

MINI ONE. MINI ONE D. MINI COOPER. MINI COOPER D. MINI COOPER S.

GET INVOLVED.

Now every street's a new adventure. The low centre of gravity makes the MINI One incredibly agile, turning the road into your personal go-kart track. Whether you choose the MINI One (55 kW or 70 kW) or the new MINI One D (66 kW), all you have to do is climb in and let the fun begin.

Optional equipment illustrated:

Chrome Line Exterior

Details of fuel consumption and CO₂ emissions for all models, as required under EU law, can be found in the Technical Data section.

ALL SYSTEMS GO.

Giving it all it's got: the 1.6-litre, 16-valve engine of the MINI Cooper pulls hard even at low revs. And its impressive performance is combined with excellent fuel economy, thanks to technologies such as fully variable valve timing.

Optional equipment illustrated:

- Chrome Line Exterior
- Roof spoiler
- Bonnet stripes in White
- Bi-xenon headlights
- Fog lights
- 5-Star Blaster light-alloy rims

Accessories illustrated:

- Roof sticker with Union Jack design
- Exterior mirror caps with Union Jack design

PLAYING WITH THE BIG BOYS.

The rev counter whizzes upwards: the twin-scroll turbo of the MINI Cooper S delivers an instant performance boost, for a maximum output of 175 hp (128 kW). Incredible responses. Incredible roadholding. And an incredible sound. And inside, things are every bit as exciting: 100% practical, 100% fun, 100% MINI.

Optional equipment illustrated:

- Bonnet stripes in White
- Bi-xenon headlights
- Fog lights
- Sport seats
- Ray cloth/leather in Pacific Blue
- Interior surfaces in Fluid Silver
- Radio Boost CD
- Air conditioning

1 SINGLE-JOINT SPRING-STRUT FRONT AXLE. Where the fun begins. Two drive shafts of equal length in the front suspension minimize the extent to which the drive train interferes with the steering, and optimize the car's cornering, acceleration and braking.

2 MULTIPLE-CONTROL-ARM REAR AXLE. Unique in a car of its class, ensuring optimum contact between the wheels and the road, for the best possible traction. Aluminium construction keeps weight to a minimum and increases agility.

3 RACK-AND-PINION STEERING. A turn for the better. Electronic power assist ensures outstanding steering response, with the driver receiving precise and involving feedback. The stiffness of the steering wheel adjusts to the speed of the car, for easier steering at low and high speeds alike. For maximum comfort, it is only 2.4 turns from full lock to full lock.

4 ENGINES THAT GIVE A UNIQUE DRIVING EXPERIENCE.

MINI One: the 1.4-litre unit develops a lively 75 or 95 hp (55 or 70 kW), and a maximum torque of 120 or 140 Nm. Fully variable valve timing makes the engine highly efficient and reduces emissions.

MINI One D: featuring common-rail technology, a virtually lag-free turbo and particulate filter as standard. With 90 hp (66 kW), 215 Nm of torque and average fuel consumption of just 3.9 litres per 100 kilometres, diesels have never been so much fun.

MINI Cooper: the figures – 120 hp (88 kW), 160 Nm, 203 km/h. The feeling – instantaneous reaction to the accelerator, but a fuel consumption of just 5.4 litres per 100 kilometres, thanks to fully variable valve timing.

MINI Cooper D: the common-rail diesel engine with particulate filter as standard pumps out 110 hp (80 kW), and the overboost function delivers up to 260 Nm of torque, for maximum acceleration. Yet fuel consumption is just 3.9 litres per 100 kilometres.

MINI Cooper S: the twin-scroll turbo produces 175 hp (128 kW) of power, and the overboost function delivers 260 Nm of torque. In practical terms, that means 0 to 100 km/h in 7.1 seconds, and a top speed of 225 km/h.

MINIMALISM. LESS IS MORE.

