

**MINI JOHN COOPER WORKS.
MINI JOHN COOPER WORKS CLUBMAN.
MINI JOHN COOPER WORKS CABRIO.**

RACING IS IN OUR BLOOD

A glorious history that includes two Formula One world championships and three victories in the Monte Carlo rally is continued today by the MINI John Cooper Works. Experience a legend reborn.

John Cooper: a driver of legendary skill, a builder of legendary cars. In the 1950s and 60s, he ushered in a new era in racing car construction – and laid the foundations for John Cooper Works. Today's third-generation MINI John Cooper Works, MINI John Cooper Works Clubman and MINI John Cooper Works Cabrio have lost none of their predecessors' magic. Perfectly assured through corners, and with breathtaking acceleration on the straights, they prove once again that engineering genius and racing spirit make an unbeatable combination. And in the MINI John Cooper Works Cabrio, there is also the added bonus of a completely pure open-top driving experience. Only one thing can taint the pleasure of being in these cars – the knowledge that eventually you'll have to get out.

POWER

BMW

DESIGNED TO PERFORM –
BUILT TO BE ENJOYED.

Start the ignition – and already the engine is straining at the leash.
Touch the accelerator, and feel it go.
Every yard you drive is like a shot of adrenalin.

Vehicle illustrated features John Cooper Works accessories.

Resistance is futile: the 17-inch Cross Spoke CHALLENGE alloy wheels are for drivers who know exactly what they want. The sport brakes deliver awesome stopping power. Because you can push harder when you know you can stop.

CONFIDENCE

**SOMETIMES YOU NEED TO LOSE SPEED –
BUT YOU’LL NEVER LOSE THE PASSION.**

CHARACTER

BMW

» RULES THE ROAD –
BLOWS THE MIND.

You'll have to decide between three distinctive models, the MINI John Cooper Works, the MINI John Cooper Works Clubman and the MINI John Cooper Works Cabrio. Although you've already made the most important decision – that enjoyment is not just part of driving, it is driving.

Think you know your limits? Then you haven't experienced the MINI John Cooper Works Cabrio. Its combination of high performance and pure go-kart feeling challenges you to really open up and fully express yourself.

AC
LIBERTY

**NO ROOF –
NO LIMITS.**

DETAILS

LEAPS TO THE EYE –
MAKES THE HEART LEAP.

The sport exhaust double tailpipes and red brake calipers catch the eye.

And the instantaneous responses of the engine will make you catch your breath – as will the incredible traction and dynamic cornering made possible by DTC with Electronic Differential Lock Control. This is technology that dazzles.

Sound as good as they look:
the sport exhaust double
tailpipes.

Sporty and stylish: the 17-inch
Cross Spoke CHALLENGE alloy
wheel.

Reassuring power: the red
brake calipers.

Built to perform: the engine.

Wearing its heritage with
pride: the John Cooper Works
badge.

GEAR LEVER KNOB

The 6-speed manual transmission is designed for short, positive, precise gear shifts. The red gear shift pattern is a particularly attractive John Cooper Works feature.

SILL FINISHERS

Passion and principles without compromise: step into the world of John Cooper Works.

