focused on the finish line: a Checkered Flag surface for the instrument panel gives the interior a real racetrack feel.

#### 1 Chrome Line Interior

A touch of sparkle for the interior of your MINI: the instruments, air vents in the instrument panel and the ring around the gear lever are all available in Chrome, as are the rings around the door handles, the loudspeaker trims in the doors and the cupholders in the front and back.

#### 1 Footrest and pedal pads in stainless steel

Emphasize the racing pedigree of your MINI.

#### 2+3 Rear-view mirror housings

The perfect complement to the classic roof design. Available in a Checkered Flag (Fig. 2), Union Jack (Fig. 3) or Black Jack design.

#### 4-6 Floor mat set

The MINI obsession with style and variety extends right down to the footwell. Floor mats are available in a choice of materials, and are supplied as sets of two for front and rear. Choose between Urban (Fig. 4) and Cosmopolitan (Fig. 5) designs, or go for the plain rubber version (Fig. 6).

#### 6 Door sill finishers (illuminated) with personalized lettering

Customize your MINI or MINI Convertible with personalized lettering, illuminated via electroluminescence technology (other door sill finishers are available in both illuminated and non-illuminated versions).

# THE ROAD IS YOUR PLAYGROUND.

Fitting and using the MINI baby and junior seats is child's play. And the decision to choose these Original MINI Accessories products is also exceptionally easy, thanks to quality, functionality and safety that is obvious at first glance. So you can be sure that in your MINI, your children are not just sitting comfortably, but safely too.

## **1 Sun screens for rear windscreen and side windows**

The sun screens have flexible sprung steel frames that ensure they fit snugly into the rear windscreen and rear side windows. When not in use, they can be folded up and carried in the compact storage bag supplied.

## **2 MINI baby seat 0+**

The baby seat is fitted facing away from the direction of travel, either in the back or, provided the airbag is deactivated, on the front passenger seat. Both sitting and reclining positions are fully adjustable, and a seat reducer is available as an option. The seat can be released from its mounting in seconds and used to carry your baby. With or without ISOFIX.

## **3 MINI junior seat II-III**

The MINI junior seat II-III has a height-adjustable backrest, ensuring optimum seat belt fit. It folds up for easier storage and transportation.

## **4 MINI junior seat I-II<sup>1</sup>**

The MINI junior seat I-II has a height and tilt-adjustable seat back, and a restraint cushion. It has been designed so it can also be used in cars fitted with the ISOFIX child seat mounting system.

<sup>1</sup> Bulldog toy available from the MINI Collection.

BMW AG

# MUSIC, COMMUNICATIONS AND TECHNOLOGY.

## DRIVE IT YOUR WAY.

Go your own way. Original MINI Accessories for navigation put you in complete control of how you reach your destination. After all, there are bound to be times when you want to take the scenic route – especially if you are enjoying the music from the Alpine hi-fi system.

### 1 Holder for Portable Navigation System

This adjustable holder for current Garmin portable navigation systems can be combined with a traffic information receiver, preventing a mess of wires for different devices. Supplied with an SD card containing vehicle icons, a directory of MINI Service Centres and wallpapers.

### 2 Alpine hi-fi system

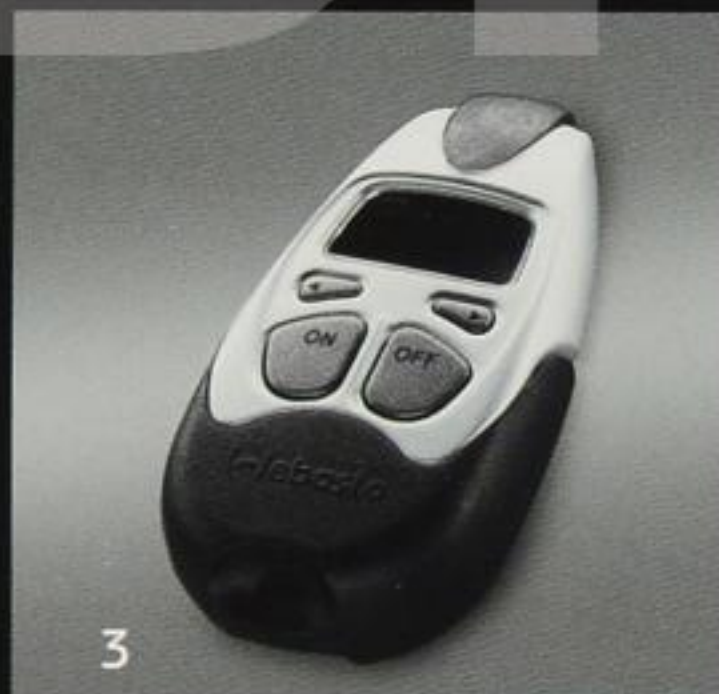

Significantly enhances audio performance. Includes a high-performance class-D amplifier, with bass, mid-range and tweeter speakers featuring an aluminium membrane for a clear, detailed sound. Easy to fit, with no change to the standard loudspeaker locations.