Cutting out the fumes needn't mean cutting out the fun. And this is equally true for all MINI models, whether they run on petrol or diesel. The MINI One D and MINI Cooper D use just 3.9 litres of fuel per 100 kilometres, and emit only 104 grams of CO₂ per kilometre, while for the MINI One (55 kW/70 kW), MINI Cooper, and MINI Cooper S, the figures are 5.3 litres (128 grams), 5.4 litres (129 grams) and 6.4 litres (149 grams) respectively. This is made possible by a range of innovative technologies.

1 AUTOMATIC START-STOP FUNCTION. The Automatic Start-Stop Function (manual transmission only) means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2 SHIFT POINT DISPLAY. The Shift Point Display (manual transmission only) tells you via instructions in the revolution counter display what gear you should be in to maximize fuel economy, reducing your emissions and your expenditure on fuel. Clever or what?

3 BRAKE ENERGY REGENERATION. Brake Energy Regeneration uses Intelligent Alternator Control to convert unneeded braking force into electricity. When the driver's foot is not on the gas, more energy is diverted to charging the battery than when the car is under acceleration.

1 DSC AND DTC. Fitted as standard, **Dynamic Stability Control (DSC)** counteracts vehicle instability by intervening in the engine management and applying braking force to individual wheels at front and rear as necessary. DSC also includes hill assist. The optional **Dynamic Traction Control (DTC)** with Electronic Differential Lock Control (EDLC) gives drivers the option to make more of the car's natural handling, by delaying interventions in engine

management and braking until the last possible moment. As a result, skilled drivers can still use the accelerator pedal to powerslide – although should the inner wheel lose too much traction, EDLC will apply braking to it, ensuring the car maintains forward momentum through corners and on surfaces with variable levels of grip. Braking interventions on the rear axle also help the car to hold its line when cornering.

2 BODY. The body of the MINI has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

3 SUSPENSION. The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity result in the unmistakable MINI feeling: stable, agile, with optimum cornering ability at all speeds, plus superb traction and outstanding safety.

CONCEPT AND SAFETY.

1 RESTRAINT SYSTEM. A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

ISOFIX. To ensure the safety of younger passengers, up to two ISOFIX child seats can be mounted in the rear.

EURO NCAP CRASH TEST. In the Euro NCAP crash test, the MINI scored the maximum possible five stars. The level of protection for passengers and driver was rated as excellent in front, side and pole impacts, and child safety too is well above average.

2 AIRBAGS. The MINI is fitted with six airbags as standard: driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

3 REINFORCED PANELS. These elements are built into the side skirt areas and upper and middle parts of the doors to increase structural rigidity and protect passengers in the event of a collision.

MODELS.

MINI ONE. MINI ONE D.

The centre of attention: the chrome surround of the radiator grille and the 3D-look air inlet make you eager for more. And that's what you get, with the roof spoiler, radiator grille and tailgate handle in Black and mirror caps in Matt Black all combining to make the MINI One completely unmistakable.

MINI COOPER. MINI COOPER D.

A striking presence: with its classic chrome-plated radiator grille, roof in contrasting colour, chrome exhaust and roof spoiler, the MINI Cooper is one to watch out for.

MINI COOPER S.

It could only be the MINI Cooper S: a powerful air inlet in the bonnet, and a racy radiator grille in a hexagon look, plus a chrome-plated double-pipe exhaust system and a striking roof spoiler – this is a car that knows how to make hearts beat faster.

EXTERIOR DESIGN AND WHEELS.

Steel rims

5-Star Spooler light-alloy rims

Rotator Spoke light-alloy rims

Bridge Spoke light-alloy rims*

5-Star Blaster light-alloy rims

5-Winder light-alloy rims

Crown Spoke light-alloy rims*

Flame Spoke light-alloy rims

Web Spoke light-alloy rims

1 The MINI One and MINI One D are fitted as standard with **steel rims** including hubcaps. They come in the 5.5 J x 15-inch size with 175/65 R 15 tyres.

2 The MINI Cooper and MINI Cooper D have **5-Star Spooler light-alloy rims** as standard, in the 5.5 J x 15-inch size with 175/65 R 15 tyres.

3 The **Rotator Spoke light-alloy rims** are available as an optional extra. They come in the 5.5 J x 15-inch size with 175/65 R 15 tyres.