ENGINE

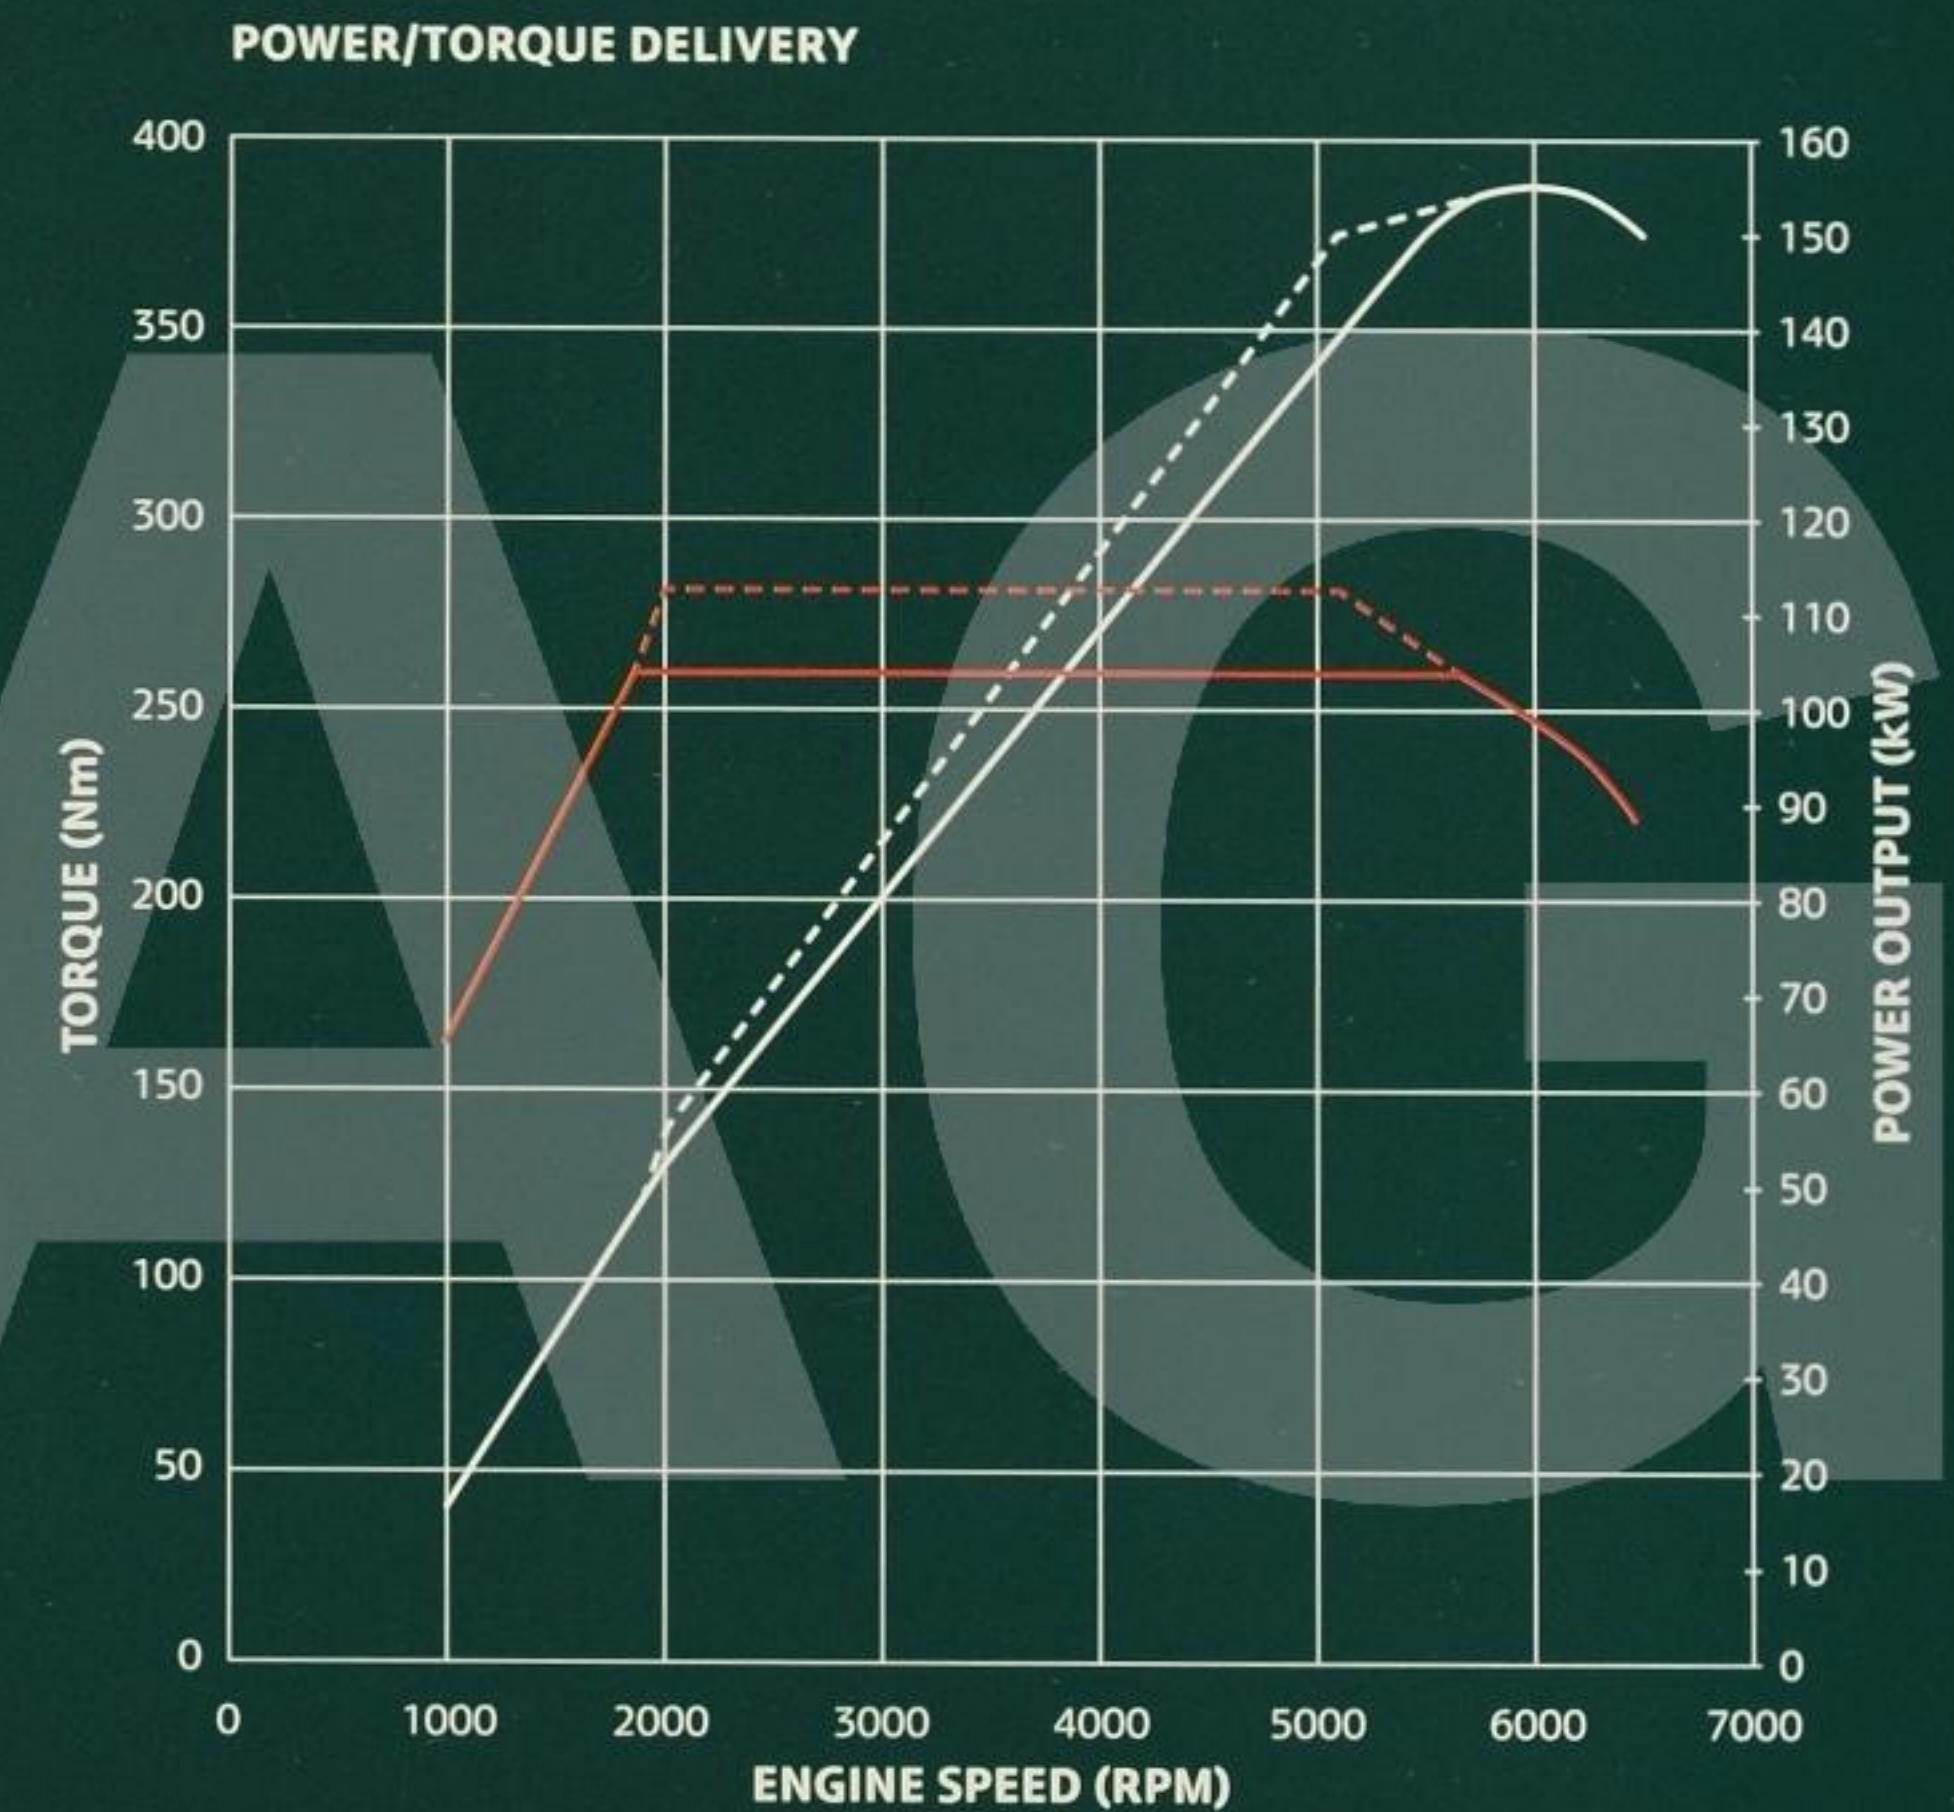

EQUIPMENT | DESIGN AND TECHNOLOGY

» THE PRODUCT OF PASSION – THE PRODUCER OF 155 kW.

Built to perform: the engine delivers instant power as soon as you touch the accelerator. Every component has been proven in a punishing testing programme. Bet you can't wait to get started.

¹ With overboost function.

RESTRAINT SYSTEM

A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

AIRBAGS

The MINI John Cooper Works and MINI John Cooper Works Clubman are fitted with six airbags as standard, and the MINI John Cooper Works Cabrio features four.

Driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags (head/thorax airbags in the MINI John Cooper Works Cabrio) are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

BODY

The body has been reinforced at strategic points, guaranteeing excellent torsional rigidity for an extremely robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

CHASSIS

The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with excellent cornering ability at all speeds, plus superb traction and outstanding safety.

PROTECTION

**WHATEVER HAPPENS –
YOU'RE IN SAFE HANDS.**

IDENTITY

Eye-catching: the aerodynamic kit includes a front apron and side skirts.

EQUIPMENT | ACCESSORIES

Racing spirit: the rear apron and the diffuser in carbon.