### 3+4 Auxiliary heating

In the winter months, auxiliary heating can bring the interior of the car up to a pleasant temperature before you even set off. Pre-heating of the coolant circuit also protects the engine from the effects of extreme cold and reduces fuel consumption. Activated via remote control (at a range of up to 1,000 metres) (Fig. 3), multifunction clock or ThermoCall (Fig. 4).

2

3

4

# SOUNDS LIKE FUN.

Original MINI Accessories for digital communications and entertainment are worth making a song and dance about. Choose the soundtrack to your own personal road movie every time you take the wheel. And thanks to the connectivity solutions on offer, you'll also be fully contactable at all times.

## **Mission Control (not shown)**

Let's talk MINI! Mission Control provides in-cockpit entertainment. It greets drivers, reacts to what they do (or don't do), tells them when their seatbelt isn't fastened, keeps them informed about the interior, exterior and engine temperature and even gives prompts on how to drive more fuel-efficiently. This new infotainment system comprises a control unit, connector cable and an SD card with an extensive English vocabulary stored on it.

### **1 CD changer**

Built into the storage compartment in the dashboard, it can hold up to six CDs. MP3-compatible.

### **2 Audio adapter for iPod/iPhone**

Using the adapter cable, you can connect your portable MP3 player or iPod/iPhone to the MINI Radio. On certain models, a video/audio adapter for the iPod/iPhone is also available.