4 5 The optional **Bridge Spoke*** and **5-Star Blaster light-alloy rims** come in the 6.5 J x 16-inch size with 195/55 R 16 tyres.

6 The MINI Cooper S is fitted as standard with **5-Winder light-alloy rims** in the 6.5 J x 16-inch size with 195/55 R 16 tyres.

7 8 The expressively styled **Crown Spoke*** and **Flame Spoke light-alloy rims** come in the 7 J x 17-inch size with 205/45 R 17 tyres.

9 The **Web Spoke light-alloy rims** feature a composite design, the two parts being bolted together. They come in the 7 J x 17-inch size, with 205/45 R 17 tyres, and are also available in a two-tone Black finish.

In addition to the factory-fitted wheel sets, certain wheel designs are also available as winter wheel-and-tyre assemblies.

* These light-alloy rims are also optionally available in White or Black

Aerodynamic package

Aerodynamic package

Roof spoiler

MINI Cooper S roof spoiler

Bi-xenon headlights

4-9 RSC tyres with runflat properties. The optional runflat tyres are designed in such a way that the car can keep driving in the event of a sudden loss of tyre pressure. Even with a completely flat tyre, it can continue for up to 150 kilometres at speeds as high as 80 km/h.

10 11 With the factory-fitted **aerodynamic package**, the modified front and rear aprons, radiator grille slats and tailgate handle are all painted in body colour. Not only do these components give the MINI a thoroughbred sports-car look, but their optimized aerodynamics also enhance the driving experience. From the side too, the aerodynamic package's special side skirts

and side reflectors in orange, together with the painted wheel arches, make the car seem more dynamic. On the MINI One, MINI One D, MINI Cooper and MINI Cooper D, the package also includes the optional roof spoiler.

12 13 The **roof spoiler** is painted the same colour as the roof, and reflects the sporty character of the MINI. The MINI Cooper S has its own unique design of spoiler, fitting perfectly into the line of the roof.

14 The optional **bi-xenon headlights** for low and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

INTERIOR DESIGN.

Interior surfaces in Fine White Silver

Interior surfaces in Checkered design

Interior surfaces in Fluid Silver

Interior surfaces in Piano Black

Interior surfaces in English Oak (genuine)

Interior surfaces in Brushed Alloy (genuine)

1 The interior surfaces of the MINI One, MINI One D, MINI Cooper and MINI Cooper D are finished as standard in Fine White Silver. The elliptical door ring is in Carbon Black. Illustration shows standard two-spoke steering wheel.

2 In the MINI Cooper S, the interior surfaces are finished as standard in a Checkered design, as is the door ring. Illustration shows two-spoke leather steering wheel.

3 4 Other options for the interior surfaces and door ring are Fluid Silver and Piano Black. Illustrations show three-spoke sport steering wheel in leather with/without multifunction option.

5 6 The interior surfaces and door grips are also optionally available in English Oak or Brushed Alloy. With the English Oak option, the elliptical door ring is in Piano Black, while with Brushed Alloy it is in Grey Silver Matt. Fig. 5 shows the three-spoke sport steering wheel with wooden rim and multifunction option. Fig. 6 shows the three-spoke sport steering wheel in leather with multifunction option and shift paddles.

Light package

Light package

Automatic air conditioning and seat heating

Storage package

7 8 The light package includes handle-area illumination in the door trim, reading and footwell lights in the front, illuminated vanity mirrors, a central interior light in the headliner and colour-adjustable (orange/blue) ambient lighting for the door handles, storage compartments in the doors, B-pillar trim and soft-light on the instrument panel.

9 Automatic air conditioning rapidly adjusts the interior temperature to the desired level, and then keeps it constant. An integrated active carbon filter protects passengers against unpleasant odours from outside. The seat heating option allows both the driver and front-seat passenger to choose between three seat temperature settings.

10 The storage package includes a storage compartment in the decor surface on the passenger side, and a storage net in the front passenger footwell, plus a floor net, a separate lateral separating net and a 12-volt socket in the luggage compartment. In addition, there is also a separate angle adjustment for both halves of the rear backrest (cargo position).