Pure racing spirit: the aerodynamic kit in body colour for the MINI John Cooper Works models. The front apron features a black ventilation grille and fog lights surrounded by fins, while the imposing side skirts incorporate sports-style air vents. At the back of the car, there is a striking rear apron with black fins above the rear fog lights, and, as an option, a painted black band in body colour. A rear spoiler* enhances aerodynamic performance. Chrome-plated side scuttles and various carbon elements – the air intake trim, exterior mirror caps, diffuser and tailgate handle – complete the effect.

**A GRAND PASSION –
AND ONE THAT EXTENDS TO THE SMALLEST DETAILS.**

Rear spoiler*

Air intake trim in carbon

Side scuttles

Exterior mirror caps in carbon

* Only available on MINI John Cooper Works.

EQUIPMENT | ACCESSORIES

Making a powerful statement: the sport stripes and the R113 Cross Spoke alloy wheels in the 7 J x 18-inch size with 205/40 R 18 runflat tyres, available in either brilliant black or a burnished finish. The R114 Cross Spoke winter wheel-and-tyre assembly (in the 5.5 J x 17-inch size, with 185/50 R 17 runflat tyre) is compatible with snow chains for extra grip on icy roads. Stopping power is provided by the 17-inch sport brakes with cross-drilled discs. The John Cooper Works sport suspension* enables you to harness the full power of your MINI, with components specially designed to provide optimum roadholding. The short, extremely stiff coil springs are painted a striking red, and lower the suspension by 10 millimetres. The suspension cross-brace makes the car more stable at speed by reducing body vibration. And the indoor car cover* protects against dust and dirt – while showing that you can leave a racy impression even when you're not moving.

Powerful: the R113 Cross Spoke alloy wheel in the 7 J x 18-inch size with cross-drilled brake discs.

Show your racing credentials: the aerodynamic kit and sport stripes.

* Only available on MINI John Cooper Works.

EQUIPMENT | ACCESSORIES

The perfect finishing touch: interior trim strips in carbon with a steering wheel in Alcantara/carbon.

At the heart of the driving experience: upgrade the cockpit of your MINI with sport seats* in Alcantara or leather. The bucket design features a lightweight plastic frame and pronounced side bolsters for excellent lateral support when cornering at speed. To complement your sport seats, the sport steering wheel, gear lever knob and handbrake grip are also available in Alcantara or leather, trimmed with carbon elements. Interior trim strips and door grips likewise in carbon complete the race-car ambience of the cockpit. And to enhance driving enjoyment still further, there is the Gear Shift Indicator – mounted directly in the driver's line of sight, it indicates which gear to select for maximum acceleration. Floor mats with the Checkered Flag design add an extra dash of racetrack style. All that remains is for you to climb in and hit the road.

Gear lever knob in Alcantara/carbon