### **3 Snap-in adapter**

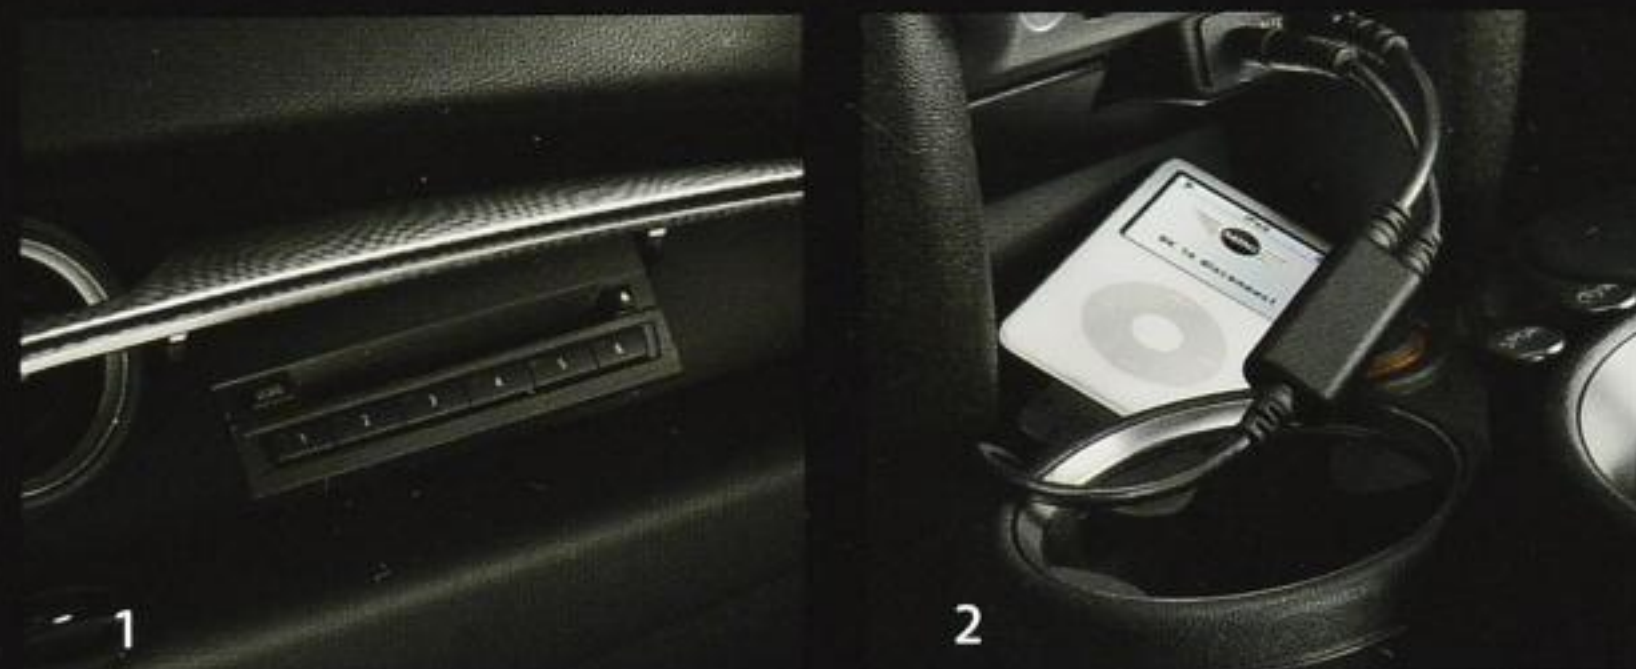

For the playback of music files stored on a mobile phone through the vehicle's audio system. It also charges the handset battery and ensures optimum reception. Available (with or without USB interface) for most current mobile phones from Apple, Nokia, Motorola, Sony Ericsson and Siemens, and for RIM BlackBerry® devices, subject to vehicle specification.

### **4 iPhone car kit**

A sturdy docking system for the Apple iPhone which charges its battery, and includes a built-in analogue audio interface for playback of music files through the vehicle's audio system. It is mounted directly in the driver's field of vision, making it easy to use automotive apps during the journey.

### **5 USB/iPod interface**

The USB/iPod interface enables an iPod, iPhone, MP3 player or USB memory stick to be connected directly to the vehicle's audio system. The names of the album, song and artist are shown on the radio display. Operation is via the multifunction steering wheel or the radio. The music device is stored safely out of sight in the glove compartment, and its battery charged from the vehicle electrics while the music plays. Available for vehicles with MINI Radio CD.

# LUGGAGE AND LEISURE.

## COMPLETELY ON TOP OF THINGS.

With Original MINI Accessories transportation solutions, your carrying capacity will go through the roof – or at least on it. Read on to discover the exciting possibilities of the various carrier systems on offer.

### **1 Aluminium rear-mounted rack, lockable**

The lockable rear-mounted rack can hold two bicycles. Where the rear-mounted rack preparation (sold separately) is fitted to the MINI Convertible, it can be attached in seconds to the tow eyelets. With anti-theft mounting. For models manufactured up to August 2010.

### **2-4 Roof rack base support system, lockable**

The support arms are made of high-strength, corrosion-resistant aluminium tubing, and with their anti-theft attachment mechanism, they meet the highest security standards. Usable width approximately 900 mm. Maximum roof load 75 kg.

### **2 Touring cycle holder, lockable**

A sturdy attachment for transporting a bicycle with a frame diameter of between 22 and 80 mm. A simple fastening system makes it quick and easy to put the bike into the holder. The wheel is secured via a screw mechanism. Also suitable for mountain bikes.

### **3 Roof box**

With central locking. The bottom casing is Black, and the top casing is Silver Metallic. Dimensions (LxBxH): 1,900x630x360 mm. Capacity approx. 350 litres. Weight approx. 16 kg.

### **4 Ski and snowboard holder, lockable**

Holds two snowboards and two pairs of skis, or up to six pairs of skis. There is also space for ski poles.

With Original MINI Accessories, you can maximize your carrying capacity. Making it loads easier to carry your loads. And allowing those who usually go on four legs to travel on four wheels in equal style.

**1 Luggage compartment tray**

With two adjustable dividers and a reversible cover, with a Union Jack design on one side and an anti-slip coating on the other. Shatterproof and acid-resistant. When the rear bench is folded down and the luggage compartment tray is covered, they form a continuous flat loading surface.

**2 Luggage compartment mat, fitted**

The rubber fitted luggage compartment mat prevents your load from sliding around.

**3 Protective rear cover**

The water and dirt-repellent protective rear cover protects the rear seat bench and backrest, and the side trim panels.

**4 Protective bootspace cover with Checkered Flag design**

The protective bootspace cover with Checkered Flag design doesn't just make life more comfortable for your four-legged friend. It protects the luggage area of your MINI against dirt and damp, whether or not the rear seats are folded down.

**4 MINI coolbag**

This CFC-free electric cooler has a capacity of 12 litres, and keeps its contents at a temperature approximately 20°C below that in the vehicle interior. The design is pretty cool as well, with MINI lettering on the front.

**LOADS BETTER.**