INTERIOR DESIGN.

MINI navigation system

6-speed Automatic Transmission Steptronic

Sport button

Shift paddles on sport steering wheel in leather

Extended connectivity of music player in mobile phone

Harman Kardon hi-fi system

USB audio interface

Harman Kardon hi-fi system

1 The **MINI navigation system** features a 16:9 monitor in the round central instrument, and includes the Radio Boost CD, on-board computer and a speedometer around the outside. It directs you to your destination via voice instructions, directional arrows and/or on-screen maps.

2 Pressing the **Sport button** further increases the responsiveness of the steering and accelerator pedal, for a genuine track-style driving experience.

3 4 The optional **6-speed Automatic Transmission Steptronic** makes gear changes easier, and – in Steptronic mode – decidedly sporty. On the MINI Cooper S, the 6-speed Automatic Transmission Steptronic comes with two **shift paddles on the sport steering wheel in leather** in addition to the selector lever (paddles are available as an option on the MINI One, MINI Cooper and MINI Cooper D). These can be operated with both hands on the wheel, for faster, safer gear changes.

5 6 The optional **Bluetooth hands-free kit with USB audio interface** connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface supports the connection of an iPod™, USB memory stick or MP3 player. Users can select tracks stored on the device by album, artist, genre etc. via the radio or navigation display. The **Bluetooth mobile phone preparation with USB audio interface** option also includes a 3-spoke multifunction sport steering wheel in leather, featuring cruise control, and a centre armrest (smartphone not included). The **extended connectivity of the music player in the mobile phone** option allows Bluetooth-

enabled mobile phones with built-in MP3 players to be plugged into the armrest via a snap-in adapter (available separately), so that the music stored on them can be played through the vehicle's loudspeakers. For more information about the compatibility of various mobile phones and the availability of snap-in adapters, speak to your authorized MINI dealer.

7 8 The **Harman Kardon hi-fi system** features a 480-watt digital multichannel amplifier, and a total of ten high-performance speakers seamlessly integrated into the vehicle interior. The result is a unique sound experience, with powerful bass and brilliant treble.

COLOURS AND UPHOLSTERY.

EXTERIOR COLOURS

The MINI range of colours includes a wide variety of bold solid colours and dazzling metallic options, offset with striking contrast elements:

MINI One/MINI One D
• Roof in body colour and mirror caps in Matt Black.

MINI Cooper/MINI Cooper D/MINI Cooper S
• Roof and mirror caps in Black.
• Roof and mirror caps in White.

Certain rims are also available in Black or White.

¹ All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with the 6-speed automatic transmission.

² MINI models comply with the EU4 exhaust emissions standard. (The MINI Cooper S complies with the EU5 standard.) Fuel consumption is determined in accordance with the EU driving cycle, made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption.

³ With overboost function.

⁴ The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

MINI Cooper S with Original MINI Accessories

Holder for portable navigation device

Roof rack base support system

With **Original MINI Accessories**, you can give your MINI a look that is all your own. For the exterior, there are a wealth of stylish components such as fashionable light-alloy wheels, sporty additional headlights, and cool designs for the roof. For example, **sport stripes in White** and the classic Union Jack design for the **roof**, **exterior mirror caps** and **rear-view mirror housing** (all fig. 1) are a visual expression of the car's energetic personality. For the interior there are practical solutions such as the flexible **holder** (fig. 2) for a portable navigation device, and good-looking design options for the steering wheel, handbrake grip and interior surfaces.

To ensure the perfect soundtrack, the Original MINI Accessories range includes the iPod™ interface. And for longer trips or leisure pursuits, there is an array of luggage compartment solutions and transportation accessories such as the **roof rack base support system** (fig. 3), which can be used to mount a variety of attachments like the touring cycle holder. Whatever you want to do in your MINI, with Original MINI Accessories the fun is guaranteed.

MINI Cooper S with John Cooper Works tuning

Interior surfaces in Carbon

R113 Cross Spoke light-alloy wheel

John Cooper Works tuning delivers a true racetrack experience. The air intake and exterior mirror caps in clear lacquered Carbon (fig. 1) give the car a look worthy of its racing heritage. And the John Cooper Works tuning kit ensures performance to match, increasing output of the MINI Cooper S to a mighty 192 hp (141 kW). This is made possible by a special air filter and reprogrammed engine management software. The sport silencer gives the

car a similarly impressive sound. And to complete the effect, there are the aerodynamic package, the John Cooper Works side scuttles, and the striking light-alloy wheels with runflat tyres – like the **R113 Cross Spoke** design shown here (fig. 3). Inside the car as well, John Cooper Works tuning ensures a pure motorsport feeling, with options such as **interior surfaces in Carbon** and a **sport steering wheel in Alcantara** (fig. 2) or leather.

MINI SERVICE. MINI FINANCIAL SERVICES.

MINI SERVICE. KEEP IT MINI.

Even a MINI occasionally needs some downtime – and you will know right away when your MINI is due for a service, thanks to the service interval display. Fortunately, not only was the car specifically designed to make it quick and easy to maintain and repair, but long service intervals also help to keep running costs down – leaving you free to concentrate on enjoying your MINI. This is what we call **MINI Service for you**. But that is not all we have to offer. Take for example MINI Service Inclusive, which makes worrying about unexpected servicing or maintenance costs a thing of the past. Or MINI Mobile Service and MINI Mobile Care. With MINI Mobile Service, in the unlikely event that your MINI does suffer a breakdown, telephone support from highly trained MINI technicians is available 24 hours a day, 365 days a year, guaranteeing your peace of mind. And with MINI Mobile Care, we will cover the costs for a hotel, rental car or taxi, as well as providing a towing service.

MINI Service for your MINI. Check-ups, maintenance and repairs are carried out by MINI Service experts. Treat your MINI with the attention and affection it deserves, and make sure you only ever use Original MINI Parts, as these proven high-quality components will ensure your MINI continues to give you the fun it was designed to.

With our special range of services for you and your MINI, you are guaranteed to always receive the same professional service, wherever you are in the world. For more information on the MINI Service and what it includes, please contact your authorized MINI dealer or MINI Service Centre. Alternatively, you can visit our website at www.MINI.com/service.

DON'T DREAM. DRIVE! THE BENEFITS OF MINI FINANCIAL SERVICES.

Admittedly, dreaming about a MINI is pretty exciting. But it can't compare with the fun you'll get from actually driving a MINI. The right financial package helps you make the road from dream to reality a short one. MINI Financial Services makes sure that you can choose the short cut to having your own MINI which best suits your lifestyle, your budget and the MINI you've chosen.

Three roads, one destination. MINI Leasing, MINI Finance, MINI Select. Each of these three solutions has the twin goals of making your MINI dream come true quickly, and of enhancing the fun you get from living with your MINI. Each of our three service models has its own specific advantages. Decide yourself, together with your MINI dealer, which of the products is the one that fits best with your MINI lifestyle.

When you know what product it is, ask yourself: can you make the thrilling MINI experience even more exciting? Answer: no. But you can make sure you avoid unwanted and unpleasant surprises. With an insurance policy which is perfectly tailored to your MINI. To accompany your financial package, MINI Financial Services offers insurance packages precisely geared to your personal wishes and needs.

What next? Why not arrange a personal meeting with your local MINI dealer? The F&I manager and the sales staff there have an in-depth knowledge of all MINI Financial Services products, and are looking forward to making your MINI dream come true.*

* To learn more about MINI Financial Services, our leasing, finance and insurance offers, and find out who offers these services in your country, go to www.MINI.com or contact your MINI dealer direct. Details of services may differ from country to country.

WARRANTY.

Every MINI is supplied with a 2-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts.) Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a 3-year warranty. This excludes any damage to painted surfaces caused by external or environmental factors.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. And every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your authorized MINI dealer will also be pleased to advise you on the disposal of your old vehicle.
